Conflict and Hostility in Hotels, Restaurants, and Bars Conrad Lashley, 2024-06-13 This book critically explores conflict and hostility in a range of hospitality settings and from a broad stakeholder perspective. The provision of accommodation, food, and drink in commercial settings has conflict at its core because the commercial transaction between hosts and guests can result in a clash of expectations between the server and served. These service encounters involve stakeholders other than immediate personnel and their clients; owners, managers, local communities, and regulatory and licensing authorities also have concerns about the hotels, restaurants, and bars in their midst. The book recognises that these

different stakeholders frequently have common interests but are also in conflict as their needs and goals compete with others. By reviewing these multi-agenda perspectives, the contributors offer new insights into topics such as conflict theory within the hospitality industry, human trafficking, employee conflict, dysfunctional leadership, tall poppy syndrome, and the impacts of over-tourism on host communities. Written by leading international academics, this significant volume will be of interest to students, researchers, and academics interested in critical hospitality studies, sociology, and business, as well as anthropology and culture studies.

Fairness and Freedom David Hackett Fischer, 2012-02-10 Fairness and Freedom compares the history of two open societies--New Zealand and the United States--with much in common. Both have democratic polities, mixed-enterprise economies, individuated societies, pluralist cultures, and a deep concern for human rights and the rule of law. But all of these elements take different forms, because constellations of value are far apart. The dream of living free is America's Polaris; fairness and natural justice are New Zealand's Southern Cross. Fischer asks why these similar countries went different ways. Both were founded by English-speaking colonists, but at different times and with disparate purposes. They lived in the first and second British Empires, which operated in very different ways. Indians and Maori were important agents of change, but to different ends. On the American frontier and in New Zealand's Bush, material possibilities and moral choices were not the same. Fischer takes the same comparative approach to parallel processes of nation-building and immigration, women's rights and racial wrongs, reform causes and conservative responses, war-fighting and peace-making, and global engagement in our own time--with similar results. On another level, this book expands Fischer's past work on liberty and freedom. It is the first book to be published on the history of fairness. And it also poses new questions in the old tradition of history and moral philosophy. Is it possible to be both fair and free? In a vast array of evidence, Fischer finds that the strengths of these great values are needed to correct their weaknesses. As many societies seek to become more open--never twice in the same way, an understanding of our differences is the only path to peace.

HAVOC-06 Troy Knight,2022-03-01 I received a target indication from one of the rear team members and observed movement coming from the left of the area of engagement. I then saw them, two enemy fighters moving to a new position. I must have let rip about twenty rounds and not one of the rounds hit them. I had missed completely! "You shit shot," swearing at myself under my breath. My teeth were clenched and I was pissed off at my own incapability with a rifle, however, I realised I had a primarily role to play and that was as the Platoon JTAC. Havoc-06 is the call sign of former Australian Combat Controller, Troy Knight. As a Royal Australian Air Force Airfield Defence Guard, Troy had not found the military adventure he sought; combat operations. His thirst for overseas deployment saw him privately contract his services in Iraq and South East Asia, but when he got whiff that the Australian Defence Force was raising a new defence capability, he couldn't help but want to be part of it. The new Defence capability, termed the 'Special Tactics Project,' would see Troy undertaking the gruelling Commando Selection course and passing, making him one of Australia's first Combat Controllers attached to the Australian Army 2nd Commando Regiment. As a member of the Special Forces unit, Troy's lifelong dream of taking part in combat operations would come to fruition, but the reality of his dream would also play havoc on his life. Havoc-06 is the untold story of the Australian Combat Controller, but it is also Troy's personal story and one that will resonate with so many.

Believe in Yourself Anne Poole,2020-11-10 Believe in Yourself shares Anne's life journey; the struggle of overcoming challenges from being unhappy to finding fulfilment and vitality. Relationship experiences that led her to seek counselling and resolving to put herself first have given her real insight. A heartfelt epiphany about her mum was very powerful and confronting, yet freeing in offering true wisdom and solutions. Her limiting childhood beliefs had suppressed her voice. In sharing her fears about failure, fear of success and fear of shame, and highlighting the range of physical and psychological feelings associated with inertia and procrastination that were preventing her from moving forward, Anne illustrates how she found acceptance in the most difficult of situations. Digging deep and using various tools, she courageously faced the situations, embraced the lessons, and continues to enjoy the successes obtained. This is a wonderfully encouraging story where nature soothes her soul and allows her intuition to be heard. Anne shares her journey with simple honesty and gives

genuine encouragement to those who may be facing similar challenges. The final story about the breathtaking scenery of Anne's trip to the Antarctic is filled with appreciation and gratitude for so many gifts, including spectacular sunrises and sunsets. Full of useful tools and practical exercises at the end of each chapter, the Action Aces summaries provide brilliant methods to apply! Consistency is key when you take that first step; choose you, and Believe in Yourself.

