Who's Raising the Kids? Susan Linn, 2022-09-13 From a world-renowned expert on creative play and the impact of commercial marketing on children, a timely investigation into how big tech is hijacking childhood—and what we can do about it “Engrossing and insightful . . . rich with details that paint a full portrait of contemporary child-corporate relations.” —Zephyr Teachout, *The New York Times Book Review* Even before COVID-19, digital technologies had become deeply embedded in children’s lives, despite a growing body of research detailing the harms of excessive immersion in the unregulated, powerfully seductive world of the “kid-tech” industry. In the “must read” (*Library Journal*, starred review) *Who's Raising the Kids?*, Susan Linn—one of the world’s leading experts on the impact of Big Tech and big business on children—weaves an “eye-opening and disturbing exploration of how marketing tech to children is creating a passive, dysfunctional generation” (*Kirkus Reviews*, starred review). From birth, kids have become lucrative fodder for tech, media, and toy companies, from producers of exploitative games and social media platforms to “educational” technology and branded school curricula of dubious efficacy. Written with humor and compassion, *Who's Raising the Kids?* is a unique and highly readable social critique and guide to protecting kids from exploitation by the tech, toy, and entertainment industries. Two hopeful chapters—“Resistance Parenting” and “Making a Difference for Everybody’s Kids”—chart a path to allowing kids to be the children they need to be.

The Attention Merchants Tim Wu, 2017-09-19 From the author of the award-winning *The Master Switch*, who coined the term net neutrality—a revelatory, ambitious and urgent account of how the capture and re-sale of human attention became the defining industry of our time. Dazzling. —*Financial Times* Ours is often called an information economy, but at a moment when access to information is virtually unlimited, our attention has become the ultimate commodity. In nearly every moment of our waking lives, we face a barrage of efforts to harvest our attention. This condition is not simply the byproduct of recent technological innovations but the result of more than a century's growth and expansion in the industries that feed on human attention. Wu’s narrative begins in the nineteenth century, when Benjamin Day discovered he could get rich selling newspapers for a penny. Since then, every new medium—from radio to television to Internet companies such as Google and Facebook—has attained commercial viability and immense riches by turning itself into an advertising platform. Since the early days, the basic business model of “attention merchants” has never changed: free diversion in exchange for a moment of your time, sold in turn to the highest-bidding advertiser. Full of lively, unexpected storytelling and piercing insight, *The Attention Merchants* lays bare the true nature of a ubiquitous reality we can no longer afford to accept at face value.
