

# A Little Book Of Language David Crystal

## Henry David Thoreau

**A Little Book of Language** David Crystal, 2010-06-01 With a language disappearing every two weeks and neologisms springing up almost daily, an understanding of the origins and currency of language has never seemed more relevant. In this charming volume, a narrative history written explicitly for a young audience, expert linguist David Crystal proves why the story of language deserves retelling. From the first words of an infant to the peculiar modern dialect of text messaging, *A Little Book of Language* ranges widely, revealing language's myriad intricacies and quirks.

**A Little Book of Language** David Crystal, 2025-04-08 A lively journey through the story of language, from an infant's first word to the languages of the internet Language never leaves you alone. It's there in your head, helping you think. It's there to help you make relationships - and to break them. It's there to remind you who you are and where you come from. From the first words of an infant to texting and emojis, languages are full of mysteries and quirks. In this entertaining book, renowned author David Crystal sheds light on the development of unique linguistic styles, the origins of obscure accents, and the search for the first written word. *Little Histories - Inspiring Guides for Curious Minds*

*A Little Book of Language* David Crystal, 2011 A narrative history of language ranges from the first words of an infant to the modern dialect of text messaging, discussing linguistic styles, the origin of accents, and the search for the first written word.

Words on Words David Crystal, Hilary Crystal, 2000-10-15 From Homer (winged words) to Robert Burns (Beware a tongue that's smoothly hung) to Rudyard Kipling (Words are, of course, the most powerful drug used by mankind), writers from all over the world have put pen to paper on the inexhaustible topic of language. Yet surprisingly, their writings on the subject have never been gathered in a single volume. In *Words on Words*, David and Hilary Crystal have collected nearly 5,000 quotations about language and all its intriguing aspects: speaking, reading, writing, translation, verbosity, usage, slang, and more. As the stock-in-trade of so many professions—orators, media personalities, writers, and countless others—language's appeal as a subject is extraordinarily relevant and wide-ranging. The quotations are grouped thematically under 65 different headings, from *The Nature of Language* through *the Language of Politics* to *Quoting and Misquoting*. This arrangement enables the reader to explore a topic through a variety of lenses, ancient and modern, domestic and foreign, scientific and casual, ironic and playful. Three thorough indexes—to authors, sources, and key words—provide different entry points into

the collection. A valuable resource for professional writers and scholars, *Words on Words* is for anyone who loves language and all things linguistic.

*Vex, Hex, Smash, Smooch* Constance Hale, 2012-10-08 *Vex, Hex, Smash, Smooch* is more than just a writing handbook; it's a key to unlocking every writer's innate creativity by offering countless paths to verbal expressiveness. —San Francisco Chronicle Great sentences pivot on great verbs. In *Vex, Hex, Smash, Smooch*, Constance Hale, best-selling author of *Sin and Syntax*, zeroes in on verbs that make bad writing sour and good writing sing. Each chapter in *Vex, Hex, Smash, Smooch* features four sections: "Vex" tackles tough syntax, "Hex" debunks myths about verbs, "Smash" warns of bad writing habits, and "Smooch" showcases exemplary writing. A veteran journalist and writing teacher, Hale peppers her advice with pop-culture references and adapts her expertise for writers of every level. With examples ranging from the tangled clauses of Henry James and the piercing insight of Joan Didion to the punchy gerunds of the Coen brothers and the passive verbs of CEOs on trial, *Vex, Hex, Smash, Smooch* offers a reenergized take on the "little despot of the sentence."

*Making Meaning in English* David Didau, 2021-02-09 What is English as a school subject for? What does knowledge look like in English and what should be taught? *Making Meaning in English* examines the broader purpose and reasons for teaching English and explores what knowledge looks like in a subject concerned with judgement, interpretation and value. David Didau argues that the content of English is best explored through distinct disciplinary lenses – metaphor, story, argument, pattern, grammar and context – and considers the knowledge that needs to be explicitly taught so students can recognise, transfer, build and extend their knowledge of English. He discusses the principles and tools we can use to make decisions about what to teach and offers a curriculum framework that draws these strands together to allow students to make sense of the knowledge they encounter. If students are going to enjoy English as a subject and do well in it, they not only need to be knowledgeable, but understand how to use their knowledge to create meaning. This insightful text offers a practical way for teachers to construct a curriculum in which the mastery of English can be planned, taught and assessed.

