Elie Wiesel Alan L. Berger, 2018-11-08 Elie Wiesel, plucked from the ashes of the Holocaust, became a Nobel Peace laureate, an activist on behalf of the oppressed, a teacher, an award-winning novelist, and a renowned humanist. He moved easily among world leaders but was equally at home among the disenfranchised. Following his Nobel Prize, Wiesel established the Elie Wiesel Foundation for Humanity; one of their early initiatives was the founding of the Elie Wiesel Ethics Essay Contest. The reflections in this volume come from judges of the contest. They share their personal and professional experiences working with and learning from Wiesel, providing a glimpse of the person behind the public figure. At a time when the future seems ominous and chaotic at best, these reflections hold on to the promise of an ethically and morally robust possibility. The students whose essays prompt this sense of hope are remarkable for their insight and dedication. The messages embedded in the judges' reflections mirror Wiesel's convictions about the importance of friendship, the need to interrogate (without abandoning) God, and the power of remembrance in order to fight indifference.

Elie Wiesel's Night Harold Bloom, 2010 Collection of critical essays about Elie Wiesel's Holocaust memoir, *Night*.

Jews and the American Soul Andrew R. Heinze, 2004 What do Joyce Brothers and Sigmund Freud, Rabbi Harold Kushner and philosopher Martin Buber have in common? They belong to a group of pivotal and highly influential Jewish thinkers who altered the face of modern America in ways few people recognize. So argues Andrew Heinze, who reveals in rich and unprecedented detail the extent to which Jewish values, often in tense interaction with an established Christian consensus, shaped the country's psychological and spiritual vocabulary. *Jews and the American Soul* is the first book to recognize the central role Jews and Jewish values have played in shaping American ideas of the inner life. It overturns the widely shared assumption that modern ideas of human nature derived simply from the nation's Protestant heritage. Heinze marshals a rich array of evidence to show how individuals ranging from Erich Fromm to Ann Landers changed the way Americans think about mind and soul. The book shows us the many ways that Jewish thinkers influenced everything from the human potential movement and pop psychology to secular spirituality. It also provides fascinating new interpretations of Sigmund Freud, Alfred Adler, and Western views of the psyche; the clash among Protestant, Catholic, and Jewish moral sensibilities in America; the origins and evolution of America's psychological and therapeutic culture; the role of Jewish women as American public moralists, and more. A must-read for anyone interested in the contribution of Jews and Jewish

culture to modern America.

Private Needs, Public Selves John K. Roth, 1997 Polls through the '90s show that many Americans believe the nation is in a period of spiritual decline, yet public religious display and discussion often is deemed politically incorrect. Philosopher John K. Roth feels that more outward sharing of religious beliefs, thoughts, and ideas would bridge the gap between our private needs and our public selves--and would give Americans of differing faiths a common identity.

Children of Job Alan L. Berger, 2012-02-01 Focusing on the novels and films of daughters and sons of Holocaust survivors, this book sheds light on the relationship between the Holocaust and contemporary Jewish identity. It is the first systematic analysis of a body of work that introduces a new generation of Jewish writers and filmmakers, as well as revealing how the survivors' legacy is shaping--and being shaped by--the second generation. Carefully studying the work of these contemporary children of Job, Berger demonstrates how the offspring, like the survivors themselves, represent a variety of orientations to Judaism, have significant theological differences, and share the legacy of the Shoah. Berger clearly shows that members of the second generation participate fully in both the American and Jewish dimensions of their identity and articulates distinctive second-generation theological and psychosocial themes.

Reader's Guide to Judaism Michael Terry, 2013-12-02 The Reader's Guide to Judaism is a survey of English-language translations of the most important primary texts in the Jewish tradition. The field is assessed in some 470 essays discussing individuals (Martin Buber, Gluckel of Hameln), literature (Genesis, Ladino Literature), thought and beliefs (Holiness, Bioethics), practice (Dietary Laws, Passover), history (Venice, Baghdadi Jews of India), and arts and material culture (Synagogue Architecture, Costume). The emphasis is on Judaism, rather than on Jewish studies more broadly.

