Vision for Regenerative Harmonious Society of Woman & the Law of Maat ABUNA HETEP RA, 2009-08-19 This book is an African American Woman's Vision realized from societies paradigm of addictions to a paradigm shift in Consciousness back to her True Self. To you, the reader, know this may not be what you expected, in that the title appears to be all about women. Well, this is true, however, we have all asked the question, why am I here? Book I, is only intended to validate the true status of women. Who hold the sacred portal of love to transport YOU into the world. The primary counterpart who complement and set the premise for the protective and social qualities. That bond society and man....to suckle; nurture an affection of love and that it is you who must keep the love flowing. Therefore, apparently this quest includes men as well. Everybody! Realized God did not leave us alone with academia to point the way of discovering who we are, or why we are here, on Earth. That there are Universal Laws that support all of academia, yet these laws unveil a greater purpose and our collective destiny.....

The Chronicles of Sekhmet on Olmecra Book 2 indigo ptah, 2022-09-21 In the Ancient Lands of Kemet, Goddess Sekhmet is a Legendary Lioness-Woman. In the chronicles, the famous lioness-woman NTR is tasked with raising the vibrational energies of humans... on a specific part of Earth called Olmecra. And unless there is an elevation in vibrations; Earth will not ascend with the other planets in its galaxy. The Matriarchy of the Kemetic Pantheon and Cosmic Goddesses, are the protagonist of the book; displaying their best nurturing attributes. The story is being told from a divine feminine perspective in a way Goddess Sekhmet is not traditionally typified. For those who study the Ancient Egyptians and/or Kemet; metaphors will develop into myth. And for those who are new to the subject matter; the interaction of the immortals with humans will encourage readers to seek what is seeking them. This novella is unique in that few stories are dedicated to the African Cosmic Pantheon as compared to books popularized by Greek and Roman mythology. Book Two is the second of a series of seven novellas that chronicle how the Goddess Sekhmet assists humans to help Earth ascend. In Book One, three exceptionally conscious women face individual crisis situations. And to the surprise of themselves and their community; they gain the gift to transform into a lioness-woman to balance out their circumstances. Another exceptional woman takes their signal to begin a new purpose quest to assist with Earth's ascension. The main antagonist, status quo of patriarchy; in the form of selfish systematic supremacy; attempts to progress its parasitic programming practices by spreading fear; and eating

away at natural energy resources on the planet... and beyond. But the forces of nature get more involved in Earth's evolution. As an exceptional man embraces his animal spirit to provide and protect the path of the lioness-women. Book Two continues the chronicles in Book One with immortal conversations; and early background on how and why Olmecra was formed. The stories may seem controversial to some; but are non-confrontational. And the story-lines are never meant to make accusation of anyone or any group of people. But rather; what is emphasized is the misuse of spirituality; and the decline of the human condition. As the author evolves the chronicles; she hopes the concept of Personal Agency is encouraged, so the reader expands their thoughts, on their individual journey; and how their purpose fits in the Universe.

Manzili's 7 Journeys Camilo Kareem Casey,2010-03-02 Stealthily, the jaguar boy crept from Umoja the banana tree and scoured the darkness of the hull of the boat in search of Yucca. He listened and looked for any sign of the monkey. Sniffing for his pet's familiar scent, the jaguar boy turned his nose in every direction. He searched the food storage area, the sleeping quarters, in crevices, but no monkey—no meal! After eating the Olmec queen's bananas (the only bananas in the western hemisphere), Manzili is sent on a journey to find another banana tree. The return of a banana tree and Manzili's fates are intertwined. If he does not return with the banana tree before the New Year, he will be permanently transformed into a jaguar. This adventurous tale of this Olmec boy and his pet spider monkey takes you on an adventure around the world. Manzili has many encounters with strange animals and earthly elements and learns the importance of morals, values and principles of life. I hope this story will pique your interest in how so many things came to be and provoke you to ask questions, even questions to which the answers may not yet be known, questions to which you might one day find the answers! Get ready for intrigue and wonder in MANZILI'S 7 JOURNEYS!

