Creators Paul Johnson, 2009-10-13 "Johnson emphasizes the rarity of truly visionary artists . . . his approach is unfailingly generous. . . . Genuinely revealing." —Publishers Weekly From celebrated journalist and historian Paul Johnson, an enlightening look at the imagination and drive of visionaries who have changed our world. Paul Johnson believes that creation is a mysterious business which cannot be satisfactorily analyzed. But it can be illustrated in such a way as to bring out its salient characteristics. In this companion to his New York Times bestseller, *Intellectuals*, he profiles outstanding and prolific creative spirits from a variety of artistic pursuits. Here are essays on such giants as Chaucer and Shakespeare, Mark Twain and T. S. Eliot, Jane Austen and George Eliot; artists such as Dürer, Turner, and the contemporary Japanese master Hokusai; architects Pugin and Viollet-le-Duc; Johann Sebastian Bach; Louis Comfort Tiffany; clothing designers Balenciaga and Dior; and masters of the 20th century, Picasso and Disney.

Chaucer the Alchemist Alexander N. Gabrovsky, 2016-04-08 The secrets of nature's alchemy captivated both the scientific and literary imagination of the Middle Ages. This book explores Chaucer's fascination with earth's mutability. Gabrovsky reveals that his poetry represents a major contribution to a medieval worldview centered on the philosophy of physics, astronomy, alchemy, and logic.

The Alchemist's Children Jon G. Kirschner, 2011-03-15 Man's new tools for the manipulation of genetic codes are pushing us in new directions. The story of two families unfolds as a new human species of infinite variety and strengths is born into

the mid twenty-first century. After a vulnerable attempt at Washington politics, Alex Claiborne, long haunted by a violent and horrifying dream, becomes ensnared in a web of law enforcement and the court system. He and his family finally move to Brussels where his daughter, Laura, becomes involved in genetic research projects supported by the United Nations. Alex eventually uncovers the source of his nightmares with the help of a young psychiatrist. There is a delicate thread linking him to a conspiracy that includes genocide for profit. The Powell family has been part of the Washington elite for generations. Senator Powell and his family share, with his two longtime friends, an empire that extends across government and industry. They wield weapons of war and control genetic information gathered in schools, prisons, and hospitals for a generation. Manipulation of genetic codes and promises of immortality cause these opposing forces to collide, impacting not only their lives, but forcing the human race in unknown directions. It isn't evolution, slow and methodical, but revolution, immediate and profound.

Literature and the Idea of Luxury in Early Modern England Alison V. Scott, 2016-05-06 Exploring the idea of luxury in relation to a series of neighboring but distinct concepts including avarice, excess, licentiousness, indulgence, vitality, abundance, and waste, this study combines intellectual and cultural historical methods to trace discontinuities in luxury's conceptual development in seventeenth-century England. The central argument is that, as 'luxury' was gradually Englished in seventeenth-century culture, it developed political and aesthetic meanings that connect with eighteenth-century debates even as they oppose their so-called demoralizing thrust. Alison Scott closely examines the meanings of luxury in early modern English culture through literary and rhetorical uses of the idea. She argues that, while 'luxury' could and often did denote merely 'lust' or 'licentiousness' as it tends to be glossed by modern editors of contemporary works, its cultural lexicon was in

fact more complex and fluid than that at this time. Moreover, that fuller understanding of its plural and shifting meanings-as they are examined here-has implications for the current intellectual history of the idea in Western thought. The existing narrative of luxury's conceptual development is one of progressive upward transformation, beginning with the rise of economic liberalism amidst eighteenth-century debates; it is one that assumes essential continuity between the medieval treatment of luxury as the sin of 'luxuria' and early modern notions of the idea even as social practises of luxury explode in early seventeenth-century culture.

