Plurinational Afrobolivianity Moritz Heck, 2020-02-03 In Bolivia's plurinational conjuncture, novel political articulations, legal reform, and processes of collective identification converge in unprecedented efforts to 're-found' the country and transform its society. This ethnography explores the experiences of Afrodescendants in plurinational Bolivia and offers a fresh perspective on the social and political transformations shaping the country as a whole. Moritz Heck analyzes Afrobolivian social and cultural practices at the intersections of local communities, politics, and the law, shedding light on novel articulations of Afrobolivianity and evolving processes of collective identification. This study also contributes to broader anthropological debates on blackness and indigeneity in Latin America by pointing out their conceptual entanglements and continuous interactions in political and social practice.

Black Legend Paulina L. Alberto, 2022-01-06 Celebrities live their lives in constant dialogue with stories about them. But when these stories are shaped by durable racist myths, they wield undue power to ruin lives and obliterate communities. Black Legend is the haunting story of an Afro-Argentine, Raúl Grigera ('el negro Raúl'), who in the early 1900s audaciously fashioned himself into an alluring Black icon of Buenos Aires' bohemian nightlife, only to have defamatory storytellers unmake him. In this gripping history, Paulina Alberto exposes the destructive power of racial storytelling and narrates a new history of Black Argentina and Argentine Blackness across two centuries. With the extraordinary Raúl Grigera at its center, Black Legend opens new windows into lived experiences of Blackness in a 'white' nation, and illuminates how Raúl's experience of celebrity was not far removed from more ordinary experiences of racial stories in the flesh.

Hiding in Plain Sight Erika Denise Edwards, 2020-01-28 Winner of The Association of Black Women Historians 2020 Letitia Woods-Brown Award for the best book in African American Women's History and the 2021 Western Association of Women Historian's Barbara Penny Kanner Award 2021 Finalist for the Harriet Tubman Book Prize 2020 Finalist Berkshire Conference of Women Historians Book Prize Details how African-descended women's societal, marital, and sexual decisions forever reshaped the racial makeup of Argentina Argentina promotes itself as a country of European immigrants. This makes it an exception to other Latin American countries, which embrace a more mixed—African, Indian, European—heritage. Hiding in Plain Sight: Black Women, the Law, and the Making of a White Argentine Republic traces the origins of what some white Argentines mischaracterize as a "black disappearance" by delving into the intimate lives of black women and explaining how

they contributed to the making of a “white” Argentina. Erika Denise Edwards has produced the first comprehensive study in English of the history of African descendants outside of Buenos Aires in the late colonial and early republican periods, with a focus on how these women sought whiteness to better their lives and that of their children. Edwards argues that attempts by black women to escape the stigma of blackness by recategorizing themselves and their descendants as white began as early as the late eighteenth century, challenging scholars who assert that the black population drastically declined at the end of the nineteenth century because of the whitening or modernization process. She further contends that in Córdoba, Argentina, women of African descent (such as wives, mothers, daughters, and concubines) were instrumental in shaping their own racial reclassifications and destinies. This volume makes use of a wealth of sources to relate these women’s choices. The sources consulted include city censuses and notarial and probate records that deal with free and enslaved African descendants; criminal, ecclesiastical, and civil court cases; marriages and baptisms records and newsletters. These varied sources provide information about the day-to-day activities of cordobés society and how women of African descent lived, formed relationships, thrived, and partook in the transformation of racial identities in Argentina.

Religion and Politics in Europe and Latin America Andrés Pérez-Baltodano,2025-09-22 This book presents a comparative interpretation of the socio-emotional histories of Europe and Latin America, offering a novel perspective on the roles of religion and politics in managing collective fear and insecurity in these two regions. Emphasizing the historical fears and insecurities faced by underprivileged sectors of Latin American society, the book draws on cognitive and social sciences to compile political, socioeconomic, and cultural landmarks, identifying continuities and ruptures in European and Latin American histories. The volume highlights Europe’s success and Latin America’s relative failure in crafting political visions capable of taming fear and insecurity. It shows how this largely correlates with how meticulous providentialism (the belief that God governs history) has been supplanted by general providentialism (the belief that God does not intervene in history) in the religious cultures of the two regions. This shift corresponds to the degree of control individuals feel they have over their history and destiny, which typically aligns with their actual social affordances. At the heart of these discussions is the notion that the authenticity of the theoretical foundations of political visions is conditioned by society’s view of the divine, which ultimately determines the capacity of these visions’ potential to impact history. Religion and Politics in Europe and Latin America is a useful resource for students and academics interested in Latin American and European history, politics, and culture.

