Silvana Veinberg

Educacion de Sordos Marina Simon,2003-08 Incluye más de veinte artículos escritos por reconocidos académicos y profesionales de Argentina, Uruguay, Brasil y Chile. Es una obra que aborda debates actuales de la educación de sordos, la educación en general y la educación intercultural bilingüe. Aspectos sociológicos, ideológicos, lingüística, diversidad, didáctica, lengua escrita, gerenciamiento, políticas educativas e inclusión escolar, son algunos de los temas abordados en una compilación que no debe faltar en la biblioteca de los educadores y profesionales que trabajan con la minoría sorda.

Sign Languages of the World Julie Bakken Jepsen,Goedele De Clerck,Sam Lutalo-Kiingi,William B. McGregor,2015-10-16 Although a number of edited collections deal with either the languages of the world or the languages of particular regions or genetic families, only a few cover sign languages or even include a substantial amount of information on them. This handbook provides information on some 38 sign languages, including basic facts about each of the languages, structural aspects, history and culture of the Deaf communities, and history of research. This information will be of interest not just to general audiences, including those who are deaf, but also to linguists and students of linguistics. By providing information on sign languages in a manner accessible to a less specialist audience, this volume fills an important gap in the literature.

Estrategias de prealfabetización para niños sordos Silvana Veinberg,2005

Sign Bilingualism Carolina Plaza Pust,Esperanza Morales López,2008 This volume provides a unique cross-disciplinary perspective on the external ecological and internal psycholinguistic factors that determine sign bilingualism, its development and maintenance at the individual and societal levels. Multiple aspects concerning the dynamics of contact situations involving a signed and a spoken or a written language are covered in detail, i.e. the development of the languages in bilingual deaf children, cross-modal contact phenomena in the productions of child and adult signers, sign bilingual education concepts and practices in diverse social contexts, deaf educational discourse, sign language planning and interpretation. This state-of-the-art collection is enhanced by a final chapter providing a critical appraisal of the major issues emerging from the individual studies in the light of current assumptions in the broader field of contact linguistics. Given the interdependence of research, policy and practice, the insights gathered in the studies presented are not only of scientific interest, but also bear

important implications concerning the perception, understanding and promotion of bilingualism in deaf individuals whose language acquisition and use have been ignored for a long time at the socio-political and scientific levels.

Arquitectura de la escuela de sordos Maria Ignacia Massone,Marina Simon,Juan Carlos Druetta,2003-08 Una mirada desde ciencias sociales sobre los sordos y su educación. Se trata de repensar para qué, cómo, dónde, qué y a quiénes enseñamos. Arquitectura supone un encuentro entre variables normativas, contextuales, poblacionales, etc. y el modelo ideal. Los autores se proponen deconstruir supuestos y usar esta metáfora para pensar en algunas dimensiones de la escuela de sordos. Se presenta un modelo educativo intercultural multilingüe y sus fundamentos. Una obra que capitaliza años de investigación en el área y la sólida experiencia de tres especialistas de primera línea.

Estatuto jurídico de las lenguas de señas en el derecho español José Gabriel Storch de Gracia y Asensio,2018-09-17 Esta monografía desvela la situación jurídica actual de las personas con discapacidad auditiva, analizando temas importantísimos para que las personas discapacitadas puedan desenvolverse en la sociedad con la misma naturalidad y efectividad que el resto de los ciudadanos. Los autores aportan ideas que permitan a las personas con discapacidad auditiva ejercer con plenitud los derechos que les reconocen las normas publicadas en el Boletín Oficial del Estado.

Manos a la obra: lengua de señas, comunidad sorda y educación Miroslava Cruz-Aldrete,2015-03-24 Las investigaciones que componen el presente volumen giran en torno a tres ejes principales: el estudio de las lenguas de señas, la comunidad sorda y la educación del sordo; y abordan aspectos tales como la organización cerebral de las lenguas de señas, sus aspectos estructurales, la comunicación mediática, aspectos históricos y la situación actual y futura de la enseñanza, entre otros. Los autores nos presentan una muestra de temas que se han discutido desde hace décadas en este ámbito. Si bien provienen de diferentes disciplinas y ámbitos de estudio e investigación, así como de diferentes universidades nacionales y extranjeras, tienen en común el interés por la comunidad sorda y su lengua. Es de destacar la participación de compañeros y colaboradores sordos en estas investigaciones, va por ellos y para ellos. Participan:Héctor Chávez Rivera, Miroslava Cruz-Aldrete, Johan Cristian Cruz Cruz, Mónica Curiel, Ma. del Pilar Fernández-Viader, Ignacio Garnica-Dovala, María Ignacia Massone, Ana María Ojeda Salazar, Jordi Serrat Manén, Carlos Vera Flores, Miguel Ángel Villa-Rodríguez

