*Religious and National Discourses* Hanna Acke, Silvia Bonacchi, Charlotta Seiler Brylla, Ingo H. Warnke, 2023-08-07 The editors of this volume have combined their expertise in discourse, contradiction, minority and diversity studies to suggest a change of perspective from categorisations into societal minorities and majorities towards an analysis of marginalising and centralising discourses. For this purpose, we have gathered interdisciplinary-minded authors from linguistics, literary and religious studies, political and historical sciences. Their contributions focus on contradictions of religious and national belonging as well as intersections of religion and nation in many different regions of the world from the 18th century until today. While illustrating the diversity and contradictions of religious and national belonging across time and space, the chapters of the book contribute to an understanding of the dynamics of questions of belonging and the associated constant renegotiations of power within these discursive processes.

**The Calm Before the Storm** Delanie L. Stephenson, 2013-06 At the age of thirty-three, Delanie Stephenson was enjoying life with her husband, two kids, and a teaching job she loved. Blessings abounded, and Delanie thanked God for

each one. But it only took a single instant to change it all. A terrible headache struck her on June 6, 2012, and no amount of ibuprofen could take care of it. Delanie had a stroke similar to the stroke that Delanie's twenty-nine-year-old sister had suffered a year before. What were the odds of two sisters suffering the same ailment? Delanie's entire family was in a state of shock, and the news became worse when the doctors were unsure whether Delanie would walk or talk again. In her memoir, Delanie describes that summer of 2012 in detail, from those first harried days in the ICU to the tedious physical therapy as she slowly began to crawl her way back to recovery. Not only did Delanie walk and talk again; she emerged from her ordeal even stronger and decided that she would never again take life for granted. Filled with intimate details and the amazing resilience of the human spirit, *The Calm before the Storm* shares one woman's amazing journey from stroke victim to stroke survivor.

**Digital Racial** Yasmin Ibrahim, 2023-02-13 This book examines the intimate relationship between race and technologies and how digital platforms reabsorb racism as an internal arrangement within its modes of technical and affective architecture. Premising the idea that technologies supplant and mirror the 'logic' of racialization as mimetic instruments of social control and violence, the book interrogates the present arrangement of platform capital, and its modes of re-abstraction of race into its fibres and terrains of re-territorialization of the human spheres of social, economic and political life. If capitalism reframed and consolidated racialization through its re-territorialization and primitive accumulation producing continuities from colonization and imperialism, platformization and digital capital redrafts and redistributes its racial logic in new modes of reassembling social and economic life through data, machine learning, algorithms, software designs and in tandem its automaticity. In learning, refining, and accelerating its enterprise through the mimetic violence of producing difference, racism in the digital age calibrates intimately with power, Western rationality and the ubiquity of technologies within the everyday. If the non-hominization of alterity relied on discoveries of science and its conflation with truth and White supremacy, the sustained production and oppression of the 'inferior other' co-opted automaticity and technologies, reiterating our fascination with and our understanding of human progress as pegged to machines, as entities working in excess of human cognition and comprehension, connecting and responding to its ambient intelligence despite its material absence. The book underpins the configuration of power and White supremacy through its co-enterprise with technologies seeks to provide an alternative and decolonial approach to technology studies particularly new media and digital technological advancements, leveraging on the notion of the digital age as an era of acceleration of difference, experimentation and the production of alterity through overt and covert modes of surveillance, image recognition software, and algorithms which work in complicity with racial capital.

**Earl of Destiny** K.J. Jackson, 2024-06-12 Life as a backdrop has its rewards. Miss Brianna Silverton not only prefers life in the background—she depends on it. It is far easier to decide upon a proper husband for her younger sisterz that way, plus,

it keeps her rooted as the spinster she is determined to be. She has secrets to hide, and she isn't about to let another man touch her—never again. He knew it the very moment he saw her. A constant wanderer, the Earl of Luhaunt, Sebastian Rallager, never paused in one place for long. Not until the moment he saw Brianna across a crowded ballroom floor. Instinct had never failed Sebastian, and he knew it instantly—she was his. Now he just had to convince her of that fact. Fate always finds a way. Just as Sebastian begins to see that staying in one place might be exactly what he had been searching for, secrets of the past loom. Because Brianna is not only hiding herself from the world, she is hiding secrets that cannot see the light of day. Secrets that could destroy her, and the one man determined to love her.

