Amid unprecedented developments, Türkiye reaffirmed its role as an established and prominent player, embodying a foreign policy that is multilayered, multiaxial, and multidimensional, even as the international system was constantly tested. At its core, Türkiye's foreign policy approach is humanitarian, earning it the reputation of being the guardian of the vulnerable and the protector of the voiceless. Beyond the ongoing genocide in Gaza, the international system witnessed defining moments such as the abrupt death of Iran's top officials in a helicopter crash and the fall of Bashar al-Assad's regime in Syria. The re-election of Donald Trump as President of the United States further underscored the year's unpredictability. Additionally, elections in approximately 70 countries, encompassing half the world's population, saw incumbent parties faltering under public dissatisfaction with economic disruptions and the lingering effects of the pandemic, paving the way for far-right populist movements. The return of Trump signaled a marked shift in U.S. foreign policy. His expected "America First! 2.0" protectionist stance and tax cuts raised concerns about the future of

multilateralism and global trade, leaving European countries bracing for potential economic ramifications. Meanwhile, the ousting of Assad, after decades of autocratic rule marked by atrocities committed against civilians, signaled the end of an era and the beginning of a new dawn for Syria, one fraught with both challenges and opportunities for the nation's future. Nonetheless, on a broader scale, global instability defined the year 2024. In Europe, domestic crises resulted in governmental collapses in Germany and France, while South Korea experienced significant political turmoil following a failed attempt to impose martial law. The ongoing war in Ukraine and the genocide in Gaza further strained the international system, exposing the fragility of democratic institutions and the continued erosion of multilateral norms. These profound challenges underscore the pressing need for a reimagined and resilient global governance framework capable of addressing the complexities of an increasingly volatile World. As it has always been a pivotal actor in promoting regional stability and peace, Türkiye continued to assume a leading role in efforts to stabilize the region. With Assad's regime toppled, Ankara positioned itself as a key player in Syria's reconstruction including plans to provide electricity and collaborate on hydrocarbon projects, signaling Türkiye's intent to integrate Syrian energy infrastructure into its sphere. Concurrently, Türkiye brought to the table initiatives for a maritime demarcation agreement with Syria, reinforcing Ankara's leadership in regional stability. Relations with Israel reached a critical point amidst Türkiye's unequivocal condemnation of the genocide in Gaza. Since the Operation al-Aqsa Flood, Israeli aggression has resulted in over 44,000 civilian casualties, including more than 16,000 children, 105,000 injured and with many others facing famine, sickness, and a lack of essential resources under relentless bombardment. Türkiye, under the leadership of President Recep Tayyip Erdoğan, has consistently advocated for a two-state solution to ensure dignity and freedom for the Palestinian people, while persistently calling for an end to the ongoing genocide. However, the global community, including many of the world's "so-called" democracies, failed to support Türkiye's peace proposals and calls for halting the genocide. Despite this, Türkiye's principled stance resonated at the United Nations Headquarters, the Security Council, and across the globe. In November, Türkiye severed all its diplomatic ties with Israel, a decisive move that underscored its strong alignment with international law, humanitarian principles, and moral values, prompted by Israel's unwillingness to end the genocide in Gaza. In 2024, Türkiye's humanitarian diplomacy continued its longstanding expansion beyond its immediate neighborhood. In Africa, Ankara further reinforced its influence through ongoing mediation efforts, infrastructure investments, and cultural diplomacy. By exporting cutting-edge drone technology, Türkiye has bolstered its strategic foothold. Simultaneously, educational scholarships and media outreach have bolstered Türkiye's position as an equal partner, emphasizing cooperation in contrast to the traditional asymmetric approaches of ex-colonial Western powers toward the region. As a result of Türkiye's multiaxial foreign policy, Ankara adeptly balanced its NATO commitments with independent initiatives, reflecting its ability to navigate the complexities of an evolving global order. Türkiye's multiaxial approach, engaging with both the West and East, as well as the North and South, demonstrated a