Conversaciones Psicoterapeuticas Con Personas Sordas El Uso de la Lengua de Señas Para El Diseño de Entrevistas Eficaces Gustavo Rubinowicz,2009-02 Si preguntasen de que se trata este libro, se podría decir que el tema central es la sordera y las consecuencias psicológicas que provoca; sin embargo, sobre todas las cosas, el texto explora los conflictivos encuentros y el complejo uso de la relación de poder que resulta de la interacción lingüística cotidiana entre niños sordos y padres oyentes, alumnos sordos y docentes oyentes, y pacientes sordos y profesionales oyentes. El autor ya no discute acerca de la lengua de señas, sino que, por el contrario, la utiliza como herramienta central de todo su trabajo clínico. Este escrito es la consecuencia de su quehacer en escuelas, hospitales, juzgados y su consultorio privado, en la

Argentina y paises limitrofes, en la atencion de personas sordas y sus familias. Alli, Rubinowicz se constituye en un puente linguistico entre familiares que hablan lenguas diferentes: espanol y lengua de senas. Este libro explica y sustenta claramente un desarrollo teorico de los espacios relationales que van desde el diagnostico de la sordera y el apego excesivo a la lengua oral, el analisis de las modalidades pedagogicas y sus consecuencias psicolinguisticas, hasta los movimientos, funcionales o no, de los procesos familiares. Algunas de las preguntas frecuentes y nodales que surgen en esta singular practica psicoterapeutica con sordos son: a que elemento o elementos, a que formas del lenguaje (de los consultantes) debe prestarse especial atencion para establecer buenos vinculos empaticos y comunicativos con ellos? Entonces, como puede utilizarse la lengua de senas para conversar e incluir en el mismo acto a los familiares oyentes? El autor brinda herramientas de conocimientos teoricos con ejemplos concretos en diversos ambitos: educativo, familiar, judicial y psicoterapeutico, donde las conversaciones abiertas, los equipos reflexivos y la lengua de senas son sustanciales. Engrirse con el lenguaje Rafael Saldivar Arreola,Luis Daniel Escobar Lopez Dellamary,Andres Acosta Felix,Miroslava Cruz Aldrete,Erik Franco Trujillo,Sergio Ibanez Cerda,Clementina Merced Yolanda Lastra y Villar y Garcia Gomez,Pedro Martin Butragueno,Alfonso Medina Urrea,Armando Mora Bustos,Alejandra Itzel Ortiz Villegas,Niktelol Palacios Cuahtecontzi,antonio Reyes Perez,Veronica Reyes Taboada,Ignacio Rodriguez Sanchez,Julio Cesar Serrano Morales,Gerardo Eugenio Sierra Martinez,2025-01-07 Celebro con la Universidad de Sinaloa este volumen dedicado a la memoria de Everardo Mendoza. Nada más justo que varios de sus amigos y alumnos se hayan reunido para recordarlo, mostrando su aprecio y, en varios casos, su papel en la investigación contemporánea acerca de la lengua española en Sinaloa en particular, en el Noroeste en general. Como comentan Rafael Saldívar Acosta y Antonio Reyes Pérez en su contribución a este volumen, «es indudable que una de las aportaciones más importantes en la destacada labor de Everardo Mendoza fue la consolidación del habla del noroeste como una variante dialectal legítima, con rasgos emblemáticos y con situaciones de contacto particulares que la diferencian de otras variantes y la sitúan como un habla atrayente, aunque, lastimosamente, poco representativa del español mexicano». Su valoración es justa: Everardo Mendoza no solo consolidó el interés por el español del noroeste mexicano, sino que dejó una herencia de datos y exposiciones cuyo valor para su conocimiento es imperecedero: desde *El habla de Sinaloa*, materiales para su estudio, en colaboración con Maritza López Berriós (1997), *El léxico de Sinaloa* (2002), «Notas sobre el español del Noroeste» (2004), *El habla de Culiacán* (2011), *Como dicen en el pueblo: ¡Ya dilo!*: acercamientos al español sinaloense (2014); y su discurso de ingreso a la Academia Mexicana de la Lengua, titulado «Léxico, identidad y diccionario» hasta, finalmente, el Diccionario del léxico regional de Sinaloa, lamentable e injustamente bloqueada su edición en esa Academia, además de muchos artículos y cuatro novelas.

Mas alla del silencio santiago hanza,2022-11-05 Este libro cuenta la historia vivida por Santiago, una persona que perdió la audición a los casi 2 años por una bacteria que le causó una “artritis séptica”, y su posterior incorrecta medicación aplicada, motivo por el cual se quedó Sordo de por vida. Durante su historia, luchó con el doble de esfuerzo con dos audífonos y, luego, con un implante coclear. Esto fue así a pesar del cansancio que le generó demostrar a las personas, que tanto les cuesta aceptar, que su idioma natural es la Lengua de Señas Argentina (LSA), aparte del uso del aparato auditivo. Él quería librarse de su problema personal para recuperar la paz, sin depender de los límites que le impusieran las creencias, las ideologías y las filosofías. En este proceso, influyó su familia, que tomó las decisiones necesarias para dar lo mejor a su hijo y que recibió recomendaciones tanto de algunos/as médicos/as como de fonoaudiólogas/os. Lo que una persona Sorda necesita —al igual que cualquier otra— es vivir una gran aventura para tener la posibilidad de ser feliz.

