Home Movies Claire Jenkins, 2015-04-06 The American family has long been at the centre of the typical Hollywood narrative. But the depiction of the nuclear family within contemporary mainstream US cinema has not yet been closely studied. Home Movies addresses this oversight by assessing recent cinematic representations of the family in terms of cultural politics and representations of gender, sexuality, race and class. Focusing on a diverse range of popular films - from Meet the Parents to The Incredibles - Claire Jenkins analyses the father-daughter relationship within sequels and series; Meryl Streep's embodiment of the mother; the superhero family and extraordinary manifestations of the ordinary family; disaster films which depict the president as father; 'mom-coms' and Hollywood's representations of the non-traditional family. She combines film studies, gender studies and family history to demonstrate the complexities of Hollywood's family values.

Spy, 1996-07 Smart. Funny. Fearless. It's pretty safe to say that Spy was the most influential magazine of the 1980s. It might have remade New York's cultural landscape; it definitely changed the whole tone of magazine journalism. It was cruel, brilliant, beautifully written and perfectly designed, and feared by all. There's no magazine I know of that's so continually referenced, held up as a benchmark, and whose demise is so lamented --Dave Eggers. It's a piece of garbage --Donald Trump.

Boys' Life, 2003-08 Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.

Word Spy Paul McFedries, 2004-02-17 Language wears many hats, but its most important job is to help us name or describe what's in the world. Words define us, our actions, even our existence. And just when you think that you have all the words you need, you discover new ones, hear new uses for old ones or see them mutate right before your eyes—a neologism is born. Those neologisms are actually one of the best ways of keeping tabs on the way our world and culture are changing. One of the people who's been keeping tabs is Paul McFedries, the president of Logophilia Limited (logophilia is Greek for the love of words). His scorecard is Word Spy, a daily newsletter that has been reporting from the neological frontier since 1998 and that has more than 100,000 visitors a month and more than 12 million page views. In Word Spy, McFedries demonstrates

how new words both reflect and illuminate not only the subcultures that coin them but also the larger culture in which these groups exist. Neologisms give us insight into the way things are even as they act as linguistic harbingers of what's to come. Each chapter of *Word Spy* is a cultural snapshot, a slice of the zeitgeist that focuses on a specific idea or sociological phenomenon, with an emphasis on the words and phrases that it has generated. These snapshots cover various aspects of modern life, including relationships, business, technology, war, aging, multiculturalism, and even fast food, all the while introducing us to hybrid words: If your kids can't seem to get away from their computers, they may be addicted to fritterware (time-wasting game software). If you're a new mother with a passion for petitioning, you may be a lactivist (breast-feeding activist). And if you keep finding yourself staying way later at the office than you ever imagined, you may be suffering from presenteeism. *Word Spy* is an exciting and informative travelogue through the evolving landscape of our language and, consequently, the cultures and subcultures that continually mold and shape not just the language but all of us who speak it.

Maiden USA Kathleen Sweeney, 2008 *Maiden USA: Girl Icons Come of Age* explores images of powerful, contradictory pop culture icons of the past decade, which run the gamut from Mean Girls and their Endangered Victims to Superheroines and Ingenue Goddesses. The Red and the Black Robert Miklitsch,2016-12-07 Critical wisdom has it that we said a long goodbye to film noir in the 1950s. Robert Miklitsch begs to differ. Pursuing leads down the back streets and alleyways of cultural history, *The Red and the Black* proposes that the received rise-and-fall narrative about the genre radically undervalues the formal and thematic complexity of '50s noir and the dynamic segue it effected between the spectacular expressionism of '40s noir and early, modernist neo-noir. Mixing scholarship with a fan's devotion to the crooked roads of critique, Miklitsch autopsies marquee films like *D.O.A.*, *Niagara*, and *Kiss Me Deadly* plus a number of lesser-known classics. Throughout, he addresses the social and technological factors that dealt deuce after deuce to the genre--its celebrated style threatened by new media and technologies such as TV and 3-D, color and widescreen, its born losers replaced like zombies by All-American heroes, the nation rocked by the red menace and nightmares of nuclear annihilation. But against all odds, the author argues, inventive filmmakers continued to make formally daring and socially compelling pictures that remain surprisingly, startlingly alive. Cutting-edge and entertaining, *The Red and the Black* reconsiders a lost period in the history of American movies.