nuanced and adaptive strategy that reinforced its position as a central actor in international relations. This approach allowed Ankara to foster robust relations with key global players across diverse political and economic blocks while maintaining a steadfast commitment to regional and global stability and cooperation. By strategically aligning its defense, diplomatic, and economic policies, Türkiye advanced its influence and credibility on the global stage, showcasing its ability to contribute to resolving international challenges and ensuring a balanced and inclusive approach to global governance. For Türkiye, 2024 was a year of assertiveness and proactive diplomacy. Leveraging geopolitical shifts, Türkiye amplified its influence on regional and global stages. Its strategic vision seamlessly blended humanitarianism with calculated diplomacy, offering a beacon of hope amid global turbulence. As the world transitions to 2025, Türkiye's foreign policy underscores the responsibility for redefining her role, standing as a symbol of resilience and inspiration. As the guardian of the vulnerable and the protector of the voiceless, Türkiye remains as a 'beacon of hope,' not only for the neighboring region but for the entire world. Within this framework, this issue of Insight Turkey seeks to address many of these topics, offering in-depth analyses to enhance our understanding not only of Turkish foreign policy but also of the regional and global dynamics in which Türkiye plays a pivotal role. In recent years, public diplomacy has become a central pillar of Türkiye's foreign policy, particularly since the establishment of the Directorate of Communications in 2018. Therefore, understanding Türkiye's approach to public diplomacy is crucial. In his research article, Oğuz Güner provides a comprehensive analysis of Türkiye's public diplomacy ecosystem. He delves into its practices, explores the transformative impact of institutionalization, and examines the concept of nation branding as a key component of this evolution. In the same vein, Ali Çiçek and Ali Asker argue that while Türkiye has achieved significant success in its public diplomacy efforts, the time has come for Türkiye and Azerbaijan —united by the deeply rooted concept of "one nation, two states," reflected in public opinion and their cooperative endeavors— to expand their strategic partnership into the sphere of public diplomacy. Çiçek and Asker explore how Türkiye can share its public diplomacy expertise with Azerbaijan and examine the potential for collaborative public diplomacy initiatives between the two nations. As mentioned earlier, defense continues to be a critical domain in Turkish foreign policy due to its strategic significance. In this context, Recep Şehitoğlu and İbrahim Karataş offer a fresh perspective in their article, arguing that the rise of Türkiye's defense sector has contributed to establishing a form of Pax Turka in certain conflicts. They suggest that as the Turkish defense industry develops more advanced weaponry, the influence of Pax Turka could become increasingly pronounced, particularly in parts of the region. Their study further predicts that the scope of Pax Turka may expand significantly by the 2030s. The Kurdish Question has long been a pivotal element in Türkiye's domestic affairs, with significant implications for its foreign policy. While this issue is analyzed in detail regarding the current government's policies, there is a noticeable gap in the discussion concerning the stance of opposition parties, particularly the CHP. Addressing this gap, Halime Kökçe and Ramazan Akkır's article examines and compares the policies of two CHP

leaders, namely Deniz Baykal and Kemal Kılıçdaroğlu. They argue that during Baykal's tenure, the CHP's approach to the Kurdish Question was largely shaped by concerns about protecting the regime. In contrast, under Kılıçdaroğlu, the party's stance shifted to focus more on the socio-economic challenges faced by Kurds, marking a partial departure from nationalist policies. The growing importance of Türkiye in regional and global affairs has become particularly evident in the context of the Russia-Ukraine war, where it has emerged as a key actor striving to end the conflict through various initiatives. This issue of *Insight Turkey* focuses on this topic with both a commentary and a research article. Specifically, Barış Çağlar's commentary emphasizes that the true adversary in the Russia-Ukraine conflict is not any specific nation or faction but the looming threat of nuclear war, arguing that preventing nuclear escalation must be the foremost priority. The author also highlights how Türkiye, by promoting dialogue and facilitating peace negotiations, exemplifies a strategic and alternative approach to conflict resolution, one that seeks not only to prevent further escalation but also to lay the groundwork for lasting peace. On the other hand, Merve Suna Özel Özcan, in her qualitative study, examines the mediating role of militarist and internationalist sentiments in shaping the relationship between the personal values of Turkish society and their attitudes toward the war in Ukraine. This issue of *Insight Turkey* also places significant emphasis on developments in the Middle East, particularly the events in Palestine and Iran's policies. Within this framework, the commentaries by Mahmoud al-Rantisi and Mustafa Caner provide detailed analyses of these topics. Specifically, al-Rantisi explores the impact of Yahya Sinwar's martyrdom on the Palestinian resistance and the Hamas movement, offering also an analysis of how Israel consistently misunderstands the mindset of the Palestinian resistance, a dynamic that is expected to persist in the future. Furthermore, Mustafa Caner's commentary focuses on Iran-Israel relations, examining Iran's policy toward Israel through historical, strategic, and contemporary lenses. The analysis delves into Iran's strategic calculations and the balancing actions and mechanisms it has employed in the post-October 7 period to avert a full-scale war in the region. Two additional research articles focusing on Iran are also included in this issue. The first, by Hakkı Uygur, offers a detailed and significant analysis of the evolution and institutionalization of Iran's intelligence apparatus, including the internal dynamics and developments among its intelligence agencies. The second article, by Yousof Qorashi, examines the efforts of Iran and India to expand their influence in Central Asia, highlighting how the U.S. has not only obstructed these ambitions but also hindered cooperation between the two states. This issue also addresses developments in Iraq, Azerbaijan, and Afghanistan. First, Mohamad Hassan Soueidan's article highlights two major projects in Iraq: the Grand Faw Port and the Dry Canal. According to the author, these initiatives, which aim to connect Iraq with Europe through Türkiye and Syria, have the potential to transform Iraq's role in global trade and reshape its economic landscape. Second, Shamkhal Abilov, Natig Abdullayev, and Eldar Hamzalı shed light on the Sumgait events of 1988 and the Khojaly massacre of 1992, focusing on Russia's involvement in both cases. Furthermore, their analysis also examines whether Azerbaijan and Armenia demonstrate tendencies of denialism when

