**Finding God in The Hunger Games** Ken Gire, 2012 Ken Gire, author of more than 20 books, offers a Christian perspective on the themes inherent in the popular dystopian series, The Hunger Games, written by Suzanne Collins. This book is about the absence of God and the consequences of his absence in our individual lives and in the collective life of the state. And yet, the image of God still resides in us, offering hope. This book offers us tools we'll need as we prepare to face The Hunger Games to come in all of our lives.

Writing in Film Studies, from Professional Practice to Practical Pedagogy Bryan Mead, 2024-01-09 A common refrain heard from instructors in offices across the world is that students have a hard time producing quality written discourse. This is no different in the world of film studies, where many undergraduate students struggle to cogently discuss the films they watch in class. How can film instructors help students become better writers? This book answers this question by, first, uncovering the disciplinary expectations we have for students, and then offering strategies to explicitly teach those expectations in the classroom. This book examines and identifies the disciplinary conventions of professional film studies discourse along with the expectations we have for student writing in undergraduate film courses. What becomes clear from this analysis is that the pedagogical expectations we have for students are aligned with, and shaped by, professional writing in the discipline. It helps to uncover the argument types instructors take for granted and helps those teaching undergraduate students not only to know what those expectations are, but also how to use that knowledge to foster better student writing.

Saving the World and Healing the Soul David M. McCarthy, Kurt E. Blaugher, 2017-05-01 Saving the World and Healing the Soul treats the heroic and redemptive trials of Jason Bourne, Bruce Wayne, Bella Swan, and Katniss Everdeen. The Bourne films, Christopher Nolan's Batman trilogy, the Twilight saga, and the Hunger Games series offer us stories to live into, to make connection between our personal loves and trials and a good order of the world.

*The Hunger Games* Catherine Driscoll,Alexandra Heatwole,2018-05-11 The 2012 film *The Hunger Games* and its three sequels, appearing quickly over the following three years, represent one of the most successful examples of the contemporary popularity of youth-oriented speculative film and television series. This book considers *The Hunger Games* as an intertextual field centred on this blockbuster film franchise but also encompassing the successful novels that preceded them and the merchandised imagery and the critical and fan discourse that surrounds them. It explores the place of *The Hunger Games* in the history of youth-oriented cinema; in the history of speculative fiction centred on adolescents; in a network of continually evolving and tightly connected popular genres; and in the popular history of changing ideas about girlhood from which a successful action hero like Katniss Everdeen could emerge.

*The White Savior Film* Matthew Hughey,2014-04-14 The cinematic trope of the white savior film--think of Sandra Bullock in *The Blind Side*, Kevin Costner in *Dances with Wolves*, or Tom Cruise in *The Last Samurai*--features messianic characters in unfamiliar or hostile settings discovering something about themselves and their culture in the process of saving members of other races from terrible fates. In *The White Savior Film*, Matthew Hughey provides a cogent, multipronged analysis of this subgenre of films to investigate the underpinnings of the Hollywood-constructed images of idealized (and often idealistic) white Americans. Hughey considers the production, distribution, and consumption of white savior films to show how the dominant messages of sacrifice, suffering, and redemption are perceived by both critics and audiences. Examining the content of fifty films, nearly 3,000 reviews, and interviews with viewer focus groups, he accounts for the popularity of this subgenre and its portrayal of racial progress. *The White Savior Film* shows how we as a society create and understand these films and how they reflect the political and cultural contexts of their time.

*How to Be a Film Critic in Five Easy Lessons* Christopher K. Brooks,2019-12-02 *How to Be a Film Critic in Five Easy Lessons* addresses the serious matter of the increasing gap between the published opinions of professional film critics and the reception of popular film by traditional movie-goers, especially millennial movie fans. Recent reactions to the low grades emanating from Rotten Tomatoes, the iconic film review aggregation site, have inspired various constituencies to call for significant changes, including some major studio CEOs, some actors, and the readers of reviews themselves. A new generation and breed of film critics is needed, not raised to please baby boomers or Generation X movie fans, but younger viewers who make up 30% of ticket buyers. This study examines all this and offers five categories of film reviewers plying

their trade as models of consistency. New critics have to start somewhere, most often in college film classes, and deciding what type of critic one wants to be begins here.

