Manual de historia del derecho. Este segundo tomo abarca el derecho castellano hasta el origen y la formación de los reinos españoles; así como el derecho castellano en América; los antecedentes del derecho indiano; el derecho precolombino y sus bases jurídicas hasta llegar al régimen liberal guatemalteco.

The Cambridge Handbook of Judicial Control of Arbitral Awards Larry A. DiMatteo, Marta Infantino, Nathalie M-P Potin, 2020-10-29 A unique collaboration between academic scholars, legal practitioners, and arbitrators, this handbook focuses on the intersection of arbitration - as an alternative to litigation - and the court systems to which arbitration is ultimately beholden. The first three parts analyze issues relating to the interpretation of the scope of arbitration agreements, arbitrator bias and conflicts of interest, arbitrator misconduct during the proceedings, enforceability of arbitral awards, and the grounds for vacating awards. The next section features fifteen country-specific reviews, which demonstrate that, despite the commonality of principles at the international level, there is a significant amount of differences in the application of those principles at the national level. This work should be read by anyone interested in the general rules and principles of the enforceability of foreign arbitral awards and the grounds for courts to vacate or annul such awards.

Models of Implementation of Article 12 of the Convention on the Rights of Persons with Disabilities (CRPD)

Maciej Domański, Bogusław Lackoroński, 2023-11-30 This book examines the implications of Article 12 of the UN Convention on the Rights of Persons with Disabilities (CRPD), its resulting standard of protection for persons with disabilities and the way it is understood and implemented in its diverse signatory states. Its overarching theme is to assess the impact of CRPD Article 12 on the private law concept of legal capacity and its limitations, the significance of which carries over into the realm of penal law regulations. Its impact is analysed primarily from the legal point of view, but with due regard for its psychological and psychiatric ramifications. Recognising the importance of these disciplines is important when implementing CRPD Article 12 into domestic law, as they contribute to the determinants in creating a qualificatory legal framework for all, persons with disabilities in particular, to exercise their rights to legal capacity without let or hindrance. As active legal capacity is a notion rooted in and coming from private law, this forms the main research perspective. The first section discusses the foundational concepts constituting the CRPD Article 12 standard from domestic private law and international law perspectives. The work shows that the concepts adopted in private law interact with the protection of persons with disabilities as victims provided for in criminal law. In addition, where relevant, authors also look at public law institutions that are connected with the private law solutions. The volume will be an essential reference for academics, researchers and policy-makers working in the areas of private law, criminal law, mental health law, human rights, discrimination law as well as psychology and psychiatry.

Hacia un Derecho Administrativo, Fiscal y Medioambiental Romano III Antonio Fernández de Buján

Fernández,2016-07-20 Como es bien sabido, el derecho es un producto histórico; pero no sólo el derecho privado, también el derecho público. Así lo han demostrado recientes investigaciones —dirigidas en España por el Catedrático de derecho romano de la UAM, D. Antonio Fernández de Buján— en ámbitos tan relevantes, en materia medio ambiental, como el régimen de las aguas, los tributos, las concesiones, la protección de los bienes de dominio público, la responsabilidad de los funcionarios, etc. Conforme a ellas, puede afirmarse ya sin que quepa duda alguna, que los orígenes de nuestro derecho administrativo no se remontan a la Revolución Francesa o la Ilustración, sino que hunden sus raíces en el derecho romano. La importancia del papel de la Administración y de los poderes públicos en la tutela del medioambiente —algunos hablan incluso de un derecho administrativo medio ambiental— exige por todo ello volver los ojos a nuestro derecho histórico. De ese modo podrá demostrarse esa continuidad e interdependencia mencionada pero sobre todo y a través de una adecuada investigación y reflexión histórica, iluminar al moderno legislador a través del precedente que nuestro derecho histórico constituye.

