Roman Special Forces and Special Ops Simon Elliott, 2023-06-30 Much has been written about the Roman army and the mighty legions that conquered their empire and then defended it for centuries against all comers. But little has been written about the men and units employed when something more subtle than the march of legions into pitched battle was required. This is the only book available dedicated to Roman special ops and the role of the *Speculatores*, *Exploratores*, *Protectores* and *Areani*. Simon Elliott reveals the kinds of special operations conducted by the Romans: tactical scouting ahead of the legions, covert strategic reconnaissance in neighboring states, espionage, assassination or abduction of dissidents and enemies, counter-insurgency, and close protection of Roman officials and commanders. While such missions were frequently executed by ad-hoc units or individuals detailed for that specific mission, the author goes on to reveal the evidence for the aforementioned specialist units. He concludes with an analysis of the extent to which these various forces corresponded to a modern conception of Special Forces. These men were the eyes and ears of the Empire, the deadly tip of the Roman sword.

NOLLYWOOD'S PATH TO ASCENSION: lessons From Hollywood's Rise Oluwasegun Babatunde, 2023-08-31 The science is strong, but a test is only as good as the men carrying it out, was said by Valery Legasov in the Chernobyl Mini-series. The quote resonates with me, as do the words, Art pieces are as formidable as the quality of work, people, and resources drawn to bring them to life. Motion pictures are among the most radical art forms, and their role as sources of entertainment on both small and big screens speaks volumes. For more than a century, people have been making movies, and this trend will continue as long as people exist. In Nigeria's Nollywood, much has been accomplished, and much more is awaited. Therefore, the need to caution, educate, and take bold steps is greatly warranted. Nollywood's Path To Ascension (NPTA) aims to provide practical guidance and steps to reach the zenith.

Crave : Animal Senses Series Book 15 Jacqueline Paige, 2024-11-25 Aurora wanted to live life her way. She may have been born with an animal living inside her, but it brought her no advantage or joy. In fact, it had brought her nothing but misery since the first time her body had shifted into a large fur-covered feline creature. After figuring out how to live without that part of her controlling her life, she settled in the city and started to build the life she wanted. For a short time, she thought she'd succeeded, until she noticed she was being followed and then witnessed a woman that resembled her being abducted, only to be murdered and discarded because they weren't Aurora. With no other choice, she goes to stay with her uncle in the middle of nowhere until she can find a way to live safely where she wants. Jake loved being a shifter. The freedom it gave him to race around, moving faster than two legs ever would, was the best thing ever. If it weren't for Ed and Beth taking him in when he was little after his family disappeared while on a trip back home, his life could have ended up much differently. He could have had to live the horrific way many of his kind did. Because of normal man, or one-forms, his kind were sold as pets and slaves. That was no way for anybody to live, normal or not. He was so proud of his friends for fighting to prevent that from ever happening again. To his surprise, he even enjoyed doing his part to help the alliance. In his opinion, every free shifter out there should do their part to help everyone who could be free and have a life without looking over their shoulders and fear of being taken.

