The American Novel of War Wallis R. Sanborn, III, 2012-10-16 In song, verse, narrative, and dramatic form, war literature has existed for nearly all of recorded history. Accounts of war continue to occupy American bestseller lists and the stacks of American libraries. This innovative work establishes the American novel of war as its own sub-genre within American war literature, creating standards by which such works can be classified and critically and popularly analyzed. Each chapter identifies a defining characteristic, analyzes existing criticism, and explores the characteristic in American war novels of record. Topics include violence, war rhetoric, the death of noncombatants, and terrain as an enemy.

Narratives of War Nanci Adler, Remco Ensel, Michael Wintle, 2019-05-30 Narratives of War considers the way war and battle are remembered and narrated across space and time in Europe in the twentieth century. The book reflects on how narratives are generated and deployed, and on their function as coping mechanisms, means of survival, commemorative gestures, historical records and evidence. The contributions address such issues as the tension and discrepancy between memory and the official chronicling of war, the relationship between various individuals' versions of war narratives and the ways in which events are brought together to serve varied functions for the narrators and their audiences. Drawing upon the two World Wars, the Spanish Civil War and the ex-Yugoslav wars, and considering narrative genres that include film, schoolbooks, novels, oral history, archives, official documents, personal testimony and memoirs, readers are introduced to a range of narrative forms and examples that highlight the complexity of narrative in relation to war. Approached from a multidisciplinary perspective, and taken together, analysis of these narratives contributes to our understanding of the causes, experience, dynamics and consequences of war, making it the ideal book for those interested in twentieth-century war history and the history of memory and narrative.

The Undeclared War between Journalism and Fiction D. Underwood, 2013-09-25 In this volume, Doug Underwood asks whether much of what is now called literary journalism is, in fact, 'literary,' and whether it should rank with the great novels by such journalist-literary figures as Twain, Cather, and Hemingway, who believed that fiction was the better place for a realistic writer to express the important truths of life.

Bestsellers of the Third Reich Christian Adam, 2021-04-01 Despite the displacement of countless authors, frequent

bans of specific titles, and high-profile book burnings, the German book industry boomed during the Nazi period. Notwithstanding the millions of copies of *Mein Kampf* that were sold, the era's most popular books were diverse and often surprising in retrospect, despite an oppressive ideological and cultural climate: Huxley's *Brave New World* was widely read in the 1930s, while Saint-Exupéry's *Wind, Sand and Stars* was a great success during the war years. Bestsellers of the Third Reich surveys this motley collection of books, along with the circumstances of their publication, to provide an innovative new window into the history of Nazi Germany.

Worshipping the Myths of World War II Edward W. Wood, Jr., 2006 Is any war a good war? In *Worshipping the Myths of World War II*, the author takes a critical look at what he sees is America's dedication to war as panacea and as Washington's primary method for leading the world. Articulating why he believes the lessons of World War II are profoundly relevant to today's events, Edward W. Wood, Jr., reflects on such topics as the killing of innocents, which became increasingly accepted during the war; on how actual killing is usually ignored in war discussions and reporting; on the lifetime impact of frontline duty, which he knew firsthand; on the widely accepted concept of the Greatest Generation; on present criteria for judging war memoirs and novels; on the fallacy that the United States won the war largely on its own; and on the effect that the Holocaust had on our national concepts of evil and purity. His final chapter centers on how the war on terror is different from World War II--and why the myths created about the latter hide that reality.

Black Nonfiction Books, Their Authors, and Their Publishers Harry B. Dunbar, 2001-11-06

Travel and Dislocation in Contemporary American Fiction Alikei Varvogli, 2012-03-12 This book offers a critical study and analysis of American fiction at the beginning of the twenty-first century. It focuses on novels that 'go outward' literally and metaphorically, and it concentrates on narratives that take place mainly away from the US's geographical borders. Varvogli draws on current theories of travel globalization and post-national studies, and proposes a dynamic model that will enable scholars to approach contemporary American fiction and assess recent changes and continuities. Concentrating on work by Philip Caputo, Dave Eggers, Norman Rush and Russell Banks, the book proposes that American literature's engagement with Africa has shifted and needs to be approached using new methodologies. Novels by Amy Tan, Garrison Keillor, Jonathan Safran Foer and Dave Eggers are examined in the context of travel and globalization, and works by Chang-rae Lee, Ethan Canin, Dinaw Mengestu and Jhumpa Lahiri are used as examples of the changing face of the American immigrant novel, and the changing meaning of national belonging.

The Oxford Handbook of the Weimar Republic Nadine Rossol, Benjamin Ziemann, 2021-12-20 The Oxford Handbook of the Weimar Republic is a multi-author survey of German history from 1918 to 1933. Covering a broad range of topics in social, political, economic, and cultural history, it presents an overview of current scholarship, and will help students and teachers to make sense of the contradictions and complexities of Germany's experiments with democracy and modern society in this

period. The contributions emphasize the historical openness of Germany's first republic, which was more than just the coming of the Third Reich. The thirty-three chapters, all written by leading experts, contain information and interpretation based on cutting-edge scholarship, and together provides an unsurpassed panorama of the Weimar Republic.

