The Confidence Chronicles, The Greatest Crime Story [N]Ever Told 2nd Edition Cheryl Dorsey, 2023-11-09 During the COVID outbreak in 2019 and eventual Global shutdown in 2020, retired Los Angeles Police Department Sergeant and author Cheryl Dorsey received a very intriguing proposition from a stranger who slid into her social media DMs. Sgt. Dorsey spent hours and hours over several months engaging with this individual in pursuit of memorializing his life story; a fantastical tale of his purported \$20 million dollar securities fraud against the United States government. In this cautionary tale by Sgt. Dorsey, she had been taken on a wild ride, for over three years, by her very own “Dirty John.” Sgt. Dorsey found herself immersed in a world where nothing was as it seemed. She was in a real-life, version of “Tinder Swindler” meets “The Usual Suspects.” It would take an intrepid British journalist to pierce the veil of lies and deceit. This street-smart cop, for two decades worked the mean streets of Los Angeles as a patrol officer and gang suppression officer in Operations South Bureau CRASH, and had dealt with every type of criminal imaginable . But she soon learned, in her own words, “anyone can get – got”!!! Maverick Miles Nehemiah (Derek Kelly Marsalis), aka #TheLAMidnightRider, #iammaverickporsche , #iamsocalporsche , #iammavericklife, #maverickmann or whomever he is calling himself these days is still out there on patrol (hunt) looking to “find” his next mark. Disability Pension Ioana Soare, 2025-06-27 This treaty on long-term sick leave (medical pensions, disability benefits) is a much-needed book, contributing to everyday practice. It will be very useful both for physicians and patients, legislators and insurers, linguists and philosophers. It is a unique book about insurance medicine, that discusses medicine from an International Classification of Functioning, Disability, and Health point of view. Invalidity pension is a very important topic, not discussed in the medical faculty. Obtaining a disability pension is a process that implies (1) patient evaluation, (2) handing over of money (file evaluation, funds transfer), (3) patient and societal acceptance of disability and (4) rehabilitation. This treaty will tackle the difficult aspects of definitions, ethics, a comparison of medical criteria for patient evaluation, aspects of risks, evolution and prognosis. Disability assessment in the UK, USA, and EU is presented. Errors in the electrocardiograms, the lab analyses or the spirometry interpretation are detailed separately. This book also discusses the pulmonary and visual rehabilitation. The return to work, part of the rehabilitation process, is one of the Social Determinants of Health (SDH), non-medical factors that influence the health outcomes. SDH became more important after the development of Artificial Intelligence and the construction of huge databases in health.

The Cure Thomas J. Kessler D. O., 2022-03-27 The doctrines of grace have sparked debate as well as inspiration since the beginning of the Reformation. For their proponents, they form the foundation of orthodox belief. For their critics, they represent an assault on free will and the nature of man. Known more commonly as the TULIP of Calvinism, these five tenets have been maligned and denigrated by those who fail to understand them. Worse yet, the truths behind these five points are being lost to generations of new believers as the tradition behind them is being quickly forgotten. Clarity and biblical reflection on the TULIP of Calvinism is required. Through the imagery and lens of modern medicine, Dr. Thomas J. Kessler sheds new light on these crucial aspects of Calvinism and why they deserve appreciation by Christians abroad. The disease of

sin has infected and devastated all of humanity. Is there hope for a cure? If so, how was it procured and to whom has it been applied? Can we have confidence in the eternal healing of such a treatment? Drawing from his experiences as a physician and insights from medicine at large, Dr. Kessler sets the record straight. Calvinism represents the biblical concept of God as our great physician, and the sacrifice of His Son as our only cure.

Amazing Adventures of a Heart Surgeon Domingo Liotta,2007-03-25 The startling originality of *Amazing Adventures of a Heart Surgeon* is intrinsically imbued in its focus on historical ethics and esthetic theories. Author and cardiovascular surgeon Domingo Liotta provides a penetrating interpretation from the first millennium BC, considered a major mystery to the world, to modern science. He also discusses the early conception of cardiovascular system, the oxygenation of tissues, the mysterious medical power of shamanism, Taoism, Ugarit, the mythic lost city. It is in this unique melding of Science and humanism that Liotta vehemently intends the definition of a good medical doctor-while recounting the story of his remarkable life. These lectures portray Liotta's dedication in search of the hearts of studious and meditative youths reluctant to change their tools of comprehension and the strategies for mastering difficult-to-understand topics. Thus, Liotta's interests extend from pure science to many adjoining fields-such as philosophy, philology, theology, and education. He shares his knowledge of modern scientific results and his enormous historical information to help rescue his bewildered students. In a collaborative endeavor between science and humanities, *Amazing Adventures of a Heart Surgeon* reflects Liotta's marvelous adventure to develop the first totally artificial heart and its clinical application-the first in the history of mankind-in his tireless fight for human life.
