*The Edwardian Lady* Ina Taylor,1980-01-01 A biography of the poet and illustrator, Edith Holden, contains many reproductions of her artwork and other pertinent documents of her life

The Country Diary of an Edwardian Lady Edith Holden,2001 A naturalist's delight, and a record-breaking gift book, back in print! In 1906, Edith Holden recorded in words and images the flora and fauna of the British countryside through the changing seasons. For 70 years, her enchanting journal lay undiscovered--until 1977, when it was first published with great success (as any bookseller will recall). Now, it is back in print, ours to treasure once again. All the charm and beauty of the original remains intact in this facsimile, with Holden's carefully handwritten entries: favorite poems, personal thoughts, observations of the wildlife she saw in her native Warwickshire; and remarks on her travels throughout England and Scotland. On every page, her exquisitely rendered paintings--executed with a naturalist's eye for detail and an artist's sensitivity and skill--capture birds perched on branches, their mouths open in song; a tiny shrew mouse, sniffing the air; delicate butterflies and slithering snakes; fluttering leaves; and an array of flowers, from pink foxgloves and trailing roses to yellow water lilies. And, each spellbinding picture reflects her deep love of nature. Surely a beloved classic for a new generation of book buyers.

**The Country Diary Book of Flowers** Carol Petelin, 2015-03-17 One of the most appealing, as well as one of the easiest, ways of bringing a breath of summer in to the home is to use dried and pressed flowers to make an almost endless variety of attractive arrangements and designs. Pot pourri, made with colorful, fragrant plants and carefully selected herbs and spices, recreate evocative scents to remind us of Nature's fragrance. Carol Petelin, author of the successful The Creative Guide to Dried Flowers, has drawn on her wealth of experience to provide the ultimate guide to drying and using flowers, plants, and herbs in a myriad of creative ways. First, she describes plants that can be most successfully grown, even by those with limited garden space, and explains how to best harvest and dry them. The next section covers the art of dried flower

arranging. There is advice on working with different combinations of color and form to create arrangements in containers, bouquets, posies, garlands, and swags. She tells how to gather and press flowers and herbs and offers a variety of imaginative projects for them. The final section is devoted to pot pourri. The author includes recipes for deliciously fragrant mixtures and describes how pot pourri, scented flowers, and spices can be used to make many delightfully fragranced items. There is a list of sources for herbs and essential oils. Lavishly illustrated throughout with Simon McBride's color photographs and decorated with some of Edith Holden's own drawings from *The Country Diary of an Edwardian Lady* and *The Nature Notes of an Edwardian Lady*, *The Country Diary Book of Flowers* will inspire all those who wish to practice the art of dried flower arranging and to make unusual and attractive gifts for their homes and friends.

**Women on Nature** Katharine Norbury, 2021-05-13 What would happen, I wondered, if I simply missed out the fifty per cent of the population whose voices have been credited with shaping this particular 'cultural form'. If I coppiced the woodland, so to speak, and allowed the light to shine down to the forest floor and illuminate countless saplings now that a gap has opened in the canopy. . . There has, in recent years, been an explosion of writing about place, landscape and the natural world. But within this blossoming of interest, women's voices have remained very much in the minority. For the very first time, this landmark anthology collects together the work of women, over the centuries and up to the present day, who have written about the natural world in Britain, Ireland and the outlying islands of our archipelago. Alongside the traditional forms of the travelogue, the walking guide, books on birds, plants and wildlife, *Women on Nature* embraces alternative modes of seeing and recording that turn the genre on its head. Katharine Norbury has sifted through the pages of women's fiction, poetry, household planners, gardening diaries and recipe books to show the multitude of ways in which they have observed the natural world about them, from the fourteenth-century writing of the anchorite Julian of Norwich to the seventeenth-century travel journal of Celia Fiennes; from the keen observations of Emily Brontë to a host of brilliant contemporary voices. *Women on Nature* presents a groundbreaking vision of the natural world which, in addition to being a rich and scintillating anthology that shines a light on many unjustly overlooked writers, is of unique importance in terms of women's history and the history of writing about nature.