The Routledge Encyclopedia of Jewish Writers of the Twentieth Century Sorrel Kerbel, 2004-11-23 Now available in paperback for the first time, Jewish Writers of the Twentieth Century is both a comprehensive reference resource and a springboard for further study. This volume: examines canonical Jewish writers, less well-known authors of Yiddish and Hebrew, and emerging Israeli writers includes entries on figures as diverse as Marcel Proust, Franz Kafka, Tristan Tzara, Eugene Ionesco, Harold Pinter, Tom Stoppard, Arthur Miller, Saul Bellow, Nadine Gordimer, and Woody Allen contains introductory essays on Jewish-American writing, Holocaust literature and memoirs, Yiddish writing, and Anglo-Jewish literature provides a chronology of twentieth-century Jewish writers. Compiled by expert contributors, this book contains over 330 entries on individual authors, each consisting of a biography, a list of selected publications, a scholarly essay on their work and suggestions for further reading.

From Left to Right Nancy Sinkoff, 2020-03-10 Intellectual biography of Holocaust historian Lucy S. Dawidowicz. *From Left to Right: Lucy S. Dawidowicz, the New York Intellectuals, and the Politics of Jewish History* is the first comprehensive biography of Dawidowicz (1915-1990), a pioneer historian in the field that is now called Holocaust studies. Dawidowicz was a

household name in the postwar years, not only because of her scholarship but also due to her political views. Dawidowicz, like many other New York intellectuals, was a youthful communist, became an FDR democrat midcentury, and later championed neoconservatism. Nancy Sinkoff argues that Dawidowicz's rightward shift emerged out of living in prewar Poland, watching the Holocaust unfold from New York City, and working with displaced persons in postwar Germany. Based on over forty-five archival collections, *From Left to Right* chronicles Dawidowicz's life as a window into the major events and issues of twentieth-century Jewish life.

Artistic Representations of Suffering Mark Celinscak, Curtis Hutt, 2021-10-18 Artistic expression frequently engages with the question of suffering. In so doing, it confronts the gravity and complexity of the human condition. This volume investigates the relationship between art and suffering. In short, the contributors to this volume collectively demonstrate that suffering is an undisputed and shareable motivating experience. This collection features original essays that focus on the subject of art and suffering, including topics such as the representation of violence and the intersections of art and human rights. Some of the key questions explored are as follows: How has suffering motivated artists around the world? How have artists used their platforms to call attention to human rights abuses? How can suffering be incorporated responsibly and ethically in works of art? What role does art play in the struggle against violations of human dignity and the promotion of building a more equitable world? Each essay is complemented by full-color reproductions of artistic works that illustrate the concepts being discussed, including a graphic essay on the topic of "comfort women."

Break Through the Power in Your Name Maryann Cullen, 2013-12-10 The power in your name is in its letters. Each and every one of us can break through this power. How? By understanding the meaning of each letter and the energy that it brings to our lives. This gives us the freedom to correct any unfavorable behaviors, addictions, and habits that compromise our wellbeing and happiness. The energy of each letter, including its features and characteristics, have been examined and given their correct place in the alphabet over many centuries. Now, Maryann Cullen, a respected numerologist since 1984, dissects influential events in the lives of various well-known figures to show readers how the letters in their names have led them to behave and react in certain ways and accomplish certain leaps. By reading through these examples, you can examine how the letters in your full birth name have impacted your own life, thus giving you the power to change your future by altering your name or nickname, if necessary, and making the best letter choices for naming your child.

Jung's Red Book For Our Time Murray Stein , Thomas Arzt, 2020-03-12 Edited by Murray Stein and Thomas Arzt, the essays in the series *Jung's Red Book for Our Time: Searching for Soul under Postmodern Conditions* are geared to the recognition that the posthumous publication of *The Red Book: Liber Novus* by C. G. Jung in 2009 was a meaningful gift to our contemporary world. To give birth to the ancient in a new time is creation, Jung inscribed in his *Red Book*. The essays in this

