

History Of The Pakistan

Imran Khan

A Brief History of Pakistan James Wynbrandt, 2009 From the Publisher: A Brief History of Pakistan attempts to answer these questions in a concise yet thorough account. By illuminating the nation's past, this book offers readers a detailed perspective of Pakistan today and enables them to consider soundly how the country, once a birthplace of civilization, might change in the future.

Pakistan Ian Talbot, 1998 This study offers a detailed analysis of the problems which have beset Pakistan's nation-building enterprise since its birth in 1947. It explores why authoritarianism has prevailed over attempts to establish democracy and how foundational flaws and socio-political obstacles continue to obstruct the path to representative politics and national integration.

Pakistan Journal of History and Culture, 1996

A Short History of Hind-Pakistan Pakistan. History Board, 1960

Islam in Pakistan Muhammad Qasim Zaman, 2018-05-15 The first book to explore the modern history of Islam in South Asia The first modern state to be founded in the name of Islam, Pakistan was the largest Muslim country in the world at the time of its establishment in 1947. Today it is the second-most populous, after Indonesia. Islam in Pakistan is the first comprehensive book to explore Islam's evolution in this region over the past century and a half, from the British colonial era to the present day. Muhammad Qasim Zaman presents a rich historical account of this major Muslim nation, insights into the rise and gradual decline of Islamic modernist thought in the South Asian region, and an understanding of how Islam has fared in the contemporary world. Much attention has been given to Pakistan's role in sustaining the Afghan struggle against the Soviet occupation in the 1980s, in the growth of the Taliban in the 1990s, and in the War on Terror after 9/11. But as Zaman shows, the nation's significance in matters relating to Islam has much deeper roots. Since the late nineteenth century, South Asia has witnessed important initiatives toward rethinking core Islamic texts and traditions in the interest of their compatibility with the imperatives of modern life. Traditionalist scholars and their institutions, too, have had a prominent presence in the region, as have Islamism and Sufism. Pakistan did not merely inherit these and other aspects of Islam. Rather, it has been and remains a site of intense contestation over Islam's public place, meaning, and interpretation. Examining how facets of Islam have been pivotal in Pakistani history, Islam in Pakistan offers sweeping perspectives on what

constitutes an Islamic state.

Pakistan Ian Talbot, 2022-02-22 If Pakistan is to preserve all that is good about its country — the generosity and hospitality of its people, the dynamism of its youth — it must face the deterioration of its social and political institutions. Sidestepping easy headlines to identify Pakistan's true dangers, this volume revisits the major turning points and trends of Pakistani history over the past six decades, focusing on the increasing entrenchment of Pakistan's army in its political and economic arenas; the complex role of Islam in public life; the tensions between central and local identities and democratic impulses; and the effect of geopolitical influences on domestic policy and development. While Ian Talbot's study centres on Pakistan's many failures — the collapse of stable governance, the drop in positive political and economic development, and, most of all, the unrealised goal of securing a separate Muslim state — his book unequivocally affirms the country's potential for a positive reawakening. These failures were not preordained, Talbot argues, and such a fatalistic reading does not respect the complexity of historical events, individual actors, and the state's own rich resources. While he acknowledges grave crises still lie ahead for Pakistan, Talbot's sensitive historical approach makes it clear that favourable opportunities still remain for Pakistan, in which the state has a chance to reclaim its priorities and institutions and reestablish political and economic sustainability.

Pakistan Lawrence Ziring, 2003 In this probing book, a leading defense expert gives the inside story of Pakistan, telling of a country torn apart by catastrophic civil wars, dominated by the bullish military dictatorship of General Musarraf and struggling against the growth of extremist Islam.

Pakistan Reader in South Asian Studies and Director of the Center for South Asian Studies Ian Talbot, 2012-12 If Pakistan is to preserve all that is good about its country -- the generosity and hospitality of its people, the dynamism of its youth -- then it must face the deterioration of its social and political institutions. Sidestepping easy headlines to identify Pakistan's true dangers, this volume revisits the major turning points and trends of Pakistani history over the past six decades, focusing on the increasing entrenchment of Pakistan's army in its political and economic arenas; the complex role of Islam in public life; the tensions between central and local identities and democratic impulses; and the affect of geopolitical influences on domestic policy and development. While Ian Talbot's study centers on Pakistan's many failures -- the collapse of stable governance, the drop in positive political and economic development, and, most of all, the unrealized goal of securing a separate Muslim state -- his text unequivocally affirms Pakistan's potential for a positive reawakening. These failures were not preordained, Talbot argues, and such a fatalistic reading does not respect the complexity of historical events, individual actors, and the nation's own rich resources. Talbot's sensitive historical approach makes it clear that favorable opportunities still remain for Pakistan, in which the state has a chance to reclaim its priorities and institutions and reestablish political and economic sustainability.

Pakistan in the Twentieth Century Lawrence Ziring,1997 Pakistan in the Twentieth Century analyses both the vision and the reality of a South Asian polity. Beginning with an examination of the people and forces that shaped the construction of an independent and predominantly Muslim state within the subcontinent, this historical study describes the events and the work of the many personalities who influenced Pakistan's development in the fifty years following the transfer of power.

The History of Pakistan Iftikhar Malik,2008-07-30 Explores the history of the unique Indo-Muslim nation of Pakistan, from the ancient Indus Valley Civilization to coming of Islam to the ongoing and volatile feud with India over the region of Kashmir.

