**Edward Collins Vacek**

**Eros, Agape and Philia** Alan Soble, 1989 The philosophy of love For centuries, popular writers and respected scholars have written about and analyzed the phenomenon of love without exhausting its potential for contemporary debate. By representing the three major traditions in the philosophy of love--Platonic eros, Christian agape, and Aristotelian philia--editor Alan Soble has not only examined the intellectual problem of what love is, but has designed a dialogue among the three traditions in genuine philosophical style. Eros is acquisitive, egocentric or even selfish; agape is a giving love. Eros is an unconstant, unfaithful love, while agape is unwavering and continues to give despite ingratitude. Eros is a love that responds to the merit or value of its object; while agape creates value in its object as a result of loving it... Finally, eros is an ascending love, the human's route to God; agape is a descending love, God's route to humans... Philia is caught between eros and agape.--From the Introduction to Eros, Agape and Philia ISSUES EXPLORED: --What is the state of love today as seen through the eyes of Plato, Aristotle, and Paul? --How do relations between the sexes illustrate the difficulties of love? --What are the nature and effects of exclusivity, reciprocity, and constancy? --What are the conceptual and psychological ties between sex and love? --Does it make any sense to think of love in moral terms?

**The Nature of Love** Thomas Jay Oord, 2010-04-01 God is love. Consequently, shouldn't love exist at the center of Christian theology? When love is at the center, theology is understood differently than it has typically been understood. Some theologians have placed faith at the center, others God's sovereignty, still others the Church, but Dr. Oord places the emphasis on love. God's love for us, revealed in Christ, in the Church, and in creation, and our love for God and others as ourselves--must be afforded its rightful place. Beginning with the foundation of love is what differentiates the Christian faith from others. a loving God. Dr. Oord defines love as: To love is to act intentionally, in sympathetic/empathetic response to God and others, to promote overall well-being. Is this not what has defined Christians throughout history?

**The Insulted and Injured** Fyodor Dostoevsky, 2011-07-07 The Insulted and Injured, which came out in 1861, was Fyodor Dostoevsky's first major work of fiction after his Siberian exile and the first of the long novels that made him famous. Set in nineteenth-century Petersburg, this gripping novel features a vividly drawn set of characters - including Vanya (Dostoevsky's semi-autobiographical hero), Natasha (the woman he loves), and Alyosha (Natasha's aristocratic lover) - all suffering from the cruelly selfish machinations of Alyosha's father, the dark and powerful Prince Valkovsky. Boris Jakim's

fresh English-language rendering of this gem in the Doestoevsky canon is both more colorful and more accurate than any earlier translation. --from back cover.

*The Trinitarian Ethics of Jonathan Edwards* William J. Danaher, 2004-01-01 Examining the theological ethics of Jonathan Edwards, William Danaher Jr. shows that Edwards's doctrine of the Trinity both was foundational to Edwards's thought and is the necessary framework for understanding the theological and moral vision expressed in his writings. This Trinitarian interpretation identifies what distinctive contribution Edwards makes to contemporary Christian ethics, particularly concerning the nature of virtue, the will, sin, evil, and love. The Columbia Series in Reformed Theology represents a joint commitment by Columbia Theological Seminary and Westminster John Knox Press to provide theological resources from the Reformed tradition for the church today. This series examines theological and ethical issues that confront church and society in our own particular time and place.

The Nature of Love, Volume 1 Irving Singer, 2009-02-20 An analysis of concepts of bestowal, appraisal, imagination, and idealization followed by explorations into the writings of thinkers that include Plato, Ovid, and Martin Luther. Irving Singer's trilogy *The Nature of Love* has been called majestic (New York Times Book Review), monumental (Boston Globe), one of the major works of philosophy in our century (Nous), wise and magisterial (Times Literary Supplement), and a masterpiece of critical thinking [that] is a timely, eloquent, and scrupulous account of what, after all, still makes the world go round (Christian Science Monitor). In the first volume, Singer begins by studying love as appraisal and bestowal as well as imagination and idealization. He then examines the contrasting views of Plato, Aristotle, Plotinus, Ovid, Lucretius, Saint Augustine, Saint Thomas Aquinas, and Martin Luther. After having described the nature of erotic idealization, Singer analyzes the religious idealization in Judeo-Christian concepts of eros, philia, nomos, and agape. Medieval Catholicism sought to combine these four ideas of love in the caritas synthesis. Luther repudiated that attempt on the grounds that love exists only in God's agapastic bestowal of unlimited goodness upon humanity and all of nature. In relation to the different modes of theorizing, Singer explores the humanistic implications of each.

Love, Human and Divine Edward Collins Vacek, 1994-04-01 Although the two great commandments to love God and to love our neighbors as ourselves are central to Christianity, few theologians or spiritual writers have undertaken an extensive account of the meaning and forms of these loves. Most accounts, in fact, make love of God and love of self either impossible or immoral. Integrating these two commandments, Edward Vacek, SJ, develops an original account of love as the theological foundation for Christian ethics. Vacek criticizes common understandings of agape, eros, and philia, examining the arguments of Aquinas, Nygren, Outka, Rahner, Scheler, and other theologians and philosophers. He defines love as an emotional, affirmative participation in the beloved's real and ideal goodness, and he extends this definition to the love between God and self. Vacek proposes that the heart of Christian moral life is loving cooperation with God in a mutually perfecting friendship.