The Cambridge Companion to Australian Literature Elizabeth Webby, 2000-08-21 This book introduces in a lively and succinct way the major writers, literary movements, styles and genres that, at the beginning of a new century, are seen as constituting the field of 'Australian literature'. The book consciously takes a perspective that sees literary works not as aesthetic objects created in isolation by unique individuals, but as cultural products influenced and constrained by the social, political and economic circumstances of their times, as well as by geographical and environmental factors. It covers indigenous texts, colonial writing and reading, poetry, fiction and theatre throughout two centuries, biography and autobiography, and literary criticism in Australia. Other features of the companion are a chronology listing significant historical and literary events, and suggestions for further reading.

The American Popular Novel After World War II David Willbern, 2013-03-29 Through the perspectives of selected best-selling novels from the end of World War II to the end of the 20th century--including *The Catcher in the Rye*, *To Kill a Mockingbird*, *The Godfather*, *Jaws*, *Beloved*, *The Silence of the Lambs*, and *Jurassic Park*--this book examines the crucial issues the U.S. was experiencing during those decades. These novels represent the voices of popular conversations, as Americans considered issues of family, class, racism and sexism, feminism, economic ambition, sexual violence, war, law, religion and science. Through the windows of fiction, the book surveys the Cold War and anti-communism, the prefeminist era of the 1950s and the sexual revolution of the 1970s, forms of corporate power in the 1960s and 1980s, the traumatic legacies of slavery and Vietnam, the American fascination with lawyers, cops and criminals, alternate styles of romance in the era of late capitalism, our abiding distrust of science, and our steadfast wonder about the Great Mysteries.

Death So Noble Jonathan F. Vance, 2011-11-01 This book examines Canada's collective memory of the First World War through the 1920s and 1930s beginning with the Armistice in 1918. This book deals with cultural history more than military history and looks at art, music and literature during World War I. Comparable to Modris Eskteins' *Rites of Spring* and Paul Fussell's *The Great War and Modern Memory*, the author draws on a broad range of sources, published and unpublished, making this book an original contribution to the growing literature dealing with World War I. Thematically organized into such subjects as the symbolism of the soldier, the implications of war memory for Canadian nationalism and the idea of a just war, the book draws on military records, memoirs, war memorials, newspaper reports, fiction, popular songs, and films. In each case Vance draws a distinction between the objective realities of the war and the way that contemporaries remember it. *Death so Noble* takes an unorthodox look at the Canadian war experience. It views the Great War as a cultural and philosophical force rather than as a political and military event. It will be of interest to specialists in First World War history

and literature as well as a general audience.

Remembering the Great War Ian Andrew Isherwood, 2017-02-28 The horrors and tragedies of the First World War produced some of the finest literature of the century: including *Memoirs of an Infantry Officer*; *Goodbye to All That*; the poetry of Wilfred Owen and Edward Thomas; and the novels of Ford Madox Ford. Collectively detailing every campaign and action, together with the emotions and motives of the men on the ground, these 'war books' are the most important set of sources on the Great War that we have. Through looking at the war poems, memoirs and accounts published after the First World War, Ian Andrew Isherwood addresses the key issues of wartime historiography-patriotism, cowardice, publishers and their motives, readers and their motives, masculinity and propaganda. He also analyses the culture, society and politics of the world left behind. *Remembering the Great War* is a valuable, fascinating and stirring addition to our knowledge of the experiences of WWI.

Unbroken: A World War II Story of Survival, Resilience, and Redemption - Behind the Story KD Phillips, 2014-08-05 Laura Hillenbrand tells the one-of-a-kind life story of Louis Zamperini, Olympic athlete, World War II fighter pilot, castaway, and prisoner of war. Thorough research and penetrating insight into the human condition combine to make the narrative non-fiction account come alive. Even the strangest and most unusual events in Zamperini's life become relatable when brought to life by Hillenbrand's pen. *Unbroken* is a story of survival, first on the mean streets of Depression-era Los Angeles, then in the cockpit of a massive B-24 bomber. From a raft cut adrift in the middle of Atlantic Ocean to a Japanese POW camp where there is always too little food and medical supplies, Zamperini's indomitable spirit is always at the heart of the narrative. Learn how he overcame the many challenges in his life and went on to forgive his captors and become a whole person once more. Experience: The Behind the Story Effect After reading a BTS... Visions of War M. Paul Holsinger, Mary Anne Schofield, 1992 For Americans World War II was a good war, a war that was worth fighting. Even as the conflict was underway, a myriad of both fictional and nonfictional books began to appear examining one or another of the raging battles. These essays examine some of the best literature and popular culture of World War II. Many of the studies focus on women, several are about children, and all concern themselves with the ways that the war changed lives. While many of the contributors concern themselves with the United States, there are essays about Great Britain, Canada, France, Germany, Poland, Russia, and Japan.