Information Resources in the Humanities and the Arts Anna H. Perrault Ph.D., Elizabeth S. Aversa, Sonia Ramírez Wohlmuth, Cynthia J. Miller, Cynthia F. Miller, 2012-12-10 This familiar guide to information resources in the humanities and the arts, organized by subjects and emphasizing electronic resources, enables librarians, teachers, and students to quickly find the best resources for their diverse needs. Authoritative, trusted, and timely, *Information Resources in the Humanities and the Arts: Sixth Edition* introduces new librarians to the breadth of humanities collections, experienced librarians to the nature of humanities scholarship, and the scholars themselves to a wealth of information they might otherwise have missed. This new version of a classic resource—the first update in over a decade—has been refreshed to account for the myriad of digital resources that have rewritten the rules of the reference and research world, and been expanded to include significantly increased coverage of world literature and languages. This book is invaluable for a wide variety of users:

librarians in academic, public, school, and special library settings; researchers in religion, philosophy, literature, and the performing and visual arts; graduate students in library and information science; and teachers and students in humanities, the arts, and interdisciplinary degree programs.

**Linguistics for Singers** Gregory Camp, 2023-08-22 *Linguistics for Singers: An Introduction* is a textbook and manual that provides singers with a foundation in linguistic features of four major singing languages—English, Italian, French, and German—and shows how these features can be used to inform vocal performance and interpretation. Going beyond the basics of lyric diction, a grounding in linguistics enables student musicians to understand language holistically and more fully comprehend the music they are learning. The comparative approach to four common languages allows readers to readily grasp similarities and apply principles across vocal repertoire. Beginning with the sounds of a language and gradually moving up through larger levels of linguistic structure, from words to full texts, the chapters illustrate concepts using real examples from art songs and opera. The clear explanations enable readers new to linguistics to connect these concepts with their own musical practice. Designed for flexible use in courses on language and singing, lyric diction, repertoire studies, and collaborative piano, this book provides a vital resource for singers, vocal instructors, and conductors.

*Museums of Language and the Display of Intangible Cultural Heritage* Margaret J.-M. Sönmez, Maia Wellington Gahtan, Nadia Cannata, 2019-12-09 *Museums of Language and the Display of Intangible Cultural Heritage* presents essays by practitioners based in language museums around the world. Describing their history, mission, and modes of display, contributors demonstrate the important role intangible heritage can and should play in the museum. Arguing that languages are among our most precious forms of cultural heritage, the book also demonstrates that they are at risk of neglect, and of endangerment from globalisation and linguistic imperialism. Including case studies from across Europe, North America, Africa, and Asia, this book documents the vital work being done by museums to help preserve languages and make them objects of broad public interest. Divided into three sections, contributions to the book focus on one of three types of museums: museums of individual languages, museums of language groups - both geographic and structural - and museums of writing. The volume presents practical information alongside theoretical discussions and state-of-the-art commentaries concerning the representation of languages and their cultural nature. *Museums of Language and the Display of Intangible Cultural Heritage* is the first volume to address the subject of language museums and, as such, should be of interest to academics, researchers, and postgraduate students in the fields of museum and cultural heritage studies, applied linguistics, anthropology, tourism, and public education.

Play Among Books Miro Roman, Alice\_ch3n81, 2021-12-06 How does coding change the way we think about architecture? This question opens up an important research perspective. In this book, Miro Roman and his AI Alice\_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information. They convey knowledge in the form of a

project model that links the fields of architecture and information through two interwoven narrative strands in an “infinite flow” of real books. Focusing on the intersection of information technology and architectural formulation, the authors create an evolving intellectual reflection on digital architecture and computer science.

**Focusing on EFL Reading** Rahma Al-Mahrooqi, Adrian Roscoe, 2014-06-02 Reading, a complex and multi-faceted skill, is essential for life and academic success. While its mysteries still baffle first-language research, the nature of reading in a foreign language presents an even greater puzzle. However, given reading’s importance for EFL students who study their specializations in English, and whose future employment may depend on their competence in it, researchers must continue to investigate foreign language reading and devise ways of improving students’ capacity for it. Hence, this book, with its thorough coverage of up-to-date theory, practice and research, will be of great value in today’s educational context. As they strive to understand reading and help EFL students to acquire it, researchers and language teachers will find much of value here.

