*Mythbusting Hemingway* Thomas Bevilacqua, Robert K. Elder, 2023-11-01 Did Ernest Hemingway kill 122 Nazis during World War II? Did he really fight champion Gene Tunney? Did he have very particular thoughts about hair? Mythbusting Hemingway answers these longstanding questions and more. It's fitting treatment for an author who won both the Pulitzer and Nobel prizes, survived back-to-back plane crashes, and played the cello. He really was "The Most Interesting Man in the World," who once shot himself in the leg (while hunting sharks), and brawled with Orson Welles. In this book, Hemingway legends—both true and debunked—are informed by detective work the authors did for the Paris Review, Chicago Tribune, and Huffington Post. For this volume, the authors conducted fresh interviews and scholarship that shed new light on the man, his work, and legacy. The authors have also unearthed an original essay--never before published in a book--from Frances Elizabeth Coates, Hemingway's high school crush and classmate, about growing up in Oak Park with the young man

who would become the legend.

Teaming up with one of Zach's army buddies, and in defiance of her parents, Jessica searches for him. But will they find him in time to save his life? And is her love enough to help him find redemption?

Recovering from Your Car Accident Dr. James F. Zender, 2020-10-30 Road traffic injuries are a neglected global pandemic. Up to 50 million people a year worldwide are injured or disabled in car accidents. The deleterious impact on the global economy is immense. Thousands of those injured die of opiate overdoses, trying to deal with chronic pain. The post-accident life of a survivor is all too often devastated by spinal or severe orthopedic injuries, depression, anxiety, PTSD, sleep disturbances, mild episodic or chronic pain, and/or a traumatic brain injury that can cause personality changes, cognitive and memory impairments, and debilitating fatigue. A substantially reduced quality of life with career changes and setbacks, broken and overstressed relationships, and financial hardships that continue for many years, often ensue. First Responders, healthcare providers, the survivors' community and to the largest degree, the survivors' family, are forced to deal with the staggering impacts. Auto accidents can dramatically alter lives, forever. Where do survivors and their families go for help? How do survivors heal and get their lives back? Everyone is desperate for hope and evidence-based solutions to manage disabling conditions and ultimately reclaim their lives. This is the first book to offer comprehensive, evidence-based information to both the survivors and their caregivers on understanding, managing, and healing physical and emotional traumas sustained in auto accidents. Based on James Zender's more than fifteen years' experience as a clinical psychologist specializing in auto-accident trauma care, *Recovering From Your Car Accident* leads survivors and their families through the extensive process of emotional and physical recovery. With empathy and compassion, Dr. Zender explains how to conquer the multitude of challenges that often result from auto accidents, including managing pain, depression, and anxiety, addressing concerns about the future and finances, personality changes, emotional and cognitive dysfunction, post-traumatic stress, traumatic brain injury, and strained personal relationships. Through stories recounted by Dr. Zender's patients, survivors will learn that they are not alone and that there is hope for a better tomorrow. Policymakers will gain insight into accident prevention and will be inspired to implement policy improvements to better meet the needs of the auto accident community. Helpful tips throughout this book and a resource section featuring the best online and community support options will aid survivors and their families with rehabilitation. *Recovering from Your Car Accident* will assist survivors with rebuilding their

lives and discovering new ways to thrive.

**I Was Gone Long Before I Left** Peter C. Wilcox,2020-09-15 In St. Teresa of Avila's classic spiritual book Interior Castle she describes a difficult period of time in her spiritual journey when she said, "When I think of myself, I feel like a bird with a broken wing." When I left the monastery thirty-eight years ago, this was exactly how I felt. I Was Gone Long Before I Left is the story about my interior struggle to leave the monastery after living this lifestyle for over twenty-five years. It explores the reasons why I went to the monastery, why I stayed, why I eventually left, and what I have learned. Maybe more importantly, it describes the many years of mental anguish, confusion, and depression that I went through to finally make this decision. It has brought back many painful memories and experiences and called for an honesty and vulnerability that I found daunting. For over thirty-eight years, I have been unable to write about my experience of life in the monastery because I felt ashamed. For years, I thought about leaving, but couldn't make this decision because I felt paralyzed psychologically and emotionally. Now, after all these years, I have found the courage to share my story.

