**Report from a Last Survivor** Fred Harris, 2024-09-01 Fred Harris is the last surviving member of the Kerner Rights Commission, famously created by President Lyndon Johnson following the terrible riots, disorders, and violent protests that exploded in so many of America's cities in the "long hot summer" of 1967. He is the last survivor of the 1964 "Four Back Bench US Senators," which consisted of Walter Mondale of Minnesota, Joseph Tydings of Maryland, Fred Harris of Oklahoma, and Robert Kennedy of New York. He is also the senior surviving former member of the US Senate and one of two "last surviving" Democratic presidential candidates to run in 1976—the other being President Jimmy Carter Jr. Report from a Last Survivor tells Fred Harris's many stories: some serious, some funny, and all true. Each story forms a part of this report of a last survivor, a long look back over ninety-three years and counting of a rich life of public service and personal commitment.

*The Last Survivors* Bobby Adair, T. W. Piperbrook, 2014-09-30 THE LAST SURVIVORS Survival in Man's Second Dark Age Three hundred years after the fall of society, the last fragments of civilization are clinging to life, living in the ruins of the ancient cities in nearly-medieval conditions. Technology has been reduced to legend, monsters roam the forests, and fear reigns supreme. But that is just the beginning...The wind-borne spores are spreading, disfiguring men and twisting their minds, turning them into creatures that threaten to destroy the townships. And among the political and the religious, dissension is spreading. Through it all, a mother must protect her son...

**Eco-Teen Films** Robin L. Murray, Joseph K. Heumann, 2024-09-06 Illuminating the impacts of environmental disasters and climate crises globally, this book examines the experiences of teens grappling with eco-disasters and issues in films of the twenty-first century. With an emphasis on teen activism, international settings and filmmakers, and marginalized perspectives, this book showcases teens on film that are struggling with present and future everyday eco-disasters amplified by climate change. By highlighting and interrogating diverse genres of teen films in which young adults encounter, address, and battle environmental issues and calamities while also struggling with adolescent development, this book acknowledges the young adult point of view missing from most critical ecocinema research and underlines connections between the more complex 'coming-of-age' themes found in teen films with ecocinema themes and approaches. The films examined navigate increasingly realistic conditions, even in fantastical settings, as they showcase teens' relationships with and responses to environmental issues and eco-disasters. Emphasizing teen activism and under-represented intersectional perspectives outside Hollywood, it establishes the eco-teen film as a notable subgenre. This book will be of interest to students and scholars of film studies, ecocriticism, and environmental studies, especially those with a particular interest in ecocinema

and/or ecocritical readings of films.

Firsting and Lasting Jean M. O'Brien, 2010-05-10 Across nineteenth-century New England, antiquarians and community leaders wrote hundreds of local histories about the founding and growth of their cities and towns. Ranging from pamphlets to multivolume treatments, these narratives shared a preoccupation with establishing the region as the cradle of an Anglo-Saxon nation and the center of a modern American culture. They also insisted, often in mournful tones, that New England's original inhabitants, the Indians, had become extinct, even though many Indians still lived in the very towns being chronicled. In *Firsting and Lasting*, Jean M. O'Brien argues that local histories became a primary means by which European Americans asserted their own modernity while denying it to Indian peoples. Erasing and then memorializing Indian peoples also served a more pragmatic colonial goal: refuting Indian claims to land and rights. Drawing on more than six hundred local histories from Massachusetts, Connecticut, and Rhode Island written between 1820 and 1880, as well as censuses, monuments, and accounts of historical pageants and commemorations, O'Brien explores how these narratives inculcated the myth of Indian extinction, a myth that has stubbornly remained in the American consciousness. In order to convince themselves that the Indians had vanished despite their continued presence, O'Brien finds that local historians and their readers embraced notions of racial purity rooted in the century's scientific racism and saw living Indians as "mixed" and therefore no longer truly Indian. Adaptation to modern life on the part of Indian peoples was used as further evidence of their demise. Indians did not—and have not—accepted this effacement, and O'Brien details how Indians have resisted their erasure through narratives of their own. These debates and the rich and surprising history uncovered in O'Brien's work continue to have a profound influence on discourses about race and indigenous rights.

