The Sport of Kings and the Kings of Crime Steven A. Riess, 2011-06-24 Thoroughbred racing was one of the first major

sports in early America. Horse racing thrived because it was a high-status sport that attracted the interest of both old and new money. It grew because spectators enjoyed the pageantry, the exciting races, and, most of all, the gambling. As the sport became a national industry, the New York metropolitan area, along with the resort towns of Saratoga Springs (New York) and Long Branch (New Jersey), remained at the center of horse racing with the most outstanding race courses, the largest purses, and the finest thoroughbreds. Riess narrates the history of horse racing, detailing how and why New York became the national capital of the sport from the mid-1860s until the early twentieth century. The sport's survival depended upon the racetrack being the nexus between politicians and organized crime. The powerful alliance between urban machine politics and track owners enabled racing in New York to flourish. Gambling, the heart of racing's appeal, made the sport morally suspect. Yet democratic politicians protected the sport, helping to establish the State Racing Commission, the first state agency to regulate sport in the United States. At the same time, racetracks became a key connection between the underworld and Tammany Hall, enabling illegal poolrooms and off-course bookies to operate. Organized crime worked in close cooperation with machine politicians and local police officers to protect these illegal operations. In *The Sport of Kings and the Kings of Crime*, Riess fills a long-neglected gap in sports history, offering a richly detailed and fascinating chronicle of thoroughbred racing's heyday.

Jazz Religion, the Second Line, and Black New Orleans Richard Brent Turner,2016-10-17 This scholarly study demonstrates “that while post-Hurricane Katrina New Orleans is changing, the vibrant traditions of jazz . . . must continue” (Journal of African American History). An examination of the musical, religious, and political landscape of black New Orleans before and after Hurricane Katrina, this revised edition looks at how these factors play out in a new millennium of global apartheid. Richard Brent Turner explores the history and contemporary significance of second lines—the group of dancers who follow the first procession of church and club members, brass bands, and grand marshals in black New Orleans’s jazz street parades. Here music and religion interplay, and Turner’s study reveals how these identities and traditions from Haiti and West and Central Africa are reinterpreted. He also describes how second line participants create their own social space and become proficient in the arts of political disguise, resistance, and performance.
