**Decomposing Figures** Cynthia Chase, 2019-12-01 Originally published in 1986. The ghastly fate of a drowned man brought to a lake's surface in Wordsworth's Prelude typifies a fundamental pattern in Romantic writing, argues Cynthia Chase. Disfiguration involves not only a departure from representation but a disruption of the logic of figure or form, a decomposition of the figures composing the text. Ultimately it manifests the conflict between a work's meaning and its mode of performance. By means of an intense engagement with texts in the romantic tradition, *Decomposing Figures* rearticulates and recasts crucial concepts in recent literary theory, including the notion of the self-referential or self-reflexive nature of the literary work. Chase's readings show that, far from implying a privileged status, the work's self-reflexive structure entails its opacity, its inability to read itself, and the necessity of its decomposition.

**Julia Kristeva** John Lechte, 2012-10-11 A leading literary critic and psychoanalyst, Julia Kristeva is one of the most significant French thinkers writing today. In this up-to-date survey of her work, John Lechte outlines fully and systematically her intellectual development. He traces it from her work on Bakhtin and the logic of poetic language in the 1960s, through her influential theories of the 'symbolic' and the 'semiotic' in the 1970s, to her analyses of horror, love, melancholy and cosmopolitanism in the 1980s. He provides an insight into the intellectual and historical context which gave rise to Kristeva's thought, showing how thinkers such as Roland Barthes, Emile Benviste and Georges Bataille have been important in stimulating her own reflections. He concludes with an overall assessment of Kristeva's work, looking in particular at her importance for feminism and postmodern thought in general. Essential reading for all those who wish to extend their understanding of this important thinker, this first full-length study of Kristeva's work will be of interest to students of literature, sociology, critical theory, feminist theory, French studies and psychoanalysis.

**Sounds Senses** Yasser Elhariry, 2021 *Sounds Senses* takes sound as a point of departure for engaging the francophone

postcolonial condition. Offering a synthetic overview of sound studies, the book dismantles the oculo-centrism and retinal paradigms of francophone postcolonial studies. It introduces two primary theoretical thrusts - the unheard and the unintegrated - to the project of analyzing, extending, and rejuvenating francophone postcolonial studies.

**The Lyric Theory Reader** Virginia Walker Jackson, Yopie Prins, 2014-02 Reading lyric poetry over the past century. The *Lyric Theory Reader* collects major essays on the modern idea of lyric, made available here for the first time in one place. Representing a wide range of perspectives in Anglo-American literary criticism from the twentieth and twenty-first centuries, the collection as a whole documents the diversity and energy of ongoing critical conversations about lyric poetry. Virginia Jackson and Yopie Prins frame these conversations with a general introduction, bibliographies for further reading, and introductions to each of the anthology's ten sections: genre theory, historical models of lyric, New Criticism, structuralist and post-structuralist reading, Frankfurt School approaches, phenomenologies of lyric reading, avant-garde anti-lyricism, lyric

and sexual difference, and comparative lyric. Designed for students, teachers, scholars, poets, and readers with a general interest in poetics, this book presents an intellectual history of the theory of lyric reading that has circulated both within and beyond the classroom, wherever poetry is taught, read, discussed, and debated today.

**Shakespeare's Verbal Art** William Bellamy, 2016-01-14 Shakespeare's Verbal Art is a profoundly important study of the newly rediscovered anagrams that lie hidden below the surface of all Shakespearean texts. It explains the essential role played by these concealed figures in Classical and Renaissance poetry, demonstrating the revelatory function of anagram by reference to the close analysis of a wide range of examples. Special attention is given to Shakespeare's use of these sub-textual devices to clarify meaning and intention. The focus is first on Shakespeare's Sonnets of 1609, and secondly on Hamlet, Othello and Twelfth Night, all of which are found to be composed around the concealed anagrams that render these works self-interpreting. A new kind of language use is revealed, in terms of which pre-Enlightenment text is envisaged as existing in two distinct dimensions - the overt and the covert - both of which must be read if any particular poem or play is to be fully understood. In effect, a wholly new set of Shakespearean texts is made available to the reader, who will find Shakespeare's Verbal Art an essential guide to the new discoveries. The book will also be indispensable in the fields of Classical and Renaissance literature, linguistics, poetics, rhetoric, and literary history, and in relation to the pre-Enlightenment text in general, and will interest both the specialist and the general reader.

