**Peony** Pearl S. Buck, 2012-08-21 A young Chinese woman falls in love with a Jewish man in nineteenth-century China in this evocative novel by the Nobel Prize-winning author of *The Good Earth*. In 1850s China, a young girl, Peony, is sold to work as a bondmaid for a rich Jewish family in Kaifeng. Jews have lived for centuries in this region of the country, but by the mid-nineteenth century, assimilation has begun taking its toll on their small enclave. When Peony and the family's son, David, grow up and fall in love with one another, they face strong opposition from every side. Tradition forbids the marriage, and the family already has a rabbi's daughter in mind for David. Long celebrated for its subtle and even-handed treatment of colliding traditions, *Peony* is an engaging coming-of-age story about love, identity, and the tragedy and beauty found at the intersection of two disparate cultures. This ebook features an illustrated biography of Pearl S. Buck including rare images from the author's estate.

Peony Pearl Sydenstricker Buck, 1975-02 A story of Chinese and Jewish coinfluents.

*Pearl S. Buck* Peter Conn, 1998-01-28 One of the most popular novelists of the twentieth century, winner of a Pulitzer and Nobel Prize for Literature and an active social and political campaigner, particularly in the field of women's issues and Asian-American relations, Pearl Buck has, until now, remained 'hidden in public view'. Best known, perhaps, as the prolific author of *The Good Earth*, Buck led a career which extended well beyond her eighty works of fiction and non-fiction and deep into the public sphere. In this critically acclaimed biography, Peter Conn retrieves Pearl Buck from the footnotes of literary and cultural history and reinstates her as a figure of compelling and uncommon significance in twentieth-century literary, cultural and political history.

**The Collected Novels Volume One** Pearl S. Buck, 2018-03-13 From the Nobel Prize-winning author of *The Good Earth*: These three novels are fascinating portraits of women in China . In 1938, Pearl S. Buck became the first woman to win a Nobel Prize in Literature for *The Good Earth*, which had already earned her the Pulitzer Prize. Upon choosing Buck's novel

for her book club in 2004, Oprah Winfrey said: Reading Pearl Buck's writing feels like reading poetry to me. I just love the quiet rhythm of the words. They evoke the simple beauty of the characters and the harsh mystery of China's ancient culture. The daughter of missionaries, the New York Times-bestselling author would continue to explore many aspect of Chinese culture in her work, and the three novels collected in this volume represent some of her most compassionate and revealing fiction. *Pavilion of Women*: This vivid and extremely interesting novel, set in early twentieth-century China, follows an upper-class wife's quest for personal freedom ( *The New Yorker*). After Madame Wu turns forty, she encourages her husband to take a young concubine so she can finally begin to discover her own mind—and a new world opens up before her as she reads forbidden books and studies English with a progressive former priest. Beautifully written . . . A fine, full flavorsome novel. — *Newsweek* *Peony*: A young Chinese bondmaid in nineteenth-century China falls in love with the son of the wealthy Jewish family she works for. As the couple's traditions collide, their relationship faces opposition from every side. *Peony* has the vividness of scene and episode and character and the colorful detail that [Buck's] readers have come to expect of her novels in China. — *New York Herald Tribune* *Imperial Woman*: In this richly woven . . . quite absorbing New York Times bestseller, Buck brings to life the story of Tzu Hsi, the magnetic and fierce-minded woman who rose from concubine to become the working head of the Qing Dynasty and the last empress of China for nearly half a century ( *The Nation*) . Certainly, no fictioneer could imagine a more incredible woman. . . . Pearl Buck has done a remarkable and painstaking job in recreating her. — *Saturday Review*

**Elk Grove Village** Nancy Colby,Kelly Behnke,2008-09-29 Prior to 1956, the area now known as Elk Grove Village was a massive cornfield. On July 17, 1956, Elk Grove Village was incorporated as a village, with a population of 116. Since that time, the growth of the village can only be described as phenomenal. Over 50 years, the village has dramatically changed since those early days of cornfields. The name Elk Grove Village was adopted from the great number of elk that roamed through the fenced-in portion of Busse Woods, along Arlington Heights Road, south of the Northwest Tollway. American Indians called the region Wapiti, meaning elk.

**The Art of the Shoe** Marie-Josèphe Bossan,2019-12-09 What is more common than a pair of shoes? In a world where shoes have become an object of mass consumption, these accessories are now rid of any significance. The industry has accomplished its duty: producing a large quantity at a low price. But there was a time when the shoe symbolised the strength of the Roman legion, the power of the Medieval lords or the oppression of the Chinese woman. Its history is both vast and enthralling, as revealed by the author Marie-Josèphe Bossan. Supporting her analysis with an outstanding iconography, the author gives these commonplace objects a universal quality that sheds light on the whole of civilisation and elevates them to the rank of a work of art.

