**Sofia's Life** Lucas C. Jasso,2011-12-28 This story describes the trials and tribulations of one of the many unknown Texas heroines. There is great fear, sorrow, struggle, uncertainty, romance, history, and joy. The story is about a woman named Sofia. She did not sport a pistol, crack a whip, or handle a rope as a few frontier women did during the latter part of the 1800's and early 1900's when there was border banditry. It is a true story about a woman with no education, who could not read or write. She had an accounting system of using knots on a string and created a few Moms and Pop stores. The story is told as seen through the eyes of baby boy up to his teenage years in the military during the Viet Nam War when she passed away. Born in 1887 she lived through the silent films to the talking motion pictures, Mexican Revolution, that affected the Texas/Mexico border, the initiation of Social Security, the Gusher Age which was the Texas oil boom, and the following wars: World war I, World war II, along with the (Unterseeboot) U-boats which sank ships in the Gulf of Mexico and patrol pretty close to the shores of South Texas, Korean conflict, and the Vietnam conflict. She saw the invention of television. Sofia with her life experiences weathered the great depression, which began with the crash of Wall Street of the month of October 1929. She got to know of the prohibition era, which governed the national ban on the sale, manufacture and transportation of alcohol, in place from 1920 to 1933 mandated by the 18th amendment, civil rights movement, cold war, arms race, and space race. She was always keeping up with the current events by radio and television that affected American lives. As time passed she got to witness the first man in space and the first man on the moon by watching one modern marvel, which was the television. Sofia had no schooling but was knowledgeable of the law. She knew that it was imperative that her boys (Husband, sons, grandsons, and great grandsons) register for the draft. There is some description in this story about the atrocities committed by the Texas Rangers, border Bandits, wild Indians, The Mexican American or Chicano movements, some of the migrant issues, a couple of comical situations, and addresses education. There is some content about the turbulent times of the 60's and 70's. Sofia raised her children, grandchildren, and finally her oldest great grandson. She was tough as nails and would not put up with anyone's nonsense. Sofia's Life describes the heart breaking hardships encountered by Sofia.

Principled Pragmatism in Mexico's Foreign Policy Rafael Velazquez-Flores,2022-07-16 This book explores Mexico's

foreign policy using the 'principled pragmatism' approach. It describes and explains main external actions from the country's independence in the nineteenth century to Andrés Manuel López Obrador's administration. The principal argument is that Mexico has resorted to principled pragmatism due to geographic, historical, economic, security, and political reasons. In other words, the nation uses this instrument to deal with the United States, defend national interests, appease domestic groups, and promote economic growth. The key characteristics of Mexico's principled pragmatism in foreign policy are that the nation projects a double-edged diplomacy to cope with external and domestic challenges at the same time. This policy is mainly for domestic consumption, and it is also linked to the type of actors that are involved in the decision-making process and to the kind of topics included in the agenda. This principled pragmatism is related to the nature of the intention: principism is deliberate and pragmatism is forced; and this policy is used to increase Mexico's international bargaining power.

**War in Spain** David Jorge, 2020-11-26 This work covers the international importance of the War in Spain through the two organizations that marked the multilateral action towards the conflict: The League of Nations and the Non-Intervention Committee. France and the United Kingdom diverted both deliberations as well as decision-making processes and mechanisms from Geneva. Non-intervention was appeasement's specific variable applied to Spain. Despite its name, it meant an intervention, depriving the Spanish government from its own defense while the fascist governments provided massive and regular support to the rebels. The League was damaged in its authority through the violation of its Covenant in Manchuria and Abyssinia. Once the War in Spain began, non-intervention was articulated with the main objective to confine the conflict to the Spanish borders. To this end, the designation of the conflict as a civil war (not a mere nominal nor anecdotal issue) in both London and Geneva was essential. By abandoning the Spanish democracy and foreclosing the collective security system, European democracies were also removing all that stood between their own societies and another world war. The failure of the collective security system that the League was supposed to safeguard, prompted by the impossibility of reconciling the British-led policy of appeasement with active anti-fascism, led to a climate of collective insecurity, during which arose a Second World War. This was precisely the main objective to avoid in the international order established in 1919 after the major collective catastrophe on a worldwide scale – soon to be overcome as that. The scholarship herein will prove essential for scholars of the interwar years' crisis, twentieth-century Spanish history and international relations.

**Arbitrating Empire** Allison Powers, 2024 Arbitrating Empire uncovers how ordinary people used arbitral claims commissions to challenge state violence across the United States Empire during the first decades of the twentieth century and why the State Department attempts to erase their efforts remade modern international law.

