Law and Democracy in the Empire of Force James Boyd White,H. Jefferson Powell,2009-05-05 The authors of this book share a concern for the state of law and democracy in our country, which to many seems to have deteriorated badly. Deep changes are visible in a wide array of phenomena: judicial opinions, the teaching of law, legal practice, international relations, legal scholarship, congressional deliberations, and the culture of contemporary politics. In each of these intersections between law, culture, and politics, traditional expectations have been transformed in ways that pose a threat to the continued vitality and authority of law and democracy. The authors analyze specific instances in which such a decline has occurred or is threatened, tracing them to the empire of force, a phrase borrowed from Simone Weil. This French intellectual applied the term not only to the brute force used by police and soldiers but, more broadly, to the underlying ways of thinking, talking, and imagining that make that sort of force possible, including propaganda, unexamined ideology, sentimental clichés, and politics by buzzwords, all familiar cultural forms. Based on the underlying crisis and its causes, the editors and authors of these essays agree that neither law nor democracy can survive where the empire of force dominates. Yet each manages to find a ground for hope in our legal and democratic culture. H. Jefferson Powell is Frederic Cleaveland Professor of Law and Divinity at Duke University and has served in both the federal and state governments, as a deputy assistant attorney general and as principal deputy solicitor general in the U.S. Department of Justice and as special counsel to the attorney general of North Carolina. His latest book is Constitutional Conscience: The Moral Dimension of Judicial Decision. James Boyd White is Hart Wright Professor of Law emeritus and Professor of English emeritus, at the University of Michigan. His latest book is Living Speech: Resisting the Empire of Force. An extraordinary collection of provocative, insightful, and inspiring essays on the future of law and democracy in the twenty-first century. ---Geoffrey R. Stone, Edward H. Levi Distinguished Service Professor of Law, University of Chicago These thoughtful essays diagnose democracy's perilous present, and---more importantly---they explore avenues to democracy's rescue through humanization of law. ---Kenneth L. The Making of Jorge Luis Borges as an Argentine Cultural Icon Mariana Casale O'Ryan,2014-05-05 Jorge Luis Borges is, undeniably, Argentina's best-known and most influential writer. In addition to scholarly studies of his work, his emblematic figure continues to appear on book covers and carrier bags, in biographies, plaques and statues, photographs and interviews, as well as cartoons and city tours. The Making of Jorge Luis Borges as an Argentine Cultural Icon argues that the ideas and expectations that Argentine people have placed upon the author - thus constructing the icon - are also those that allow them to define their cultural identity. The book examines these intertwined processes by analysing the image of Borges in biographies, photographs, comic strips and urban spaces and the socio-political, historical and cultural contexts in which they were produced. The study seeks not to reveal a Borgesian essence but, rather, to expose the complexity of the ongoing mechanisms which construct Borges the icon. Despite the vast amount of biographical and critical work about the writer that has been produced in Argentina and abroad, The Making of Jorge Luis Borges as an Argentine Cultural Icon is the first in-depth, comprehensive examination of the construction of the author as an Argentine cultural icon.

World Editors Gustavo Guerrero,Benjamin Loy,Gesine Müller,2020-12-16 The existence of World Literature depends on specific processes, institutions, and actors involved in the global circulation of literary works. The contributions of this volume aim to pay attention to these multiple material dimensions of Latin American 20th and 21st century literatures. From perspectives informed by materialism, sociology, book studies, and digital humanities, the articles of this volume analyze the role of publishing houses, politics of translation, mediators and gatekeepers, allowing insights into the processes that enable books to cross borders and to be transformed into globally circulating commodities. The book focusses both on material (re)sources of literary archives, key actors in literary and cultural markets, prizes and book fairs, as well as on recent dimension of the digital age. Statements of some of the leading representatives of the global publishing world complement these analyses of the operations of selection and aggregation of value to literary texts.