*Philosophy Through The Looking-Glass* Jean-Jacques Lecercle, 2016-08-05 It is generally accepted that language is primarily a means of communication. But do we always mean what we say - must we mean something when we talk? This book explores the other side of language, where words are incoherent and meaning fails us. It argues that this shady side of language is more important in our everyday speech than linguists and philosophers recognize. Historically this other side of language known as has attracted more attention in France than elsewhere. It is particularly interesting because it brings together texts from a wide range of fields, including fiction, poetry and linguistics. The author also discusses the kind of linguistics that must be developed to deal with such texts, a linguistics which makes use of psychoanalytic knowledge. This tradition of writing has produced a major philosopher, Gilles Deleuze. This book provides an introduction to his work, an account of his original theory of meaning and an analysis of the celebrated *Anti-Oedipus*, which takes *délire* as one of its main themes.

**The Rhetoric of Topics and Forms** Gianna Zocco, 2021-01-18 The fourth volume of the collected papers of the ICLA congress "The Many Languages of Comparative Literature" includes articles that study thematic and formal elements of literary texts. Although the question of prioritizing either the level of content or that of form has often provoked controversies, most contributions here treat them as internally connected. While theoretical considerations inform many of

the readings, the main interest of most articles can be described as rhetorical (in the widest sense) – given that the ancient discipline of rhetoric did not only include the study of rhetorical figures and tropes such as metaphor, irony, or satire, but also that of *topoi*, which were originally viewed as the ‘places’ where certain arguments could be found, but later came to represent the arguments or intellectual themes themselves. Another feature shared by most of the articles is the tendency of ‘undeclared thematology’, which not only reflects the persistence of the charge of positivism, but also shows that most scholars prefer to locate themselves within more specific, often interdisciplinary fields of literary study. In this sense, this volume does not only prove the ongoing relevance of traditional fields such as rhetoric and thematology, but provides contributions to currently flourishing research areas, among them literary multilingualism, literature and emotions, and ecocriticism.

*The Ethics and Poetics of Alterity* Maylis Rospide, Sandrine Sorlin, 2015-09-04 This volume focuses on language and ethics in literary genres, such as dystopia, science fiction, and fantasy, that depict encounters with alterity. Indeed, so-called “genre literature” embodies a heuristic model that dramatizes and exacerbates these encounters by featuring exotic, subhuman or post-human beings that defy human knowledge, elements particularly prevalent in science fiction and fantasy. These genres have often been regarded as an entertaining or escapist field that does not lend itself to ethical and poetical reflections, limiting its scope to a hollow and servile repetition of genre codes. This volume shows unequivocally that this field does lend itself to such reflections. The contributors to this book highlight genre literature’s defamiliarising power, through which things can be “seen”. In meta-conceptualising the relationship between language and reality, it problematises and enhances this relation by making it more easily perceivable. The book shows that, rather than contenting itself with merely questioning the mechanism of estrangement, genre literature explores the confines of readability and the boundary between the readerly and the writerly. In their desire to represent the Other in all its complexity, writers are indeed confronted with an ethical and poetical aporia: how can what escapes humanity be described in human language? How can human language represent things that have no known referent in the reader’s world of experience? This collection of essays reveals that the most prototypical traits of genre literature lie in the encounter with otherness and the linguistic issues this raises.

*The Memory of Tiresias* M. B. Iłajkowski, 1998-10-26 Iłajkowski deals with concepts and ideas that are highly complex and frequently very abstract, yet his discussion—and the progression of his analyses—is always precise and easy to follow. . . . Each of his points is grounded in a careful examination of a specific text, and most of the texts are well-known to American audiences.—Vladimir Padunov, University of Pittsburgh