**Imaginary Ethnographies** Gabriele Schwab, 2012-09-18 Through readings of iconic figures such as the cannibal, the child, the alien, and the posthuman, Gabriele Schwab analyzes literary explorations at the boundaries of the human. Treating literature as a dynamic medium that writes culture—one that makes the abstract particular and local, and situates us within the world—Schwab pioneers a compelling approach to reading literary texts as anthropologies of the future that challenge habitual productions of meaning and knowledge. Schwab's study draws on anthropology, philosophy, critical theory, and psychoanalysis to trace literature's profound impact on the cultural imaginary. Following a new interpretation of Derrida's and Lévi-Strauss's famous controversy over the indigenous Nambikwara, Schwab explores the vicissitudes of traveling literature through novels and films that fashion a cross-cultural imaginary. She also examines the intricate links between colonialism, cannibalism, melancholia, the fate of disenfranchised children under the forces of globalization, and the intertwining of property and personhood in the neoliberal imaginary. Schwab concludes with an exploration of discourses on the posthuman, using Samuel Beckett's *The Lost Ones* and its depiction of a future lived under the conditions of minimal life. Drawing on a wide range of theories, Schwab engages the productive intersections between literary studies and anthropology, underscoring the power of literature to shape culture, subjectivity, and life.

**Journey to the People's Republic of China; Review & Analysis** Kalman Dubov, On a Holland America Grand Voyage aboard the flagship *Amsterdam*, I had the great fortune of visiting the ancient land of China, now known as the People's Republic of China. This visit enabled me to, for the first time, to walk part of the way of the Great Wall, visit the Old Summer Palace and see Tien An Men Square and the Forbidden City. Besides visiting the capital city, the ship also visited Shanghai and Hong Kong. China is a huge country whose history goes back millennia. The places we visited provided but a glimpse of that history and its current politics. In this volume, I review China's ancient history, with an overview of the many dynasties that made China great. For many years, China stood at the forefront of technological and scientific discovery, known today as the Four Great Discoveries - the compass, making paper, gunpowder, and printing. Each of these transformed the world, in its own way. Yet, the advancement of science and technology did not stay in China. The great conundrum today is exploring the reasons China lost its ability to stand at the helm of such advancement. I explore this issue while reviewing the complexities of how China lived, both in its dynastic and modern periods. Ancient China had civil service examinations as a method to identify the best and brightest minds and then to employ them for service to the emperor. Jinshi, the highest and most difficult examination was so complicated, the successful candidates' name was inscribed on stone, then selected to remain in Beijing in service to the emperor. Such examinations later migrated to other countries in the Far East, then to the West, where it is in common use today. China and its millennium-long history reflect an ancient people who today seek to assert their presence and power on the world stage. Prior to its current form of government, it was forced to capitulate to Western colonial powers. Revolts by the Chinese against such foreign intervention resulted in the Opium Wars, the loss of

Hong Kong, and the destruction of its Old Summer Palace. I explore China's bitter past, together with its current belligerence on the world stage as it seeks to redevelop and transform itself, from the ancient Silk Road into the modern OBOR - One Belt; One Road with dramatic effect on many peoples and nations. I also noted the conundrum of seeing tall high-rise clusters of apartment buildings, structures that could house thousands of people, but stand completely empty. Passing these buildings at night was eerie; not a single light or human is visible anywhere. The claim of a surging China, at least in the places I visited, made me wonder if the building boom the media and economists claim is but a bubble, soon to evaporate in the glare of inquiry and reality. Nonetheless, this visit was dramatic in its own way, offering many varieties of the different strata of this complex society. During this visit, I explored the Jewish community, first in Shanghai, then in Hong Kong. Several Jewish passengers joined to attend the Sabbath Service at the Chabad House. We were warmly welcomed and saw a robust community in this remote part of the world. In Hong Kong, we visited several synagogues, noting the pride and activity present in these communities. I explore the history of the Jewish community in these centers, with a special interest in the Jewish 'Ghetto' of Shanghai where thousands of European Jews were sheltered during the Nazi's Final Solution. They were given refuge in Shanghai, and the area they lived in is still visible by way of a museum and plaques indicating where they lived and survived the war years. The enormity of China demands a multi-volume effort to do justice to its geography and history. This is but a small contribution of this ancient land.
