The Work of Forgetting Stephane Symons,2018-12-14 For over fifty years the concept of memory has played a crucial role in a large number of academic and societal debates. *The Work of Forgetting: Or, How Can We Make the Future Possible?* draws attention to the limits of the academic field of memory studies. It argues that the faculty of memory offers an inadequate response to the challenges of the present. The book sets up a dialogue between the philosophies of forgetting that underlie the writings of Friedrich Nietzsche, Walter Benjamin and Gilles Deleuze, and the philosophies of memory that inform the work of Sigmund Freud, Martin Heidegger and Hannah Arendt. It builds on the idea that history is inseparable from a type of transience that cannot be counter-acted by the preserving work of memory and develops a new understanding of the phenomenon of forgetting in which the passage of time is asserted in thought and thus made productive.

Hans Jonas Daniel M. Herskowitz,Elad Lapidot,Christian Wiese,2024-11-28 This book offers new perspectives on the early and formative years of the German-Jewish philosopher Hans Jonas, through innovative studies of his German and Hebrew work in pre-war Germany and Palestine. Covering all facets of Jonas's early work, the book brings together leading scholars to explore key conceptual, historical, genealogical, and biographical contexts. Some of the main topics examined include his deep intellectual history of Western thought and its origins in late antiquity through the category of Gnosis, the intellectual influence of Heidegger, Bultmann, Husserl, and Spengler, his relation to Christian theology, and his interest in Judaism and Zionism. Existing research on his early work is not only limited in size but also often methodologically deficient, for it is common to interpret the early in light of the late and as teleologically leading to it. By introducing new materials and addressing new questions, this book offers innovative perspectives on Jonas's intellectual project as a whole and provides a historical and conceptual foundation for further scholarly explorations of his oeuvre. Providing fresh insights into the work of

one of the twentieth century's most influential philosophers, the book will appeal to students and researchers working in intellectual history, Jewish studies, and religion.

Contemplation and Freedom Benedict R. Shoup, Mary Frohlich, 2025-04-22 How does prayer shape action? How does sustained engagement in deep prayer shape our very freedom to act? This volume explores the relationship between Christian contemplative prayer and the exercise of freedom. Over the past half century, the desire for a better integration of spirituality and theology has emerged as a significant theme in theological writing. While the question of freedom has not been absent from this discourse, this volume highlights it by bringing it to the very center of the conversation. Eleven theologians explore the dialectical relationship between contemplation and freedom by engaging with a wide array of sources ranging from Maximus the Confessor to Edith Stein, from Howard Thurman to Bernard Lonergan, from the Tiberine martyrs to M. Shawn Copeland. This symphony of voices unveils the methodological fruitfulness of placing contemplative prayer at the center of life, theory, and practice.

Postmodern Philosophy and the Scientific Turn Dorothea Olkowski, 2012-04-23 What can come of a scientific engagement with postmodern philosophy? Some scientists have claimed that the social sciences and humanities have nothing to contribute, except perhaps peripherally, to their research. Dorothea E. Olkowski shows that the historic link between science and philosophy, mathematics itself, plays a fundamental role in the development of the worldviews that drive both fields. Focusing on language, its expression of worldview and usage, she develops a phenomenological account of human thought and action to explicate the role of philosophy in the sciences. Olkowski proposes a model of phenomenology, both scientific and philosophical, that helps make sense of reality and composes an ethics for dealing with unpredictability in our world.

Kafka and the Universal Arthur Cools, Vivian Liska, 2016-07-25 Kafka's work has been attributed a universal significance and is often regarded as the ultimate witness of the human condition in the twentieth century. Yet his work is also considered paradigmatic for the expression of the singular that cannot be subsumed under any generalization. This paradox engenders questions not only concerning the meaning of the universal as it manifests itself in (and is transformed by) Kafka's writings but also about the expression of the singular in literary fiction as it challenges the opposition between the universal and the singular. The contributions in this volume approach these questions from a variety of perspectives. They are structured according to the following issues: ambiguity as a tool of deconstructing the pre-established philosophical meanings of the universal; the concept of the law as a major symbol for the universal meaning of Kafka's writings; the presence of animals in Kafka's texts; the modernist mode of writing as challenge of philosophical concepts of the universal; and the meaning and relevance of the universal in contemporary Kafka reception. This volume examines central aspects of the interplay between philosophy and literature.

