Ricart, 2018-09-06 This collection, which transports readers from the age of manuscripts to the digital word, is a good demonstration not only of the current vitality of studies of Catalan language and literature, but also of the variety of interests and theoretical approaches and the diversity of origin of Catalan researchers. The studies are focused primarily on three thematic areas: a) culture and language between the fifteenth and eighteenth centuries; b) one hundred years of Catalan literature: 1859-1959; and c) multilingualism and interculturality. The collected studies will prove to make a solid contribution to the unstoppable progress that Catalan philology has been making for decades.
