Are "unestimated" and/or "non-estimated" correct English? Non-estimated may be syntactically correct but also doesn't really make much sense. If you are referring to a industry specific term then potentially anything can be used despite being outside normal use. **hyphenation - Is the use of a hyphen between "non" and an ...** Except "non" is not an English word, it is a prefix of Latin origin. Which is why American style manuals will always ask you to merge it with the subsequent word, without a hyphen. British rules differ, and the "non-" construction is frequently found in the literature. **Using "non-" to prefix a two-word phrase - English Language** 24 Does "non-" prefixed to a two word phrase permit another hyphen before the second word? If I want to refer to an entity which is defined as the negation of another entity by attaching "non-" it seems strange to attach the "non-" only to the first word when the second one is really the word naming the entity. For example, non-control freak *Is "non-life-threatening" punctuated correctly with two hyphens?* The bound morpheme non is the negator for life-threatening here, so 'life-threatening' is more coherent. This does not come across with nonlife-threatening, which would seem to imply a threat to non-life. Leaving non stranded doesn't work either as it is a bound morpheme, a prefix not a word (in English). I'd use the two hyphens. **No, not, and non - English Language & Usage Stack Exchange** Oct 1, 2015 · At the linguistics conference, there were no / not / non- native speakers of Esperanto. They're all grammatically "valid", but they all mean different things - and pragmatically / idiomatically, only the no version is likely to be used. **prefixes - When is the prefix non- used vs un-? - English ...** Oct 5, 2015 · "Non-" is defined as "a prefix meaning 'not,' freely used as an English formative, usually with a simple negative force as implying mere negation or absence of something (rather than the opposite or reverse of it, as often expressed by un-). Use of the prefix "non-" on compound words [duplicate] Nov 22, 2019 · What is the correct way to apply the prefix "non-" to negate a (maybe dashed) compound adjective? Suppose that we want to negate a generic compound adjective " adjective1 adjective2 ". In this case: "non- adjective1 adjective2 " looks a bit ambiguous since the scope of the prefix "non-" is at least unclear (in fact seems to affect only adjective1). **meaning - Non-repudiable vs non-refutable vs non-reputable in ...** Feb 27, 2015 · There seem to be three terms used by experts in the field: non-repudiable, non-refutable, and non-reputable I'm inclined to think that non-repudiable is the most correct; however, the other two seem to be more commonly used in that context. **What is the difference between "unfeasible" and "infeasible"?** Nov 9, 2014 · Both "unfeasible" and "infeasible" are words according to spell-check, and they appear have

similar dictionary definitions. But what is the difference between the two words? Is one more acceptable ... **"None of us is" vs "None of us are", Which is Correct?** Jul 18, 2018 · That is a good point -- 'not' is an adverb, but when it is morphed onto 'one' in 'none' it no longer affects the verb. You can either choose its plurality to be ambiguous "there is/are none that I like", or you can choose to treat it like 'zero', which is non-singular "there are none that I like" == "there is not one that I like".
