Writing Diaspora Yasmin Hussain, 2017-03-02 Issues of cultural hybridity, diaspora and identity are central to debates on ethnicity and race and, over the past decade, have framed many theoretical debates in sociology, cultural studies and literary studies. However, these ideas are all too often considered at a purely theoretical level. In this book Yasmin Hussain uses these ideas to explore cultural production by British South Asian women including Monica Ali, Meera Syal and Gurinder Chadha. Hussain provides a sociological analysis of the contexts and experiences of the British South Asian community, discussing key concerns that emerge within the work of this new generation of women writers and which express more widespread debates within the community. In particular these authors address issues of individual and group identity and the ways in which these are affected by ethnicity and gender. Hussain argues that in exploring the different dimensions of their cultural heritage, the authors she surveys have created changes within the meaning of the diasporic identity, articulating a challenge to the notion of 'Asianness' as a homogenous and simple category. In her examination of the process through which a hybridized diasporic culture has come into being, she offers an important contribution to some of the key questions in recent sociological and cultural theory.

The Play Ethic Pat Kane, 2011-08-19 'Fizzes with intellectual curiosity. Kane writes engagingly and with a humility difficult to find among idea-entrepreneurs' James Harkin, Independent We all think we know what play is. Play is what we do as children, what we do outside of work, what we do for no other reason than for pleasure. But this is only half of the truth. The Play Ethic explores the real meaning of play and shows how a more playful society would revolutionize and liberate our daily lives. Using wide and varied sources – from the Enlightenment to Eminem, Socrates to Chaos theory, Kierkegaard to Karaoke – The Play Ethic shows how play is fundamental to both society and to the individual, and how the work ethic that has dominated the last three centuries is ill-equipped to deal with the modern world. With verve, wit and intelligence, Pat Kane takes us on a tour of the playful world arguing that without it business, the arts, politics, education, even our family and spiritual lives are fundamentally impoverished. The Play Ethic seeks to change the way you look at your daily life, how you interact with others, how you view the world. It is a guidebook to new, exciting – and unsettling – times. Shocking, controversial, yet magnificently argued, The Play Ethic is a book no one who works, or has ever worked, can afford to be without. 'Kane's Manifesto for a Different Way of Living is a brave attempt to inject a little playfulness . . . into the dull grind of the working stiff' Iain Finlayson, The Times

Re-Orientalism and South Asian Identity Politics Lisa Lau, Ana Cristina Mendes, 2012-05-23 This volume explores various new forms, objects and modes of circulation that sustain this renovated form of Orientalism in South Asian culture. The contributors identify and engage with pressing recent debates about postcolonial South Asian identity politics, discussing a range of different texts and films such as *The White Tiger*, *Bride & Prejudice* and *Kama Sutra: A Tale of Love*.

Gender and Sexuality in the European Media Cosimo Marco Scarcelli, Despina Chronaki, Sara De Vuyst, Sergio Villanueva Baselga, 2021-05-25 This edited collection brings together original empirical and theoretical insights into the complex set of relations which exist between age, gender, sexualities and the media in Europe. This book investigates how engagements with media reflect people's constructions and understandings of gender in society, as well as articulations of age in relation to gender and sexuality; the ways in which negotiations of gender and sexuality inform people's practices with media, and not least how mediated representations may reinforce or challenge social hierarchies based in differences of gender, sexual orientation and age. In doing so, it showcases new and innovative research at the forefront of media and communication practice and theory. Including contributions from both established and early career scholars across Europe, it engages with a

wide range of hotly debated topics within the context of gender, sexuality and the media, informing academic, public and policy agendas. This collection will be of interest to students and researchers in gender studies, media studies, film and television, cultural studies, sexuality, ageing, sociology and education.