Independence and Nation-Building in Latin America Scott Eastman,Natalia Sobrevilla Perea,2022-07-29 Independence and Nation-Building in Latin America: Race and Identity in the Crucible of War reconceptualizes the history of the break-up of colonial empires in Spanish and Portuguese America. In doing so, the authors critically examine competing interpretations and bring to light the most recent scholarship on social, cultural, and political aspects of the period. Did

American rebels clearly push for independence, or did others truly advocate autonomy within weakened monarchical systems? Rather than glorify rebellions and patriots, the authors begin by emphasizing patterns of popular loyalism in the midst of a fracturing Spanish state. In contrast, a slave-based economy and a relocated imperial court provided for relative stability in Portuguese Brazil. Chapters pay attention to the competing claims of a variety of social and political figures at the time across the variegated regions of Central and South America and the Caribbean. Furthermore, while elections and the rise of a new political culture are explored in some depth, questions are raised over whether or not a new liberal consensus had taken hold. Through translated primary sources and cogent analysis, the text provides an update to conventional accounts that focus on politics, the military, and an older paradigm of Creole-peninsular friction and division. Previously marginalized actors, from Indigenous peoples to free people of color, often take center-stage. This concise and accessible text will appeal to scholars, students, and all those interested in Latin American History and Revolutionary History.

Constitucionalismo e justiça epistêmica Maria do Carmo Rebouça dos Santos, 2021-07-19 Ao termos o texto que segue, intuímos que o movimento de escritura - do desvelamento da racialidade do discurso da modernidade jurídica constitucional ao estudo da experiência constitucional haitiana - pressupõe um cruzamento de interdisciplinaridade, giro epistemológico e trajetória. [...] A professora Maria do Carmo generosamente fornece um farol à teoria do Direito Constitucional, ao passo em que, além de apresentar a experiência constitucional haitiana revolucionária, desenha um percurso de pesquisa que pode servir a desvelamentos de outras experiências constitucionais.

The Routledge Hispanic Studies Companion to Nineteenth-Century Latin America Agnes Lugo-Ortiz, Graciela Montaldo, 2024-10-29 The Routledge Hispanic Studies Companion to Nineteenth-Century Latin America provides a unique, comprehensive, and critical overview of Latin American studies in the nineteenth century, including the major regions and subfields. The essays in this collection offer a complex, yet accessible transdisciplinary overview of the heterogeneous and asynchronous historical, political, and cultural processes that account for the becoming of Latin America in the nineteenth century—from Mexico and the Caribbean Basin to the Southern Cone. The thematic division of the book into six parts allows for a better understanding of the ways in which different themes are interrelated and affords readers the opportunity to draw their own connections among subfields. The volume assembles a robust sample of recent and innovative scholarship on the subject, reformulating from fresh perspectives commonly held views on the issues that characterized the era. Additionally, it provides an overarching analysis of the field and introduces cutting-edge concepts all within one expansive volume, opening the dialogue about topics that share common denominators and modeling how those topics can be approached from a variety of perspectives. The innovative volume will be of interest to students and scholars of Latin American studies and Spanish studies. Readers unfamiliar with the period will acquire a comprehensive view of its complexities, while specialists will discover new interpretations and archives.

Volver a las fuentes Juan Godoy,2021-08-15 Esta obra, comprometida con nuestra época, rigurosa y profunda conceptualmente, aborda de manera simple cuestiones complejas. Recupera en forma de apuntes los conceptos y la trayectoria de los clásicos del pensamiento nacional: Jauretche, Hernández Arregui, Scalabrini, Cooke, Ugarte o Carpani. Interpela las políticas de la historia y debate la mistificación cultural de nuestro pasado, demostrando que fue realizada por los intelectuales de la oligarquía con la finalidad de justificar los asesinatos a los dirigentes, los robos de bienes y la imposición de un proyecto desigual de país. Demuele prejuicios y derriba zonceras y sentidos comunes instalados. Godoy describe las vidas y los legados de Artigas, la causa americanista de Bolívar o las luchas populares de las misiones federales y de Felipe Varela contra el unitarismo oligárquico e imperialista. Recupera la trayectoria de figuras ocultadas de la historia sudamericana como Manuel Rodríguez, Alejandro Marín, Rufino Blanco Fombona o César Marcos. Volver a las fuentes retoma y analiza en clave nacional a las figuras constructoras de los dos grandes proyectos políticos y económicos del país: Julio A. Roca y Juan D. Perón. Aborda críticamente el debate sobre el método de elaboración de las ciencias y a partir de revisar textos y polémicas de Carlos Montenegro, Roberto Carri y Oscar Varsavsky, demuestra que las mentadas neutralidad y objetividad científica suelen ser la justificación ideológica de un saber dependiente al servicio de intereses extranjeros. Este excelente trabajo no es un libro sobre el pasado, sino una obra cargada de presente y futuro.

