*We Are What We Sell* Danielle Sarver Coombs, Bob Batchelor, 2014-01-15 For the last 150 years, advertising has created a consumer culture in the United States, shaping every facet of American life—from what we eat and drink to the clothes we wear and the cars we drive. In the United States, advertising has carved out an essential place in American culture, and advertising messages undoubtedly play a significant role in determining how people interpret the world around them. This three-volume set examines the myriad ways that advertising has influenced many aspects of 20th-century American society, such as popular culture, politics, and the economy. Advertising not only played a critical role in selling goods to an eager public, but it also served to establish the now world-renowned consumer culture of our country and fuel the notion of the American dream. The collection spotlights the most important advertising campaigns, brands, and companies in American history, from the late 1800s to modern day. Each fact-driven essay provides insight and in-depth analysis that general readers will find fascinating as well as historical details and contextual nuance students and researchers will greatly

appreciate. These volumes demonstrate why advertising is absolutely necessary, not only for companies behind the messaging, but also in defining what it means to be an American.

**The Bulletproof Diet** Dave Asprey, 2014-12-02 In his mid-twenties, Dave Asprey was a successful Silicon Valley multimillionaire. He also weighed 300 pounds, despite the fact that he was doing what doctors recommended: eating 1,800

calories a day and working out 90 minutes a day, six times a week. When his excess fat started causing brain fog and food cravings sapped his energy and willpower, Asprey turned to the same hacking techniques that made his fortune to hack his own biology, investing more than \$300,000 and 15 years to uncover what was hindering his energy, performance, appearance, and happiness. From private brain EEG facilities to remote monasteries in Tibet, through radioactive brain scans, blood chemistry work, nervous system testing, and more, he explored traditional and alternative technologies to reach his physical and mental prime. The result? The Bulletproof Diet, an anti-inflammatory program for hunger-free, rapid weight loss and peak performance. The Bulletproof Diet will challenge—and change—the way you think about weight loss and wellness. You will skip breakfast, stop counting calories, eat high levels of healthy saturated fat, work out and sleep less, and add smart supplements. In doing so, you'll gain energy, build lean muscle, and watch the pounds melt off. By ditching traditional diet thinking, Asprey went from being overweight and sick in his twenties to maintaining a 100-pound weight loss, increasing his IQ, and feeling better than ever in his forties. The Bulletproof Diet is your blueprint to a better life.

Balut-fertilized duck or chicken eggs that have developed into fully formed embryos with feathers and beaks—is a delicacy which elicits passionate responses. Hailed as an aphrodisiac in Filipino culture, balut is often seen and used as an object of revulsion in Western popular culture. Drawing on interviews, participant observation, reality television programs, travel shows, food blogs, and balut-eating contests, Magat examines balut production and consumption, its role in drinking rituals, sex, and also the vampire-like legends behind it. Balut reveals how traditional foods are used in the performance of identity and ethnicity, inspiring a virtual online cottage industry via social media. It also looks at the impact globalization and migration are having on cultural practices and food consumption across the world. The first academic book on balut, this is essential reading for anyone in food studies, folklore studies, anthropology, and Asian
