Apuntes de Enfermería Materno Infantil Rosana Tessa, 2014-02 El cuidado humano es la esencia de la Enfermería. Este cuidado se lleva a cabo mediante un conjunto de acciones destinadas a grupos de individuos y/o familias que tengan afecciones reales o potenciales de salud, o la orientación para mantener la misma. El proceso enfermero es un método sistemático y organizado para brindar cuidados individualizados de acuerdo con la alteración real o potencial de salud que presente cada persona. Este proceso constituye una herramienta técnico-científica en la atención que se brinda a cada individuo, en particular durante el ciclo vital. Para ello, el enfermero debe contar con conocimientos teóricos que sirvan de base y respalden su práctica. El objetivo principal es que el estudiante sea el protagonista de su aprendizaje, que a partir de la teoría, pueda fortalecer su capacidad de análisis, de búsqueda de nuevos materiales y de investigación para realimentar su profesión basada en principios éticos, de equidad, respeto y autodeterminación. Este libro intenta brindar al estudiante una base de conocimientos teóricos sobre Enfermería Materno Infantil.