La fiesta de los negros Ezequiel Adamovsky,2024-08-27 Mirando los pequeños corsos actuales, nadie podría sospechar la extraordinaria masividad que alcanzaba el carnaval a fines del siglo XIX, cuando Buenos Aires mutaba al ritmo de la inmigración. Por entonces se lo reconocía como uno de los más grandes y animados del mundo. ¿Cómo se explica semejante intensidad? Este libro responde esa pregunta con la convicción de que encierra claves valiosas para entender la formación de la Argentina moderna. A partir de una reconstrucción sorprendente y con un pulso narrativo que logra sumergirnos en la fiesta, Ezequiel Adamovsky cuenta cómo en esos días se jugaba con la sexualidad, de un modo que desafiaba las jerarquías de género y de clase, y se detiene especialmente en la transgresión de las fronteras étnico-raciales, así como en un fenómeno que llamó poderosamente la atención de los contemporáneos: la convivencia, en el espacio de la fiesta, entre comparsas de afroportenos y otras de blancos que se tiznaban el rostro, ejecutaban ritmos y bailes de raíz afro, cantaban canciones o se vestían con ropas que emulaban las de los negros. ¿Por qué fueron negros (reales y de imitación) y luego falsos gauchos los que ocuparon el centro de la escena? ¿Por qué justamente esas dos figuras, que para las élites eran emblemas de atraso y barbarie, fueron las preferidas del público? ¿Y qué relación tiene todo eso con la formación de la nación argentina y con su pretensión de ser blanca y europea? En esta historia increíblemente colorida del carnaval porteño entre 1810 y 1910, muy poco estudiado hasta ahora, Ezequiel Adamovsky revela con maestría cómo fue un espacio donde se tramitaron tensiones y diferencias sociales de todo tipo y donde empezó a ponerse en cuestión el perfil étnico y cultural de la Argentina. Así, nos invita a pensar desde categorías propias tanto el racismo local como las resistencias que desde temprano se le opusieron.

¿Acaso no soy una mujer? Sojourner Truth,2021-10-01 El 29 de mayo de 1851, Sojourner Truth, una mujer afroamericana y antigua esclava, tomó la palabra públicamente para denunciar su doble opresión en su condición de mujer y negra. 170 años después, aquel discurso sigue siendo recordado como referente e inspiración de la lucha feminista.

Heterodoxia y fronteras en América Latina Andrés Kozel,Horacio Crespo,Héctor A. Palma,2013 Heterodoxia y fronteras en América Latina reúne las intervenciones presentadas durante el simposio internacional que se realizó en abril de 2012 en la Universidad Nacional de San Martín. El encuentro fue organizado por el Centro de Estudios Latinoamericanos (CEL) de la Escuela de Humanidades, con el apoyo del Fondo para la Investigación Científica y Tecnológica (FONCyT) del Ministerio de Ciencia, Tecnología e Innovación Productiva. El libro se estructura sobre una trama de supuestos que gira alrededor de los conceptos de heterodoxia y frontera. Una inusual y rica polisemia surge de pensar zonas y aspectos de la historia intelectual, cultural y social de América Latina acudiendo a un dispositivo hermenéutico que hace de dichas nociones clave de intelección, trabajando sus interconexiones y poniendo de relieve sus posibles vínculos con otras nociones emparentadas: traducción, transculturación, transcreación. La diversidad temática de los artículos presentados, aunada a su calidad, son buena muestra de ello.