Battle For Angola Al J. Venter, 2017-04-03 Following the publication of Al Venter's successful Portugal's Guerrilla Wars in Africa - shortlisted by the New York Military Affairs Symposium's 'Arthur Goodzeit Book Award for 2013' - his Battle for Angola delves still further into the troubled history of this former Portuguese African colony. This is a completely fresh work running to almost 600 pages including 32 pages of color photos, with the main thrust on events before and after the civil war that followed Lisbon's over-hasty departure back to the metropole. There are also several sections that detail the role of South African mercenaries in defeating the rebel leader Dr Jonas Savimbi (considered by some as the most accomplished guerrilla leader to emerge in Africa in the past century). There are many chapters that deal with Pretoria's reaction to the deteriorating political and military situation in Angola, the role of the Soviets and mercenaries in the political transition, as well as the civil war that followed. With the assistance of several notable military authorities he elaborates in considerable detail on South Africa's 23-year Border War, from the first guerrilla incursions to the last. In this regard he received solid help from the former head of 4 Reconnaissance Regiment, Colonel Douw Steyn, who details several cross-border Recce strikes, including the sinking by frogmen of two Soviet ships and a Cuban freighter in an Angolan deepwater port. Throughout, the author was helped by a variety of notable authorities, including the French historian Dr René Pélissier and the American academic and former naval aviator Dr John (Jack) Cann. With their assistance, he covers several ancillary uprisings and invasions, including the Herero revolt of the early 20th century; the equally troubled Ovambo insurrection, as well as the invasion of Angola by the Imperial German Army in the First World War. Former deputy head of the South African Army Major General Roland de Vries played a seminal role. It was he - dubbed 'South Africa's Rommel' by his fellow commanders - who successfully nurtured the concept of 'mobile warfare' where, in a succession of armored onslaughts 'thin-skinned' Ratel Infantry Fighting Vehicles tackled Soviet main battle tanks and thrashed them. There is a major section on South African Airborne - the 'Parabats' - by Brigadier-General McGill Alexander, one of the architects of that kind of warfare under Third World conditions. Finally, the role of Cuban Revolutionary Army receives the attention it deserves: officially there were almost 50,000 Cuban troops deployed in the Angolan war, though subsequent disclosures in Havana suggest that the final total was much higher.

Virtue : Animal Senses Book 14 Jacqueline Paige, 2024-06-04 The drama of her entire clan insisting on living close to one another was the reason Calla joined the Alliance team. She loved her family and clan but needed to see more than limited territory. It wasn't exciting being on the coordination team, but she was on the road and seeing new places. When asked to do more to help the teams track down those responsible for the abduction and imprisonment of their kind, Calla agreed without hesitation. She takes a chance when she has the opportunity to get closer to the traitors who betrayed their clan. It seemed like the thing to do at the time. Now, all she must do is figure out where to go from here— without getting herself killed in the process. Bear's childhood was not fun. His parents clearly hadn't thought through naming their lion-shifter son

Bear. As an adult, he'd come to realize that all the taunting had taught him that a sense of humor was better than fighting everyone. Since joining the Alliance teams, he'd had to work hard even to find a reason to smile. The atrocities shifters from all clans had suffered because of one-forms and traitors made him sick. After the teams accomplished some huge wins, he decided he was in this until all his kind were free. He was proud to do his part. Of course, if he happened to meet his mate while he traveled with the others, that was fine by him. He always wondered what sort of personality fate would give his other half and couldn't wait to find out. If she was like other women of his clan, that was all right too; he was a patient, accepting man.

At War with Women Jennifer Greenburg, 2023-02-15 *At War with Women* reveals how post-9/11 politics of gender and development have transformed US military power. In the mid-2000s, the US military used development as a weapon as it revived counterinsurgency in Iraq and Afghanistan. The military assembled all-female teams to reach households and wage war through development projects in the battle for hearts and minds. Despite women technically being banned from ground combat units, the all-female teams were drawn into combat nonetheless. Based on ethnographic fieldwork observing military trainings, this book challenges liberal feminist narratives that justified the Afghanistan War in the name of women's rights and celebrated women's integration into combat as a victory for gender equality. Jennifer Greenburg critically interrogates a new imperial feminism and its central role in securing US hegemony. Women's incorporation into combat through emotional labor has reinforced gender stereotypes, with counterinsurgency framing female soldiers as global ambassadors for women's rights. This book provides an analysis of US imperialism that keeps the present in tension with the past, clarifying where colonial ideologies of race, gender, and sexuality have resurfaced and how they are changing today.

