Human Missions to Mars Donald Rapp,2023-01-01 In this book, Donald Rapp looks at human missions to Mars from a technological perspective. He divides the mission into a number of stages: Earth's surface to low-Earth orbit (LEO); departing from LEO toward Mars; Mars orbit insertion and entry, descent and landing; ascent from Mars; trans-Earth injection from Mars orbit and Earth return. A mission to send humans to explore the surface of Mars has been the ultimate goal of planetary exploration since the 1950s, when von Braun conjectured a flotilla of 10 interplanetary vessels carrying a crew of at least 70 humans. Since then, more than 1,000 studies were carried out. This third edition provides extensive updating and additions to the last edition, including new sections, and many new figures and tables, and references.

Architectures of Grace in Pastoral Care Douglas B. Olds,2023-05-23 An updating of virtue ethics for modern pastors and the souls they care for, this book proposes innovations for the craft of ministry in the theology of grace—how virtues radiate to tame strife and other destructive behaviors. It presents a comprehensive alternative to the top-down proclamations of "biblical counseling" approaches that try to impart, from an eclectic biblicist lens, cognitive authorities for consequential change. Instead, Christ's bottom-up practice of virtues heals and fulfills by focusing on neighbor first and subordinating the ego's strategic considerations—more graciously spreading God's will in ministry through participatory and experiential

knowledge. Virtuous pastoral ministries integrate the common grace of humanist learning to address the range of the care seeker's contemporary context—her upbringing, struggles, and affiliations. This book presents more the “how” than the “what” of pastoral theology: more how the dance of mutuality and chivalry enters the spiritual flow of healing metaphysical grace than the “what” of right “belief.” Even so, pastoral care from the virtue ethical approach inevitably reconsiders “vending machine” theologies, destructive doctrinal boundaries, and context-lite biblicisms. This presentation introduces how virtue ethics apply to ministry, the household, individual trauma and addictions, and the contemporary political and cultural arena.

Kingdom Manifesto Jason N. Yuh, 2021-08-16 Even a cursory read of the Gospel of Matthew makes clear that it is concerned with the identity of Jesus Christ. These meditations attempt not to focus on tangential topics that relate to Jesus, even though these are important. Rather, they seek to focus simply on who Jesus is. Because 2020 exposed the fragility, corruption, and misery of humanity, such a focus is not only welcome but sorely needed. Humanity does not merely require self-help books that provide practical steps for improvement or philosophical musings that explain away suffering. Humanity is in dire need of something outside of itself: a Savior. The authors of these chapters are soberly aware of this truth, and they resist the temptation to reduce Jesus to a miracle worker who provides temporary relief or a commendable example that is to be imitated. Instead, in their own distinctive ways, they affirm the bold and ever-urgent proclamation that Jesus is the exclusive Savior of all people.

George Washington Parke Custis Charles S. Clark, 2021-09-10 George Washington Parke Custis (1781-1857) was raised at Mount Vernon by George and Martha Washington. Young Wash appears in Savage's 1789 painting of the first presidential family, his small hand placed symbolically on a globe. He would later make his mark on the national landscape by building Arlington House on the Potomac. A poor student, he emerged as an agricultural reformer and sought-after Federalist orator. He championed the plights of Irish Americans and war veterans. An important memoirist, he wrote well-received theatrical works and produced paintings rich in historical detail. Inheriting much of the vast Custis fortune, he also became the

enslaver of more than 200 people. The slow march toward their emancipation became the central struggle of his life, particularly after his daughter's 1831 marriage to Robert E. Lee. This first full-length biography of Custis offers a 21st century reappraisal of life that dramatically bridged the American Revolution and the Civil War.