The Book of Dead Philosophers Simon Critchley, 2008 Diogenes died by holding his breath. Plato allegedly died of a lice infestation. Diderot choked to death on an apricot. Nietzsche made a long, soft-brained and dribbling descent into oblivion after kissing a horse in Turin. From the self-mocking haikus of Zen masters on their deathbeds to the last words (gasps) of modern-day sages, *The Book of Dead Philosophers* chronicles the deaths of almost 200 philosophers—tales of weirdness, madness, suicide, murder, pathos and bad luck. In this elegant and amusing book, Simon Critchley argues that the question of what constitutes a 'good death' has been the central preoccupation of philosophy since ancient times. As he brilliantly demonstrates, looking at what the great thinkers have said about death inspires a life-affirming enquiry into the meaning and possibility of human happiness. In learning how to die, we learn how to live.

Original Forgiveness Nicolas de Warren, 2020-12-15 In *Original Forgiveness*, Nicolas de Warren challenges the widespread assumption that forgiveness is always a response to something that has incited it. Rather than considering forgiveness exclusively in terms of an encounter between individuals or groups after injury, he argues that availability for the possibility of forgiveness represents an original forgiveness, an essential condition for the prospect of human relations. De Warren develops this notion of original forgiveness through a reflection on the indispensability of trust for human existence, as well as an examination of the refusal or unavailability to forgive in the aftermath of moral harms. De Warren engages in a critical discussion of philosophical figures, including Martin Heidegger, Hannah Arendt, Mikhail Bakhtin, Edmund Husserl, Gabriel Marcel, Emmanuel Levinas, and Jean Améry, and of literary works by William Shakespeare, Fyodor Dostoevsky, Heinrich von Kleist, Simon Wiesenthal, Herman Melville, and Maurice Sendak. He uses this discussion to show that in trusting another person, we must trust in ourselves to remain available to the possibility of forgiveness for those occasions when the other person betrays a trust, without thereby forgiving anything in advance. Original forgiveness is to remain the other person's keeper—even when the other has caused harm. Likewise, being another's keeper calls upon an original beseeching for forgiveness, given the inevitable possibility of blemish or betrayal.

Worldly Shame Manu Samnotra, 2020-10-01 Does shame have any role in politics? Far too often, shame is used as a weapon to dominate those who lack social power. For which reason, it is often regarded with skepticism by its many critics. But in an era where lying in order to get ahead in political contests seems to go unpunished by voters, where the sale of life-saving drugs is increased to astronomical proportions in the pursuit of profits, and where daily infractions against the dignity of individuals is both widespread and quickly forgotten, the seeming lack of shame threatens to undermine the shared values on which a democratic world depends. Drawing on the political thought of Hannah Arendt, especially her writings on Jewish and world politics, *Worldly Shame* constructs a political category of shame that can help us respond to the crises of the present moment. "Worldly shame" can return to us our sense of judgment, can be an inducement to action, and is a panacea for a world torn apart by horrors that diminish humanity. By developing a capacity for "worldly shame," we can create

political spaces that are hospitable to a plurality of voices and viewpoints, and which can thus be a bulwark against the world-destroying trends that engulf our world every day.

