*The Author Training Manual* Nina Amir, 2014-03-18 If you want to write a book that's going to sell to both publishers and readers, you need to know how to produce a marketable work and help it become successful. It starts the moment you have an idea. That's when you begin thinking about the first elements of the business plan that will make your project the best it can be. The reality is that you don't want to spend time and energy writing a book that will never get read. The way to avoid that is to create a business plan for your book, and evaluate it (and yourself) through the same lens that an agent or acquisitions editor would. The Author Training Manual will show you how to get more creative and start looking at your work with those high standards in mind. Whether you're writing fiction or non-fiction, or intend to publish traditionally or self-publish, author Nina Amir will teach you how to conduct an effective competitive analysis for your work and do a better job at delivering the goods to readers than similar books that are already on the shelf. Packed with step-by-step instructions, idea evaluations, sample business plans, editor and agent commentaries, and much more, The Author Training Manual provides the information you need to transform from aspiring writer to career author.

In 2006, a groundbreaking feature-length film revealed the great mystery of the universe—The Secret—and, later that year, Rhonda Byrne followed with a book that became a worldwide bestseller. Fragments of a Great Secret have been found in the oral traditions, in literature, in religions and philosophies throughout the centuries. For the first time, all the pieces of The Secret come together in an incredible revelation that will be life-transforming for all who experience it. You'll begin to understand the hidden, untapped power that's within you, and this revelation can bring joy to every aspect of your life. The Secret contains wisdom from modern-day teachers—men and women who have used it to achieve health, wealth, and happiness. By applying the knowledge of The Secret, they bring to light compelling stories of eradicating disease, acquiring massive wealth, overcoming obstacles, and achieving what many would regard as impossible.

*The Good Book* Jawara D. King,2017-05-08 In every life situation, focus on all the positive outcomes. Destruction comes from focusing only on the negative. When you find yourself thinking in agreement with the dark side, direct your thinking to have your mind focus on anything positive. Ensure that your mind is nourishing you with its thoughts. **Positively Powerless** L.L. Martin,2015-12-30 Thou shalt not be negative. A vast movement of positive thinking took the twentieth century by storm and engulfed every area of our livesincluding our churches. Put simply, positive thinking became a part of what it means to be an American. But should it be part of what it means to be a Christian? L.L. Martin exposes the

eye-opening history of this movement, documenting its roots in occult, mystical, and Eastern religious ideas. Though Christianity came under its power, the two philosophies stand in stark conflict. As a result, Christ was dethroned and the self was made sovereign, rewiring our minds and weakening our faith. This practical book, immersed in Scripture, seeks to reestablish you in a God-centered life. • Deepen your spiritual walk by embracing honesty. • Discover the neglected paradoxes of Christian living. • Learn to live in the grace by which you were saved. Positively Powerless will help you detect the false gospel of positivity and reconnect to your true source of power: the gospel of Jesus Christ. \*\*\* Includes questions for personal reflection or group discussion.

**The Spirituality of the English and American Deists** Joseph Waligore, 2022-12-19 The deists have been misunderstood as Enlightenment thinkers who believed in an inactive deity. Instead, the deists were spiritually oriented people who believed God treated all his children fairly. Unlike the biblical God, the deist God did not punish entire nations with plagues, curse innocent people, or order the extermination of whole nations. In deism, for the first time in modern Western history, God “became” good. *The Spirituality of the English and American Deists: How God Became Good* explores how the English deists were especially important because they formulated the arguments that most of the later deists accepted. Half of the English deists claimed they were advocating the Christianity Jesus taught before his later followers perverted his teachings. Joseph Waligore call these deists Jesus-centered deists. Ben Franklin, Thomas Jefferson, and John Adams studied these Jesus-centered deists and had similar beliefs. While some of the most prominent American Founders were deists, deism had little or no influence on the religious parts of the Constitution and the First Amendment. Deism did not die out at the end of the Enlightenment. Instead, under different names and forms it has continued to be a significant religious force. Informed observers even think a deistic spiritual outlook is the most popular religious or spiritual outlook in contemporary America.

**The Healing Therapies Bible** Claire Gillman, 2016-01-07 The Healing Therapies Bible profiles more than 50 therapies, explaining the principles on which they are based, their history in practice, and wherever possible, shows them in action. New healing techniques are now being taught all over the world. Some are associated with a particular healer, such as Brandon Bays' *The Journey* and Vianna Stibal's *Theta Healing*. Others respond to our spiritual ascension, such as crystal healing with new-generation, high-vibration crystals and flower remedies. Some have longer histories, and have evolved from a wealth of traditions - such as Mindfulness meditation, with its roots in Buddhism and western stress reduction techniques,

and regression therapy, more recently popularized by Harvard Psychiatry Professor Dr Brian Weiss. Also included are the classic techniques of complementary therapists, such as massage, reiki, reflexology and aromatherapy.

