Insulting Music Lily E. Hirsch, 2022-11-01 Insulting Music explores insult in and around music and demonstrates that insult is a key dimension of Western musical experience and practice. There is insult in the music we hear, how we express our musical preferences, as well as our reactions to settings and sites of music and music making. More than that, when music and insult overlap, the effects can both promote social justice or undermine it, foster connection or break it apart. The coming together of music and insult shapes our sense of self and view of other people, underlining and constructing difference, often in terms of race and gender. In the last decade, music's power dynamics have become an increasingly

important concern for music scholars, critics, and fans. Studying musicians such as Frank Zappa, Nickleback, Taylor Swift, and the Insane Clown Posse, and musical phenomena such as musician jokes, the use of music to torture people, and the playing of music in restaurants, this book shows the various and contradictory ways insults are used to negotiate those existing dynamics in and around music.

Cultural Memory and Popular Dance Clare Parfitt,2021-12-02 This book focuses on the myriad ways that people collectively remember or forget shared pasts through popular dance. In dance classes, nightclubs, family celebrations, tourist

performances, on television, film, music video and the internet, cultural memories are shared and transformed by dancing bodies adapting yesterday's steps to today's concerns. The book gathers emerging and seasoned scholarly voices from a wide range of geographical and disciplinary perspectives to discuss cultural remembering and forgetting in diverse popular dance contexts. The contributors ask: how are Afro-diasporic memories invoked in popular dance classes? How are popular dance genealogies manipulated and reclaimed? What is at stake for the nation in the nationalizing of folk and popular dances? And how does mediated dancing transmit memory as feelings or affects? The book reveals popular dance to be vital to cultural processes of remembering and forgetting, allowing participants to pivot between alternative pasts, presents and futures.

Storytelling in Motion Jenny Oyallon-Koloski, 2024 How do filmmakers guide viewer attention through the frame using the movement of bodies on screen? What do they seek to communicate with their cinematic choreography, and how were those choices shaped by the industrial conditions available to them? Storytelling in motion: Cinematic Choreography and the Film Musical demonstrates how figure movement can serve as a versatile strategy of meaning-making, particularly when filmmakers attend to the relationship between choreographed movement and film style. Using Franco-American film musicals as case studies, this book analyses the narrative and stylistic impact of figure movement in cinema and the subtle power of cinematic choreography, those moments when filmmakers deliberately combine the strengths of film style and organized figure movement to convey narrative meaning through motion. Cinematic choreography emphasizes musical conventions in *Singin' in the Rain* (Stanley Donen and Gene Kelly, 1952), prejudiced conflict in *West Side Story* (Jerome Robbins and Robert Wise, 1961), aesthetic play in *Les Demoiselles de Rochefort* (Jacques Demy, 1967), generic discomfort in *Trois places pour le 26* (Jacques Demy, 1988), the politics of illness in *Jeanne et le garçon formidable* (Olivier Ducastel and Jacques Martineau,

1998), and decision-making in *La La Land* (Damien Chazelle, 2016). Integrating vocabularies and analytical systems from Laban/Bartenieff Movement Studies, film studies, and related fields to parse cinematic figure movement on multiple formal levels, this book uses performative research methods from videographic criticism to show the poetic and oblique connections between films through videographic as well as written chapters. *Storytelling in Motion* centers the crucial material conditions needed to make figure movement a significant component of narrative filmmaking: time, money, rehearsal space, industrial support, and performers and crew with the necessary embodied and institutional knowledge. The films discussed tell a clear story of how cinematic choreography was used by French and American filmmakers to innovate storytelling through figure movement, inspired by their predecessors' aesthetics while working within differing industrial conditions.

Yearning for the Vast and Endless Sea Chris Russell,2024-01-31 Evangelism is a contentious word, conjuring up all sorts of assumptions. It can create suspicion or imply tribalism, or can be seen as a desperate response to falling numbers. For some the term has become irredeemably polluted. But what if we recovered an authentic understanding of evangelism as good news that enables people to know that they are drenched in the love and grace of God? And how do we do that? This is a book for everyone who wants to share the gospel but who cannot relate to what evangelism has become. Its title is taken from Saint-Exupery, 'If you want to build a ship, don't drum up the people to gather wood, and give orders. Instead, teach them to yearn for the vast and endless sea.' Drawing on writers like Bonhoeffer, Newbigin and Pope Francis' landmark *Euangelii Gaudium*, Chris Russell aims to redeem evangelism from its present predicament. He sets it in a deeper and richer theological context, asks how the church and individual Christians can communicate the love of God in language and action, and explores how the good news is received.