**Adventures in Research** Howard J. Wiarda, 2006

*Gender, Families, and State* Jyl J. Josephson, 1997 This insightful and original book is the first to examine the relationship

between families and the state in the United States, both in theory and in practice, using child support policy as a lens of analysis. Josephson cogently presents the origins, evolution, and organization of federal child support programs and persuasively demonstrates how some child support enforcement policies, rather than increasing women's access to economic resources, expand government and social control over the beneficiaries. Drawing on the literature of both feminist political theory and public policy implementation, Josephson analyzes the impact of family law and social welfare policies through several empirical case studies. This is important reading for anyone interested in political theory, public policy, and women's relationship to the state.

**The Transnational Construction of Mayanness** Fernando Armstrong-Fumero, Ben Fallaw, 2023-05-15 The Transnational Construction of Mayanness explores how US academics, travelers, officials, and capitalists contributed to the construction of the Maya as an area of academic knowledge and affected the lives of the Maya peoples who were the subject of generations of anthropological research from the mid-nineteenth century to the present. Expanding discussions of the neocolonial relationship between the US and its southern neighbors and emphasizing little-studied texts virtually inaccessible to those in Mexico and Central America, this is the first and only set of comparative studies to bring in US-based documentary collections as an enriching source of evidence. Contributors tap documentary, ethnographic, and ethnoarchaeological sources from North America to expand established categories of fieldwork and archival research conducted within the national spaces of Mexico and Central America. A particularly rich and diverse set of case studies interrogate the historical processes that remove sources from their place of production in the "field" to the US, challenge the conventional wisdom regarding the geography of data sources that are available for research, and reveal a range of historical relationships that enabled US actors to shape the historical experience of Maya-speaking peoples. The Transnational Construction of Mayanness offers rich insight into transnational relations and suggests new avenues of research that incorporate an expanded corpus of materials that embody the deep-seated relationship between Maya-speaking peoples and various gringo interlocutors. The work is an important bridge between Mayanist anthropology and historiography and broader literatures in American, Atlantic, and Indigenous studies. Contributors: David Carey, M. Bianet Castellanos, Matilde Córdoba Azcárate, Lydia Crafts, John Gust, Julio Cesar Hoil Gutierréz, Jennifer Mathews, Matthew Watson

*Jenkins of Mexico* Andrew Paxman, 2017-04-03 In the city of Puebla there lived an American who made himself into the richest man in Mexico. Driven by a steely desire to prove himself-first to his wife's family, then to Mexican elites-William O. Jenkins rose from humble origins in Tennessee to build a business empire in a country energized by industrialization and revolutionary change. In *Jenkins of Mexico*, Andrew Paxman presents the first biography of this larger-than-life personality. When the decade-long Mexican Revolution broke out in 1910, Jenkins preyed on patrician property owners and bought up substantial real estate. He suffered a scare with a firing squad and then a kidnapping by rebels, an episode that almost

triggered a US invasion. After the war he owned textile mills, developed Mexico's most productive sugar plantation, and helped finance the rise of a major political family, the Ávila Camachos. During the Golden Age of Mexican cinema in the 1940s-50s, he lorded over the film industry with his movie theater monopoly and key role in production. By means of Mexico's first major hostile takeover, he bought the country's second-largest bank. Reputed as an exploiter of workers, a puppet-master of politicians, and Mexico's wealthiest industrialist, Jenkins was the gringo that Mexicans loved to loathe. After his wife's death, he embraced philanthropy and willed his entire fortune to a foundation named for her, which co-founded two prestigious universities and funded projects to improve the lives of the poor in his adopted country. Using interviews with Jenkins' descendants, family papers, and archives in Puebla, Mexico City, Los Angeles, and Washington, Jenkins of Mexico tells a contradictory tale of entrepreneurship and monopoly, fearless individualism and cozy deals with power-brokers, embrace of US-style capitalism and political anti-Americanism, and Mexico's transformation from semi-feudal society to emerging economic power.

*Blood Matters* Masha Gessen, 2009-11-11 A National Book Award winner's personal journey through the ethical dilemmas and unsettling choices raised by the new frontier of DNA testing. Several years after Masha Gessen's mother died of breast cancer, she discovered she too had the BRCA1 gene mutation, which predisposes women to high rates of ovarian and breast cancer. Her doctors gave her narrow options: surgical removal of her breasts and ovaries or living with the likelihood of one day developing cancer. As Gessen wrestled with her own health decisions, she sought more information about the implications of genetic testing from a variety of sources—ranging from others faced with her same dilemma to medical researchers, historians, and religious thinkers. With concerns both practical and philosophical, personal and societal, her inquiry led her across the globe, with stops in Israel, Russia, Austria, and the United States. Weaving her own story into her journalistic research, Gessen offers insight into how knowledge that was once unimaginable now shapes our lives. *Blood Matters* explores not only the decisions we must make in our physical and emotional health, but also the ethical choices we face when choosing spouses or having children. "Valuable reading to almost anyone facing a huge health decision, not only for the literary commiseration it offers, but also for the inspired example of medical sleuthing on one's own behalf that it provides. Gessen keeps an inflammatory topic at room temperature, writing elegantly and without self pity." —The New York Times Book Review