Repensar la Universidad. Reflexión histórica de un problema actual Juan Alfredo Obarrio Moreno,2015 Nuestra experiencia docente y las lecturas que hemos recogido a lo largo de los paseos que hemos dado por ciertas áreas del conocimiento, y que ahora nos gustaría compartir con quienes se acercan a estas páginas, nos han mostrado que toda una corriente de pensamiento, que se extiende desde la Antigüedad hasta nuestra más reciente actualidad, ha venido formulando un modelo de formación intelectual que bien pudiera ser la base para resolver los problemas a los que se enfrenta la cultura contemporánea. Es la deuda infinita que hemos contraído con aquellos pensadores cuya larga sombra se cierne sobre el horizonte de quienes han tratado de prolongar, en la modernidad, esa práctica perversa de la palabra escrita, de esa palabra que Platón llamó Filosofía, y que nosotros, en nuestro espejo imaginario, llamamos saber.

Nomos Ágraphos. Nomos Éngraphos. Estudios de Derecho griego y romano Alvarado Planas, Javier,Hernández de la Fuente, David,Rodríguez González, Ana M.,López Melero, Raquel,2015-04-24 Se pretende estudiar la tradición de las leyes religiosas tanto en la literatura y el pensamiento como en los decretos y legislación histórica de la Grecia y la Roma antiguas, a fin de iluminar la interacción de estos aspectos con el derecho antiguo y posterior. Bajo el título 'Nomos Ágraphos'- 'Nomos Éngraphos'. Estudios de Derecho Griego y Romano se reúnen una serie de contribuciones que desarrollan nociones clave del derecho antiguo griego y romano, desde su matriz común indoeuropea, e insertas en la historia de las mentalidades y de las instituciones a la par. En la primera contribución del volumen, Javier Alvarado Planas, Catedrático de Historia del Derecho y de las Instituciones de la Universidad Nacional de Educación a Distancia, examina la incidencia en el derecho antiguo del trifuncionalismo indoeuropeo, con especial énfasis en el recorrido de esta teoría desarrollada por G. Dumézil en la historia del derecho romano. La segunda contribución, a cargo del Investigador Principal del proyecto, David Hernández de la

Fuente, propone un análisis de tres capítulos sobre religión y derecho en la Grecia antigua: en primer lugar la función de los oráculos como fuente del derecho, en segundo lugar las implicaciones jurídicas del ritual de purificación religiosa y, por último, algunos aspectos de la adopción ritualizada en el derecho griego. En tercer lugar destaca el estudio de Raquel López Melero, Profesora Titular de Historia Antigua de la Universidad Nacional de Educación a Distancia, que se centra en la arqueología jurídica del concepto de violencia en la Grecia arcaica, a través de un estudio filológico de la noción de βίη y su desarrollo conceptual en el marco de la épica griega. La cuarta y última contribución, a cargo de Ana María Rodríguez González, Profesora de Derecho Romano en la Universidad Carlos III de Madrid, presenta un completo panorama del papel de la mujer en el ordenamiento jurídico romano de forma diacrónica, desde la consideración de la mujer en la Roma arcaica hasta las reformas matrimoniales de Augusto, con un abundante uso no solo de las fuentes jurídicas, sino también de las literarias y las epigráficas. Se trata, en definitiva, de poner a disposición de la comunidad científica y universitaria algunas reflexiones sobre la intersección entre derecho, religión y sociedad en las sociedades antiguas. Más allá de su valor como transferencia de resultados de la investigación, puede constituir un material de trabajo relevante tanto para docentes e investigadores como, especialmente, para los estudiantes de los grados y posgrados en Derecho, Historia o Humanidades.