Satan's Counterfeit Healing Lawrence E. Burkholder, 2019-09-30 "The Christian church worldwide has been taken prisoner by Satan's counterfeit healing." This statement is based on the author's personal experience, modest exposure to the Toronto Blessing, observation of parachurch healing ministries, and extensive historical reconstructions. Satan's Counterfeit Healing presents and evaluates Satan's supernatural healing from the Paleolithic period (ca. 45000 BCE) to the contemporary church. The guiding thesis is that Satan and his demonic surrogates perform miracles which are evident as psi paranormal phenomena. These manifestations include physical and exorcistic supernatural healings. Paleolithic and Neolithic periods produced Great Mother goddess worship and healing, which have persisted ever since. These idolatries, combined with OT nature gods, were a backdrop to Jesus' true miracles. For two thousand years of church history there's been a tug-of-war between true and false healing. Mother goddess as Mariological shrine healing joined with natural and demonic magic, and esoteric energy psi. Alongside these the Holy Spirit has raised up genuine healers and their ministries. Modern healing is marked by energy counterfeits and faith healing, the latter especially accompanied by trance, false prophecy, and psi transformations. True divine healing can be recovered when Christians repudiate nature gods, reject false prophecy, and restore proper eschatology.

Performing the Gospel Deborah Sokolove, 2019-03-12 What is the difference between good worship and good entertainment? Too often, people disparage some aspect of worship by calling it "just entertainment" or "just a performance." Others say that they do not need to go to church because they have profound spiritual or even religious experiences at concerts, plays, movies, or dances. How is worship different from these performing arts? How is art different from entertainment? This book looks at the history of the performing arts both in worship and as worship, with particular attention to the attitudes that shape our ideas about both worship and entertainment. Working definitions of words like "art," "excellence," "liturgy," and "play" help to illuminate what different people mean when they use them in conversations about Christian worship. Putting theological, scriptural, and practical writings on worship and the performing arts in conversation with interviews with dancers, musicians, actors, preachers, and liturgical scholars, this volume is intended to help pastors, performers, and everyone who plans, leads, or cares about worship talk with one another in mutually respectful and helpful ways.

The Oxford Handbook of Expertise and Democratic Politics Gil Eyal, Thomas Medvetz, 2023 In The Oxford Handbook of Expertise and Democratic Politics, Gil Eyal and Thomas Medvetz have brought together a broad group of scholars who have engaged substantively and theoretically with debates regarding the nature of expertise and the social roles of experts to examine these areas within sociology and allied disciplines. The analyses take an historical and relational approach to the topic and are motivated by the sense that growing mistrust in experts represents a danger to democratic politics today. Bringing together investigations from social scientists, philosophers, and legal scholars into the political dimensions of expertise, this Handbook connects interdisciplinary work done in science and technology studies with the more classic concerns, topics, and concepts of sociologists of professions and intellectuals.

The Good-Enough Life Avram Alpert, 2023-09-19 How an acceptance of our limitations can lead to a more fulfilling life and a more harmonious society We live in a world oriented toward greatness, one in which we feel compelled to be among the wealthiest, most powerful, and most famous. This book explains why no one truly benefits from this competitive social order, and reveals how another way of life is possible—a good-enough life for all. Avram Alpert shows how our obsession with greatness results in stress and anxiety, damage to our relationships, widespread political and economic inequality, and destruction of the natural world. He describes how to move beyond greatness to create a society in which everyone flourishes. By competing less with each other, each of us can find renewed meaning and purpose, have our material and emotional needs met, and begin to lead more leisurely lives. Alpert makes no false utopian promises, however. Life can never be more than good enough because there will always be accidents and tragedies beyond our control, which is why we must stop dividing the world into winners and losers and ensure that there is a fair share of decency and sufficiency to go around. Visionary and provocative, *The Good-Enough Life* demonstrates how we can work together to cultivate a good-enough life for all instead of tearing ourselves apart in a race to the top of the social pyramid.

