La mer Méditerranée face au changement global 1 Christophe Migon,Paul Nival,Antoine Sciandra,2021-04-01 En raison de ses caractéristiques particulières, la mer Méditerranée est souvent considérée comme un modèle de l'océan mondial. Ses dimensions réduites et sa circulation hydrologique particulière la rendent très sensible aux contraintes environnementales et climatiques qui évoluent rapidement. La Méditerranée est un site idéal pour comprendre un certain nombre de processus océanographiques clés, en particulier la mer Ligure où les conditions océaniques se trouvent à proximité des côtes, en raison de sa géologie particulière. Une station d'observation a été établie au large pour produire des séries chronologiques de données. Cet ouvrage divisé en deux volumes synthétise cet important ensemble de données et de connaissances. Il fournit des éléments clés de l'océanographie dans un monde en mutation. Ce volume 1 présente les conditions géomorphologiques, physiques et chimiques de la mer Ligure ainsi que les premières bases de la dynamique biologique qu'elles déterminent, c'est-à-dire les productions phytoplanctonique et bactérienne.

Méditerranée Xavier Girard,1999-12-31T23:00:00+01:00 Ni historique, ni géographique, l'unité de la Méditerranée tient à un faisceau culturel d'oeuvres et d'idées, de façons de penser et de désirer, d'usages et de coutumes, de saveurs, de passions et d'habitudes qui donnent forme à un style, mis en lumière ici, à travers des hommes, des lieux, des savoir-faire et des oeuvres. « Copyright Electre »

100 analyses photo Florence At,Fabien Ferrer,2019-10-16 Quels sont les secrets des bonnes photos ? Quelle part est due au matériel, à la lumière, à la composition ? Pourquoi le résultat est-il parfois si différent de la scène observée ? Pour répondre à ces questions clés, Florence At et Fabien Ferrer ont sélectionné et analysé 100 images qui ont marqué leurs carrières respectives de photographes professionnels. Portrait, paysage, architecture, sport, photo de rue, reportage... Chaque analyse raconte le contexte de la prise de vue, explique le cadrage, découpe l'image pour mieux la comprendre, livre un contre-exemple et révèle un secret d'expert. Une attention toute particulière est accordée au sens d'une image : sa relation avec la réalité, ce qu'elle suggère, la manière dont elle se lit et la façon dont le photographe peut transmettre efficacement le message voulu. À travers ces 100 analyses, apprenez à percer les secrets des photos réussies.

My Everyday Marseille Rachel Minn Lee,2014-10-31 Hello! Marseille, a city in the South of France, needs no introduction. It is remembered for precisely the things it wishes everyone to forget - a tragic history of violence and poverty due to no fault of its own. In most of Marseille there are divergent scenes, the chaotic and savage yet beautiful streets and natural landscapes amalgamate in cohesion, into an unparalleled version of France. You will encounter in the first chapter, the beautiful natural landscapes around the Calanques that dot the Mediterranean coastline in the South of France. The

second chapter throws a spotlight on a variety of street scenes, a capsule of the essence of the daily lives. These soft, sublime moments are lived surrounded by the romance of the Mediterranean sun and sea. Here, the old and new collide in a sweeping sensation of grandeur and naivete, finding exciting possibilities in cohabiting with each other, where the mistral winds howl along the long Mediterranean coastline and azure waters lap languidly on pebbled beaches. You notice the scent of pine and thyme in windblown gardens of reds and yellows as the city beckons to yet another stranger from a faraway place, whispering, 'Explore me', making you yearn to experience more in this place of contradiction. Experiencing the city, consuming it piece by piece brings forth myriad emotions, a happiness that borders on ecstasy together with an unfathomable obsession, a glimpse of a breathing, living story. Some places seem familiar at first glance, others are delightfully foreign. Your feelings are not completely understood, and should never be. The Marseille that you will encounter tells a story about a journey across the city through the lens of a film camera. The fragile moments of daily life, embracing you with the light touches of a sunny, smiling place you know you will not forget. Step in, and enjoy your small travel adventure, one photo at a time.

L'oeil de Reza Florence At, Rachel Deghati, Reza, 2020-09-23 La photographie bâtit des ponts, nourrit les échanges, rapproche les êtres. C'est non pas l'image prise, mais l'image donnée qui a permis à Florence At et à Reza de se rencontrer. Deux photographes aux profils et aux visions complémentaires, animés d'une même passion pour l'image et du désir de la partager avec le plus grand nombre. De cette rencontre sont nés une solide complicité et l'investissement de Florence dans les Ateliers Reza organisés par Rachel Deghati dans différentes banlieues de France et à travers le monde. Avec cet ouvrage, véritable carnet de route humaniste, ils concrétisent un peu plus cet engagement. À la fois recueil de photos et livre didactique, il exprime en 10 leçons tout ce qui fait les spécificités, la beauté et la noblesse du photoreportage, une activité hors du commun exercée par des femmes et des hommes d'exception, précieux témoins de notre époque. Un ouvrage illustré par les œuvres incomparables de Reza, riche des récits de Rachel Deghati et des considérations pratiques et esthétiques de Florence At. Une invitation au partage et aux rencontres, une plongée inédite et passionnante dans les coulisses du métier de photographe.
