**M.E. Croft**

Meet Your Strawman David E. Robinson, 2013-10-02 If nobody has told that you have a Strawman, then this could be a very interesting experience for you. Your Strawman was created when you were very young, far too young to know anything about it. But then, it was meant to be a secret as its purpose is to swindle you, and it has been used very effectively to do just that ever since it was created.

**Celebration of the Straw Man** Murray Rodgers, 2019-01-29 This is a fictional adventure yarn that gives insight into part of New Zealand's rural culture from the predepression years, the impact of World War II on a family and their struggle to cope, and the magic of companionship in the New Zealand backcountry. The story is loosely based on my parents, with Dad never seeming to adjust to what he experienced in Italy during the Second World War. I explore how this adjustment might have been better achieved through a series of fictional incidents and support from his mate Charlie. Bill's journey is about his growth towards comprehending the meaning of a couple of metaphors in the context of overwhelming guilt, his path to self-acceptance, and his relationship with his wife Joan and their children. The setting is non-specific but is largely consistent with the Southland region of New Zealand, and Monte Cassino, Italy.

**Strawman's Hammock** Darryl Wimberley,2001-11 On a chilly October morning, Barrett Bear Raines finds himself on the campground of Linton Loyd, one of the richest men in Florida, watching Linton clean his latest catch. Barrett does not understand why he, an African-American detective for the Florida Department of Law Enforcement, has been invited to the rich man's playground, but soon discovers that Linton wants something from him: Linton wants Barrett to run for county sheriff and Linton will help sponsor the campaign. Barrett doesn't know what to make of the appealing offer and decides to think about it. The following week at work, Barrett learns of a case in which illegal immigrants are being forced to bale straw under rigged contracts and the department wants to find out just how wide spread the problem is. Barrett agrees to accompany Jarold Pearson, an old acquaintance and game warden, to the woods of Linton Loyd's straw baling company. However, the men find more than a group of scared migrant workers: in a secluded tin shack, they discover the body of a young woman pinned to the wall, almost as if she had been crucified. Based on evidence at the scene, Linton's only son becomes the prime suspect, but what does that do for Barrett's chance at sheriff? In a setting mysterious in itself, where an ancient woman could really be the witch people call her, Barrett faces horrible crime and a solution that continually changes shape, as elusive as the strange lights that flicker in his native swamps.

Deadline Randy Alcorn,2009-08-19 The first book in the Ollie Chandler series, this rerelease of the Randy Alcorn bestseller is a heart-pounding murder mystery When tragedy strikes those closest to him, Jake Woods must draw upon all his resources to uncover the truth about the suspicious accident. Soon he finds himself swept up in a murder investigation that is both complex and dangerous. Unaware of the threat to his own life, Jake is drawn in deeper and deeper as he desperately searches for the answers to the immediate mystery at hand and—ultimately—the deeper meaning of his own existence. Deadline is a dramatic and vivid novel of substance, filled with hope and perspective for every reader who longs to feel purpose in life.

**Science but Not Scientists** Vernon L. Grose,2006-10-18 The historic Science Textbook Struggle -- a worldwide battle about the origin of the universe, life, and man -- erupted without warning. It caught the scientific illuminati completely by

surprise. Why? Because science textbooks had become filled with wild, unbelievable stories about the beginning of everything. And those tales were simply not scientific! The universe starting with a Big Bang, life arising out of a soup of lifeless amino-acids, humans produced by apes . . . those myths had only replaced ancient Greek mythology and were being passed off as scientific truths! Caught in the crossfire between educators, news media, textbook publishers, religious notables, and world renowned scientists -- including nineteen Nobel laureates -- was a private citizen. Father of six schoolchildren, he had only one goal: to prove that science never will have answers for origins! He was up against the arrogance of scientists who were determined to disguise their private beliefs as being the only explanations for the origin of the universe, life, and man. This story concludes with a great victory for objectivity -- with more than 200 changes being made in textbooks -- over the objections of the National Academy of Sciences. All discussion about origins was transformed -- by admission that stories about them are based solely on personal views of individual scientists. Remarkably, 3,000 scientists around the world later signed an affirmation to assure that this issue of belief-over-fact in science never be repeated. Wernher von Braun, father of Americas space program, writes in the Foreword: Vernon Grose, in tracing out in *Science But Not Scientists* his personal involvement in the vortex of these two forces, illustrates one more time the humanity of scientists their likelihood of being just as prejudiced and bigoted as anyone untrained in science. He properly calls for objectivity rather than scientific consensus. He rightly urges that message rather than messenger should be scrutinized and tested for validity. Science will be the richer and humanity the ultimate beneficiary by heeding this clarion call.
