*International Congress of Roman Frontier Studies 20* Ángel Morillo Cerdán,Norbert Hanel,Esperanza Martín,2009 This massive three volume set publishes the proceedings of the 2006 Limes conference which was held in Leon, a total of 138 contributions. Naturally these cover a vast range of topics related to Roman military archaeology and the Roman frontiers. The archaeology of the Roman military in Spain, and contributions by Spanish scholars are prominent, whilst other themes include the internal frontiers, the end of the frontiers and the barbarians in the empire, the fortified town in the late Roman period, soldiers on the move and the early development of frontiers . Further sessions had a regional focus. Majority of essays in English, some in Spanish, German and Italian

Caminos hacia la complejidad Roberto Ontañón Peredo,2003 La aspiración global de esta obra es establecer el desarrollo histórico entre el final del Neolítico y los inicios de la Edad del Bronce (primeros siglos del IV milenio-finales del III cal BC), una época de profundas transformaciones económicas y sociales a escala continental, en el marco geográfico delimitado por la región natural de la Cornisa Cantábrica.

El Mesolítico en Cantabria centro-oriental Mercedes Pérez Bartolomé,2019-06-27 This book explores the Mesolithic period in the central-eastern area of Cantabria (Spain) as a manifestation of sociocultural evolution and change of the societies that lived in the area between the ninth and sixth millennia cal BC, until the introduction of farming.

*The Archaeology and Ethnohistory of Araucanian Resilience* Jacob J. Sauer,2014-09-13 This volume examines the

processes and patterns of Araucanian cultural development and resistance to foreign influences and control through the combined study of historical and ethnographic records complemented by archaeological investigation in south-central Chile. This examination is done through the lens of Resilience Theory, which has the potential to offer an interpretive framework for analyzing Araucanian culture through time and space. Resilience Theory describes “the capacity of a system to absorb disturbances and reorganize while undergoing change so as to still retain the same function.” The Araucanians incorporated certain Spanish material culture into their own, rejected others, and strategically restructured aspects of their political, economic, social, and ideological institutions in order to remain independent for over 350 years.

*Del arte objetual al arte de concepto* Simón Marchán Fiz,1986-01-01 Aspirando a ofrecer un balance de los años 60 y sus estribaciones en la década siguiente, esta obra ahonda en la poética de cada tendencia y logra sintonizar nuestra peculiar situación cultural, artística y política con el panorama artístico internacional. Entre la información positivista y la obsesión fenomenológica por retornar a las obras mismas, Marchán Fiz rebasa todo sociologismo como realismo social, lo que transluce las preocupaciones metodológicas del momento y los estímulos estéticos en sus análisis sobre las figuras de lo moderno y en su preocupación por los lenguajes artísticos. El texto que se convertiría en legitimador de lo “nuevo” y, es ahora, un ensayo clásico sobre el periodo abordado, presenta un epílogo sobre la sensibilidad “postmoderna” junto a numerosas reproducciones y una antología de textos, que permiten contrastar las numerosas oscilaciones experimentadas por el gusto.

### *Prehistòria i món antic als Països Catalans* Miquel Tarradell,1996

La Genealogía de Los Reyes de España 5º edición Vicente Salas Merino,2015-04-06 Edición revisada a 2015. Animado por el vehemente deseo de facilitar el estudio de la Historia de España a cuantos se interesen por esta importante faceta, se presenta este libro que está estructurado en dos partes. En la primera parte, Breve Historia de España, se ha intentado resumir el devenir histórico del reino desde sus orígenes, Prehistoria, pasando por el Reino Visigodo, la Reconquista, la unificación del reino, hasta nuestros días. En la segunda parte se desarrolla, en cuadros sinópticos, las complicadas incidencias surgidas entre los diversos reinos y condados desde la época de la Reconquista hasta nuestros días; la razón sucesoria de sus respectivos soberanos y el entronque de las dinastías españolas con las extranjeras, así como la entronización de las Casas de Austria y Borbón. También, se incorporan otras dinastías, como la Bonaparte o Saboya, que han sido partícipes de nuestra historia. A tal efecto, y para mejor comprensión, se insertan asimismo minuciosos apéndices tales como los califas musulmanes así como las relaciones de las distintas dinastías extranjeras con las españolas. Por ende, esta modesta obra constituye un valioso auxiliar de consulta, tanto para simples aficionados, como para especialistas en la materia, a lo que facilita cualquier trabajo de investigación que deseen llevar a cabo, sobre un tema de tan palpitante