Themes and Conventions of Elizabethan Tragedy Bradbrook, 2016-08 The first edition of this book formed the basis of the modern approach to Elizabethan poetic drama as a performing art, an approach pursued in subsequent volumes by Professor Bradbrook. Its influence has also extended to other fields; it has been studied by Grigori Kozintsev and Sergei Eisenstein for instance. Conventions of open stage, stylized plot and characters, and actors' traditions of presentation are related to the special expectations which a rhetorical training produced in the listeners. The general discussion of tragic conventions is followed by individual studies of how these were used by Marlowe, Tourneur, Webster and Middleton. For this second edition, Professor Bradbrook has revised her material and written a new introduction. A new final chapter on performance and characterization describes the conventions of role-playing. Dramatists before and after Shakespeare are compared with him in their methods of showing a complex identity on stage. This chapter also considers the work of Marston, Chapman and Ford in relation to the themes and conventions studied in earlier chapters.

Names, Natures and Things Syed Nomanul Haq, 2012-12-06 Jabir ibn Hayyan, for a long time the reigning alchemical authority both in Islam and the Latin West, has exercised numerous generations of scholars. To be sure, it is not only the vexed question of the historical authorship and dating of the grand corpus Jabirianum which poses a serious scholarly challenge; equally challenging is the task of unraveling all those obscure and tantalizing discourses which it contains. This book, which marks the first full-scale study of Jabir ever to be published in the English language, takes up both challenges. The author begins by critically reexamining the historical foundations of the prevalent view that the Jabirian corpus is the work not of an 8th-century individual, but that of several generations of Shi'i authors belonging to the following century and later. Tentatively concluding that this view is problematic, the author, therefore, infers that its methodological implications are also problematic. Thus, developing its own methodological matrix, the book takes up the second challenge, namely that of a substantive analysis and explication of a Jabirian discourse, the Book of Stones. Here explicating Jabir's notions of substance and qualities, analyzing his ontological theory of language and unraveling the metaphysics of his Science of Balance, the author reconstructs the doctrinal context of the Stones and expounds its central theme. He then presents an authoritative critical edition of a substantial selection of the text of the Stones, based on all available manuscripts. This critical edition has been translated in its entirety and is provided with exhaustive commentaries and textual notes -- another pioneering feature of this book: for this is the first English translation of a Jabirian text to emerge in print after a whole century. An outstanding contribution is that it announces and presents an exciting textual discovery: the author has found in the Stones a hitherto unknown Arabic translation of part of Aristotle's Categories. Given that we have so far known of only one other, and possibly later, classical Arabic translation of the Greek text, Haq's discovery gives this book an historical importance.

The Poetics of Reverie Gaston Bachelard, 1971-06-01 In this, his last significant work, an admired French philosopher provides extraordinary meditations on the relations between the imagining consciousness and the world, positing the notion of reverie as its most dynamic point of reference. In his earlier book, *The Poetics of Space*, Bachelard considered several kinds of praiseworthy space conducive to the flow of poetic imagery. In *Poetics of Reverie* he considers the absolute origins of that imagery: language, sexuality, childhood, the Cartesian ego, and the universe. Approaching the psychology of wonder from the phenomenological viewpoint, Bachelard demonstrates the auriferous potential of all that awareness. Thus he distinguishes what is merely a phenomenon of relaxation from the kind of reverie which poetry puts on the right track, the track of expanding consciousness

Introducing Pragmatism Cornelis de Waal, 2021-08-30 This unique introduction fully engages and clearly explains

pragmatism, an approach to knowledge and philosophy that rejects outmoded conceptions of objectivity while avoiding relativism and subjectivism. It follows pragmatism's focus on the process of inquiry rather than on abstract justifications meant to appease the skeptic. According to pragmatists, getting to know the world is a creative human enterprise, wherein we fashion our concepts in terms of how they affect us practically, including in future inquiry. This book fully illuminates that enterprise and the resulting radical rethinking of basic philosophical conceptions like truth, reality, and reason. Author Cornelis de Waal helps the reader recognize, understand, and assess classical and current pragmatist contributions—from Charles S. Peirce to Cornel West—evaluate existing views from a pragmatist angle, formulate pragmatist critiques, and develop a pragmatist viewpoint on a specific issue. The book discusses: Classical pragmatists, including Peirce, James, Dewey, and Addams; Contemporary figures, including Rorty, Putnam, Haack, and West; Connections with other twentieth-century approaches, including phenomenology, critical theory, and logical positivism; Peirce's pragmatic maxim and its relation to James's Will to Believe; Applications to philosophy of law, feminism, and issues of race and racism.