**Student Companion to Ernest Hemingway** Lisa Tyler, 2001-09-30 The fully-lived, yet tragically ended life of Ernest Hemingway has attracted nearly as much attention as his extensive canon of writings. This critical study introduces students to both the man and his fiction, exploring how Hemingway confronted in his own life the same moral issues that would later create thematic conflicts for the characters in his novels. In addition to the biographical chapter which focuses on the pivotal events in Hemingway's personal life, a literary heritage chapter overviews his professional developments, relating his distinctive style to his early years as a journalist. With clear concise analysis, students are guided through all of Hemingway's major works including *The Sun Also Rises* (1926), *A Farewell to Arms* (1929), *For Whom the Bell Tolls* (1940), and *The Old Man and the Sea* (1952). Full chapters are also devoted to examining his collections of short fiction, the *African Stories*, and the posthumous works. Each chapter carefully examines the major literary components of Hemingway's fiction with plot synopsis, analysis of character development, themes, settings, historical context, and stylistic features. Alternate critical

readings are also given for each of the full length works. An extensive bibliography citing all of Hemingway's writings as well as biographical sources, general criticism, and contemporary reviews will help students understand the scope of Hemingway's contributions to American Literature.

**Traveling on Grace Street** Jeff Blake,2013-07-26 Traveling on Grace Street The most important lesson I have learned in the fifty years I have spent working toward the building of a better world is that the true work of social transformation starts within. It begins inside your own heart and mind. Thus, to truly revolutionize our society, we must first revolutionize ourselves. Its been a long journey, all the way from stepping off a cotton farm in Alabama to the epicenter of the struggle for civil rights in America. Some days when I go to my office in the early morning and look out over the great monuments beyond the Capitol, I think, How could this be? How could a poor boy from Alabama have lived such a life? I tell you, it has been the grace of God. Jeff Blake, a brother from Alabama, has written the story of grace in his own journey, and I am pleased to commend his Traveling on Grace Street to you. He too has been in the struggle. He too has kept his eye on the prize. John Lewis United States Congressman Atlanta, Georgia

*Breaking Images* Gianluca Miniaci,2023-02-16 Archaeological remains are 'fragmented by definition': apart from exceptional cases, the study of the human past takes into account mainly traces, ruins, discards, and debris of past civilizations. It is rare that things have been preserved as they were originally made and conceived in the past. However, not

all the ancient fragmentary objects were the 'leftovers' from the past. A noticeable portion of them was part and parcel of the ancient materiality already in the form of a fragment or damaged item. In 2000, John Chapman, with his volume *Fragmentation in Archaeology*, attracted the attention of scholars on the need to reconsider broken artifacts as the result of the deliberate anthropic process of physical fragmentation. The phenomenon of fragmentation can be thus explored with more outcomes for a category of objects that played an important role inside the society: the figurines. Due to their portability and size, figurines are particularly entangled and engaged in social, spatial, temporal, and material relations, and – more than other artifacts – can easily accommodate acts of embodiment and dismemberment. The act of creation symmetrically also involves the act of destruction, which in turn is another act of creation, since from the fragmentation comes a new entity with a different ontology. Breaking contains the paradigms of life: creation and reparation, destruction and regeneration. The scope of this volume is to search for traces of any voluntary and intentional fragmentation of ancient artifacts, creating, improving, and sharpening the methods and principles for a scientific investigation that goes beyond single author impression or sensitivity. The comparative lens adopted in this volume can allow the reader to explore different fields taken from ancient societies of how we can address, assess, detect, and even discuss the action of breaking and mutilation of ancient figurines.