Exodus of Spies Brian Landers, 2021-04-22 In Angola the largest tank battle since the second world war is taking place. South African troops are battling to preserve apartheid. After thirty years in British Intelligence Adam Joseff has retired to his stamp collection. His loyalty is beyond question. Until he is murdered in the Caribbean. Then the questions start. Ashley's War Gayle Tzemach Lemmon, 2015-04-21 The New York Times–bestselling account of an elite team of female soldiers is “compelling. . . . In battle as in life, these women refuse to quit” (Christian Science Monitor). In 2010, the Army created Cultural Support Teams, a secret pilot program to insert women alongside Special Operations soldiers battling in Afghanistan. Their presence had a calming effect on enemy households, but more importantly, the CSTs were able to search adult women for weapons and gather crucial intelligence. They could build relationships—woman to woman—in ways that male soldiers in an Islamic country never could. In Ashley's War, Gayle Tzemach Lemmon uses on-the-ground reporting and a finely tuned understanding of the complexities of war to tell the story of CST-2, a unit of women hand-picked from the Army to serve in this highly specialized role. The pioneers of CST-2 proved for the first time that women might be physically and mentally tough enough to become Special Ops. The price of professional acceptance was personal loss and social isolation: the only people who really understand the women of CST-2 are each other. At the center of this story is a friendship and the shared perils of up-close combat. At the heart of the team is the tale of a beloved and effective soldier, Ashley White. “An unforgettable story of female soldiers breaking the brass ceiling. . . . This book will inspire you.” —Sheryl Sandberg, #1 International bestselling author of *Lean In* “A tremendous story. . . . Very moving.” —The Daily Show with Jon Stewart “Ashley's War shares the remarkable stories of one of the first teams of women serving in the U.S. Army Special Operations

Command.” —Senator John McCain

Feminist Views from Somewhere Leslie Gardner, Frances Gray, 2016-12-08 *Feminist Views from Somewhere: Post-Jungian Themes in Feminist Theory* explores what and how Jungian thought contributes to feminist thinking. Broadly speaking, feminist thinking, or thinking by and about women as autonomous, intelligent and independent agents, has opened up scholarship through insightful, reflective critique and practice. This is the starting point of this collection from a range of theorists, interested in the multiple concerns of Jungian and analytical psychology. The contributors take a unique approach to Jungian thinking. Rather than focusing on its mythological aspects, the authors develop alternative, feminist approaches that enhance the appreciation of the possibilities for Jungian and post-Jungian studies. With a primarily theoretical orientation, the rigorous, critical approaches in the collection highlight the possibilities of imaginative Jungian theory. Divided into three parts, ‘Viewing Earth’, ‘Clinical Perspectives’ and ‘Literary Landscapes’, the chapters cover themes including embodiment, intersubjectivity, individuation and narrative. The contributors vividly reflect the range and diversity of opinions amongst women influenced by Jungian thought. *Feminist Views from Somewhere* is essential reading for academics and students of Jungian and post-Jungian studies, women’s studies and gender studies, as well as analytical psychologists in practice and in training.

Women Veterans G.L.A. Harris, R. Finn Sumner, M.C. González-Prats, 2018-03-14 Women who fight in wars also have to fight for their right to do so. But what are the obstacles impeding their progress in achieving equal status as both active service members and as veterans? This book, written by a team of female veterans and military scholars, demonstrates the ways in which women service members and veterans experience a unique set of challenges when attempting to both honorably serve their country and reintegrate into civilian society following military service. These challenges include – but are not limited to – discrimination, staggering rates of suicide, and barriers to obtaining treatment for military sexual trauma and other critical benefits through the U.S. Department of Veterans Affairs. *Women Veterans: Lifting the Veil of Invisibility* examines current service-related policies and gender in the military’s hierarchical power structure. Here, a confluence of white male privilege and entitlement, the culture of domination, and the effeminization of the enemy manifest themselves as a backlash against women, calling into question a woman’s agency and her very status as a citizen. Special attention in the book is paid to the civil-military divide, representative bureaucracy, and the function of the military and civilian justice systems. Moreover, the need for appropriate healthcare policies and structures is examined within a ‘wicked problems’ framework. The authors conclude that the responsibility for women veterans, and all veterans for that matter, must become a matter of compelling government interest. This ground-breaking book is required reading for practitioners of public policy and administration with an interest in military and veterans affairs, public health, NGOs and activist groups, as well as scholars of gender and public service, public personnel management, and nonprofit management.