Popular Music and Human Rights Professor Ian Peddie, 2013-01-28 Popular music has long understood that human rights, if attainable at all, involve a struggle without end. The right to imagine an individual will, the right to some form of self-determination, and the right to self-legislation have long been at the forefront of popular music's approach to human rights. In Eastern Europe, where states often tried to control music, the hundreds of thousands of Estonians who gathered in Tallinn between 1987 and 1991 are a part of the singing revolutions that encouraged a sense of national consciousness, which had years earlier been crushed when Soviet policy declared Baltic folk music dead and ordered its replacement with mass song. Examples of this nature, where music has the power to enlighten, to mobilize, and perhaps even to change, suggest that popular music's response to issues of human rights has and will continue to be profound and sustained. This is the second volume published by Ashgate on popular music and human rights (the first volume covered British and American music). Contributors to this significant volume cover topics such as Movimento 77, Nepal's heavy metal scene, music and memory in Mozambique and Swaziland, hybrid metal in the muslim world, folksong in Latvia, popular music in the former Yugoslavia, indigenous human rights in Australia, Víctor Jara, protest and gender in Ireland, rock and roll in China, and the anti-rock campaigns and the Orange Revolution in Ukraine.

Language, Media and Society Anthea Irwin-Turner, 2023-03-27 An ideal introduction to the analysis of language as a central element of everyday interactions and media, helping students reflect critically on the ways individuals and the creators of media use language to reflect and construct social identities Why do we encounter different types of language in different places, from different people, and in different types of media? What assumptions do we make about each other when we interact, and what assumptions do media creators make about us when they design the media we see and hear? When does the language used in society and by media lead to social change and when does it serve to reinforce existing power structures and class divisions? In *Language, Media and Society*, students learn how to notice the features of the language used in the interactions they have and the media they encounter everyday and to understand the relationships between language, media, and the wider world around them. Assuming no prior knowledge of sociolinguistic analysis, this student-friendly textbook is a perfect introduction to the intersections between language and its social contexts. Written in a student-friendly, conversational tone, *Language, Media and Society* first answers some fundamental questions about what we mean when we talk about language, about media, and about society in the contexts of applied linguistics. The book then addresses the many different ways that language and media construct and reflect aspects of identity such as age, gender, sexuality, class, and disability. Students will find useful examples throughout from the types of interactions they have every

day and from the media they encounter every day and will be invited to begin their own investigations into the functions of language in everyday life and in media of all types. This valuable textbook: Is suitable for use in courses on language and media, sociolinguistics, applied linguistics, communications, media studies, and sociology Encourages students to reflect upon the language that is used in everyday life and in the media they see and hear and to consider how this language influences and is influenced by society Features in-chapter tasks, end-of-chapter review questions, guided reflections, and resources for students and instructors Employs an engaging, conversational tone and makes underlying theory accessible Language, Media and Society is an ideal introductory textbook for undergraduate courses on sociolinguistics, language and media, sociology and communication, and media studies.

Analyzing World Fiction Frederick Luis Aldama, 2011-09-01 Why are many readers drawn to stories that texture ethnic experiences and identities other than their own? How do authors such as Salman Rushdie and Maxine Hong Kingston, or filmmakers in Bollywood or Mexico City produce complex fiction that satisfies audiences worldwide? In *Analyzing World Fiction*, fifteen renowned luminaries use tools of narratology and insights from cognitive science and neurobiology to provide answers to these questions and more. With essays ranging from James Phelan's *Voice, Politics, and Judgments in Their Eyes Were Watching God* and Hilary Dannenberg's *Narrating Multiculturalism in British Media: Voice and Cultural Identity in Television* to Ellen McCracken's exploration of paratextual strategies in Chicana literature, this expansive collection turns the tide on approaches to postcolonial and multicultural phenomena that tend to compress author and narrator, text and real life. Striving to celebrate the art of fiction, the voices in this anthology explore the ingredients that make for powerful, universally intriguing, deeply human story-weaving. Systematically synthesizing the tools of narrative theory along with findings from the brain sciences to analyze multicultural and postcolonial film, literature, and television, the contributors pioneer new techniques for appreciating all facets of the wonder of storytelling.

Tartuffe Richard Pinto, Anil Gupta, 2018-09-07 When the seemingly perfect Tartuffe ingratiates himself with the wealthy Orgon and his mother Madame Pernelle, he is soon welcomed into their home and into their lives. His combination of charm, respectability and religious authority proves so irresistible that he is eventually promised the hand of Orgon's daughter in marriage. But the rest of Orgon's family have grave doubts - is there more to Tartuffe than meets the eye? When the threat of eviction for the family and imprisonment for Orgon become apparent, is it all too late to find out? This hilarious and irreverent whirlwind of lies, religious hypocrisy and family feuds features one of theatre's most perfect comedy creations, the beguiling Tartuffe.

