The Unheard Voice of Law in Bartolomé de Las Casas's Brevísima Relación de la Destrucción de las Indias David T. Oríque,2021-04-13 The Unheard Voice of Law in Bartolomé de las Casas's Brevísima relación de la destrucción de las Indias reinterprets Las Casas's controversial treatise as a legal document, whose legal character is linked to civil and ecclesial genres of the Early Modern and late Renaissance juridical tradition. Bartolomé de las Casas proclaimed: I have labored to inquire about, study, and discern the law; I have plumbed the depths and have reached the headwaters. The Unheard Voice also plumbs the depths of Las Casas's voice of law in his widely read and highly controversial Brevísima relación—a legal document published and debated since the 16th century. This original reinterpretation of his Very Brief Account uncovers the juridical approach voiced in his defense of the Indigenous peoples of the Americas. The Unheard Voice innovatively asserts that the Brevísima relación's legal character is intimately linked to civil and ecclesial genres of the late Renaissance juridical tradition. This paradigm-shifting book contextualizes the formation of Las Casas's juridical voice in canon law and

theology—initially as a secular cleric, subsequently as a Dominican friar, and finally as a diocesan bishop—and demonstrates how his experienced juridical voice fought for justice in trans-Atlantic debates about Indigenous peoples' level of humanity, religious freedom, enslavement, and conquest. Reaching the headwaters of Las Casas's hitherto unheard juridical voice of law in the *Brevísima relación* provides readers with a previously unheard interpretation—an appealing voice for readers and students of this powerful Early Modern text that still resonates today. The *Unheard Voice of Law* is a valuable companion text for many in the disciplines of literature, history, theology, law, and philosophy who read Bartolomé de las Casas's *Very Brief Account* and study his life, labor, and legacy.

Critical Mass Richard Noyce, 2010-08-15 This exciting new book showcases the work of a very diverse selection of 52 artists from 28 countries, against a spectrum of the concerns that inform the role and function of art in the increasingly technological global society. The mediums used by these artists range from new variations on traditional intaglio and relief techniques, to extreme forms of digital techniques, including time-based forms such as film and multi-media presentation. Printmaking continues to evolve as artists develop the traditional techniques and experiment with new techniques and materials. In recent years the boundaries between the once distinct fields of the visual arts have become blurred, and growing numbers of artists now incorporate printmaking techniques within their practice. This book provides a broad-ranging and challenging source of information on the most exciting cutting edge developments in international printmaking, which will be of value to students, professional artists and all those with an interest in the contemporary visual arts

When Greece Flew across the Alps Federica Ciccolella, 2021-11-01 When Greece Flew Across the Alps offers a reconstruction of the status of Greek studies in the vast territory lying between Spain and Russia and Austria and the Scandinavian Peninsula, from the sixteenth to the eighteenth centuries. Although closely related to the revival of Greek studies in fifteenth-century Italy, European Hellenism acquired distinctive peculiarities due to the influence of the Reformation, the advent and spread of printing, and initiatives taken by individuals or institutions. By analyzing this important aspect of the reception of the Classics, this volume contributes to a better understanding of early modern

European culture. Contributors: Ovanes Akopyan, Johanna Akujärvi, Gianmario Cattaneo, Federica Ciccolella, Natasha Constantinidou, Iulian Mihai Damian, Christian Gastgeber, Tua Korhonen, Han Lamers, Marianne Pade, Inmaculada Pérez Martín, Luigi-Alberto Sanchi, and Raf Van Rooy.