Hacia un derecho administrativo, fiscal y medioambiental romano IV. Volumen II. Derecho fiscal y miscelánea. Antonio Fernández de Buján Fernández, 2021-12-09 Dividida en cuatro grandes bloques de materias, se abordan cuestiones tan actuales como:- en el ámbito del derecho administrativo: la ya mencionada acción popular para la tutela de los usos públicos; las concesiones; la organización y el régimen jurídico de la administración pública; las relaciones Iglesia-Estado; el régimen jurídico de las cosas colectivas y los bienes públicos; el origen de la figura del defensor del pueblo; la ética de la función pública y las tasas administrativas.- en el ámbito del derecho medioambiental: la defensa del dominio público y la protección del medio ambiente; la regulación de los vertidos; las normas urbanísticas de control de las edificaciones y el aprovechamiento de las aguas públicas.- en el ámbito del derecho fiscal: los derechos de los contribuyentes; el principio de igualdad tributaria; el principio de reserva de ley en materia fiscal; las reformas tributarias; los impuestos especiales y los impuestos indirectos; los tributos municipales; los impuestos sucesorios y los beneficios fiscales a la discapacidad.- y temas como la influencia cristiana en la legislación civil, la libertad de testar, el derecho de alimentos entre parientes, entre otras cuestiones conexas.

Equidad judicial y responsabilidad extracontractual María Cecilia M'Causland Sánchez, 2022-01-11 Pocos temas tan complejos como el de la equidad que sirve de criterio auxiliar al juez obligado a decidir en derecho. Luego de mostrar cómo esta figura ha jugado un papel-mayor o menor- en todas las etapas del derecho en Occidente, para explicar por qué su estudio solo puede hacerse en el marco de un cierto escenario histórico y jurídico, este libro se ocupa, por una parte, de precisar cuáles son sus funciones, cómo se distingue de otras nociones y cuáles son sus límites en el sistema colombiano. De

esta manera, como lo anota su prologuista, se construye en esta obra una verdadera dogmática general sobre la equidad judicial. En ese sentido, se establecen criterios claros para la aplicación de este recurso del juez, cuya consideración servirá para garantizar que cumpla a cabalidad su objetivo primordial, la realización de la igualdad material, pero también para evitar que obre como una suerte de comodín que propicie la adopción de decisiones infundadas. Por otra parte, en este libro se revisa la aplicación que se ha hecho en Colombia de la equidad judicial en el ámbito de la responsabilidad patrimonial extracontractual. Así, en él se encuentra una presentación detallada de los eventos en que han recurrido a esta figura la Sala Civil de la Corte Suprema de Justicia y la Sección Tercera del Consejo de Estado para efectos tanto de reparar el daño como de estructurar la imputación y establecer los fundamentos de la responsabilidad de los particulares y del Estado, según el caso, a la vez que se formulan las apreciaciones críticas de la autora, quien concluye que, si bien, en algunas ocasiones, se ha aplicado la equidad cuando ello es pertinente y en forma correcta, en otras se la invoca o se recurre a ella de manera implícita, sin el rigor necesario para garantizar que cumpla sus funciones sin exceder los límites que le son propios, por lo cual, eventualmente, en nombre de la equidad se adoptan decisiones arbitrarias e incluso se obtienen resultados contrarios a la igualdad material.

Iniciación a la investigación jurídica Juan José Rodríguez Bravo de Laguna, María Aránzazu Calzadilla Medina, María Teresa Manescau Martín, 2021-02-25 Esta obra, que sus autoras y autores dedican a su alumnado, está dirigida a quien se adentra por primera vez en la investigación jurídica, con independencia de cuál sea el nivel –grado o posgrado– en el que ello sucede. Pretende, por tanto, contribuir a la formación y orientación en cuestiones básicas de la investigación jurídica. Por ello, los quince capítulos que la componen –además de un apéndice, un compendio de enlaces de interés y una bibliografía final–, se han elaborado desde la concisión –recogiendo lo más importante– y para que puedan ser leídos o consultados de manera independiente. El Espacio Europeo de Investigación, la normativa en materia de investigación –en grado y en posgrado–, así como las competencias que se prevén alcanzar con la iniciación del alumnado en este ámbito, son temas que permitirán un acercamiento a lo que es realmente la investigación y, en particular, la jurídica. También se recogen, entre otras, cuestiones de gran importancia formativa, tales como el respeto a la normativa de protección de datos y de propiedad intelectual –en especial, la necesidad de evitar el plagio–, a la vez que otras más específicas y de gran utilidad práctica, como orientaciones para la búsqueda de referencias bibliográficas, normativas y jurisprudenciales, pautas para citar correctamente en las obras jurídicas e incluso consejos y cuestiones a tener en cuenta sobre la presentación y defensa del trabajo de investigación.

