*Albania* Piero Pasini,2023

I Wouldn't Start from Here Andrew Mueller,2009-03-01 What is a jaded rock journalist doing dodging landmines to talk to mercenaries and terrorists? And what kind of conversation can a man who prefers hunting for perfect three-minute pop songs and tubes of beer have with devotees of fasting and ferocity? Sarajevo. Jerusalem. Kabul. Belfast. Kosovo. Gaza. Basra. New York City. Every place where recent history advertises the stubbornness, intolerance, bloodlust, and cowardice that sully our collective record, there the intrepid Andrew Mueller goes, skidding around the globe from failed state to ravaged war zone to desolate no-man's-land to try to unpick why we humans seem so prone to plucking war from the jaws of peace. En route, he meets various influential panjandruns (Al Gore, Gerry Adams, Bono, Paddy Ashdown), any number of assorted warlords and revolutionaries, and a sprinkling of peacemakers and do-gooders. He also manages to get shot at, locked up, and taken on a tour by one of the world's most infamous terrorist organizations. It's like a Bond film with much, much less sex, and might appear for that and other reasons to be substantially a story of disappointment. Yet it's a surprisingly sunny book given the mire in which he finds himself.

**Popular Music in Eastern Europe** Ewa Mazierska, 2016-12-21 This book explores popular music in Eastern Europe during the period of state socialism, in countries such as Poland, Hungary, Yugoslavia, Romania, Czechoslovakia, the GDR, Estonia and Albania. It discusses the policy concerning music, the greatest Eastern European stars, such as Karel Gott, Czesław Niemen and Omega, as well as DJs and the music press. By conducting original research, including interviews and examining archival material, the authors take issue with certain assumptions prevailing in the existing studies on popular music in Eastern Europe, namely that it was largely based on imitation of western music and that this music had a distinctly anti-communist flavour. Instead, they argue that self-colonisation was accompanied with creating an original idiom, and that the state not only fought the artists, but also supported them. The collection also draws attention to the foreign successes of Eastern European stars, both within the socialist bloc and outside of it. v>

**World Tourism in the New Millennium** Zishan Parks, 2019-04-20 Since the beginning of time humans have traveled. Food, water, safety or acquisitions of resources (trade) were the early travel motivations. But the idea of travel for pleasure or exploration soon emerged. Travel has always depended upon technology to provide the means or mode of travel. The earliest travelers walked or rode domesticated animals. Tourism is a collection of activities, services and industries that delivers a travel experience, including transportation, accommodations, eating and drinking establishments, retail shops, entertainment businesses, activity facilities and other hospitality services provided for individuals or groups traveling away from home. The World Tourism Organization (WTO) claims that tourism is currently the world's largest industry with annual revenues of over \$3 trillion dollars. Tourism provides over six million jobs in the United States, making it the country's

largest employer. Presenting models and techniques for tourism forecasting at the outset, the book e;World Tourism in the New Millennium; makes elaborate discussion on current and future scenario of tourism in North America, South America, Asia, Africa, and Europe. This unique presentation on current and future tourism scenario is a must for students, teachers, tour consultants, tour guides, tourists and general public.

**Encounters with Civilizations** Gezim Alpion,2017-09-29 Encounters with Civilizations is a broad-ranging work, uniting sweeping themes such as history, culture, the media, social issues, and politics. Building around comparative analyses of aspects of Albanian, Egyptian, British, and Indian cultures, Alpion addresses the problems people experience in their encounters with civilizations different from their birth cultures.The course of history has made the confrontation and comingling of different cultures inevitable. It has also engendered ambivalence toward the cultures involved, including a desire to emulate the new culture, or resentment, or conflicting attitudes toward the relative strength or weakness of both birth and new cultures. Alpion describes how Egyptian culture and politics have been shaped by foreign domination while retaining ancient customs at the social level. In comparison, Great Britain has been an imperial power whose cultural preeminence has shaped the images of smaller countries in the eyes of the world. Alpion writes of English images of his native Albania and offers a penetrating analysis of Mother Teresa as a Christian missionary in Hindu and Muslim India, focusing on her cultural presentation via the media and the cult of celebrity.Whether discussing the customs of Egyptian coffee houses or Alexander the Great as a defining figure in Western and Eastern culture, Alpion grasps the impact of these cultural encounters. He makes us aware that understanding and resolving such differences involves considering ultimate issues of life and death.