The Master Christopher Clarey, 2021-08-24 This New York Times bestselling biography tells the life story of the most iconic men's tennis player of the modern era. There have been other biographies of Roger Federer, but never one with this kind of access to the man himself, his support team, and the most prominent figures in the game, including such rivals as Rafael Nadal, Novak Djokovic, and Andy Roddick. In *The Master*, New York Times correspondent Christopher Clarey sits down with Federer and those closest to him to tell the story of the greatest player in men's tennis. Roger Federer has often made it look astonishingly easy through the decades: carving backhands, gliding to forehands, leaping for overheads and, in his most gravity-defying act, remaining high on a pedestal in a world of sports rightfully flooded with cynicism. But his path from temperamental, bleach-blond teenager with dubious style sense to one of the greatest, most self-possessed and elegant of competitors has been a long-running act of will, not destiny. He not only had a great gift. He had grit. Christopher Clarey, one of the top international sportswriters working today, has covered Federer since the beginning of his professional career. He was in Paris on the Suzanne Lenglen Court for Federer's first Grand Slam match and has interviewed him exclusively more than any other journalist since his rise to prominence. Here, Clarey focuses on the pivotal people, places, and moments in Federer's long and rich career: reporting from South Africa, South America, the Middle East, four Grand Slam tournaments, and Federer's native Switzerland. It has been a journey like no other player's, rife with victories and a few crushing defeats, one that has redefined enduring excellence and made Federer a sentimental favorite worldwide. *The Master* tells the story of Federer's life and career on both an intimate and grand scale, in a way no one else could possibly do.

The Spirit Contemporary Life Leon Fontaine,2017-08-01 What if the Supernatural Became Normal and Natural in Your Life? How would your world change if you regularly experienced the miraculous? And what if this happened everywhere you went-in a way that attracted people to Jesus? It wouldn't just make a difference in your world; it would make the world different. It might sound too good to be true...but that's the Spirit Contemporary life. While working as a first responder in an ambulance, Leon Fontaine longed to see God's power at work outside the four walls of a church. He learned through many life-changing experiences that we can all unlock the miraculous in a way that works anywhere-at home, in a hospital, at work-with anyone! The Spirit Contemporary way of life involves communicating with others as Jesus would: using their language, stories, and settings. Leon draws on biblical truth and personal stories to reveal how this dynamic first-century faith can be yours when you live so in tune with God that you're guided in ways that are both natural and supernatural. In a world seeking an authentic, transparent, and genuine touch of God, Leon equips us with a Christ-centered, Spirit-empowered, Bible-based,

kingdom prescription. --Samuel Rodriguez, president, National Hispanic Christian Leadership Conference, author of Be Light When 'Spirit' and 'Contemporary' are synergized, phenomenal outcomes will happen in the church...I believe this valuable resource will help the church go to higher levels of impact and influence in the years ahead. -- Dr. Elmer L. Towns, co-Founder of Liberty University "The Spirit Contemporary Life is a grace-based approach to moving in the gifts of the spirit. You will be greatly blessed by it. --Joseph Prince, senior pastor, New Creation Church

Moral Time Donald Black,2011-04-14 Conflict is ubiquitous and inevitable, but people generally dislike it and try to prevent or avoid it as much as possible. So why do clashes of right and wrong occur? And why are some more serious than others? In *Moral Time*, sociologist Donald Black presents a new theory of conflict that provides answers to these and many other questions. The heart of the theory is a completely new concept of social time. Black claims that the root cause of conflict is the movement of social time, including relational, vertical, and cultural time--changes in intimacy, inequality, and diversity. The theory of moral time reveals the causes of conflict in all human relationships, from marital and other close relationships to those between strangers, ethnic groups, and entire societies. Moreover, the theory explains the origins and clash of right and wrong not only in modern societies but across the world and across history, from conflict concerning sexual behavior such as rape, adultery, and homosexuality, to bad manners and dislike in everyday life, theft and other crime,

racism, anti-Semitism, anti-Americanism, witchcraft accusations, warfare, heresy, obscenity, creativity, and insanity. Black concludes by explaining the evolution of conflict and morality across human history, from the tribal to the modern age. He also provides surprising insights into the postmodern emergence of the right to happiness and the expanding rights of humans and non-humans across the world. Moral Time offers an incisive, powerful, and radically new understanding of human conflict--a fundamental and inescapable feature of social life.
