Shakespeare's Storytelling Nate Eastman,2021-01-27 Shakespeare's Storytelling: An Introduction to Genre, Character, and Technique is a textbook focused on specific storytelling techniques and genres that Shakespeare invented or refined. Drawing on examples from popular novels, plays, and films (such as IT, Beloved, Sex and the City, The Godfather, and Fences) the book provides an overview of how Shakespearean storytelling techniques including character flaws, conflicts, symbols, and more have been adapted by later writers and used in the modern canon. Rather than taking a historicist or theoretical approach, Nate Eastman uses recognizable references and engaging language to teach the concepts and techniques most applicable to the future study of Creative Writing, English, Theater, and Film and Media. Students will be prepared to interpret Shakespeare's plays and understand Shakespeare as the beginning of a literary tradition. A readable introduction to Shakespeare and his significance, this book is suitable for undergraduates.

Unschool Kerry McDonald,Peter Gray,2019-05-07 Education has become synonymous with schooling, but it doesn't have to be. As schooling becomes increasingly standardized and test driven, occupying more of childhood than ever before, parents and educators are questioning the role of schooling in society. Many are now exploring and creating alternatives. In a compelling narrative that introduces historical and contemporary research on self-directed education, Unschool also spotlights how a diverse group of individuals and organizations are evolving an old schooling model of education. These innovators challenge the myth that children need to be taught in order to learn. They are parents who saw firsthand how

schooling can dull children's natural curiosity and exuberance and others who decided early on to enable their children to learn without school. Educators who left public school classrooms discuss launching self-directed learning centers to allow young people's innate learning instincts to flourish, and entrepreneurs explore their disillusionment with the teach-and-test approach of traditional schooling.