The Bloomsbury Companion to Arendt Peter Gratton, Yasemin Sari, 2020-10-01 Hannah Arendt's (1906-1975) writings, both in public magazines and in her important books, are still widely studied today. She made original contributions in political thinking that still astound readers and critics alike. The subject of several films and numerous books, colloquia, and newspaper articles, Arendt remains a touchstone in innumerable debates about the use of violence in politics, the responsibility one has under dictatorships and totalitarianism, and how to combat the repetition of the horrors of the past. The Bloomsbury Companion to Arendt offers the definitive guide to her writings and ideas, her influences and commentators, as well as the reasons for her lasting significance, with 66 original essays taking up in accessible terms the myriad ways in which one can take up her work and her continuing importance. These essays, written by an international set of her best readers and commentators, provides a comprehensive coverage of her life and the contexts in which her works were written. Special sections take up chapters on each of her key writings, the reception of her work, and key ways she interpreted those who influenced her. If one has come to Arendt from one of her essays on freedom, or from yet another bombastic account of her writings on Adolph Eichmann, or as a student or professor working in the field of Arendt studies, this book provides the ideal tool for thinking with and rediscovering one of the most important intellectuals of the past century. But just as importantly, contributors advance the study of Arendt into neglected areas, such as on science and ecology, to demonstrate her importance not just to debates in which she was well known, but those touched off only after her death. Arendt's approaches as well as her concrete claims about the political have much to offer given the current ecological and refugee crises, among others. In sum, then, the Companion provides a tool for thinking with Arendt, but also for showing just where those thinking with her can take her work today.

Mind and the Body Politic Elisabeth Young-Bruehl, 2025-08-01 First published in 1989, *Mind and the Body Politic* is a collection of Elisabeth Young-Bruehl's twelve essays and lectures on political theory, psychoanalysis, feminism, and the theory of biography. It is a must read for students and researchers of political philosophy, psychology, and sociology.

Possibilities of Place in Continental Thought Jussi Palmusaari, Nicolas Schneider, 2024-09-05 Exploring the critical potential of place in continental philosophy, *Possibilities of Place in Continental Thought* tests the political and ontological valences of this concept to go beyond the limits of existing geographical and phenomenological approaches. Considering place as emergent, relational and enveloping, or in connection to passage, becoming or redemption, the contributions to this volume point to the possibilities inherent in philosophical uses of place. By rejecting a singular and homogenous theory of place, this collection collapses the dichotomies that tend to characterize the discourse on place in favour of a plural conceptualization. It draws attention to the spatial and temporal dynamics within varying theoretical and historical contexts

and moves the field forward in significant and vital ways.

Euphoria and Symposia Kieran Bonner, 2025-06-10 *Euphoria and Symposia* explores the relationship between euphoria, desire, and well-being in the human practices of drinking and thinking, both phenomena in which seeking more – more alcohol, more knowledge – can be understood, ambiguously, as simultaneously positive and negative. Drinking leads to both euphoria and depression and is potentially destabilizing for both the individual and the collective. While medical science understands it is risky for our health (dependency, addiction, illness), anthropology sees drinking as contributing to communal celebration (euphoria, sociability). Since health and celebration are both desirable goods, Kieran Bonner suggests that it is this balancing act – our desire for what is better and good, our preference for one thing over another – that creates ambiguity, revealing a grey zone that is fundamental to a fuller understanding of well-being. In a series of case studies, revealing intricacies and ambiguities not usually picked up in typical scientific, philosophical, or sociological discourses, Bonner posits well-being as harmony, requiring nuanced judgments about the various things that humans desire, including wealth, health, beauty, power, vitality, leisure, pleasure, love, and wisdom. Informed by a creative synthesis of Socratic interrogation, hermeneutic perspectives drawn from post-phenomenological thinkers such as Hans-Georg Gadamer and Hannah Arendt, and distinctive perspectives found in the tradition of reflexive sociology, *Euphoria and Symposia* asserts that reconciling unlimited desire with the finite nature of the human condition is essential for the understanding and enjoyment of life itself.

Special Section, Shakespeare and Montaigne Revisited Graham Bradshaw, T. G. Bishop, Peter Holbrook, 2006-01-01 This year including a special section on Shakespeare and Montaigne Revisited, *The Shakespearean International Yearbook* continues to provide an annual survey of important issues and developments in contemporary Shakespeare studies. Contributors to this issue come from the US and the UK, Canada, Sweden, Japan and Australia. This issue includes an interview with veteran American actor Alvin Epstein during his recent acclaimed performance of *King Lear* for the Actors' Shakespeare project in Boston.