The Oxford Companion to Pakistani History Ayesha Jalal,2012-04-19 The Oxford Companion to Pakistani History has attempted to tackle a monumental and difficult task of compiling all aspects of Pakistani history which has been a hotly contested site for historians, students, as well as the general educated populace. The volume contains approximately 900 entries on a wide-range of topics written by well-known contributors possessing expertise in the relevant topic. Attempt has been made to make the Companion as user-friendly as possible.

Constitutional and Political History of Pakistan Hamid Khan,2005 This book analyzes constitutional development in Pakistan from its conception to the present day. It provides a case-by-case account of constitution making in Pakistan, and the inclusion of all pertinent documentation makes this essential reading for the student of law and politics. It also provides a liberal, humanitarian reading of the travails of law members and the role of politicians and bureaucrats in the implementation of the law.

A History of Pakistan Roger D. Long,2015 Although Pakistan may be a new state in an historical context, it possesses an ancient legacy and culture. This volume examines the history of Pakistan from its archaeological heritage and origins in the Islamic civilization in South Asia to its political, economic, and social characteristics since 1947. The dynamics of its volatile history have been conditioned by its chequered constitutional development. It has produced vivid and forceful leaders, both civilian and military, from the Bhuttos-Zulfikar Ali and his daughter Benazir-to the string of military rulers who have governed the country, namely, Ayub Khan, Yahya Khan, Zia ul-Haq, and the last military dictator, Pervez Musharraf. Religious and class differences and regional forces tear at the fabric of the nation and hinder the development of a stable democratic regime. In spite of these persistent retrograde forces, there is a remarkable commitment among the progressives and the educated of the country to move it forward. Pakistan possesses a remarkable history through its interplay of regional and economics forces, through wars and civil wars, through being a 'Front-Line State', and through nuclear confrontations in the form of nuclear tests performed by Pakistan as well as its neighbour India. This volume is a rich and authoritative guide to those turbulent decades as well as to the history of the Indian subcontinent.

A History of Pakistan and Its Origins Christophe Jaffrelot,2002 'A History of Pakistan and its Origins' is a

comprehensive, detailed and fully up-to-date study of one of the most diverse, volatile and strategically significant countries in the world today. Born in turmoil barely half a century ago, Pakistan seems to be in an interminable pursuit of its own identity and at the same time finds itself a pivotal player in world politics. Its short existence has witnessed much: four coups d' tat; the rise of Islam as a power; tensions between ethnic, religious and separatist movements; the Kashmir conflict and the near-constant war footing with India. This text charts half a century of nation-building in Pakistan, while at the same time placing the country within the context of its relations with the outside world.

Pakistan Imran Khan, 2011 Recounting Pakistan's history through the prism of the author's own memories, this title starts from its foundation, ripped out of the dying British Raj. It guides us through and comments on subsequent historical developments which shook the Muslim world - from the wars with India in 1965 and 1971, to the controversial war in Afghanistan.

A History of the Pakistan Army Brian Cloughley, 2002

History of Pakistan Army - Volume One- 1757 to 1948-Low Cost Black and White Agha Amin, 2017-05-11 This book is the history of the post 1947 Pakistan Army as seen through the eyes of an officer who served in this army for a certain period of time. Unlike many books it is not an attempt to glorify an organisation. It does not aim to prove that one religion is better than another is or one country is more pure than another is, while the other is an evil state. It does not project any party or political leader like many post 1958, post 1971 or post 1977 works pertaining to the history of the Pakistan Army do. There are no silent soldiers or visionary soldiers, projected as heroes, as has been done in many post 1988 books, financed off course by dirty money of US dollars siphoned off from the Afghan war! There are however some forgotten or neglected heroes, which this book seeks to, rehabilitate or at least endeavour to restore them to their rightful position. The prime motivation to write this book was disgust with deliberate distortion of history, to a lesser or greater degree in both Pakistan and India. The Indian military history situation is far better than Pakistan because a democratic system ensured that the Indian Army officers were more free to write critical accounts of all three wars, a right which was denied to their Pakistani counterparts by two paper tiger soldiers who not only destroyed all political institutions in Pakistan, but also inflicted incalculable loss on the army as an institution. Ironically a substantial part of Pakistani military history has been distorted by the negative effects of the deliberate efforts of military and civilian dictators who usurped power from 1958 to 1988, three fateful decades, which disrupted intellectual growth of the Pakistani nation and ensured that no progress is made in real intellectual terms in anything to do with history. When freedom of opinion was destroyed and intellectual growth was suffocated under able sycophantic civil servants and army officers in the role of intellectual watchdogs of Ayub Zia and Bhutto regimes. A significant part of the work deals with the various myths and misconception pertaining to Indo Muslim political and military history. Unfortunately modern authors without sufficient scrutiny accepted many of these myths, and

resultantly many Of these myths have acquired the status of reliable and irrefutable facts. Since the Pakistan Army like the Indian Army is essentially the continuation of the old British Indian Army, an effort has been made to highlight the formative and decisive influence of the colonial heritage on the post 1947 performance of both the armies. In this regard an attempt has been made to analyse the failures and successes of the post 1947 army in relation to the pre 1947 British operational and tactical concepts.

We've Learnt Nothing from History Mohammad Asghar Khan, 2005 Memoirs of a retired air marshal of Pakistan Air Force.

A Short History of India and Pakistan Thomas Walter Wallbank, 1951