**Generation Multiplex** Timothy Shary, 2014-03-07 Generation Multiplex (2002) was the first comprehensive study of the representation of teenagers in American cinema since David Considine's Cinema of Adolescence in 1985. This updated and expanded edition reaffirms the idea that films about youth constitute a legitimate genre worthy of study on its own terms. Identifying four distinct subgenres—school, delinquency, horror, and romance—Timothy Shary explores hundreds of representative films while offering in-depth discussion of movies that constitute key moments in the genre, including Fast Times at Ridgemont High, A Nightmare on Elm Street, The Breakfast Club, Say Anything . . . , Boyz N the Hood, Scream, American Pie, Napoleon Dynamite, Superbad, The Twilight Saga, and The Hunger Games. Analyzing developments in teen films since 2002, Shary covers such topics as the increasing availability of movies on demand, which has given teens greater access to both popular and lesser-seen films; the recent dominance of supernatural and fantasy films as a category within the genre; and how the ongoing commodification of teen images in media affects real-life issues such as school bullying, athletic development, sexual identity, and teenage pregnancy.

**The Skeptic's Handbook** Marc Bradley Berlin, 2012-09 Some people are skeptical about religion. Others about politics. And still others about romance. But what about those who sniff out pure BS on just about everything? Now they have the only resource they'll ever need to guide them through an irreverent look at the big questions that have intrigued all of mankind for centuries: thought-provoking inquiries from What's the Worst Country in the World? to Can I Predict When I Will Die? and everything in between. The Skeptic's Handbook pulls no punches, and no topic is off limits. But rather than offend, it simply makes you laugh as you realize that ultimately the dumbest thing we can do is to take life too seriously. Why miss out on the absurdity of it all, when that can be such a big part of the fun? Filled with one-page reflections, each designed to answer a profound question (such as Are There Any Jews in Mongolia?), this indispensable resource will leave you marveling at the foolish nonsense of a world that somehow manages to function despite the often bizarre machinations of a species known as

homo sapiens. Laughter really can sometimes be the best medicine...though a hard-core skeptic will be quick to point out that medication is just as likely to kill you.

Development of the Global Film Industry Qiao Li,Yanqiu Guan,Hong Lu,2020-09-01 The global film industry has witnessed significant transformations in the past few years. Regions outside the USA have begun to prosper while non-traditional production companies such as Netflix have assumed a larger market share and online movies adapted from literature have continued to gain in popularity. How have these trends shaped the global film industry? This book answers this question by analyzing an increasingly globalized business through a global lens. *Development of the Global Film Industry* examines the recent history and current state of the business in all parts of the world. While many existing studies focus on the internal workings of the industry, such as production, distribution and screening, this study takes a big picture view, encompassing the transnational integration of the cultural and entertainment industry as a whole, and pays more attention to the coordinated development of the film industry in the light of influence from literature, television, animation, games and other sectors. This volume is a critical reference for students, scholars and the public to help them understand the major trends facing the global film industry in today's world.

*ReFocus: The Films of Amy Heckerling* Frances Smith,2016-02-19 *Refocus: The Films of Amy Heckerling* is the first book-length study of the work of Amy Heckerling, the phenomenally popular director and screenwriter of *Clueless* and *Fast Times at Ridgemont High*. As such, the book constitutes a significant intervention in Film Studies, prompting a reconsideration of the importance of Heckerling both in the development of Teen cinema, and as a figure in Hollywood comedy. As part of the *Refocus* series, the volume brings together outstanding original essays examining Heckerling's work from a variety of perspectives, including film, television and cultural studies and is destined to be used widely in undergraduate teaching.

Lee,Jad Melki,Julian McDougall,2017-04-21 At the forefront in its field, this Handbook examines the theoretical, conceptual, pedagogical and methodological development of media literacy education and research around the world. Building on traditional media literacy frameworks in critical analysis, evaluation, and assessment, it incorporates new literacies emerging around connective technologies, mobile platforms, and social networks. A global perspective rather than a Western-centric point of view is explicitly highlighted, with contributors from all continents, to show the empirical research being done at the intersection of media, education, and engagement in daily life. Structured around five themes—Educational Interventions; Safeguarding/Data and Online Privacy; Engagement in Civic Life; Media, Creativity and Production; Digital Media Literacy—the volume as a whole emphasizes the competencies needed to engage in meaningful participation in digital culture.