Arendt, Kant, and the Enigma of Judgment Martin Blumenthal-Barby, 2022-10-15 A nuanced extrapolation of Hannah Arendt's theory of judgment through her highly provocative reading of Immanuel Kant More than a half century after it was first published, Hannah Arendt's *Origins of Totalitarianism* rose to the top of best-seller lists as readers grappled with the triumph of Trumpism. *Arendt, Kant, and the Enigma of Judgment* directs our attention to her later thought, the posthumously published and highly provocative *Lectures on Kant's Political Philosophy*. Martin Blumenthal-Barby puts this work in dialogue with Arendt's other writings, including her notes on Kant's *Critique of Judgment*, to outline her own theory of judgment for the twentieth century. In an era of post-truths and artificial intelligence, the idea that authentic judgment—for example, the ability to distinguish right from wrong—is incommensurable with abstract, automated processes lies at the center of Arendt's

late work and at the fore of our collective reckoning. Rather than presenting us with a fixed account, Blumenthal-Barby suggests, Arendt's drawing and redrawing of conceptual distinctions is itself an enactment of judgment, a process that challenges and complicates what she says at every turn. In so doing, Arendt, in thoroughly Kantian fashion, establishes judgment as a performative category that can never be taught but only demonstrated. As sharp as it is timely, this incisive book reminds us why a shared reality matters in a time of intense political polarization and why the democratic project, vulnerable as it may appear today, crucially depends on it.

Notebooks of the Mind Vera John-Steiner, 1997 To approach her subject, John-Steiner goes directly to the source, assembling the thoughts of experienced thinkers - artists, philosophers, writers, and scientists able to reflect on their own imaginative patterns. More than fifty interviews (with figures ranging from Jessica Mitford to Aaron Copland), along with excerpts from the diaries, letters, and autobiographies of such gifted giants as Leo Tolstoy, Marie Curie, and Diego Rivera, among others, provide illuminating insights into creative activity.

Picture Imperfect Russell Jacoby, 2005 The choice we have is not between reasonable proposals and an unreasonable utopianism. Utopian thinking does not undermine or discount real reforms. Indeed, it is almost the opposite: practical reforms depend on utopian dreaming.--Russell Jacoby, *Picture Imperfect* Utopianism suffers from an image problem: A recent exhibition on utopias in Paris and New York included photographs of Hitler's *Mein Kampf* and a Nazi concentration camp. Many observers judge utopians and their sympathizers as foolhardy dreamers at best and murderous totalitarians at worst. However, as noted social critic and historian Russell Jacoby argues in this salient, polemical, and innovative work, not only has utopianism been unfairly characterized, a return to an iconoclastic utopian spirit is vital for today's society. Shaped by the works of Theodor Adorno, Walter Benjamin, Ernst Bloch, Gustav Landauer, and other predominantly Jewish thinkers, iconoclastic utopianism revives society's dormant political imagination and offers hope for a better future. Writing against the grain of history, Jacoby reexamines the anti-utopian mindset and identifies how utopian thought came to be regarded with such suspicion. He challenges standard readings of such anti-utopian classics as *1984* and *Brave New World* and offers stinging critiques of the influential liberal and anti-utopian theorists Hannah Arendt, Isaiah Berlin, and Karl Popper. He argues that these thinkers mistakenly equate utopianism with totalitarianism. The reputation of utopian thought has also suffered from the failures of, what Jacoby terms, the blueprint utopian tradition and its oppressive emphasis on detailing all aspects of society and providing fantastic images of the future. In contrast, the iconoclastic utopians, like those who follow God's prohibition against graven images, resist both the blueprinters' obsession with detail and the modern seduction of images. Jacoby suggests that by learning from the hopeful spirit of iconoclastic utopians and their willingness to accept new possibilities for society, we open ourselves to new and more imaginative ideas of the future.