comparing these events. Third, Shahid Ahmed Afridi uses Afghanistan as a case study, employing post-structuralism to deconstruct the theoretical foundations of the “liberal peace” order. He critically examines the U.S. peacebuilding framework in Afghanistan, offering fresh insights into its limitations and implications. Last but not least, this issue of Insight Turkey features a commentary that examines the implications of the forthcoming Trump Administration for the global order. Written by Kılıç Buğra Kanat, the commentary provides a detailed analysis of the potential policies of the new administration toward key global actors, including Russia, China, and the Middle East. As we bid farewell to another year, Insight Turkey proudly concludes its 26th year of publication, marked by impactful and comprehensive analyses of Turkish foreign policy and regional developments. As we prepare to embark on a new year, we are excited to bring fresh topics, innovative perspectives, and in-depth insights to our readers. We extend our heartfelt gratitude to all our readers for their continued support and engagement. We look forward to your continued readership and invite you to join us on this journey as we explore the evolving dynamics of our world in the year ahead.

National History and New Nationalism in the Twenty-First Century Niels F. May, Thomas Maissen, 2021-06-17 National history has once again become a battlefield. In internal political conflicts, which are fought on the terrain of popular culture, museums, schoolbooks, and memorial politics, it has taken on a newly important and contested role. Irrespective of national specifics, the narratives of new nationalism are quite similar everywhere. National history is said to stretch back many centuries, expressing the historical continuity of a homogeneous people and its timeless character. This people struggles for independence, guided by towering leaders and inspired by the sacrifice of martyrs. Unlike earlier forms of nationalism, the main enemies are no longer neighbouring states, but international and supranational institutions. To use national history as an integrative tool, new nationalists claim that the media and school history curricula should not contest or question the nation and its great historical deeds, as doubts threaten to weaken and dishonour the nation. This book offers a broad international overview of the rhetoric, contents, and contexts of the rise of these renewed national historical narratives, and

of how professional historians have reacted to these phenomena. The contributions focus on a wide range of representative nations from around all over the globe.

John of History, Baptist of Faith James F. McGrath, 2024-10-04 Studies of the historical Jesus typically reduce John the Baptist to a subordinate role in the story of Christian origins. This meticulous historical study focuses on John himself, revealing his extensive and enduring influence. In the popular imagination, John the Baptist plays the supporting role of Jesus's unkempt forerunner. But meticulous historical study reveals his wide-reaching and enduring influence on the history of religion. The first study of its kind, *John of History, Baptist of Faith* sheds light on the historical John the Baptist and his world. James F. McGrath applies historical-critical methodology not only to the New Testament but also to the Mandaean Book of John, a holy text of the last extant gnostic sect. McGrath uses the teachings of John's pupil, Jesus, as a window into his mentor's beliefs. Along the way, he brings new clarity to questions of contention among scholars, such as John's use of immersion as a substitute for temple sacrifice. Bold in its claims yet careful in its method, *John of History, Baptist of Faith* lends fresh insight into John, Jesus, and their world. McGrath's pioneering monograph will challenge and intrigue students and scholars of the New Testament and Second Temple Judaism.