**Understanding Religious Ethics** Charles Mathewes, 2010-12-06 This accessible introduction to religious ethics focuses on the major forms of moral reasoning encompassing the three 'Abrahamic' religions: Judaism, Christianity, and Islam. Draws on a range of moral issues, such as examples arising from friendship, marriage, homosexuality, lying, forgiveness and its limits, the death penalty, the environment, warfare, and the meaning of work, career, and vocation Looks at both ethical reasoning and importantly, how that reasoning reveals insights into a religious tradition Investigates the resources available to address common problems confronting Abrahamic faiths, and how each faith explains and defends its moral viewpoints Offering concrete topics for interfaith discussions, this is a timely and insightful introduction to a fast-growing field of interest

**One Layman's Contemporary Theology** Michael S. K. Toh, 2014-07-17 The credential of the author is based upon the fact that he is a trained psychologist, a biologist and a scientist; and has been in management/business fields for many years, having been exposed in all aspects of commerce and finance. He has a Master degree in Industrial Psychology from the University of Sydney, Bachelor of Science degree with a double major in psychology from Australian National University and a major in Biology from RMIT. Was awarded the 'Elizabeth and Martin Summit Prize in Psychology', an annual award given to the most outstanding student in Psychology at Sydney University. He has been teaching in a university for several years and was involved in politics for some time, but voluntarily chose to pursue a different path because of the incompatible sets of values that are required against what he believed in. He has a background of Buddhist and Confucian upbringing and was converted to being a follower of Jesus as a Catholic. However, he had been battling with what the churches taught and his knowledge and understanding in the fields of biology and psychology, new discoveries of physical sciences in which he was trained, against the background of his upbringing in a culture that was homogenous and has survived for more than 5000 years of history and his life experiences in the modern commercial materialistic world culture. He believes in doing Gods

work in whatever circumstances he was placed, to be guided by the principles of what he believed Jesus has taught in establishing a consistent logical framework that is universal and more holistic, the result of which is the writing of this book. One of his greatest gifts is his ability to analyze things logically and he has been a good debater when he was at school. He has thus put all his thoughts down, gathered from his training, life experiences and his wide exposure in the modern world environment to establish an overall consistent logical framework in understanding the meaning of life in the order of things; and the role religion plays in assisting each individuals to achieve the universal objective of a salvation and the conflicts that are generated as a result of different derivatives of history and culture of the world.

*International Handbook of Love* Claude-Hélène Mayer, Elisabeth Vanderheiden, 2021-05-04 This handbook is the winner of the William B. Gudykunst Award for Outstanding Book in 2023, given by the International Academy of Intercultural Research. This handbook includes state-of-the-art research on love in classical, modern and postmodern perspectives. It expands on previous literature and explores topics around love from new cultural, intercultural and transcultural approaches and across disciplines. It provides insights into various love concepts, like romantic love, agape, and eros in their cultural embeddedness, and their changes and developments in specific cultural contexts. It also includes discussions on postmodern aspects with regard to love and love relationships, such as digitalisation, globalisation and the fourth industrial revolution. The handbook covers a vast range of topics in relation to love: aging, health, special needs, sexual preferences, spiritual practice, subcultures, family and other relationships, and so on. The chapters look at love not only in terms of the universal concept and in private, intimate relationships, but apply a broad concept of love which can also, for example, be referred to in postmodern workplaces. This volume is of interest to a wide readership, including researchers, practitioners and students of the social sciences, humanities and behavioural sciences. In the 1970s through the 90s, I was told that globalization was homogenizing cultures into a worldwide monoculture. This volume, as risky and profound as the many adventures of love across our multiplying cultures are, proves otherwise. The authors' revolutionary and courageous work will challenge our sensibilities and expand the boundaries of what we understand what love is. But that's what love does: It communicates what is; offers what can be; and pleads for what must be. I know you'll enjoy this wonderful book as much as I do! Jeffrey Ady,

Associate Professor (retired), Public Administration Program, University of Hawaii at Manoa, Founding Fellow, International Academy for Intercultural Research The International Handbook of Love is far more than a traditional compendium. It is a breath-taking attempt to synthesize our anthropological and sociological knowledge on love. It illuminates topics as diverse as Chinese love, one-night stands, teen romance or love of leaders and many more. This is a definitive reference in the field of love studies. Eva Illouz, author of *The End of Love: A sociology of Negative relationships*. Oxford University Press. "This is not a volume to be read in a single sitting (though I almost did, due to a protracted hospital stay), nor is it romantic or inspirational reading (though, in some cases, I had hoped for more narrative examples and case studies. Rather it is a highly diverse scholarly effort, a massive resource collection of research papers on love in a variety of contexts, personal and professional settings, and cultures. The work is well referenced providing a large number of resources for deeper exploration. .... We owe our thanks to the authors and editors of this "handbook" for work well done, though that word in the title should not lead readers to suspect that, enlightening as it is, this book is a vade mecum or practical tour guide that provides ready solutions to the vicissitudes and challenges of our love lives!" The Sex Texts Arthur L., 2013-09-16 For all intent, virtually all accepted mainstream Catholic Christian tenets remain untouched for the past two millennia. It follows then that we take for evident truths—for example, our views on the Creator and creation's sexuality, gender issues, and human relationship concerns—may in fact be nothing but establishment dogmas gleaned from wrong interpretation or translation of the original text and intent of Jesus Christ and the Bible authors. Now, isn't the mere chance of that being true too scary? *The Sex Texts: Sexuality, Gender, and Relationships in the Bible* by L. Robert Arthur raises just that possibility, despite the strong likelihood of facing stiff criticism from many sectors, mostly of the established Catholic persuasion. Yet those inclined to know the true message of Jesus Christ and his closest disciples may well take heed to scrutinize, at the very least, what Robert is trying to point out in his work. *The Sex Texts: Sexuality, Gender, and Relationships in the Bible* promises to raise a storm, but the public debate it could engender may yet start a new direction for the rest of humanity.