*Cultural Representations of Feminicidio at the US-Mexico Border* Nuala Finnegan, 2018-07-18 Since the early 1990s, the repeated murders of women from Ciudad Juárez, Mexico have become something of a global cause célèbre. *Cultural Representations of Feminicidio at the US-Mexico Border* examines creative responses to these acts of violence. It reveals how theatre, art, film, fiction and other popular cultural forms seek to remember and mourn the female victims of violent death in the city at the same time as they interrogate the political, legal and societal structures that produce the crimes. Different

chapters examine the varying art forms to engage with Ciudad Juárez's feminicidal wave. Finnegan discusses Àlex Rigola's theatrical adaptation of Roberto Bolaño's novel 2666 by Teatre Lliure in Barcelona as well as painting about the victims of feminicidio by Irish painter Brian Maguire. There is analysis of documentary film about Ciudad Juárez, including Lourdes Portillo's acclaimed *Señorita Extraviada* (2001). The final chapter turns its attention to writing about feminicide and examines testimonial and crime fiction narratives like the mystery novel *Desert Blood: The Juárez Murders* by Alicia Gaspar de Alba, among other examples. By drawing on a range of artistic responses to the murders in Ciudad Juárez, *Cultural Representations of Feminicidio at the US-Mexico Border* shows how art, film, theatre and fiction can unsettle official narratives about the crimes and undo the static paradigms that are frequently used to interpret them.

*Educación Y Tecnologías* Daniel Desiderio Borrego Gómez, Daniel Cantú Cervantes, Hugo Isaías Molina Montalvo, Rogelio Castillo Walle, 2019-09-26 El vertiginoso avance de las ciencias tecnológicas y pedagógicas ha generado un conocido binomio de innovación investigativa y aplicativa que suscita nuevos trayectos de desarrollo para mejorar el entendimiento y la intervención de la práctica educativa en todos los niveles del sistema educativo mexicano. La presente obra tiene como propósito ofrecer al lector un compendio de capítulos reflexivos divididos en dos grandes ejes: el primero que trata sobre aquellos aportes investigativos que se han desarrollado en beneficio de la mejora educativa y el segundo que aborda la línea emergente de las tecnologías en la educación. *Ellas. Las mujeres del 68* Susana Cato, 2019-10-23 Entre los tantos fenómenos sociales que sacudieron a México, y al resto del mundo, en la segunda mitad del siglo XX, uno de los más trascendentes, por sus repercusiones a largo plazo, fue sin duda el de los movimientos estudiantiles populares de 1968, En muchos y muy diversos puntos del planeta la explosión de

rebeldía juvenil acabó por trastocar el orden establecido, que nunca volvió a ser el mismo. A más de 50 años de distancia se pueden valorar sus logros políticos, sociales y culturales. En el Movimiento, la participación de las mujeres fue crucial gracias a su lucidez, su capacidad de tomar decisiones, su objetividad y entre tantas otras cosas importantes, su ternura y su sentido del humor, una combinación explosiva. En Ellas. Las mujeres del 68. Susana Cato reúne una larga serie de entrevista con testigos, protagonistas o participantes involuntarias, quienes, desde la milicia, la prisión, el arte callejero o la simple vida cotidiana nos transmiten la huella que dejó en ellas una de las mayores tragedias sociopolíticas del México contemporáneo.

Slave Life in Rio de Janeiro, 1808-1850 Mary C. Karasch,2019-01-29 Rio de Janeiro in the first half of the nineteenth century had the largest population of urban slaves in the Americas—primary contributors to the atmosphere and vitality of the city. Although most urban historians have ignored these inhabitants of Rio, Mary Karasch's generously illustrated study provides a comprehensive description and analysis of the city's rich Afro-Cariocan culture, including its folklore, its songs, and accounts of its oral history. Professor Karasch's investigation of the origins of Rio's slaves demonstrates the importance of the Central Africaness of the slave population to an understanding of its culture. Challenging the thesis of the comparative mildness of the Brazilian slave system, other chapters discuss the marketing of Africans in the Valongo, the principal slave market, and the causes of early slave mortality, including the single greatest killer, tuberculosis. Also examined in detail are adaptation and resistance to slavery, occupations and roles of slaves in an urban economy, and art, religion, and associational life. Mary C. Karasch is Associate Professor of History at Oakland University in Rochester, Michigan. Originally published in 1987. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press.