**Democracy Lives in Darkness** Emily Van Duyn, 2022 Republicans and Democrats increasingly distrust, avoid, and wish harm upon those from the opposing party. They also increasingly reside among like-minded individuals and belong to social groups that share their political beliefs. While these factors can make it difficult to express a dissenting political opinion, digital and social media have given people new spaces for political discourse and community, and more control over who knows--and does not know--their political beliefs. In *Democracy Lives in Darkness*, Emily Van Duyn looks at how these changes in the political and media landscape affect democracy. Van Duyn discovers and follows a secret political organization of progressive women in a conservative community in rural Texas. Its members, a mixture of real estate agents, school teachers, business owners, and retired grandmothers, met in secret to protect themselves from social, economic, and even physical retaliation by their conservative neighbors, friends, and family. They discussed immigrant rights, women's reproductive rights, racism, and intolerance of those of different racial/ethnic and cultural backgrounds in their community. *Democracy Lives in Darkness* is about this group: their daily lives, their choices, and ultimately, their incubation. But it is also about what led them to meet in secret--the political prejudice and hostility that marginalizes and makes people afraid, and the growing political, social, and geographic cleavages that now make even mainstream dissent dangerous. Importantly, Van Duyn asks why mainstream partisans feel the need to hide their political beliefs from others, why they feel afraid of those from the opposite party, how they stay politically engaged in secret, and how this can transform them and their communities. The book challenges those who study democratic life to look beyond public political behavior and those who study big data and machine learning to consider the unique and meaningful qualities of studying the individual in context. Van Duyn challenges the assumption that the United States is a liberal democracy where ideas can be expressed freely and publicly. Rather, she suggests that democracy in the United States may exist in darkness, but, more optimistically, that it uses this darkness to move forward.

*Coltan* Michael Nest, 2011-04-11 In this book, Michael Nest unravels this complex story to offer a clear and compelling analysis of the relationship between coltan and violence in the Congo, and the battle between activists and corporations to reshape the global tantalum supply chain.

**Political Aesthetics of Global Protest** Pnina Werbner,2014-07-30 Explores the central role the aesthetic played in energising the massive mobilisations of young people, the disaffected, the middle classes and the apolitical silent majority in the North African and Middle Eastern uprisings with protest movements such as

Chase Darkness with Me Billy Jensen,2019-08-13 \*\*\*With an exclusive behind-the-scenes conversation between Billy Jensen and retired detective Paul Holes on the Golden State Killer, their favorite cold cases, and more\*\*\* Have you ever wanted to solve a murder? Gather the clues the police overlooked? Put together the pieces? Identify the suspect? Journalist Billy Jensen spent fifteen years investigating unsolved murders, fighting for the families of victims. Every story he wrote had one thing in common—they didn't have an ending. The killer was still out there. But after the sudden death of a friend, crime writer and author of *I'll Be Gone in the Dark*, Michelle McNamara, Billy became fed up. Following a dark night, he came up with a plan. A plan to investigate past the point when the cops had given up. A plan to solve the murders himself. You'll ride shotgun as Billy identifies the Halloween Mask Murderer, finds a missing girl in the California Redwoods, and investigates the only other murder in New York City on 9/11. You'll hear intimate details of the hunts for two of the most terrifying serial killers in history: his friend Michelle McNamara's pursuit of the Golden State Killer and his own quest to find the murderer of the Allentown Four. And Billy gives you the tools—and the rules—to help solve murders yourself. Gripping, complex, unforgettable, *Chase Darkness with Me* is an examination of the evil forces that walk among us, illustrating a novel way to catch those killers, and a true-crime narrative unlike any you've read before.

Tale of Darkness Ilkin Rustemzadeh,2022-09-01 Azerbaijan--this is a little country known for energy resources and human rights violations in the border of Europe and Asia. But it is in a very important geopolitical position. For this reason, in most cases, the democratic world remains silent on human rights abuses. Well, what are the realities of this country? Second North Korea or last secular Muslim country with beautiful buildings and great lights? A witness of what happens here, political prisoner, which is serving a sentence in the country's most severe prisons, writes the number one best-seller book in the recent years in his own country.