The Conceptual Worlds of the Fourth Gospel Charles B. Puskas, C. Michael Robbins, 2021-01-08 Over, under, and through John's story of Jesus are unforgettable ideas and concepts, profoundly simple and simply profound, for the author's own audience and beyond. These ideas did not originate in a vacuum. They have recurred and been repeated before and after the writing of the Fourth Gospel. For this reason we will examine the meaning of its words and themes in the context of its Jewish-Greco-Roman milieu. Much of our intertextual understanding will be derived from alleged parallels that involve comparisons of similar vocabulary and phrases, as well as parallel concepts and images from the Old Testament, the Dead Sea Scrolls, Philo, and other relevant writings. Such parallels will help to determine the meaning of a word or expression, the translation of a particular language, determining any direct influences upon the Fourth Gospel, parallel traditions, or the influence of its ideas, as a creative and inspiring work of later antiquity.

Powerful Girls Ann Muno, 2025-04-01 An invaluable guide to cultivating powerful, compassionate young women by nurturing confidence, identity, and a passion for justice. Girls and young women today need strong role models, mentors, and care providers to foster what society often undermines: a positive self-identity, critical thinking skills to navigate media influences, and a sense of belonging in a supportive community where girls and women uplift each other. In *Powerful Girls: Raising Strong, Just, and Compassionate Young Women*, Ann Muno identifies the crucial pieces of knowledge necessary to raise confident girls in a society that's often working against them. She examines the sexism, racism, and privilege that impact girls every day and shares innovative methods to teach basic concepts such as healthy girl culture, choice, identity, and leadership. In addition, Muno equips readers with strategies to help girls recognize their inherent worth, navigate societal pressures, and become change-makers. Through a wealth of stories, studies, and activities, *Powerful Girls* dives into the challenges girls face, identifies where their power diminishes, and reveals how they can reclaim their agency and confidence. By fostering a healthier culture where girls thrive, it paves the way for them to reshape the world.

Minority Serving Institutions National Academies of Sciences, Engineering, and Medicine, Policy and Global Affairs, Board on Higher Education and Workforce, Committee on Closing the Equity Gap: Securing Our STEM Education and Workforce Readiness Infrastructure in the Nation's Minority Serving Institutions, 2019-03-05 There are over 20 million young people of color in the United States whose representation in STEM education pathways and in the STEM workforce is still far below their numbers in the general population. Their participation could help re-establish the United States' preeminence in STEM innovation and productivity, while also increasing the number of well-educated STEM workers. There are nearly 700

minority-serving institutions (MSIs) that provide pathways to STEM educational success and workforce readiness for millions of students of color—and do so in a mission-driven and intentional manner. They vary substantially in their origins, missions, student demographics, and levels of institutional selectivity. But in general, their service to the nation provides a gateway to higher education and the workforce, particularly for underrepresented students of color and those from low-income and first-generation to college backgrounds. The challenge for the nation is how to capitalize on the unique strengths and attributes of these institutions and to equip them with the resources, exceptional faculty talent, and vital infrastructure needed to educate and train an increasingly critical portion of current and future generations of scientists, engineers, and health professionals. *Minority Serving Institutions* examines the nation's MSIs and identifies promising programs and effective strategies that have the highest potential return on investment for the nation by increasing the quantity and quality MSI STEM graduates. This study also provides critical information and perspective about the importance of MSIs to other stakeholders in the nation's system of higher education and the organizations that support them.

Conversations in Food Studies Colin R. Anderson, Jennifer Brady, Charles Z. Levkoe, 2016-09-30 Few things are as important as the food we eat. *Conversations in Food Studies* demonstrates the value of interdisciplinary research through the cross-pollination of disciplinary, epistemological, and methodological perspectives. Widely diverse essays, ranging from the meaning of milk, to the bring-your-own-wine movement, to urban household waste, are the product of collaborating teams of interdisciplinary authors. Readers are invited to engage and reflect on the theories and practices underlying some of the most important issues facing the emerging field of food studies today. *Conversations in Food Studies* brings to the table thirteen original contributions organized around the themes of representation, governance, disciplinary boundaries, and, finally, learning through food. This collection offers an important and groundbreaking approach to food studies as it examines and reworks the boundaries that have traditionally structured the academy and that underlie much of food studies literature.