volume continue what was begun in Volume 1 of Jung's Red Book for Our Time: Searching for Soul under Postmodern Conditions by further contextualizing The Red Book culturally and interpreting it for our time. It is significant that this long sequestered work was published during a period in human history marked by disruption, cultural disintegration, broken boundaries, and acute anxiety. The Red Book offers an antidote for this collective illness and can be seen as a link in the aurea catena, the golden chain of spiritual wisdom extending down through the ages from biblical times, ancient Greek philosophy, early Christian and Jewish Gnosis, and alchemy. The Red Book is itself a work of creation that gives birth to the old in a new time. This is the second volume of a three-volume series set up on a global und multicultural level and includes essays from the following distinguished Jungian analysts and scholars: - Murray Stein and Thomas Arzt Introduction - John Beebe The Way Cultural Attitudes are Developed in Jung's Red Book - An Interview - Kate Burns Soul's Desire to become New: Jung's Journey, Our Initiation - QiRe Ching Aging with The Red Book - Al Collins Dreaming The Red Book Onward: What Do the Dead Seek Today? - Lionel Corbett The Red Book as a Religious d104 - John Dourley Jung, the Nothing and the All - Randy Fertel Trickster, His Apocalyptic Brother, and a World's Unmaking: An Archetypal Reading of Donald Trump - Noa Schwartz Feuerstein India in The Red Book Overtones and Undertones - Grazina Gudaite Integrating Horizontal and Vertical Dimensions of Experience under Postmodern Conditions - Lev Khegai The Red Book of C.G. Fantasies of Witnessing Gary Weissman, 2018-07-05 *Fantasies of Witnessing* explores how and why those deeply interested in the Holocaust, yet with no direct, familial connection to it, endeavor to experience it vicariously through sites or texts designed to make it real for nonwitnesses. Gary Weissman argues that far from overwhelming nonwitnesses with its magnitude of horror, the Holocaust threatens to feel distant and unreal. A prevailing rhetoric of secondary memory and trauma, he contends, and efforts to portray the Holocaust as an immediate and personal experience, are responses to an encroaching sense of unreality: In America, we are haunted not by the traumatic impact of the Holocaust, but by its absence. When we take an interest in the Holocaust, we are not overcoming a fearful aversion to its horror, but endeavoring to actually feel the horror of what otherwise eludes us. Weissman focuses on specific attempts to locate the Holocaust: in the person of Elie Wiesel, the most renowned survivor, and his classic memoir *Night*; in videotaped survivor stories and Lawrence L. Langer's celebrated book *Holocaust Testimonies*; and in the films *Shoah* and *Schindler's List*. These

representations, he explains, constitute a movement away from the view popularized by Wiesel, that those who did not live through the Holocaust will never be able to grasp its horror, and toward re-creating the Holocaust as an experience nonwitnesses may put themselves through. It is only by acknowledging the desire that gives shape to such representations, and by exploring their place in the ongoing contest over who really 'knows' the Holocaust and feels its horror, that we can arrive at a more candid assessment of our current and future relationships to the Holocaust, he says.

Exiles, Outcasts, Strangers Mary Jo Muratore, 2011-08-25 *Exiles, Outcasts, Strangers* explores how nine different outsider authors treat the theme of alienation in one of their major works. All the novels under review were written in a limited time span (1942 to 1987, approximately 50 years), and all are structured around a hero or heroine who remains culturally, ethically or aesthetically distant from his/her narrative counterparts. Works discussed: Albert Camus' *L'Étranger*; Richard Wright's *The Outsider*; André Langevin's *Poussière sur la ville*; Ernesto Sábato's *El túnel*; V.S. Naipaul's *Guerrillas*; Elie Wiesel's *Le Cinquième fils*; Norbert Zongo's *Le Parachutage*; Gisèle Pineau's *L'Exil selon Julia*, and Jean Genet's *Querelle de Brest*.

The Palgrave Handbook of Holocaust Literature and Culture Victoria Aarons, Phyllis Lassner, 2020-01-24 The Palgrave Handbook of Holocaust Literature and Culture reflects current approaches to Holocaust literature that open up future thinking on Holocaust representation. The chapters consider diverse generational perspectives—survivor writing, second and third generation—and genres—memoirs, poetry, novels, graphic narratives, films, video-testimonies, and other forms of literary and cultural expression. In turn, these perspectives create interactions among generations, genres, temporalities, and cultural contexts. The volume also participates in the ongoing project of responding to and talking through moments of rupture and incompleteness that represent an opportunity to contribute to the making of meaning through the continuation of narratives of the past. As such, the chapters in this volume pose options for reading Holocaust texts, offering openings for further discussion and exploration. The inquiring body of interpretive scholarship responding to the Shoah becomes itself a story, a narrative that materially extends our inquiry into that history.