Shock Absorbers Or Transmitters? The Role of Foreign Banks During COVID-19 Weijia Yao,Anamika Sen,Juan Yepez,2022-09-16 This paper studies whether bank ownership influenced lending behavior during the COVID-19 shock. It finds that, similar to previous episodes of financial distress, foreign banks appear to have played a shock-transmitting role, as there was a sharp slowdown in lending by foreign banks' affiliates relative to domestic banks. However, given the uniqueness of the COVID-19 shock and the impact of lockdowns on economic activity, foreign banks were found to lend at a higher rate than domestic banks once the stringency of mobility restrictions is accounted for, with their lending portfolio concentrated more in the corporate sector. Results also suggest that the difference in lending rates between foreign and domestic banks could be explained by the heterogeneous effects of policy measures in response to the pandemic. In jurisdictions with more stringent mobility restrictions, policy interventions actually encouraged higher lending by foreign banks. These findings suggest that foreign bank presence may have acted as a shock absorber in jurisdictions where economic activity was most affected by the pandemic.

Linguagens da Identidade e da Diferença no Mundo Ibero-americano (1750-1890) Lucia Maria Bastos Pereira Das Neves,2018-12-06 Tal como se refere num dos capítulos deste livro, a razão de ser da história conceptual foi a de ajudar os historiadores a distinguir com maior clareza a sua linguagem analítica daquela utilizada nas fontes que estudam. O projecto sobre Linguagens da identidade e da diferença: classes, corporações, castas e raças, 1750-1870, reporta-se a um tempo de mudança política e cultural no qual se pretenderam questionar classificações sociais inscritas na ordem jurídica e

identidades territoriais que se reputavam particularistas, em nome da consagração dos novos significados que se imputavam aos conceitos de cidadania e de nação. A delimitação de novos fundamentos da ordem política nos espaços ibero-americanos passou, no entanto, pela utilização de categorias de identificação social e territorial, cruzadas com a imperiosa necessidade de definir quem fazia e quem não fazia parte da cada nação e quem eram os seus cidadãos. Das formas concretas como nesses processos se perpetuaram, renovaram e inventaram categorias identitárias nos dão conta os ensaios aqui reunidos. Do Congresso do Panamá à UNASUL: a defesa na integração da América Latina (1826-2008) Guilherme Frizzera, 2023-01-11 A obra Do Congresso do Panamá à Unasul: a defesa na integração da América Latina (1826-2008) apresenta uma reconstrução histórica sobre como os assuntos relacionados à defesa da América Latina foram fundamentais para o processo de união política da região. Do Congresso do Panamá de 1826 até a criação da Unasul em 2008, a defesa do espaço latino-americano sempre esteve na agenda política regional. Nos dois séculos de história analisados, esta obra abrange o pensamento político dos Libertadores da América, as revoluções dos Estados Unidos, França e Haiti, o Congresso do Panamá e os objetivos iniciais das repúblicas recém-emancipadas em garantir sua sobrevivência frente a uma invasão por parte das potências estrangeiras, bem como as demais iniciativas regionais do século XIX e o continuar dessa pauta de defesa até o século XXI. Com isso, o principal objetivo é mostrar aos leitores como a união é parte da identidade política da América Latina.

Contrapunteos diáspóricos, cartografías políticas de nuestra Afroamérica Agustín Laó-Montes, 2020-03-03 Contrapunteos Diáspóricos integra un conjunto de estudios y ensayos cuyo hilo conductor es el entrelace entre poder, cultura y política en Nuestra Afroamérica. A través de una serie de análisis contrapuntales vamos componiendo una cartografía de la política y lo político en el universo histórico de las diásporas afrolatinoamericanas. Nuestra Afroamérica se enmarca en el mundo afro, que en su triple localización histórica (como modernidad alterna, contracultura de la modernidad y alternativa a la modernidad) ha sido y ha de ser un pilar en las gestas principales para transcender la prehistoria de la humanidad y para realizar, armados de esperanza, una suerte de utopía práctica inspirada en la convicción de que un mundo mejor es posible. El maridaje contrapuntal de investigación y escritura sigue el ejemplo de una larga tradición en la producción intelectual afrodiaspórica, caribeña y latinoamericana que combina creativamente historiografía y narrativa, investigación sociológica y alegoría literaria, teoría política y pensamiento vernáculo, auto etnografía y análisis histórico-, en aras de producir un saber científico no-positivista, trans/posdisciplinar, que cultive su imaginación poética, su carácter crítico radical y su compromiso con la descolonialidad y la liberación. Tocando ese tambor lírico y analítico, el libro se divide en cinco partes que se abren con citas del corpus literario afroamericano, junto a fragmentos de ensayo, música popular y referencias a religiones afrodiaspóricas, sobre todo la Yoruba y las divinidades de su panteón: los Orishas. Los textos literarios (poéticos,

narrativos, ensayísticos), musicales, teológicos, teóricos, que introducen las cinco partes y algunos de los capítulos, testimonian el contrapunteo sincopado entre las formas del discurso y el contenido y presentan un análisis en el que lo político no se reduce a los modos de organización y participación en las esferas formales de la ciudadanía, el Estado y los partidos, sino que se extiende a todas las contiendas de poder.

