**Gardening Can Be Murder** Marta McDowell, 2023-09-05 This fun, engrossing book takes a look at the surprising influence that gardens and gardening have had on mystery novels and their authors. With their deadly plants, razor-sharp shears, shady corners, and ready-made burial sites, gardens make an ideal scene for the perfect murder. But the outsize influence that gardens and gardening have had on the mystery genre has been underappreciated. Now, Marta McDowell, a writer and gardener with a near-encyclopedic knowledge of the genre, illuminates the many ways in which our greatest mystery writers, from Edgar Allen Poe to authors on today's bestseller lists, have found inspiration in the sinister side of gardens. From the cozy to the hardboiled, the literary to the pulp, and the classic to the contemporary, *Gardening Can Be Murder* is the first book to explore the mystery genre's many surprising horticultural connections. Meet plant-obsessed detectives and spooky groundskeeper suspects, witness toxic teas served in foul play, and tour the gardens—both real and imagined—that have been the settings for fiction's ghastliest misdeeds. A New York Times bestselling author herself, McDowell also introduces us to some of today's top writers who consider gardening integral to their craft, assuring that horticultural themes will remain a staple of the genre for countless twisting plots to come. "This book is dangerous. A veritable cornucopia of crime fiction and gardening lore, it faces the reader with multiple temptations—books to seek out, plants to obtain, garden tours to book." —Vicki Lane, author of the *Elizabeth Goodweather Appalachian Mysteries*

Then one of the gardeners is found murdered at the grand opening, and Tory realizes she'll have to weed through some damning false evidence to help prove her implicated friend is innocent. *Mind Diversion* James Green,2014-06-11 This is a story about Charlie Fieldstone, who killed the wife of the doctor who treated him for cancer. Charlie explained to many people, including those working for the police department, that a computer chip that was placed in his brain made him do this killing. He figured that this chip gave him hallucinations and much pain, especially when he failed to do exactly what he was told to do during the hallucinations. The police did not believe Charlie at first, mainly because no image of such a chip showed up on x-rays. At the time, experts, who studied computer chips that could create hallucinations, knew of many of those kinds of chips, but none of them failed to show an image on x-rays. Later in the novel, Charlie took many actions with the hope of persuading the police--and the public at large--to take seriously the notion that a computer chip might have been planted in his brain. One such action that Charlie took when his situation seemed especially desperate resulted in the breaking of his skull.