*The Politics of Religion, Nationalism, and Identity in Asia* Jeff Kingston,2019-07-30 This comprehensive book provides a

comparative analysis of religious nationalism in contemporary, globalized Asia. Exploring the nexus of religion, identity, and nationalism, Jeff Kingston assesses similarities and differences across the region, focusing on how religious sentiments influence how people embrace nationalism and with what consequences. Kingston shows that in the age of the internet this has become an especially volatile mix that breeds violence and poses a significant risk to secularism, diversity, civil liberties, democracy, and political stability. This extremist tide has swept across Asia with tragic results, as witnessed by 730,000 Rohingya Muslims driven out of Myanmar, 70,000 Kashmiris slaughtered in India, and Islamic State affiliates terrorizing Bangladesh, Indonesia, the Philippines, and Sri Lanka. Who could have imagined Buddhist monks inciting violence and intolerance or setting themselves on fire? Or pious vigilantes beheading atheist bloggers? Or clerics defeating and jailing powerful politicians on blasphemy allegations? And, what explains why one million Uighur Muslims are locked up in China? Examining the causes and consequences of these varied phenomena and what they portend, Kingston casts a sobering light on the prospects of the Asian Century.

How Information Warfare Shaped the Arab Spring Nathaniel Greenberg, 2019-06-03 On January 28 2011 WikiLeaks released documents from a cache of US State Department cables stolen the previous year. The Daily Telegraph in London published one of the memos with an article headlined 'Egypt protests: America's secret backing for rebel leaders behind uprising'. The effect of the revelation was immediate, helping set in motion an aggressive counter-narrative to the nascent story of the Arab Spring. The article featured a cluster of virulent commentators all pushing the same story: the CIA, George Soros and Hillary Clinton were attempting to take over Egypt. Many of these commentators were trolls, some of whom reappeared in 2016 to help elect Donald J. Trump as President of the United States. This book tells the story of how a proxy-communications war ignited and hijacked the Arab uprisings and how individuals on the ground, on air and online worked to shape history.

**Words for a Dying World** Hannah Malcolm, 2020-12-07 How do we talk about climate grief in the church? And when we have found the words, what do we do with that grief? There is a sudden and dramatic rise in people experiencing a profound sense of anxiety in the face of our dying planet, and a consequent need for churches to be better resourced pastorally and theologically to deal with this threat. *Words for a Dying World* brings together voices from across the world - from the Pacific islands to the pipelines of Canada, from farming communities in Namibia to activism in the UK. Author royalties from the sale of this book are split evenly between contributors. The majority will be pooled as a donation to ClientEarth. Contributors include Anderson Jeremiah, Azariah France-Williams, David Benjamin Blower, Holly-Anna Petersen, Isabel Mukonyora, Jione Havea, and Maggi Dawn.

**Trauma and Truth** Elena Pedigo Clark, 2023-01-31 The collapse of the USSR was relatively bloodless. The Chechen

Wars were not. A tiny nation on the edge of Russia, Chechnya brought one of the largest armies in the world to its knees. Trauma and Truth examines significant works about these wars by some of Russia's leading contemporary war authors, including Anna Politkovskaya, Arkady Babchenko, and Zakhar Prilepin. Combining close reading of the texts with descriptions of the authors' social and political activities and suggestions on how to teach these challenging authors and texts, Trauma and Truth traces the psychological effects of the wars on their participants, and concludes with a discussion of what this means for Russia today.

Indigenous African Communication and Media Systems in a Digitized Age Unwana Samuel Akpan, Eddah Mbula Mutua, 2024-12-16 Through a meticulous exploration of oral traditions and community-based media practices, Unwana Samuel Akpan, Eddah Mutua, and the contributors of Indigenous African Communication and Media Systems in a Digitized Age explore the intricate interplay between traditional African communication methods and the modern digital terrain to unveil how these age-old systems are continuously evolving in response to globalization and digital advancements. From the rhythmic beats of the talking drum to the vibrant tapestry of oral histories, this book traces how Indigenous African societies have historically disseminated knowledge and preserved cultural identities. It examines the transformative impact of digital technologies on these practices to explore the rise of social media, mobile connectivity, and online storytelling platforms within African contexts. Akpan and Mutua challenge conventional narratives of media development by highlighting the resilience and relevance of African cultural expressions in an increasingly interconnected world. This book is essential reading for Afrocentric scholars and those interested in media studies, cultural anthropology, and the dynamic intersections of tradition and technology.