Simplified Signs: A Manual Sign-Communication System for Special Populations, Volume 1. John D. Bonvillian,Nicole Kissane Lee,Tracy T. Dooley,Filip T. Loncke,2020-07-30 Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages. It is the culmination of over twenty years of research and development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor skills required to form each sign, and by ensuring that each sign visually resembles the meaning it conveys. Volume 1 outlines the research underpinning and informing the project, and places the Simplified Sign System in a wider context of sign usage, historically and by different populations. Volume 2 presents the lexicon of signs, totalling approximately 1000 signs, each with a clear illustration and a written description of how the sign is formed, as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities, cerebral palsy, autism, or aphasia, it may also assist the communication needs of a wider audience – such as healthcare professionals, aid workers, military personnel , travellers or parents, and children who have not yet mastered spoken language. The system also has been shown to enhance learning for individuals studying a foreign language. Lucid and comprehensive, this work constitutes a valuable resource that will enhance the communicative interactions of many different people, and will be of great interest to researchers and educators alike.

Se invocan los derechos de las personas con epilepsia , y de dificil diagnostico como el Lupus y Transtorno Celiatico, donde se describen un conjunto de normas tendientes a cubrir sus necesidades terapeúticas prescriptas y no ser objeto de discriminaciones. Dentro de la diversidad como servicio cultural como desafíos futuros el eje de un nuevo desarrollo de un turismo, deporte e indumentaria adaptada de resolución de sus demandas de colocar en un plano de igualdad de oportunidades dentro del entorno donde nos desenvolvemos con su correlato normativo vigente, y se incluyen aportes de proyectos de construcción de una mayor participación ciudadana.

Language Typology and Historical Contingency Balthasar Bickel, Lenore A. Grenoble, David A. Peterson, Alan Timberlake, 2013-12-15 What is the range of diversity in linguistic types, what are the geographical distributions for the attested types, and what explanations, based on shared history or universals, can account for these distributions? This collection of articles by prominent scholars in typology seeks to address these issues from a wide range of theoretical perspectives, utilizing cutting-edge typological methodology. The phenomena considered range from the phonological to the

morphosyntactic, the areal coverage ranges in scale from micro-areal to worldwide, and the types of historical contingency range from contact-based to genealogical in nature. Together, the papers argue strongly for a view in which, although they use distinct methodologies, linguistic typology and historical linguistics are one and the same enterprise directed at discovering how languages came to be the way they are and how linguistic types came to be distributed geographically as they are.

El lenguaje de la convivencia Gustavo Fulco, 2025-01-20 El concepto de inclusión sugiere que algo está afuera, excluido y necesita estar integrado. Propongo que hablemos de convivencia, reconociendo que todas las personas, con o sin discapacidad, forman parte intrínseca de la sociedad, sin necesidad de incorporarse a un espacio al que ya pertenecen. La comunicación en las organizaciones es fundamental para fomentar un entorno de convivencia, debiendo transformarse en espacios accesibles y respetuosos con la diversidad. En el contexto de la discapacidad, la implementación de estrategias de comunicación efectivas no solo garantiza la accesibilidad de la información, sino que también promueve la participación activa y el reconocimiento pleno de las personas con discapacidad. Este enfoque ayuda a eliminar barreras, tanto físicas como sociales, facilitando un ambiente de trabajo colaborativo donde todas las voces pueden ser escuchadas y valoradas, contribuyendo así a la equidad y al bienestar organizacional. Las bibliotecas (caso de estudio referencial) han sido históricamente guardianas del conocimiento y la cultura, enfrentando actualmente el desafío de adaptarse a una sociedad diversa y en constante transformación.

¿Por qué? 101 Questions About Spanish Judy Hochberg, 2016-10-20 ¿Por qué? 101 Questions about Spanish is for anyone who wants to understand how Spanish really works. Standard textbooks and grammars describe the what of Spanish - its vocabulary, grammar, spelling, and pronunciation - but ¿Por qué? explains the why. Judy Hochberg draws on linguistic principles, Hispanic culture, and language history to answer questions such as: Why are so many Spanish verbs irregular? -

Why does Spanish have different ways to say you? - Why is h silent? - Why doesn't Spanish use apostrophes? - Why does Castilian Spanish have the th sound? Packed with information, guidance, and links to further research, *¿Por qué?* is an accessible study guide that is suitable for Spanish students, instructors, native speakers, and the general reader. It is a valuable supplementary text for serious students of Spanish at all levels, from beginning to advanced. *¿Por qué?* also covers topics usually left to specialized books, including the evolution of Spanish, how children and adults learn Spanish, and the status of languages that co-exist with Spanish, from Catalan to Spanish sign language to the indigenous languages of Latin America.
