The Jamestown Furniture Industry: History in Wood, 1816-1920 Clarence Carlson, 2014-01-28 While all but gone today, Jamestown's furniture industry was once the second-largest producer of furniture in the United States. Manufacturing boomed from 1816, when William Breed and Royal Keyes opened their shops, to the 1920s, when Jamestown was still one of the top wood furniture producers in the country. In the nineteenth century, the thriving railroad industry allowed Jamestown's quality creations to be distributed nationwide. After the Civil War, an influx of Swedish immigrants brought their craftsmanship and skills to Jamestown, forming Morgan Manufacturing, Empire Furniture Company and many others. Then, their pieces were valued for quality and durability; today, they're coveted by collectors as beautiful antiques. Local expert Clarence Carlson uncovers the fascinating story of Jamestown furniture.

A Cultural History of Furniture in the Modern Age Claire I. R. O'Mahony, 2022-02-24 Furniture is a unique witness to the transformations of private and public experience amidst the upheavals of the 20th century. How we work, rest and play are determined by the embodied encounter with furniture, defining and projecting a sense of identity and status, responding to and exemplifying contrasting social conditions, political and economic motivations, aesthetic predilections and debates. Assessing physical and archival evidence drawn from a spectrum of iconic and under-represented case studies, an

international team of design historians collaborate in this volume to explore key methodological questions about how the production, consumption and mediation of furniture reveal shifting cultural habits and histories across diverse contexts amidst modernity. Drawing upon a wealth of visual and textual sources, this volume presents essays that examine key characteristics of the furniture of the period on the themes of Design and Motifs; Makers, Making, and Materials; Types and Uses; The Domestic Setting; The Public Setting; Exhibition and Display; Furniture and Architecture; Visual Representations; and Verbal Representations.

American Furniture Oscar P. Fitzgerald, 2017-12-22 Drawing on the latest scholarship, this comprehensive, lavishly illustrated survey tells the story of the evolution of American furniture from the 17th century to the present. Not viewed in isolation, furniture is placed in its broader cultural, historic, and aesthetic context. The focus is not only on the urban masterpieces of 18th century William and Mary, Queen Anne, Chippendale, and Federal styles but also on the work of numerous rural cabinetmakers. Special chapters explore Windsor chairs, Shaker, and Pennsylvania German furniture which do not follow the mainstream style progression. Picturesque and anti-classical explain Victorian furniture including Rococo, Renaissance, and Eastlake. Mission and Arts and Crafts furniture introduce the 20th century. Another chapter identifies the eclectic revivals such as Early American that dominated the mass market throughout much of the 20th century. After World War II American designers created many of the Mid-Century Modern icons that are much sought after by collectors today. The rise of studio furniture and furniture as art which include some of the most creative and imaginative furniture produced in the 20th and 21st centuries caps the review of four centuries of American furniture. A final chapter advises on how to evaluate the authenticity of both traditional and modern furniture and how to preserve it for posterity. With over 800 photos including 24 pages of color, this fully illustrated text is the authoritative reference work.

Mid-Century Modern - Visionary Furniture Design from Vienna Caroline Wohlgemuth, 2021-12-31 Visionary furniture design from Vienna In 1938, Vienna lost its best and most creative minds. This rupture was manifested in all of the arts and sciences and its mark is felt to this day – not least in the field of furniture design. With inexhaustible creativity the Jewish furniture designers who were forced to flee Vienna continued to work while in exile. They taught at the best universities and spread their ideas and vision throughout the entire world. Their creations became classics of twentieth-century furniture design, the epitome of mid-century modern style. This book honors the memory of the exiled designers with a thorough overview of their work. It details their life stories and their visionary designs, which remain as relevant and contemporary as ever, and brings to light new aspects of the history of Viennese furniture design. A new history of Viennese furniture design, with 27 detailed biographies Numerous previously unpublished photographs and sketches Including works by Friedl Dicker-Brandeis, Martin Eisler, Josef Frank, Friedrich Kiesler, Richard Neutra, Bruno Pollak, Margarete Schütte-Lihotzky, Franz Singer, Ernst Schwadron, among others

American Home Life, 1880-1930 Jessica H. Foy, Thomas J. Schlereth, 1994-08 In the pivotal decades around the turn of the century, American domestic life underwent dramatic alteration. From backstairs to front stairs, spaces and the activities within them were radically affected by shifts in the larger social and material environments. This volume, while taking account of architecture and decoration, moves us beyond the study of buildings to the study of behaviors, particularly the behaviors of those who peopled the middle-class, single-family, detached American home between 1880 and 1930. The book's contributors study transformations in services (such as home utilities of power, heat, light, water, and waste removal) in servicing (for example, the impact of home appliances such as gas and electric ranges, washing machines, and refrigerators), and in serving (changes in domestic servants' duties, hours of work, racial and ethnic backgrounds). In blending intellectual and home history, these essays both examine and exemplify the perennial American enthusiasm for, as well as anxiety about, the meaning of modernity.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. The Politics of Furniture Fredie Floré, Cammie McAtee, 2017-02-10 In many different parts of the world modern furniture elements have served as material expressions of power in the post-war era. They were often meant to express an international and in some respects apolitical modern language, but when placed in a sensitive setting or a meaningful architectural context, they were highly capable of negotiating or manipulating ideological messages. The agency of modern furniture was often less overt than that of political slogans or statements, but as the chapters in this book reveal, it had the potential of becoming a persuasive and malleable ally in very diverse politically charged arenas, including embassies, governmental ministries, showrooms, exhibitions, design schools, libraries, museums and even prisons. This collection of chapters examines the consolidating as well as the disrupting force of modern furniture in the global context between 1945 and the mid-1970s. The volume shows that key to understanding this phenomenon is the study of the national as well as transnational systems through which it was launched, promoted and received. While some chapters squarely focus on individual furniture elements as vehicles communicating political and social meaning, others consider the role of furniture within potent sites that demand careful negotiation, whether between governments, cultures, or buyer and seller. In doing so, the book explicitly engages different scholarly fields: design history, history of interior architecture, architectural history, cultural history, diplomatic and political history, postcolonial studies, tourism studies, material culture studies, furniture history, and heritage and preservation studies. Taken together, the narratives and case studies compiled in this volume offer a better understanding of the political agency of post-war modern furniture in its original historical context. At the same time, they will enrich current debates on reuse, relocation or reproduction of some of these elements.