*The Siege of Shkodra* Marin Barleti,2012 The Siege of Shkodra is a book written by a Shkodran priest, Marin Barleti (also known as Marinus Barletius), about the Ottoman siege of Shkodra in 1478, led personally by Mehmed II, and about the joint resistance of the Albanians and the Venetians. The book also discusses the Ottoman siege of Shkodra in 1474. The book was originally published in 1504, in Latin, as De obsidione Scodrensi. Barleti was an eyewitness of the events. The English version was published in Albania by Onufri Publishing House in 2012, coinciding with the 100th anniversary of Albania's declaration of independence. The work was translated by David Hosaflook and includes translations of Buda's introduction and notes, Merula's The War of Shkodra, and Becikemi's panegyric. It also includes accounts of the siege of Shkodra from early Ottoman historians, new scholarly notes, the historical context by Prof. David Abulafia, new maps based on the information in the book, and appendixes including Barleti's chronology of battle events. - Wikipedia.

**Tourism Planning and Development in Eastern Europe** Hania Janta,Konstantinos Andriotis,Dimitrios Styliadis,2022-08-25 Three decades ago, the hypermobility of tourists from the days before the global pandemic was truly unthinkable in Eastern Europe. The borders were closed and the region isolated from the rest of the world. Despite an

extraordinary transformation of tourism in the area since, Eastern Europe remains under-explored in tourism studies. This book fills the gap by outlining contemporary strategies for tourism development in post-socialist countries, considering the opportunities and challenges as well as the initiatives and approaches to sustainability. Illuminating the various economic, socio-cultural and environmental impacts that tourism has created, this book is a valuable reference for researchers and students of tourism and related disciplines, as well as anyone interested in the development of Eastern Europe.

*Rethinking Cultural Tourism* Greg Richards, 2021-04-30 This insightful book reappraises how traditional high culture attractions have been supplemented by popular culture events, contemporary creativity and everyday life through inventive styles of tourism. Greg Richards draws on over three decades of research to provide a new approach to the topic, combining practice and interaction ritual theories and developing a model of cultural tourism as a social practice.

**Eleven** Paul Hanley, 2014-09-16 Eleven billion people will crowd this marvelous planet by century's end. If the global economy were to grow five-fold during this period as predicted, humanity's ecological footprint would exceed Earth's biocapacity by 400%. We need to chart a new course to the future. The sweeping changes that make a 'full world' work—involving dual processes of destruction and reconstruction—will transform global culture, agriculture, and ultimately the human race. ELEVEN is a call to consciousness. Only an 'ethical revolution' will allow us to carry forward an ever-advancing civilization. Paul Hanley proposes a transformational model that will help individuals, institutions, and communities make an eleven-billion world work for everyone—and the planet.

**Sport, Statehood and Transition in Europe** Ekain Rojo-Labaien, Álvaro Rodríguez Díaz, Joel Rookwood, 2020-05-04 This book examines the political significance of sport and its importance for nation-state building and political and economic transition across thirteen post-Soviet and post-socialist countries, primarily located in Eastern Europe. Adopting a critical case-study approach, building on historical and comparative frameworks, the book uses sport as a symbolic lens through which to examine the transition of Eastern European countries to the Western capitalist system. Covering a wide geographical area, from Poland to the Caucasus and Turkmenistan, it explores key themes such as nationalism, governance, power relations, political ideology, separatism, commercialisation and economic development, and the symbolic value of mega-events. *Sport, Statehood and Transition in Europe* is fascinating reading for anybody with an interest in sport policy, the politics of sport or political science.