Este libro da buena cuenta de lo mucho que José María Castán dio. La rica y atractiva respuesta que tantos amigos han ofrecido a una propuesta de modesto homenaje así lo pone de manifiesto. Toda su vida la dedicó José María Castán al estudio del Derecho y, durante treinta años, a enseñarlo en su Universidad Pontificia Comillas, en ICADE. Numerosas publicaciones y conferencias mostraron que su inquietud jurídica no se detuvo en su querido Derecho de Familia, ni siquiera, en el Derecho civil. Por esta razón, especialistas de distintos ámbitos del Derecho (administrativo, constitucional, mercantil, penal, procesal, Historia del Derecho o Teoría del Derecho) que compartimos, como profesores o como alumnos, su labor universitaria, hemos querido ofrecer a través de este libro un merecido reconocimiento. José María, maestro de muchos y amigo de todos, gracias por todo lo que nos has dado.

O Poder Simbólico do Direito Administrativo Leonel Pires Ohlweiler,2024-08-15 O livro é um permanente diálogo com a obra de Pierre Bourdieu. Maria Andréa Loyola realizou interessante entrevista com o sociólogo, questionando sobre sua passagem da filosofia para a sociologia, cuja resposta de Bourdieu foi de que tal não ocorreu de forma abrupta, mas pouco a pouco, e que a fala da sociologia tem a capacidade de quebrar a censura do que é oficial, ou melhor, a aparência de unanimidade que favorece os discursos oficiais em situações oficiais. Esse é um pouco o tom da presente obra. A primeira parte do estudo direcionou-se para mergulhar na relação entre Direito Administrativo e o tempo. No intuito de desenvolver tal perspectiva, nada melhor do que debater sobre os espaços de historicidade e as ilusões historiográficas construídas. As alusões de Bourdieu sobre a relevância de romper com o senso comum são, por diversas vezes, aqui mencionadas, abrindo espaço para referir, na segunda parte do livro, uma das formas de pensamento mais utilizada para construir o Campo Científico do Direito Administrativo: o estatuto dogmático. Há um capítulo central, o terceiro, sobre o poder simbólico do Direito Administrativo. O Direito Administrativo também se constitui como sistema simbólico estruturante e estruturado. A última parte da obra direcionou-se para descontinar as dimensões sociojurídicas de algumas práticas, temas tradicionalmente tratados e que aqui receberam novas possibilidades!

Familia, conflictos familiares y mediación Johanna Ponce Albuquerque,2018-04-09 En tiempos rápidos y complejos marcados por la modernidad, nuevas formas de comunicación se imponen. Los vínculos humanos se tornan frágiles, pues la

realidad es distinta a la que proyecta el mundo virtual. Los deseos de felicidad inmediata —aquí y ahora— aumentan, y de forma desmedida se busca en las relaciones de pareja aquella satisfacción. La familia se resquebraja; los niños, la razón de ser de la solidez de la familia, quedan desamparados en el afán de búsqueda de amor de sus padres. Esta obra propone alternativas para satisfacer las necesidades más profundas de la pareja y la familia, así como las herramientas que las parejas o padres deben conocer para hacer frente a los conflictos que el mundo moderno trae. Sin duda, contiene todo lo que cualquier persona debe saber, antes, durante y después del matrimonio. Johanna Ponce Alburquerque (1981) es doctora en Derecho y Magíster en Ciencias de la Familia con especialidad en Mediación por la Universidad Santiago de Compostela (España). También es Magíster en Derecho Administrativo por la Universidad Andina Simón Bolívar (Ecuador) y es abogada por la Universidad Central del Ecuador. Ha sido profesora de Métodos Alternativos de Solución de Conflictos en la Universidad Internacional SEK (Ecuador) y actualmente es profesora de Derecho de Familia de la Universidad de Las Américas (Ecuador). Es directora del Centro de Mediación Mediadores (N. 66) que funciona en Quito, Ecuador. Ha dictado varios cursos en Iberoamérica sobre la gestión del conflicto para lograr mejores relaciones de convivencia en distintos espacios.