Revenge-aroni Eirik Gumeny,2016-04-01 Six months ago, Thor, the former Norse God of Thunder – along with the motley crew of political clones and cyborgs and psychic squirrels he calls his friends – saved the world. And, in a wholly unprecedented move, this time the world stayed saved. The frozen head of Walt Sidney is not happy about that. Like, at all. The bodiless businessman has pit his two top men against each other and sent them after the group, in a contest to see who can out-murder who. Because vengeance is a dish best served lukewarm and out of a can, heated over the smoldering remains of your enemies. Also, vengeance should be eaten with an officially-licensed Lindsey Louse Spearin' Spork for maximum vengeance-ing. The fourth book in the EXPONENTIAL APOCALYPSE series, REVENGE-ARONI is smart, vulgar, and quite simply and with absolutely zero hyperbole, the single best post-apocalyptic book about borderline inept, mercenary heroes you will ever read. Filled with gallows humor and inventive swearing and run-on sentences, as well as sex, drugs, violence, and blatant attacks on artisanal coffee, REVENGE-ARONI will surely be looked back on as the piece of literature that saved humanity from both itself and the inevitable uprising of homicidal crab-people.

Deploying Feminism Stéfanie von Hlatky,2022-09-23 A detailed account, based on fieldwork and interviews, of how Women, Peace and Security norms are militarized and put at the service of operational effectiveness. International organizations and governments want to increase women's participation in military operations and peacebuilding. Gender equality is increasingly seen as the antidote to conflict, a key factor in achieving stability. While feminist activism inspired the emergence of these norms on gender and conflict, they were institutionalized through the Women, Peace and Security (WPS) agenda, with the military at the forefront of those changes. In *Deploying Feminism*, Stéfanie von Hlatky tells the story of how the military has been delegated authority to advance gender equality as part of their activities, while simultaneously tackling increasingly complex threats. Drawing upon fieldwork and interviews, she illustrates how NATO, the world's foremost alliance, has even embedded these ideas in the planning and execution of its missions. For troops deployed on NATO missions, this often means seeking out women in their operating area to improve intelligence gathering activities. While this helps the mission, does it help women and conflict-affected communities? Because of the military's focus on operational effectiveness above all else, von Hlatky argues that there is a distortion of WPS norms, as gender equality concerns fade into the background. Looking at NATO's ongoing operations in Iraq, Kosovo, and the Baltics, *Deploying Feminism* details the process by which Women, Peace and Security norms are militarized and put at the service of operational effectiveness. Further, it shows why an adjustment is necessary for gender equality to become a true planning priority.

Suffer the Children Lisa Black,2018-08-28 The investigative team hunts for a possible killer stalking a juvenile detention center in this crime thriller by the New York Times bestselling author. The body of fifteen-year-old Rachael Donahue—abandoned by society and violently unapproachable—was found at the bottom of a stairwell at Firebird, the secure facility for juvenile offenders in Cleveland. For forensics expert Maggie Gardiner and homicide detective Jack Renner,

Rachael's death comes with a disturbing twist—the girl may have been involved with a much older man. But Rachael's not the only resident at the center to come to a dead end. A ten-year-old “wild child” has overdosed in the infirmary. The back-to-back tragedies appear to be accidents. But Maggie and Jack suspect a cold-blooded murderer is carrying out a deadly agenda. Meanwhile, Maggie's ex-husband gets nearer to uncovering the secrets that she and Jack must hide—and that makes it even harder for them to protect a new and vulnerable victim from a killer with unfathomable demons.

Postfeminist War Mary Douglas Vavrus, 2018-12-10 By examining news and documentary media produced since September 11, 2001, Vavrus demonstrates that news narratives that include women use feminism selectively in gender equality narratives. She ultimately asserts that such reporting advances post-feminism, which, in tandem with banal militarism, subtly pushes military solutions for an array of problems women and girls face.