Invención de la nación en Borges y Marechal Mariela Blanco,2020-12-29 El libro compara las poéticas de Borges y Marechal a partir de sus apropiaciones y polémicas con el nacionalismo. La investigación surgió de una inquietud: ¿por qué Borges abandona tan abruptamente su programa criollista? Al mismo tiempo, ¿por qué el Adán Buenosayres retoma este proyecto colectivo de un grupo de poetas cuando ya está acabado? El objetivo de esta mirada es poner en diálogo dos sistemas estéticos que por momentos entran en clara conjunción, mientras que en otros se oponen rotundamente, a veces de manera explícita, otras, en clave de polémica oculta. Se estudian las confluencias y disyunciones desde sus inicios vanguardistas hasta las más algidas disyunciones durante el peronismo, abordando algunos de sus textos más relevantes, tanto poéticos, narrativos como ensayísticos. A través del análisis discursivo de sus textos, la autora demuestra que ambos escritores inventan literariamente la nación a través de sus ficciones, aunque sus proyectos divergen en la representación de la tensión entre individuo y cuerpo social: mientras Borges defiende en su escritura la libertad del individuo por sobre toda institución social, Marechal orienta sus representaciones hacia una búsqueda de armonía entre el individuo y las instituciones sociales a través de la figura del líder. Estas páginas proponen una nueva lectura de dos de los más destacados escritores argentinos, reponiendo las variables ideológicas que incidieron en sus contextos de producción y configuraron sus itinerarios como escritores faro de la literatura argentina.

The Mysterious World of Dreams Ricardo Ferreira,2017-12-14 The meaning of dreams is one of the most fascinating topics of discussion and controversy since ancient times. The questions, Where do dreams come from? and How do dreams originate?, have had multiple answers in different times. For ancient civilizations, dreams were a form of communication with the gods. Some argue that they lack meaning, and for others, dreams are a reflection of our deepest desires, influence our behaviorthey are sources of inspiration and help us to solve problems. This book provides a global vision of dreams, beginning with the interpretation of ancient civilizations. Chapters dedicated to dreams in painting, in cinematography and, fundamentally, in literature. One chapter is devoted to the interpretation of dreams according to Freud and another to creativity through dreams that inspired inventions, novels, poetry, and musical pieces. The study of dreams by the neurosciences is also discussed.

Recursos literarios en la obra de Jorge Luis Borges Alejandro Martínez,2023-08-11 Las ficciones de Jorge Luis Borges son procesos de búsqueda que conducen al descubrimiento y el conocimiento. El genio de Borges consistió en hacer que la gente pensara la literatura desde una visión totalmente nueva, mostrando la convergencia entre escribir y leer, el principio sujeto a la reinterpretación y la renovación perpetuas. Así, traspasó toda clase de fronteras, cruzando los límites entre filosofía y ficción. Su literatura es una especie de apropiación y de invención, de truco, de espejos, siendo capaz de integrar todos los textos que ha leído en un orden complejo, donde todas esas ideas suyas y prestadas convergen en un diálogo vivo, muy original. Una lectura cuidadosa de sus textos constituye una teoría literaria, no sistemática, pero coherente, que alcanza

límites nunca explorados en la literatura hispanoamericana. Su rigor intelectual no le impide ser amable y divertido, como pocos autores han logrado. Si el placer de leer y releer un texto del mismo autor mide la grandeza de este, Borges se encuentra entre los mayores.

A World Torn Apart Victoria Carpenter, 2007 This collection of essays derives from a conference on Violence, Culture and Identity held in St Andrews in June 2003. It is a contribution to the understanding of representations of violence in Latin American narrative. The collected essays are dedicated to the study of the problematic history of violence as a means of 'civilizing' the region: violence used by dictatorial regimes to eradicate the collective memory of their actions; violence as a result of the history of marginalizing segments of the population; sexual violence as an attempt at complete control of the victim. The essays establish a clear link between historical, political and literary constructs spanning the past five hundred years of Latin American history. Close readings of political texts, historical documents, prose, poetry and films employ identity theories, postcolonial discourse, and the principles of mimetic and sacrificial violence. The volume adds to the ongoing critical investigation of the relationship between Latin American history and narrative, and to the key role of representations of violence within that narrative tradition.

La autopsia psicológica Damián G. Ricardo, 2019-11-29 El autor es Licenciado en Psicología egresado en la Universidad de Buenos Aires, magíster en Metodología de Investigación de la Universidad Nacional de la Patagonia Austral y Perito Oficial en el Poder Judicial de la Provincia de Santa Cruz, además de poseer una amplia experiencia tanto en el Área Clínica como en el Área Forense. Dentro del ámbito judicial al que pertenece se ha ocupado de más de treinta casos de autopsia psicológica sobre las que se basan las conclusiones del presente libro, utilizando un marco teórico con orientación en la obra de autores como Gilles Deleuze, Michel Foucault y bibliografía específica del campo disciplinar. La obra avanza, asimismo, con una propuesta estética que acompaña el desarrollo de los conceptos y nos involucra en un entrecruzamiento entre ciencia y arte. Junto al procedimiento de autopsia psicológica se propone el avance sobre una disciplina que engloba un conjunto de prácticas para las que se sugiere el nombre de Psicotanatología Forense.