The Black Experience and Navigating Higher Education Through a Virtual World Hairston, Kimetta R.,Edmonds, Wendy M.,Clark, Shanetia P.,2021-06-25 The treasure of the Black experience at a Historically Black College/University

(HBCU) is that it offers a personal and intimate experience rooted in Black heritage that cannot be found at other institutions. On campus, face-to-face instruction and activities focused on addressing issues that plague the Black community are paramount. This provides students with small classroom environments and the personal support from administrators, faculty, and staff. In March 2020, the Black experience was interrupted when a global pandemic forced governors to declare states of emergencies and mandate stay-at-home orders. The stay-at-home orders forced universities to transition into fully remote environments. Doing so heightened an array of emotions compounded by the reality of previously recognized disparities in resources and funding amongst higher education institutions. As a result of this abrupt transformation, the HBCU experience was impacted by positive and negative implications for Black people at the campus, local, state, and national levels. The Black Experience and Navigating Higher Education Through a Virtual World explores the reality of the Black experience from various perspectives involving higher education institutions with a focus on HBCUs. The book provides an overview and analysis of a virtual experience that goes beyond the day-to-day technological implications and exposes innovative ideas and ways of navigating students and faculty through a remote world. It focuses on heightening the awareness of disparities through the Black experience in a virtual environment, provides guidance on transitioning to fully remote environments, examines leadership dynamics in virtual environments, analyzes mental health balance, and examines implications on the digital divide. Covering topics such as online course delivery, self-health, and social justice, this book is essential for graduate students, academicians, diversity officers in the academy, professors, and researchers.

How To Make A Negro Christian Kamau Makesi-Tehuti, 2006-03-31 [What will be the benefit of giving enslaved Afrikans christianity?] It is a matter of astonishment, that there should be any objection at all; for the duty of giving religious instruction to our Negroes, and the benefits flowing from it, should be obvious to all. The benefits, we conceive to be incalculably great, and [one] of them [is] there will be greater subordination . . . amongst the Negroes (page 52).

From Mythology to Reality: Moving Beyond Rastafari Seon M. Lewis, 2013-10-19 The main thesis of this book is based on the Rastafarian Movement. This book presents information about this movement, in one place, that is largely not known by the many adherents of the faith. Moreover, this book presents a unique view of the Movement; a view embedded in a Grenadian Caribbean experience. This view, however, is not narrowly placed, but is argued within a wider world context, and, thus, explains whether the Rastafarian movement can be a force for good, both within the black community and the world at large. Editor and author Norm R. Allen Jr. said that This well-researched book expertly demolishes the ridiculous

notion among Rastafarians that Emperor Haile Selassie of Ethiopia is God. Moreover, Lewis offers many excellent critiques of theism, the Bible, Rastafarianism, Afrocentric thought and religion in general. This book is informative to everyone.

Ancient Future Wayne B. Chandler,2000-12 Ancient Future celebrates the wisdom of those ancient civilizations that did not disassociate the philosophical, spiritual, and material realms of life. This book is an attempt to re-create this holistic experience in hopes that a synthesized view of life will become reality in the 21st century.

Imperial College Inaugural Lectures in Materials Science and Materials Engineering Don W. Pashley,2001 This volume contains six important articles in materials science and materials engineering, based upon inaugural lectures given by professors at Imperial College, London. Each author deals with an area of work in which he has been involved over a period of years, and gives a personal account, partly historical, of the main features and importance of his subject. The topics covered include: the strength and deformation of metals, the brittle behaviour of ceramics, electrical materials, biomaterials, friction and lubrication, and modern engineering adhesives. Contents: Slippery Customers, Sticky Problems (B J Briscoe); Sticking Up for Adhesives (A J Kinloch); Magical Materials for Motionless Machines (D B Holt); Interfaces in Materials OCo If You Can't Beat them, Join Them (A Atkinson); Brittleness OCo A Tough Problem (R D Rawlings); The Story of Bioglass: From Concept to Clinic (L L Hench). Readership: Scientists and engineers with a general interest in materials science and materials engineering.

The Ancient Egyptian Culture Revealed Moustafa Gadalla,2007 This book reveals several aspects of the Ancient Egyptian culture, such as the very remote antiquities of Egypt; the Egyptian characteristics and religious beliefs and practices; their social/political system; their cosmic temples; the richness of their language; musical heritage and comprehensive sciences; their advanced medicine; their vibrant economy; excellent agricultural and manufactured products; their transportation system; and much more.