The Origin of Names, Words and Everything in Between Patrick Foote, 2021-10-12 Dive Into the Fun Facts Behind Names and Word Origins This is the BEsT Useless Knowledge I’ve come across!! Patrick is a great story teller in all things words and their origins!! —Amazon review #1 Bestseller in Words, Language & Grammar, Etymology The best-selling book is back in it’s second volume with more names, more words, and even more in-between than before! What’s in a name? The answer is far more complex and interesting than you may think. From the person behind the popular Youtube channel, NameExplain, comes the second volume of his best-selling book The Origin of Names, Words and Everything in Between. This new book is a fun, interesting and educational journey through the world of etymology. It covers a huge array of names from a variety of topic areas, and includes a bunch of random facts behind the names. From first names, to bodies of water—there’s no name big or small, important or obscure that won’t be explained. Find fun facts. Presented in a light and entertaining manner, The Origin of Names compels you to learn a ton of things you didn’t know you wanted to know. Unlike a dictionary, everything in this book is easy to understand and can be read from start to finish, or in short bursts. It’s also a lot more fun to read—Patrick explains each name with jokes and quips you’re bound to enjoy, and it’s full of pictures too! Be the know-it-all you always wanted to be. In The Origin of Names you’ll: Learn fascinating word origins and bizarre name meanings Be able to entertain yourself and friends with random facts Gain honor and renown for your unrivaled knowledge of etymology If you enjoyed books like Interesting Stories For Curious People, Stuff You Should Know, or The Great Book of American Idioms, then you’ll love The Origin of Names, Words and Everything in Between: Volume II.

**Prospect**, 2010

**The Story of English in 100 Words** David Crystal, 2012-03-27 The world’s foremost expert on the English language takes us on an entertaining and eye-opening tour of the history of our vernacular through the ages. In The Story of English in

100 Words, an entertaining history of the world's most ubiquitous language, David Crystal draws on one hundred words that best illustrate the huge variety of sources, influences and events that have helped to shape our vernacular since the first definitively English word—"roe"—was written down on the femur of a roe deer in the fifth century. Featuring ancient words ("loaf"), cutting edge terms that reflect our world ("twittersphere"), indispensable words that shape our tongue ("and," "what"), fanciful words ("fopdoodle") and even obscene expressions (the "c word"), David Crystal takes readers on a tour of the winding byways of our language via the rude, the obscure and the downright surprising. "From pre-eminent British linguist Crystal . . . comes this delightful history of the words we use (and some we've forgotten) and how we came to use them. . . . Crystal's enthusiasm for—and wealth of knowledge about—the ever-evolving English language makes this a must-read for word lovers." —Publishers Weekly (starred review)

Write to Sell : The Ultimate Guide to Copywriting Andy Maslen, 2019-07-15 How do you persuade someone to buy from you just by writing to them? What does effective copywriting look like - and sound like? Write to Sell has the answers! Read this book and you'll learn: The confidence and skills to write better copy New ways to gain readers' attention, respect and trust Hints and tips on turning selling skills into copywriting skills Simple techniques to improve the readability of your copy The impact of design and layout on copywriting The meaning of good written English - the rules you must follow, the rules you can safely ignore

Plurilingualism María Pilar Díez Martínez, Rebecca Place, 2012-12-31 The 2012 TESOL-SPAIN Convention held at the University of Deusto produced a number of relevant papers and presentations compiled in this book. The different papers deal with issues of concern for those teaching both English and in English, and show the progress made in this field to date. The authors are both national and international and their works tackle aspects such as motivation, new methodologies, new testing procedures and so forth.

*Talking Book Topics*, 2014

**A Little Book of Nature Themes** Henry David Thoreau, 1912

**The Contemporary Review**, 2011

**Concise Oxford Companion to the English Language** Thomas Burns McArthur, Roshan McArthur, 2005 From Sanskrit to Scouse, this book provides a single-volume source of information about the English language. The guide is intended both for reference and for browsing. The international perspective takes in language from Cockney to Creole, Aboriginal English to Zunderburg, Estuary English to Caribbean English and a historical range from Beowulf to Ebonics, Chaucer to Chomsky, Latin to the World Wide Web. There is coverage of a wide range of topics from abbreviation to Zeugma, Shakespeare to split infinitive and substantial entries on key subjects such as African English, etymology, imperialism, pidgin, poetry, psycholinguistics and slang. Box features include pieces on place-names, the evolution of the alphabet, the

story of OK, borrowings into English, and the Internet. Invaluable reference for English Language students, and fascinating reading for the general reader with an interest in language.