Media Discourse Mary Talbot, 2007-09-15 This lively and accessible study of media and discourse combines theoretical reflection with empirical engagement, and brings together insights from a range of disciplines. Within media and cultural studies, the study of media texts is dominated by an exclusive focus on representation. This book adds long overdue attention

to social interaction. The book is divided into two sections. The first outlines key theoretical issues and concepts, including informalisation, genre hybridisation, positioning, dialogism and discourse. The second is a sustained interrogation of social interaction in and around media. Re-examining issues of representation and interaction, it critically assesses work on the para-social and broadcast sociability, then explores distinct sites of interaction: production communities, audience communities and 'interactivity' with audiences.

The Djinns of Eidgah Abhishek Majumdar, 2013-10-10 Ashrafi and Bilal are orphaned siblings stranded and defined by the troubles in Kashmir. 18 year old Bilal is the pride of the region, part of a teenage football team set for great heights, and pushed to the limits by the violence around them. Haunted by hope, his sister is caught in the past, and Bilal is torn between escaping the myths of war and the cycles of resistance. Interweaving true stories and testimonies with Islamic storytelling, the play paints a magical portrait of a generation of radicalised kids, and a beautiful landscape lost to conflict.

Adjusting the contrast Sarita Malik, Darrell M. Newton, 2017-08-17 This volume looks at a range of texts and practices that address race and its relationship with television. The chapters explore television policy and the management of race, how transnationalism can diminish racial diversity, historical questions of representation, the myth of a multicultural England and more. They also provide analyses of programmes such as Doctor Who, Shoot the Messenger, Desi DNA, Survivors and Top Boy, all of which are considered in the context of the broadcast environments that helped to create them. While efforts have been made to put diverse portrayals on screen, there are still significant problems with the stories being told.

Globalization, Communication and the Workplace Gail Forey, Jane Lockwood, 2010-06-24 The global developments in Information Technology Enabled Services have transformed customer service encounters which were until recently face-to-face. The major business areas of healthcare, insurance, banking and media are increasingly moving their customer processes to call centres, web based interaction, and email. ITES is set for explosive growth over the next decade, alongside being increasingly outsourced to non-English speaking destinations. The need for good English language communication skills is becoming ever more acute. This book looks closely at interactive communication in customer-facing services, featuring the voices of both academics and those in industry. It aims to integrate the work of applied linguists, teachers, trainers and businesses. After an initial discussion on the value of research to applied training, the major issues of ITES communications are addressed with either an academic analysis being followed by a training example derived from it, or with an analysis of a workplace problem followed by a research-based solution proposal. This volume should appeal to a wide readership in academic, business training and HR departments.

The Intercultural City Charles Landry, Phil Wood, 2012-05-16 In a world of increasing mobility, how people of different cultures live together is a key issue of our age, especially for those responsible for planning and running cities. New thinking is needed on how diverse communities can cooperate in productive harmony instead of leading parallel or antagonistic lives. Policy is often dominated by mitigating the perceived negative effects of diversity, and little thought is given to how a diversity dividend or increased innovative capacity might be achieved. The Intercultural City, based on numerous case studies worldwide, analyses the links between urban change and cultural diversity. It draws on original research in the US, Europe, Australasia and the UK. It critiques past and current policy and introduces new conceptual frameworks. It provides significant and practical advice for readers, with new insights and tools for practitioners such as the intercultural lens indicators of openness urban cultural literacy and ten steps to an Intercultural City. Published with Comedia.

And finally, the book is of interest to all those who are studying aspects of the media, culture, and communications industries and who want to consolidate their knowledge and critical skills in more comprehensive ways. *Get Set for Media and Cultural Studies* will provide a concise learning aid.

Now a Major Motion Picture Christine Geraghty, 2008 Going beyond the process of adaptation, Geraghty is more interested in the films themselves and how they draw on our sense of recall. While a film reflects its literary source, it also invites comparisons to our memories and associations with other versions of the original. For example, a viewer may watch the 2005 big-screen production of *Pride and Prejudice* and remember Austen's novel as well as the BBC's 1995 television movie. Adaptations also rely on the conventions of genre, editing, acting, and sound to engage our recall--elements that many movie critics tend to forget when focusing solely on faithfulness to the written word.
