The Shadow of Ulysses José Antonio Aguilar Rivera, 2000-01-01 Written by one of the most promising young scholars on the Mexican intellectual scene, *The Shadow of Ulysses* attempts to reconnect the American and Mexican intellectual experiences by exploring historical as well as contemporary issues in both countries. The book's first chapters discuss the relationship between American and Mexican intellectuals in the aftermath of the Mexican Revolution and offer a sociological comparison of the 1960s intellectual generations in the United States and Mexico. Later chapters provide a critical assessment of two prominent Mexican public intellectuals well known to the American reader: Carlos Fuentes and Jorge Castaneda. *The Shadow of Ulysses*, the Mexican edition of which was awarded the Alfonso Reyes National Prize, offers a rare glimpse into the development of contemporary Mexican thought and reveals the under-recognized intellectual ties that existed between our two countries in the first half of the twentieth century.

*Psychology of the Americas* Manuel Ramirez, 2013-10-22 *Psychology of the Americas: Mestizo Perspectives on Personality and Mental Health* presents the framework for a personality psychology and psychiatry of the Americas. This framework is based on the mestizo world view, a perspective that emerged from sociopolitical events which are unique to the development of many of the nations of the Americas. The word mestizo refers to the synthesis of native American and European people, cultures, and life styles. This book is divided into nine chapters and starts with a discussion of the concepts and principles of developmental, personality, community, and clinical psychology/psychiatry, which are reflected in the cultures of the indigenous peoples of North and South America, as well as the Caribbean. Considerable chapters offer some models that are based on the paradigms of diversity and synthesis, specifically a values/belief systems-cognitive styles framework based on research that has explored the relationship between traditionalism-modernism and cognitive styles. The specific models focus on individual development of pluralistic identities, the mental health of families coping with acculturation stress, person-environment fit of migrating individuals who are mismatched with institutions and agencies of the community, and on

intergroup and international relations in situations of conflict. The remaining chapters deal with the tenets and assumptions of a psychology and psychiatry, including theories and approaches which differ in many respects from the European world view-based personality psychology and psychiatry of the past. This book is of value to psychologists, psychiatrists, researchers, and students.

Democracy Denied, 1905-1915 Charles KURZMAN, Charles Kurzman, 2009-06-30 Kurzman proposes that the collective agent most directly responsible for democratization was the emerging class of modern intellectuals, a group that had gained a global identity and a near-messianic sense of mission following the Dreyfus Affair of 1898. Each chapter of this book focuses on a single angle of this story, covering all six cases by examining newspaper accounts, memoirs, and government reports.