actualidad.

**Temario pruebas de acceso a ciclos formativos de grado medio. Ambito sociolingüístico** BOHIGUES INCIO, ISABEL,2014-01-01 Desde Ediciones Paraninfo apostamos decididamente por la formación como la más sólida y mejor garantía de acceso al mercado laboral. El sistema educativo español aspira a acercarse a los indicadores de éxito europeos, no solo en cuanto a calidad de la formación, sino también en su utilidad para la inserción laboral. El acceso a los ciclos formativos de grado medio como paso previo a una formación cada vez más completa y especializada es una opción cada vez más y mejor valorada. La autora de la obra cuenta con una dilatada experiencia en el ámbito formativo, especialmente en la preparación de alumnos de cara a estas pruebas, fruto de la cual ha constatado la inexistencia en el mercado editorial de contenidos adecuados para que los aspirantes准备n con garantía de éxito las pruebas de acceso a los ciclos de grado medio. El temario que presentamos aspira a suplir esas carencias y atendiendo al contenido curricular vigente es el material idóneo para superar las pruebas del ámbito socio-lingüístico. Se combinan acertadamente las explicaciones teóricas con la parte práctica. Cada tema viene desarrollado de forma clara y concisa, incorporando al final tablas resumen y ejercicios similares a los de las pruebas oficiales. Las materias de Lengua Española y Ciencias Sociales dejarán de ser un obstáculo en tu camino hacia la Formación Profesional de Grado Medio. Una estructura sencilla, didáctica y práctica asequible a todo tipo de alumnado es el soporte ideal para la preparación y superación de las pruebas de acceso. Esquemas, ejemplos prácticos, contenidos sintéticos y bien explicados son los valores añadidos de esta obra y los que hacen de ella el mejor aliado para el alumno y el docente.

Material Connections in the Ancient Mediterranean Peter van Dommelen,A. Bernard Knapp,2010-09-23 Material Connections eschews outdated theory, tainted by colonialist attitudes, and develops a new cultural and historical understanding of how factors such as mobility, materiality, conflict and co-presence impacted on the formation of identity in the ancient Mediterranean. Fighting against 'hyper-specialisation' within the subject area, it explores the multiple ways that material culture was used to establish, maintain and alter identities, especially during periods of transition, culture encounter and change. A new perspective is adopted, one that perceives the use of material culture by prehistoric and historic Mediterranean peoples in formulating and changing their identities. It considers how objects and social identities are entangled in various cultural encounters and interconnections. The movement of people as well as objects has always stood at the heart of attempts to understand the courses and process of human history. The Mediterranean offers a wealth of such information and Material Connections, expanding on this base, offers a dynamic, new subject of enquiry - the social identify of prehistoric and historic Mediterranean people - and considers how migration, colonial encounters, and connectivity or insularity influence social identities. The volume includes a series of innovative, closely related case studies that examine the

contacts amongst various Mediterranean islands - Sardinia, Corsica, Sicily, Crete, Cyprus, the Balearics - and the nearby shores of Italy, Greece, North Africa, Spain and the Levant to explore the social and cultural impact of migratory, colonial and exchange encounters. Material Connections forges a new path in understanding the material culture of the Mediterranean and will be essential for those wishing to develop their understanding of material culture and identity in the Mediterranean.