In memoriam Rafael Olea Franco, 2008 Para conmemorar los veinte años de la desaparición física de Jorge Luis Borges (1899-1986) se realizó en El Colegio de México el Coloquio Internacional que da título a este libro, acto académico cuyo propósito fundamental fue profundizar en la compleja obra de este autor, en particular indagando aspectos de ella que han sido relativamente poco explorados. Además, el hecho de que el coloquio se haya efectuado en México, con colaboradores de este país y del extranjero, permitió continuar el diálogo intermitente pero visible entre el escritor argentino y la cultura mexicana, iniciado en la década de 1920, sobre todo a partir de su relación personal con Alfonso Reyes.

Robots that Talk and Listen Judith Markowitz, 2014-12-12 Robots That Talk and Listen provides a forward-looking examination of speech and language in robots from technical, functional, and social perspectives. Contributors address cultural foundations as well as the linguistic skills and technologies that robots need to function effectively in real-world settings. Among the most difficult and complex is the ability to understand and use language. Speech-enabled automata are already serving as interactive toys, teacher's aides, and research assistants. These robots will soon be joined by personal companions, industrial co-workers, and military support automata. The social impact of these and other robots extends well beyond the specific tasks they perform. Contributors tackle the most knotty of those issues, notably acceptance of advanced, speech-enabled robots and developing ethical and moral controls for robots. Topics in this book include:

- Language and Beyond: The True Meaning of "Speech Enabled"
- Robots in Myth and Media
- Enabling Robots to Converse
- Language Learning by Automata
- Handling Noisy Settings
- Empirical Studies of Robots in Real-World Environments
- Acceptance of Intelligent Robots
- Managing Robots that Can Lie and Deceive
- Envisioning a World Shared with Intelligent Robots

Camino a la estabilidad Domingo F. Cavallo, 2014-06-01 Ensayo sobre cómo derrotar a la inflación, por Domingo Cavallo, ex ministro de Economía de la Argentina. Derrotar a la inflación y estabilizar la economía será la principal demanda popular que enfrentará quien gobierne la Argentina a partir de diciembre de 2015. Para ese entonces, millones de argentinos estarán convencidos de que la inflación es la principal causa del aumento de la pobreza y de la pérdida de empleos productivos, además de tener crispados sus ánimos por la carrera infernal y desigual que significan los aumentos continuos de precios y salarios. Por eso decidí escribir este libro. Con un propósito menos ideológico y más pragmático: encontrar la forma más efectiva de resolver las dificultades que deberemos enfrentar. En particular, el problema más difícil de solucionar de manera efectiva y duradera: la inflación. Es clave que el próximo gobierno acierte con su política de estabilización antes de las elecciones parlamentarias. De esa forma, conseguirá el poder y el apoyo popular indispensable para llevar a cabo las difíciles reformas económicas que se necesitan para sacar a nuestro país del atolladero. Domingo F. Cavallo

Novela, mujeres y política en Jorge Luis Borges Liliana Bellone, Antonio Ramón Gutiérrez, 2021-05-25 La concepción de la literatura como "palimpsesto" y los principios teóricos del psicoanálisis acerca de un sujeto atravesado por la falta

constitutiva que es la falta en el lenguaje, son los hilos guiares de la lectura de los textos borgeanos que llevan adelante Liliana Bellone y Antonio Ramón Gutiérrez. La cuestión del “otro”, el semejante, la dimensión imaginaria o especular, en articulación con el “Otro” de la cultura, el “Otro” simbólico, aparece como constitutiva en la ficción y la poesía de Jorge Luis Borges. Escritura realizada sobre la red de los textos universales, la escritura del maestro argentino propone distintas aristas que permiten un itinerario posible en su obra: la novela, lo femenino y la relación con la política.

Escoles i tallers d'escriptura a Espanya Joan Aldavert , Aquest treball és un anàlisi de com els tallers i escoles d'escriptura espanyols organitzen el seu programa i la seva metodologia en funció d'una determinada concepció de la literatura i d'una filosofia pròpia. A partir de la comparació de diversos centres que han sigut entrevistats expressament per aquest estudi, es procedeix a mostrar com sorgeixen els tallers i escoles d'escriptura a Espanya, què prenenen ensenyar als seus alumnes i fins a quin punt aconsegueixen complir el seu objectiu, tenint en compte que el mercat és un factor decisiu. Elements com l'espai on se situen els centres, la seva manera d'enfocar les classes, les influències d'altres models pedagògics o el professorat, conviden també a un perfil d'alumnat concret. This paper analyses how Spanish writing workshops and schools organize their program and methodology according to a certain conception of literature and their own philosophy. From the comparison of various centers that have been purposefully interviewed for this study, we proceed to show the rise of writing workshops and schools in Spain, what they aim to teach their students and to what extent they achieve such goal, given the fact that the market is indeed a deciding factor. Elements such as the space where the centers are located, the way of approaching the classes, the influences of other pedagogical models and the quality of the teaching staff, will also appeal a specific profile of students.