The Oxford Handbook of Classical Chinese Literature Wiebke Denecke, Wai-Yee Li, Xiaofei Tian, 2017-03-21 This volume introduces readers to classical Chinese literature from its beginnings (ca. 10th century BCE) to the tenth century CE. It asks basic questions such as: How did reading and writing practices change over these two millennia? How did concepts of literature evolve? What were the factors that shaped literary production and textual transmission? How do traditional bibliographic categories, modern conceptions of genre, and literary theories shape our understanding of classical Chinese literature? What are the recurrent and evolving concerns of writings within the period under purview? What are the dimensions of human experience they address? Why is classical Chinese literature important for our understanding of pre-modern East Asia? How does the transmission of this literature in Japan, Korea, and Vietnam define cultural boundaries? And what, in turn, can we learn from the Chinese-style literatures of Japan, Korea, and Vietnam, about Chinese literature? In addressing these questions, the *Oxford Handbook of Classical Chinese Literature* departs from standard literary histories and sourcebooks. It does not simply categorize literary works according to periods, authors, or texts. Its goal is to offer a new conceptual framework for thinking about classical Chinese literature by defining a four-part structure. The first section discusses the basics of literacy and includes topics such as writing systems, manuscript culture, education, and loss and preservation in textual transmission. It is followed by a second section devoted to conceptions of genre, textual organization, and literary signification throughout Chinese history. A third section surveys literary tropes and themes. The final section takes us beyond China to the surrounding cultures that adopted Chinese culture and produced Chinese style writing adapted to their own historical circumstances. The volume is sustained by a dual foci: the recuperation of historical perspectives for the period it surveys and the attempt to draw connections between past and present, demonstrating how the viewpoints and information in this volume yield insights into modern China and east Asia.

Religious Liberty and the Law Angus J. L. Menuge, 2017-07-20 Questions of religious liberty have become flashpoints

of controversy in virtually every area of life around the world. Despite the protection of religious liberty at both national and supranational levels, there is an increasing number of conflicts concerning the proper way to recognize it – both in modern secular states and in countries with an established religion or theocratic mode of government. This book provides an analysis of the general concept of religious liberty along with a close study of important cases that can serve as test beds for conflict resolution proposals. It combines the insights of both pure academics and experienced legal practitioners to take a fresh look at the nature, scope and limits of religious liberty. Divided into two parts, the collection presents a blend of legal and philosophical approaches, and draws on cases from a wide range of jurisdictions, including Brazil, India, Australia, the USA, the Netherlands, and Canada. Presenting a broad range of views, this often provocative volume makes for fascinating reading for academics and researchers working in the areas of law and religion, legal philosophy and human rights.

Crimes Against Humanity Nergis Canefe, 2021-04-15 This book brings together jurisprudential debates on international criminal law, international law scholarship on the limits of state sovereignty, and applied political philosophy concerning responsibility and accountability in the context of mass political crimes and state criminality. It offers a compelling view of legal reasoning concerning accountability regimes in the Global South. No other study addresses questions of ethical dimensions of mass crimes and accountability for state criminality.

From Hermeneutics to Exegesis Matthew Malcolm, 2018-05-01 Interpreting the Bible requires theoretical discernment and practical know-how. A book that focuses solely on interpretive methods or deals exclusively with the philosophical underpinnings of interpretation fails to provide a full picture of how to read and study Scripture. Beginning with hermeneutics, Matthew Malcolm surveys the history of the discipline, engages with important theological issues, and arrives at a memorable depiction of what happens when fruitful interpretation takes place. After covering these foundational elements, Malcom focuses on exegesis. He helps readers understand the issues at stake in interpreting biblical passages, and provides a straightforward guide to writing an exegesis paper. Academically solid without being overwhelmingly detailed, this is a reliable guide to the important path from hermeneutics to exegesis.

French Banking and Entrepreneurialism in China and Hong Kong Hubert Bonin, 2019-06-07 Many books have addressed the economic and financial history of Hong Kong, and the imperialist conflicts in the key Chinese port-cities but very few books have explored French initiatives and performance in this area, beyond diplomacy, geopolitics or cultural issues. In this book, Hubert Bonin confronts arguments about the great divergence, the first globalisation, and forms of economic patriotism. He gauges the competitive edge of French companies and banks, their struggle with British domination (HBSC, Chartered, shipping, trade houses/hongs) and their resistance against competitors from other countries (Japan,

Germany, Netherlands, Belgium, USA, or Russia). The book delves into studies of management abroad, therefore mixing broad geo-economic issues with precise business history and deep banking history. The connections between French interests in China and Hong Kong and the colony of Indochina are established too. A second part of the book is dedicated to the case study of Hong Kong, as the British colony acted as a hub for Asian and European interests at the heart of connections with mainland China and some neighbouring territories (Indochina, etc.). This is essential reading for academics interested in banking and business history, the history of entrepreneurship, as well as, those involved in the contemporary history of China and Hong Kong, in the assessment of world-wide geo-economic competition between European powers in Asia (Great-Britain, and France), and in the first stages of economic modernity, along European models, in emerging modern China.
