Springer Handbook of Geographic Information Wolfgang Kresse, David M. Danko, 2012-02-21 Computer science provides a powerful tool that was virtually unknown three generations ago. Some of the classical fields of knowledge are geodesy (surveying), cartography, and geography. Electronics have revolutionized geodetic methods. Cartography has faced the dominance of the computer that results in simplified cartographic products. All three fields make use of basic components such as the Internet and databases. The Springer Handbook of Geographic Information is organized in three parts, Basics, Geographic Information and Applications. Some parts of the basics belong to the larger field of computer science. However, the reader gets a comprehensive view on geographic information because the topics selected from computer science have a close relation to geographic information. The Springer Handbook of Geographic Information is written for scientists at universities and industry as well as advanced and PhD students.

Civil Servants and Public Policy Robert I. McLaren, 2006-01-01 This thoroughgoing study of international secretariats might be entitled What the International Civil Servant Really Does, as opposed to what he or she should do or is believed to do. The author interviewed international officials, studied the documents of the agencies involved, and reviewed the relevant literature in an intensive investigation of the political role played by international secretariats of United Nations organizations. He suggests that various factors are involved in determining the role of these secretariats—size, types of functions, the degree of control exercised by member governments, the relative technical expertise of these governments and secretariat officials, the personalities of these officials. An original conclusion is reached: civil services, at least at the international level, do not necessarily play a significant policy-making role in their organizations.

*ISO Standards for Geographic Information* Wolfgang Kresse, Kian Fadaie, 2013-03-09 The book addresses scientists and technical experts who have already some background knowledge in Geographic Information Systems (GIS) and who want to know more about standardisation in GIS, in particular, the role of the International Organization for Standardization (ISO). In addition, the monograph meets the needs of programmers who are involved in implementing ISO 19100 standards and who need a better understanding of the overall structure of the standards. Last, but not least, this richly illustrated book helps readers to better understand the rather abstract ISO documents.

The African Union Tony Karbo, Tim Murithi, 2017-11-23 The African Union has been a major factor in establishing peace,

security and development in Africa. Today, however, the intranational body is struggling in the midst of a perceived dissipating appetite for supporting continental institutions. Previously seen as the panacea to Africa's continuing problems with violence and corruption in society, under the slogan African Solutions to African Problems, the African Union, this book argues, seems to have run its course. Recognizing that the measured successes in political emancipation which have been recorded across the African continent do not seem to have translated into economic and social gains for its 1.2 billion citizens, the AU adopted a new development framework dubbed Agenda 2063. The framework calls on African leaders to rediscover the 'Pan African' spirit and to create the 'Africa Africans want'. In practice this means a new focus and engagement with the African Diaspora, tapping into their strong track-record in economic development. As this book shows however, there remain deep differences over the meaning, timing and sequencing of pan-African integration. Indeed, different member states have different understandings of the role of the African Union itself. This essential handbook, from one of the leading research institutions on the continent, seeks to uncover what some of those understandings are and why the unification project has remained so elusive.

**Contemporary Human Rights Ideas** Bertrand G. Ramcharan, 2015-06-16 Written by a former UN High Commissioner for Human Rights (2003-4), this book has been fully updated for a second edition and continues to provide a much needed, short and accessible introduction to the foundational human rights ideas of our times and shows that every government is under international obligation to respect and uphold universal human rights. Updates include: Discussion of the recent intellectual challenges to the international human rights movement Examination of the establishment and functioning of the Human Rights Council and the Universal Review Process Evaluation of the developments in the area of the Responsibility to Protect and continued efforts to implement the right to development Inclusion of issues such as the push for compensation for slavery, experiments with democracy in a number of countries and the decisions of international judicial and human rights organs on conceptual and protection issues This book will be of great interest to students and scholars of Global Institutions, International Law and Human Rights.

**Proceedings of the International Conference on Cultural Policy and Sustainable Development (ICPSD 2024)**

Abdul Kadir Jaelani, Irwansyah Irwansyah, Fokke Fernhout, Adolfo Antonio Paolini, Mohd Rizal Palil, Hilaire Tegnau, Okid Parama Astirin, Sutarno Sutarno, Patricia Covarrubia, Bobur Sobirov, Robbi Rahim, 2024-12-23 This is an open access book. Cultural policy plays a crucial role in shaping societies, influencing cultural expressions, and advancing sustainable development. Laws and regulations related to culture, both at the national and international levels, play a key role in regulating and protecting cultural heritage and supporting a healthy cultural ecosystem. The First International Conference on Cultural Policy and Sustainable Development (ICPSD) aims to explore the impact of cultural policies in democratic and