Itinerarios constitucionales para un mundo convulso. Alfonso de Julios-Campuzano, 2017-03-06 No hay duda de que el constitucionalismo reviste en nuestros días una singular trascendencia. En buena medida se cumple en él, en el ámbito de la teoría jurídica y de la filosofía jurídica, aquel proverbio del refranero: tutte le strade portano a Roma. Las grandes cuestiones de la filosofía jurídica y de la teoría del derecho son revisitadas ahora bajo la perspectiva del constitucionalismo. De este modo, el constitucionalismo, adquiere la centralidad que el refranero le atribuye a Roma. El volumen que ahora comienza a explorar el lector se mueve en estos parámetros, el de una prospección del constitucionalismo considerado como horizonte a alcanzar, cuya conquista evoca itinerarios, caminos que deben ser transitados. Y es este un mundo convulso, impregnado de perplejidades, agitado por desazones y zozobras, por trances, contiendas y apremios. Si el siglo XX balbució el feroz idioma de la muerte, acunado por dos guerras mundiales, deletreando con sanguinaria deleitación sus terrores y se marchó dejando tras de sí un halo de destrucción y de horror; la nueva centuria abrió los ojos a la luz entre las llamas de las torres gemelas que se desplomaron sobre el corazón mismo del legado moderno. De nuevo, las guerras ahogan la esperanza, de nuevo el aliento frío de la violencia nos congela el pálpito de la paz. Vivimos una era convulsa: las guerras y conflictos armados prolongados en Oriente próximo y en Oriente medio, bajo la irrupción del Daesh, acompañado de graves crisis humanitarias, entre las que destaca el desolador éxodo del pueblo sirio, o en diversos puntos de la geografía africana, en el Magreb y en el Sahel. Y como telón de fondo de todo este escenario, el gran drama del terrorismo yihadista que azota con feroz virulencia al mundo, dejando tras de sí una estela incontable de sufrimientos y de muerte que está transformando nuestro orden social, jurídico y político y que hacer rememorar aquella imagen de Huntington, de un choque de civilizaciones. Esta obra trata de hilvanar argumentos para la esperanza, desde la denuncia, sin esquivar la realidad infamante de cuanto acontece en el mundo, atento a los desafíos que el constitucionalismo tiene planteados como proyecto esencialmente moderno, inspirado por el potencial universalista de sus principios y por la fuerza cosmopolita de sus miembros teóricos. Una aproximación cauta, esperanzada, pero realista, a los grandes problemas que se ciernen sobre la humanidad, consciente de que el constitucionalismo ofrece itinerarios en tiempos de zozobra y de perplejidad, animado por un horizonte que alienta, que espolea, que instiga y anima a continuar una senda que, desde la razón, promete libertad, igualdad, solidaridad y paz para todos los miembros de la especie humana.

História da América: Percursos e Investigações Hevely Ferreira Acruche, 2019-11-12 Falar sobre História da América é

pensar a diversidade. Pensar as inúmeras experiências e a multiplicidade de estratégias engendradas pelas pessoas que aqui viveram ao longo do período colonial e independente tem sido uma tarefa levada a cabo por vários historiadores. Seja para compreender a História do Brasil no conjunto mais amplo do vasto continente, seja para analisar a História da formação dos Estados Nacionais, a tônica que prevalece nos textos aqui esboçados é a perspectiva da diversidade, das experiências compartilhadas e, sobretudo, do processo de nossa constituição histórica e social. Por muito tempo, a História das Américas era tratada em termos de exotismo. Aos povos latino-americanos, era dado o epíteto de selvagens, bárbaros. Para alguns intelectuais do período, o continente latino-americano padecia de uma doença que o desestruturou, o que contribuiu para que sua trajetória fosse marcada pela instabilidade política e pela dependência econômica, inicialmente em relação à Inglaterra e, ao longo do século XX, em relação aos Estados Unidos. Sendo assim, este livro destina-se aos estudantes de graduação, pós-graduação e professores interessados na História do continente americano. Dedicamos este livro a todos aqueles que acreditam no potencial de uma Educação laica, gratuita e comprometida com a sociedade em que vivemos.
