Summary of Bernie Zilbergeld's The New Male Sexuality Everest Media,2022-05-22T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 Men in our culture walk a thin line. They must be sure their behavior conforms to what is considered manly, but they also must be sensitive and emotionally expressive. This has become more difficult than ever before. #2 The training given to boys and girls is different, and has a significant influence on how they behave as adults. While we may not be able to completely undo a genetic disposition, we can shape it to some extent. #3 The training of masculinity in boys begins at a young age, and continues through their lives. By the age of six or seven, they have already learned lessons about being male. They will not cry, and they may not even be able to ask for directions when they're lost. #4 The primary focus of males and females is very different. Connection to others is the name of the game for females of all ages, even in their play. Men, on the other hand, learn that the primary thing in life is doing or performing in the world out there, not in the family in here.

Male Sexuality Under Surveillance Graham Thompson,2005-04 Male Sexuality under Surveillance is a lively, intelligent, and expertly argued analysis of the construction of male sexuality in the business office. Graham Thompson interweaves three main threads: a historicized cultural analysis of the development of the modern business office from its beginnings in the early nineteenth century to the present day, a Foucauldian discussion of the office as the site of various disciplinary practices, and a queer-theoretical discussion of the textualization of the gay male body as a device for producing a taxonomy of male-male relations. The combination of these themes produces a study that is fresh, insightful, and provocative.

The New Man, Masculinity and Marriage in the Victorian Novel Tara MacDonald,2015-10-06 By tracing the rise of the New Man alongside novelistic changes in the representations of marriage, MacDonald shows how this figure encouraged Victorian writers to reassess masculine behaviour and to re-imagine the marriage plot in light of wider social changes. She finds examples in novels by Dickens, Anne Brontë, George Eliot and George Gissing.

Sex and Love at Midlife Bernie Zilbergeld,2010 Is it really better than ever? Now that the children have grown and you have plenty of time on your hands, do you find that the love and intimacy is still as strong as ever or has it gone from your life? Fact: As we mature, our sexual drives mature as well. Fact: We may slow down and lovemaking may be different, but that doesn't mean that the quality has to be lower or the pleasure less. In this honest, down-to-earth volume, Dr. Zilbergeld, a world renowned sex therapist and bestselling author draws on his many years of clinical experience to explain why we should be enjoying our love making and intimacy even more as we mature. Replete with stories and anecdotes that present a variety of tools and techniques to help us all develop the kind of openness we desire, he honestly tells us why age is no barrier to a better and more rewarding sex life. Don't just complain about your love life, get started today to make it better than ever

An Emotional History of the United States Peter N. Stearns, Jan Lewis, 1998 Emotions lie at our very core as human beings. How we process and grapple with our emotions, how and what we emote, and how we respond to the emotions of others, constitute the essence of our social universe. In a very real sense, we exist only through the prism of our emotions. And yet the profound effect of human emotion on history, politics, religion, and culture, remains underexamined. While the influence of emotion in such realms as American foreign policy has been well-documented, other emotional aspects of American history have escaped notice. What role, for instance, does emotion have in the practice of African American religion? How do shame and self-hatred influence American conceptions of identity? How does our emotional life change as we age? To what degree is American consumerism driven by basic human emotion? With this landmark anthology, historians Peter N. Stearns and Jan Lewis provide a road map of the American emotional landscape. From the emotional world of working-class Massachusetts to the prayers of evangelical and pentecostal women and the gendered nature of black rage, these essays provide a multicultural snapshot of the unique nature, and evolution, of American emotions.

The James Bond Phenomenon Christoph Lindner, 2003 Shanghai, long known as mainland China's most cosmopolitan city, is today a global cultural capital. This book offers the first in-depth examination of contemporary Shanghai-based art and design - from state-sponsored exhibitions to fashionable cultural complexes to cutting edge films and installations. Informed by years of in-situ research, the book looks beyond contemporary art's global hype to reveal the socio-political tensions accompanying Shanghai's transitions from semi-colonial capitalism to Maoist socialism to Communist Party-sponsored capitalism. Case studies reveal how Shanghai's global aesthetic constructs glamorising artifices that mask the conflicts between vying notions of foreign-influenced modernity and anti-colonialist nationalism, as well as the city's repressed socialist past and its consumerist present.

Masculinity in Contemporary New York Fiction Peter Ferry, 2014-08-21 Masculinity in Contemporary New York

Fiction is an interdisciplinary study that presents masculinity as a key thematic concern in contemporary New York fiction. This study argues that New York authors do not simply depict masculinity as a social and historical construction but seek to challenge the archetypal ideals of masculinity by writing counter-hegemonic narratives. Gendering canonical New York writers, namely Paul Auster, Bret Easton Ellis, and Don DeLillo, illustrates how explorations of masculinity are tied into the principal themes that have defined the American novel from its very beginning. The themes that feature in this study include the role of the novel in American society; the individual and (urban) society; the journey from innocence to awareness (of masculinity); the archetypal image of the absent and/or patriarchal father; the impact of homosocial relations on the everyday performance of masculinity; male sexuality; and the male individual and globalization. What connects these contemporary New York writers is their employment of the one of the great figures in the history of literature: the flâneur. These authors take the flâneur from the shadows of the Manhattan streets and elevate this figure to the role of self-reflexive agent of male subjectivity through which they write counter-hegemonic narratives of masculinity. This book is an essential reference for those with an interest in gender studies and contemporary American fiction.