nondemocratic regimes. This conference will serve as a platform for scholars, policymakers, and practitioners to exchange ideas, share experiences, and discuss strategies to promote cultural diversity, creativity, and sustainability in different political contexts. Internationally, various agreements such as the UNESCO Convention on the Protection and Promotion of the Diversity of Cultural Expressions underscore the importance of cultural policies in supporting sustainable development and promoting cultural diversity (UNESCO Convention 2005, n.d.). At the national level, laws such as the Cultural Law in Indonesia establish a framework for the protection and development of culture, as well as provide a legal basis for inclusive and sustainable cultural policy-making (Law Number 5 of 2017 concerning the Advancement of Culture, n.d.). In democratic regimes, cultural policies are often developed through participatory processes, reflecting the values and aspirations of diverse communities. These policies aim to support cultural expression, protect cultural heritage, and promote cultural rights, thereby contributing to social cohesion and inclusive development. However, challenges such as funding limitations, cultural commodification, and the impact of digital technology require ongoing dialogue and innovation in policy approaches. On the other hand, cultural policies in nondemocratic regimes are often used as tools for political control, censorship, and the promotion of state ideology. Nevertheless, cultural practitioners and activists in these contexts demonstrate resilience and creativity in navigating restrictive environments, often using digital technology to amplify their voices and preserve cultural identity. In various countries, existing legislation greatly influences the implementation of cultural policies and sustainable development. In Indonesia, for example, Law Number 5 of 2017 concerning Culture serves as the main foundation for the development of sustainable cultural policies. This law promotes the protection, preservation, development, utilization, and fostering of culture as an integral part of national development (Law Number 5 of 2017 concerning the Advancement of Culture, n.d.). Cultural Policy and Sustainable Development are interrelated concepts and are the main focus of this conference, where appropriate cultural policies can strengthen sustainable development, reinforce cultural identity, and improve the quality of life for communities. In the context of the conference theme, Cultural Policies in Democratic and Nondemocratic Regimes, it is important to consider the differences in cultural policy approaches between these two types of regimes. This forum aims to facilitate communication among Law Faculty Academics worldwide with the agenda of the 1st International Conference on Cultural Policy and Sustainable Development (ICPSD): “Cultural Policies in Democratic and Nondemocratic Regimes”.

**Preventive Human Rights** Bertrand G. Ramcharan, 2012-08-06 This book identifies the need for preventive human rights strategies, maps what exists by way of such strategies at the present time, and offers policy options to deal with the world of the future.

**GLOBAL HANDBOOK ON FOOD AND WATER SAFETY** Sonia Y. De Leon, Susan L. Meacham, Virginia S. Claudio, 2003-01-01 This book is a practical reference on food and water safety that will be useful for food managers,

trainers/educators, food handlers, and consumers worldwide. The first two chapters emphasize the importance of food and water safety on health and life maintenance. Each chapter has an introductory paragraph that states the objective and scope of the chapter text. Definitions of useful terms, tables, and illustrations serve to make the key points better understood and easier to remember. Review questions at the end of each chapter enhance the learning experience, and the chapter references will give the reader a chance to delve into areas of interest for further information. A very unique feature of this book is the segment on foodborne disease outbreaks. A selection of fifty cases are presented that provide important learning tools for problem-solving and evaluating foodborne illnesses. Water safety is explained in great detail, whether it is used for drinking and cooking or in recreational water facilities. Numerous examples of etiologic agents that cause illness from contaminated food and water are discussed. Guidelines to supply safe food and water for emergencies that include preparedness in case of bioterrorism, power outage, floods, hurricanes, and other disasters are given. Practical guidelines about food and water safety when handling foods throughout the food chain are explored in each chapter. In addition, a glossary of terms commonly used in food and water safety, with cross-references to the chapter contents, is included. In light of global trade and increasing cultural diversity in food consumption, this book also deals with challenges for the future to ensure a safe water and food supply.

*IPPC Procedure manual for implementation and capacity development* Food and Agriculture Organization of the United Nations, 2022-03-25 The Procedure Manual for Implementation and Capacity Development is composed of six sections; Implementation and Facilitation Unit of the IPPC Secretariat, Implementation and Capacity Development Committee, IC Sub-groups, IC Teams and Working Group, Specific IC Sub-groups, Specific IC Teams and additional useful procedures. The purpose of this manual is to provide a convenient consolidation of decisions, procedures, practices and forms used in the implementation and capacity development work in the IPPC community. **A Vertical Empire** C. N. Hill, 2012 A Vertical Empire provides a description of the British rocketry and space programme from the 1950s to 1970s, detailing the Medium Range Ballistic Missile Blue Streak and its conversion to a satellite launcher as part of the European Launcher Development Organisation (ELDO). This extensively revised second edition includes material only made available in the past ten years and the text is supplemented by numerous photographs, sketches and statistics. The all-British satellite Black Arrow is described, as well as the research rocket Black Knight, the Blue Steel missile and the rocket powered interceptor aircraft.

*Report of the eighth meeting of the WHO Strategic and Technical Advisory Group of Experts for Maternal, Newborn, Child and Adolescent Health and Nutrition, 14-16 November 2023* World Health Organization, 2024-03-04 The eighth meeting of the Strategic and Technical Advisory Group of Experts (STAGE) for maternal, newborn, child and adolescent health and nutrition (MNCAHN) was held in Geneva on 14-16 November 2023. Most of the STAGE members attended in person while five attended the meeting online. They were joined by WHO staff at headquarters and online from regional offices, and 50 observers from partner organizations. The meeting agenda included three new topics (maternal well-being, birth defects and complementary feeding) and detailed updates on various topics from the previous meetings (maternal newborn stillbirth transition framework, maternal and newborn health (MNH) commodities, midwifery models of care, caregiver practices as part of child and adolescent health well-being, and kangaroo mother care (KMC)). The preparatory work included meetings either with existing working groups of STAGE or with small subgroups with the co-chairs of the two workstreams and select STAGE members. These groups provided inputs to the WHO technical teams for the preparation of background information and for the presentations to STAGE. The open sessions on each day enabled inputs from STAGE members, WHO regional offices and observers from various organizations, while the closed sessions with STAGE members helped consolidate the STAGE recommendations. These were further finetuned through online consultations with the members and the final STAGE recommendations are provided in this report.
