Recent Trends in Translation Studies Sara Laviosa, Giovanni Iamartino, Eileen Mulligan, 2021-09-10 This volume offers a snapshot of current perspectives on translation studies within the specific historical and socio-cultural framework of Anglo-Italian relations. It addresses research questions relevant to English historical, literary, cultural and language studies, as well as empirical translation studies. The book is divided into four chapters, each covering a specific research area in the scholarly field of translation studies: namely, historiography, literary translation, specialized translation and multimodality. Each case study selected for this volume has been conducted with critical insight and methodological rigour, and makes a valuable contribution to scientific knowledge in the descriptive and applied branches of a discipline that, since its foundation nearly 50 years ago, has concerned itself with the description, theory and practice of translating and interpreting.

Potamikon: Sinews of Acheloios Nicholas J. Molinari, Nicola Sisci, 2016-07-10 This book, Potamikon, presents an investigation into the origin and identity of the man-faced bull, as well as a catalogue of coins.

Translating Human Inner Life In and Between the Arts Malgorzata Gamrat, 2025-05-15 The book examines how so-called human inner life – feelings, emotions, sentiments and self-reflection – permeates different forms of art. The methodological perspective is multidimensional covering translation studies and semiotics studies, including semiotics of passion, semiotics of culture, existential semiotics and biosemiotics, as well as different arts' fields – music, literature, film, visual arts, multimedia and video games. The book combines these approaches and tools for each field in order to create a new approach that permits an examination of the process of translation in various arts connected to human inner life. In this way, the reader can see the complexity of human inner life from an interdisciplinary perspective.

Cesare Pavese Mythographer, Translator, Modernist: A Collection of Studies 70 Years after His Death Iuri Moscardi, 2023-04-18 This volume on Cesare Pavese is published on the 72nd anniversary of his death, and it aims to explore new perspectives to study this relevant intellectual. The multifaceted personality of Cesare Pavese took many different forms and allowed him to explore different aspects of literary production. He was a poet, a novelist, an essayist, a translator of some of the most important American writers of the 19th and 20th centuries. He also worked for 20 years at Einaudi

Publishing House, where he became one of the most relevant figures of the company and the Italian literary and cultural scene between the 1930s and 1950s. This collection provides new perspectives of study by focusing on different aspects of his job and by analyzing the strong connections between his personal and professional life. It will appeal to graduate students and scholars in contemporary Italian literature.

Attraverso il corpo Chiara Scarlato, 2020-07-16T00:00:00+02:00 Attraverso un'ampia prospettiva teoretica riconducibile alla filosofia e alla letteratura, questo studio si propone come strumento di approfondimento e, più in generale, come una riflessione sulla questione del corpo nell'opera di David Foster Wallace. Sviscerando gli aspetti e gli argomenti filosoficamente più rilevanti di romanzi, racconti, saggi, interviste, lavori preparatori e materiali inediti, il volume discute nozioni operative e concetti teorici fondamentali – tra cui scrittura e letteratura, autore e lettore, interno ed esterno della narrazione – con riferimento a metodologie e approcci culturali che vanno dalla fenomenologia alle tematiche di genere. In questo quadro, esso intende mostrare fino a che punto l'intera opera wallaciana sia sorretta da un apparato filosofico, che la alimenta e la sostiene dall'interno, testimoniando infine una complementarità fra filosofia e letteratura, che appare presente e operante tanto nel processo compositivo, quanto nella struttura finale dei dispositivi letterari.

Studi di storia romana e di diritto,

Vincenzo Consolo, il sé e l'Altro Dominique Budor, 2025-04-18T00:00:00+02:00 Il saggio, pur indagando con accuratezza la specificità linguistica o iconica e l'intento comunicativo di ogni singolo testo (sulla scia di dati critici ormai comprovati), ripercorre l'opera omnia – i romanzi “canonici” e anche i saggi o articoli – da un punto di vista sincretico. Mostra l'originaria coerenza dei fatti isolati con la globalità sociale e culturale e la conciliazione del Tempo con la Storia. Indaga nei tropismi dell'infanzia e della Sicilia, palesati o nascosti in un diffuso autobiografismo, e di natura visiva o verbale, le ragioni del costante e volontario oscillare in Vincenzo Consolo tra la definizione del Sé – lo sperimentalismo e la scrittura – e l'intervento destinato all'Altro – il giornalismo e la militanza per immaginare il futuro. Fino alla cosiddetta «afasia» che afferma la consapevolezza della scomparsa dell'uditorio e la scelta vitale della libertà poetica, senza esaurire la forza creatrice dell'autore nella modernità del Mediterraneo.