The New Atheism Victor J. Stenger, 2009-12-04 In recent years a number of bestselling books have forcefully argued that belief in God can no longer be defended on rational or empirical grounds, and that the scientific worldview has rendered obsolete the traditional beliefs held by Christianity, Judaism, and Islam. The authors of these books—Richard Dawkins, Daniel Dennett, Sam Harris, Christopher Hitchens, and Victor J. Stenger—have come to be known as the New Atheists. Predictably, their works have been controversial and attracted a good deal of critical reaction. In this new book, Victor J. Stenger, whose *God: The Failed Hypothesis* was on the New York Times bestseller list in 2007, reviews and expands upon the principles of New Atheism and answers many of its critics. He demonstrates in detail that naturalism—the view that all of reality is reducible to matter and nothing else—is sufficient to explain everything we observe in the universe, from the most distant galaxies to the inner workings of the brain that result in the phenomenon of mind. Stenger disputes the claim of many critics that the question of whether God exists is beyond the ken of science. On the contrary, he argues that absence of evidence for God is, indeed, evidence of absence when the evidence should be there and is not. Turning from scientific to historical evidence, Stenger then points out the many examples of evil perpetrated in the name of religion. He also notes that the Bible, which is still taken to be divine revelation by millions, fails as a basis for morality and is unable to account for the problem of unnecessary suffering throughout the world. Finally, he discusses the teachings of ancient nontheist sages such as Buddha, Lao Tzu, and Confucius, whose guidelines for coping with the problems of life and death did not depend upon a supernatural metaphysics. Stenger argues that this way of nature is far superior to the traditional supernatural monotheisms, which history shows can lead to a host of evils. The New Atheism is a well-argued defense of the atheist position and a strong rebuttal of its critics.

*Confidence: The Secret* Katie Piper, 2016-12-29 'Confidence is about empowerment. It's about valuing who you are, not what you want to do or how you look. Join Katie on her journey to confidence - with her guidance, you can achieve the things you might never have thought possible. She's a hero' MARIAN KEYES

**The Encyclopedia of Wealth** Chris Gentry, 2019 Twelve of the most revered, time-honored, proven classics on attaining abundance. Here, in one volume, are the essential wealth writings that have influenced millions of people over the past 150 years--

Closure John Lescroart, M. J. Rose, 2013-04-30 From two bestselling masters of suspense, a gripping, erotic story about a

female assassin whose unsettling past comes back to haunt her... Beautiful twenty-something Lucy Delray has spent two months in therapy when she says to her psychologist, When I destroy someone...I don't feel anything. An avenging angel who lures men into her bed and then kills them, she qualifies this shocking confession: I only kill men who deserve it. Who have done the unforgivable. Who need to be punished. But when Lucy lures an influential man from her childhood back into her life—a painter she befriended when she was only seven years old—the charming temptress may be committing the ultimate crime: letting a long-buried secret interfere with the job at hand...

**Histories of Human Engineering** Maarten Derksen, 2017-06-08 The dream of control over human behaviour is an old dream, shared by many cultures. This fascinating account of the histories of human engineering describes how technologies of managing individuals and groups were developed from the nineteenth century to the present day, ranging from brainwashing and mind control to Dale Carnegie's art of dealing with people. Derksen reveals that common to all of them is the perpetual tension between the desire to control people's behaviour and the resistance this provokes. Thus to influence other people successfully, technology had to be combined with tact: with a personal touch, with a subtle hint, or with outright deception, manipulations are made palatable or invisible. Combining psychological history and theory with insights from science and technology studies and rhetorical scholarship, Derksen offers a fresh perspective on human engineering that will appeal to those interested in the history of psychology and the history of technology.

*The Power* Rhonda Byrne, 2011-07-07 You are meant to have an amazing life! This is the handbook to the greatest power in the Universe - The Power to have anything you want. **The Formless Substance** Rev. Michael A. Long, 2013-08-01 Mike brings us back to our inherited spiritual powers and helps us to ignite the miracle of the Holy Ghost and the Christ consciousness in our lives. The book shows us how to recover from our alliance on the lack of spiritual comfort from the law of attraction, or past mental sciences, to discovering the healing power of Gods water, and our ability to achieve spiritual greatness. I have read metaphysical literature for the past twenty-five years, but Mike Longs book quite literally breaks the mold and offers something totally unique for readers who are interested in using manifestation to change their lives. Longs cutting-edge blend of metaphysics and Christianity produces an eye-opening explanation of why so many people are frustrated with what has come to be known as the Law of Attraction. In a world filled with both dark forces and spiritual opportunity, The Formless Substance demonstrates how Mike Longs life coaching cuts through worn-out New Age rhetoric to bring the explosive, life-changing power of God into a persons

life. Mikes spiritual workouts will begin to change your outlook in a matter of weeks and enable you to achieve true spiritual growth and a more rewarding life in general. This book has my highest recommendation. William Hammett, novelist, poet, and critic