La cadena de custodia de la prueba en el proceso penal Prado, Geraldo, 2022-05-03 Buena parte de las reflexiones de este libro se dedicarán a estudios que se enmarcan en el ámbito de la epistemología individual. Será en este contexto que el debate sobre las dimensiones probatorias adquirirá una significativa envergadura, tratando con problemas que han entrado hace poco en el Derecho procesal penal brasileño, pero que no por ello han dejado de interesar a lectores de otras tradiciones jurídicas, como parece insinuar el interés despertado por la obra, publicada solo en portugués y, por tanto, de circulación más limitada. En este punto no se trata de reconocer que la epistemología jurídica individual se centra en el proceso judicial, olvidando las etapas previas... sino de entender que, además, las instituciones son fenómenos sociales mediante los que toma forma una determinada política. En este caso, un sistema de controles epistémicos no solo debe gobernar las prácticas probatorias, sino impedir y dominar sus efectos socialmente injustos que se confirman a escala macro en el ámbito de la sociedad incluso cuando las instituciones (agencias de control social) parecen funcionar con normalidad. El libro *La cadena de custodia de la prueba en el proceso penal*, por tanto, se concibe sobre bases teórico-prácticas -en el limitado espacio de la cadena de custodia de las pruebas penales-, cuyo objetivo es reconocer, en una operación de reducción de complejidad, que, en el Estado de Derecho, la legitimación de la punición reclama la rigurosa adopción de un sistema de controles epistémicos que es esencial para la noción misma de debido proceso legal.

Direito Internacional no Tempo de Francisco Vitória Paulo Borba Casella, 2023-07-01 Amparado nas suas bases legais medievais - e herança antiga - o Direito internacional no tempo de Francisco de VITÓRIA reflete a mutação decorrente dos grandes descobrimentos, que agregam inteiro continente, até então desconhecido, ao mapa do mundo, alteram de maneira

substancial os fluxos comerciais e irreversivelmente transformam a história e modificam o equilíbrio mundial, com forte atuação ibérica. A partir da inserção do quarto continente, ouro, prata e muitos outros produtos e vegetais passam a ser deste levados para outros enquanto são trazidos para as Américas colonizadores europeus, escravos africanos, ideias, armas, doenças. A partir de Francisco de VITÓRIA, o direito internacional teve de encontrar enquadramentos legais para os homens e as sociedades então 'descobertas', que passavam a interagir com os demais, por vezes de maneira catastrófica, por vezes construtiva, em novas configurações. Período crucial para a compreensão do direito internacional.

A Manifestação de Vontade dos Pais Biológicos em Face da Lei de Adoção e Legislação Afim Jaks Douglas Uchôa Damasceno, 2021-01-04 A presente obra visa fazer uma análise do instituto jurídico da adoção, desde os seus primeiros primados nos Direitos Romano e Grego até os dias atuais, com enfoque na importância dada a manifestação dos pais biológicos em todos esses períodos. O que se observa é que esta manifestação foi perdendo força dentro do direito, sendo alegado em seu desfavor a possibilidade de comercialização de crianças e adolescentes. O que se tem em mente com o presente texto é apresentar uma nova perspectiva da adoção intuito personae, quando se leva em consideração a escolha dos pais biológicos sobre quem deve adotar o filho que não poderão cuidar, podendo tal atitude ser vista como um procedimento mais célere, posto que não haverá a necessidade de busca, na família extensa, de possíveis guardiões para a criança/adolescente, o que vem fazendo os processos de adoção se prolongarem muito.