Returning to Babel Amalia Ran,Jean Cahan,2011-10-14 This volume offers a re-examination of some of the prevalent paradigms in Latin American Jewish Studies and an instigation to further explorations in this area. It sets out from an interdisciplinary standpoint, comprising literature, culture, history, cinematography, music and visual arts. This collection of articles seeks a wider range of theoretical and disciplinary perspectives concerning Latin American Jewish experiences, and thereby offers a framework for innovative as well as traditional modes of analysis. It elaborates on themes of Jewish identity as represented in the history, cultures and societies of Latin America in the current era of hybridism and transnationalism.

[La emboscada postpoética de Agustín Fernández Mallo:](#) Candelas Gala,2025-08-15 La emboscada postpoética de Agustín Fernández Mallo: física, cognición, contemporaneidad, entropía analyzes the poet's proposal to rescue, with his Postpoetry, official poetry from its sclerotic stagnation due to its fidelity to worn-out premises, to recover a language connected with matter, and to renew its cognitive value. By means of byways (or drifting) through different disciplines, Postpoetry shares space with television, pop music, videos, the Internet, cinema, the arts, publicity, and the sciences, physics in particular.

Postpoetry illuminates the intersection between the tranquility that tradition provides and the disquiet that comes with novelty. There is an ambush because, like Odysseus with the Trojan horse, the postpoet, although he is back from his adventures and much experienced, like the astute Homeric hero, often finds himself being ambushed by the recursiveness of its own tricks; however, he understands that all pronouncements entail their own refutation in the form of irony and parody. Everything rests on the uncertainty of which Werner Heisenberg spoke, or on the yin-yang in the complementarity of that other great quantum physicist, Niels Bohr. We readers are invited to participate in this odyssey where enigmas are never solved conclusively. La emboscada postpoética de Agustín Fernández Mallo: física, cognición, contemporaneidad, entropía analiza la propuesta del poeta de “curar,” con su Postpoesía, a la poética oficial de su estancamiento esclerótico por seguir sujetos a premisas ya desgastadas, recobrar un lenguaje enlazado con la materia y renovar su valor cognitivo. Mediante derivas por diferentes campos del saber, la Postpoesía comparte el espacio con la televisión, la música pop, los videos, el internet, el cine, las artes, la publicidad y las ciencias, la física en particular. La Postpoesía busca la intersección entre la tranquilidad que aporta la tradición y la inquietud de lo novedoso. Hay emboscada porque, como Odiseo con el caballo de Troya, el postpoeta está también de vuelta de sus aventuras y como el astuto héroe, se ve a menudo “emboscado” por la recursividad de sus argucias. Pero entiende que toda proclama conlleva su propia refutación en forma de ironía y parodia. Todo queda en la incertidumbre de que habló Werner Heisenberg, o del ying-yang en la complementariedad del otro gran físico cuántico, Niels Bohr. Y a los lectores se nos invita a participar en esta odisea donde los enigmas no se solventan conclusivamente.

Encrucijada. Javier Tobares, 2021-12-07 En esta obra abordamos, desde la historia conceptual de lo político, las premisas políticas del pensamiento de Leopoldo Lugones, así como la noción implícita de pueblo en su producción literaria porque los estudios sobre Lugones y su obra se han centrado en observar la idea de nación inherente al contexto del autor sin dar cuenta acabadamente de los conceptos propuestos por el poeta y, en particular, de la problemática de construcción del pueblo en su obra ni, por ello, de la construcción de un orden político que potencialmente lo representase a partir del programa imaginado por Lugones. En consecuencia, el recorte temporal que hemos seleccionado se extiende desde 1910, año de conmemoración del Centenario de la Revolución de Mayo, el año cero en el que se publican Las limaduras de Hephæstos, hasta 1932, año de finalización del primer gobierno de facto y de clausura del proyecto corporativo de gobierno en el que se publica El estado equitativo: ensayo sobre la realidad argentina. Durante este período, la producción de Lugones estará orientada a proponer una definición de pueblo que se acople a la concepción del orden social vislumbrado por el “poeta nacional”.