Routledge Encyclopedia of Translation Studies Mona Baker,Gabriela Saldanha,2009-03-04 Praise for the previous edition of the Encyclopedia of Translation Studies: 'Translation has long deserved this sort of treatment. Appropriate for any college or university library supporting a program in linguistics, this is vital in those institutions that train students to become translators.' - Rettig on Reference 'Congratulations should be given to Mona Baker for undertaking such a mammoth task and...successfully pulling it off. It will certainly be an essential reference book and starting point for anyone interested in translation studies.' - ITI Bulletin 'This excellent volume is to be commended for bringing together some of [its] most recent research. It provides a series of extremely useful short histories, quite unlike anything that can be found elsewhere. University teachers will find it invaluable for preparing seminars and it will be widely used by students.' - The Times Higher Education Supplement ' ... a pioneering work of reference ...'- Perspectives on Translation The Routledge Encyclopedia of Translation Studies has been the standard reference in the field since it first appeared in 1998. The second, extensively revised and extended edition brings this unique resource up-to-date and offers a thorough, critical and authoritative account of one of the fastest growing disciplines in the humanities. The Encyclopedia is divided into two parts and alphabetically ordered for ease of reference. Part One (General) covers the conceptual framework and core concerns of the discipline. Categories of entries include: central issues in translation theory (e.g. equivalence, translatability, unit of translation) key concepts (e.g. culture, norms, ethics, ideology, shifts, quality) approaches to translation and interpreting (e.g. sociological, linguistic, functionalist) types of translation (e.g. literary, audiovisual, scientific and technical) types of interpreting (e.g. signed language, dialogue, court). New additions in this section include entries on globalisation, mobility, localization, gender and sexuality, censorship, comics, advertising and retranslation, among many others. Part Two (History and Traditions) covers the history of translation in major linguistic and cultural communities. It is arranged alphabetically by linguistic region. There are entries on a wide range of languages which include Russian, French, Arabic, Japanese, Chinese and Finnish, and regions including Brazil, Canada and India. Many of the entries in this section are based on hitherto unpublished research. This section includes one new entry: Southeast Asian tradition. Drawing on the expertise of over 90 contributors

from 30 countries and an international panel of consultant editors, this volume offers a comprehensive overview of translation studies as an academic discipline and anticipates new directions in the field. The contributors examine various forms of translation and interpreting as they are practised by professionals today, in addition to research topics, theoretical issues and the history of translation in various parts of the world. With key terms defined and discussed in context, a full index, extensive cross-references, diagrams and a full bibliography the Routledge Encyclopedia of Translation Studies is an invaluable reference work for all students and teachers of translation, interpreting, and literary and social theory. Mona Baker is Professor of Translation Studies at the University of Manchester, UK. She is co-founder and editorial director of St Jerome Publishing, a small press specializing in translation studies and cross-cultural communication. Apart from numerous papers in scholarly journals and collected volumes, she is author of *In Other Words: A Coursebook on Translation* (Routledge 1992), *Translation and Conflict: A Narrative Account* (2006) and Founding Editor of *The Translator: Studies in Intercultural Communication* (1995), a refereed international journal published by St Jerome since 1995. She is also co-Vice President of the International Association of Translation and Intercultural Studies (IATIS). Gabriela Saldanha is Lecturer in Translation Studies at the University of Birmingham, UK. She is founding editor (with Marion Winters) and current member of the editorial board of *New Voices in Translation Studies*, a refereed online journal of the International Association of Translation and Intercultural Studies, and co-editor (with Federico Zanettin) of *Translation Studies Abstracts and Bibliography of Translation Studies*.