*Franklin's Fate* John Roobol, 2019-06-11 The 1845 North-West Passage expedition of Sir John Franklin in the ships HMS Erebus and HMS Terror, with a full company of 129 officers and men, none of whom ever saw England again, was one of the most heroic and courageous, maritime expeditions in history. I'm No Hero Henry Friedman, 2011-07-01 Henry Friedman was robbed of his adolescence by the monstrous evil that annihilated millions of European Jews and changed forever the lives of those who survived. When the Nazis overran their home town near the Polish-Ukrainian border, the Friedman family was saved by Ukrainian Christians who had worked at their farm. Henry, his mother, his younger brother, and a young schoolteacher—who had been hired by his father when Jews were forbidden to attend school—were hidden in a loft over the animal stalls at a neighbor's farm; his father hid in another hayloft half a mile away. When the family was liberated by the Russians after eighteen months in hiding, Henry, at age fifteen, was emaciated and too weak to walk. The Friedmans eventually made their way to a displaced persons camp in Austria where Henry learned quickly to wheel and deal, seducing women of various ages and nationalities and mastering the intricacies of dealing in the black market. In *I'm No Hero*, he confronts with unblinking honesty the pain, the shame, and the bizarre comedy of his passage to adulthood. The family came to Seattle in 1949, where Henry Friedman has made his home ever since. In 1988 he returned with his wife to Brody and Suchowola, where he succeeded in finding Julia Symchuk, who, as a young girl, had warned his father that the Gestapo was looking for him, and whose family had hidden the Friedmans in their loft. The following year he was able to bring Julia to Seattle for a triumphal visit, where she was honored in many ways, although, as Friedman writes, "in her own country she had never been honored with anything except hard work." Like many other survivors, Henry Friedman has found it difficult to confront his past. Like others, too, he has felt the obligation to bear witness. Now retired, he devotes much of his time to telling his story, which he believes is a message of hope, to thousands of schoolchildren throughout the Pacific Northwest. He has received national recognition for his role in establishing the United States Holocaust Museum in Washington, DC, and as a founder of the Washington State Holocaust Education Resource Center.

**Queer Objects** Guy Davidson, Monique Rooney, 2020-06-29 Pursuing the discursive or material effects of relational queerness, this book reflects on how objects can illuminate, affect, and animate queer modes of being. In the early 1990s the queer theorist Eve Kosofsky Sedgwick defined queer as "multiply transitive . . . relational and strange," rather than a fixed identity. In spite of this, much of the queer theoretical scholarship of the last three decades has used queer as a synonym for

anti-normative sexual identities. The contributions to this volume return to the idea of transitivity, exploring what happens when queer is thought of as a turning toward or turning away from a diverse range of objects, including bodily waste; frozen cats; archival ephemera; the writing of Virginia Woolf; the Pop art of Ray Johnson; the podcast S-Town; and Maggie Nelson's memoir *The Argonauts*. Relevant to those studying queer theory, this book will also be of wider interest to those researching identity and the way in which it is represented in a variety of artistic disciplines. This book was originally published as a special issue of *Angelaki*.

*An Introduction to Great Western Locomotive Development* Jim Champ, 2018-02-28 The first thought, when contemplating a new study of the Great Western Railway locomotive fleet, must surely be to ask what can there be left to say? But there is no single source which gives a general introduction to the Great Western locomotive fleet. There are monographs on individual classes, an excellent multi-volume detail study from the RCTS, and superb collections of photographs, but nothing that brings it all together. This work is intended to provide that general introduction. The volume begins with a series of short essays covering general trends in design development, whilst the main body of the volume covers individual classes. For each class there is a small table containing some principal dimensions and paragraphs of text, covering an introduction, renumbering, key changes in the development of the class and information on withdrawal. The volume concludes with appendices covering the development and types of standard boilers, the various numbering schemes used by the GWR, the arcane subject of locomotive diagrams and lot numbers, and a short reference on the many lines the GWR engulfed. The majority of illustrations are new profile drawings to a consistent format. Described as sketches, they are drawn to a consistent scale, but do not claim to be scale drawings. Much minor equipment has been omitted and the author has certainly not dared to include rivets! Although most are based around GWR weight diagrams, they are not simple traces of the original drawings. Detail has been added from other sources, components copied from different drawings and details have been checked against historical and modern photographs. One must also bear in mind that steam locomotives were not mass produced. Minor fittings frequently varied in position and changes were made over the locomotives' lifetimes. Nevertheless, this collection of drawings provides a uniquely consistent view of the GWR locomotive fleet.

**Textbook On Contract Law Including Specific Relief** Meena R.L., 2008

*Scribner's Magazine* Edward Livermore Burlingame, Robert Bridges, Alfred Sheppard Dashiell, Harlan Logan, 1906

**Creation, Migration, and Conquest** Fabienne L. Michelet, 2006-06-08 *Creation, Migration, and Conquest: Imaginary Geography and Sense of Space in Old English Literature* explores the Anglo-Saxons' spatial imaginaire; tracing its political, literary, and intellectual backgrounds and analysing how this imaginaire shapes perceptions and representations of

geographical space. The book elaborates new interpretative paradigms, drawing on the work of continental scholars and literary critics, and on complementing interdisciplinary scholarship of medieval imaginary spaces and their representations. It gathers evidence from both Old English verse and historico-geographical documents, and focuses on the juncture between traditional scientific learning and the symbolic values attributed to space and orientation. Combining close reading with an original theoretical model, *Creation, Migration, and Conquest* offers innovative interpretations of celebrated texts and highlights the links between place, identity, and collective identity.
