

Origen De La Sociologia Resumen

Pierre Bourdieu

Sociología general Manuel Sales y Ferré, 2005-01-03 En este estudio se presenta la figura histórica de Manuel Sales y Ferré desde una perspectiva socio-histórica. Se explica la configuración cultural de su personalidad y la formulación de un proyecto intelectual y moral en el propio medio histórico-social a partir de su integración en el krausismo como pensador y principal agente moral colectivo del reformismo democrático liberal español. Titular de la primera cátedra de Sociología de la Universidad española, se destaca aquí su contribución a la Sociología y las ciencias sociales desde las posiciones del positivismo crítico y antimetafísico. © Centro de Investigaciones Sociológicas y Boletín Oficial del Estado ISBN: 84-340-1602-8 NIPO (BOE): 007-05-070-7 NIPO (CIS): 004-05-015-1 Depósito legal: M-40756/2005

Fundamentos de Sociología Daniel Camacho, 1991

Curso de sociología general 1 Pierre Bourdieu, 2019-11-20 Este libro comprende la primera parte del curso de sociología general que Pierre Bourdieu dictó en el Collège de France: una serie de clases en las que expone qué es para él la sociología, cuál es su objeto y qué significa ser un sociólogo. Hay que volver, dice Bourdieu, a los conceptos fundamentales, no meramente para hacer divulgación sino para transmitir en qué consiste el trabajo del investigador y hasta qué punto se empobrece o se automatiza si se lo da por sentado. Para eso, hay que desafiar el sentido común que nos dice que el sociólogo estudia las estructuras y los procesos susceptibles de un análisis estadístico independiente de los individuos, o bien que sólo se ocupa de los sujetos concretos y las interacciones observables entre ellos. Lejos de esas simplificaciones, la sociología no es una foto o una película de la realidad. Al contrario, busca describir las cosas invisibles, las relaciones que no se dejan fotografiar, las estructuras ocultas, incorporadas al punto de presentarse como naturales. En un estilo coloquial y amable, valiéndose de referencias empíricas y de comentarios irónicos, y siempre atento a su auditorio, Bourdieu revisa la noción de la sociología como ciencia de las instituciones y -tomando los casos de la Iglesia y el Estado, el sistema escolar y el mundo del arte- analiza las operaciones de nominación y clasificación, los ritos que legitiman lugares y posiciones para determinados agentes sociales (excluyendo a otros). Y se concentra luego en la articulación entre habitus y campo, en las luchas simbólicas, en el conocimiento teórico y el práctico, en las relaciones entre las distintas especies de campo y de capital. De Durkheim a Marx y Weber, de Flaubert a Sartre, de Lévi-Strauss a Hegel, Husserl, Heidegger y Leibniz, Bourdieu piensa el oficio del sociólogo en diálogo con los padres fundadores de la filosofía, la antropología y la historia

contemporáneas.

History of Sociology in Chile Juan Jesús Morales Martín, Justino Gómez de Benito, 2022-09-26 This book provides a comprehensive overview of the rich and diverse tradition of social thought in Chile over the last century. The authors emphasize the close relationship between sociology and society, and address large issues such as the institutionalization of sociology in the face of an open modernization process following WWII, the key role played by Chile in the regionalization and internationalization of sociology and social sciences in Latin America from the late 1950s until the 1973 Coup d'état, and the radicalization of sociology and the boom of dependency theories during that time. The analysis extends to independent academic centers that kept sociological thought, social intervention and the democratic dream alive within an authoritarian context, and the role of academic and professional sociology since the return to democracy, which has been attentive to accompanying and interpreting the development of a changing Chilean society. Framed within the country's cultural, economic, historical, social and political experience, this overview of the debates, dissemination, networks, and educational programs associated with sociology, will be of interest to students and scholars of Latin American studies and historical sociology.

Curso de sociología general 3 y 4 Pierre Bourdieu, 2024-02-28 Cuando ingresa al Collège de France en 1982, Pierre Bourdieu está especialmente interesado en reelaborar sus propios conceptos con vocación de síntesis y divulgación. Por eso, decide dedicar nada menos que cinco años a un curso de sociología general. Si en los primeros cursos se concentra en las nociones de habitus y campo, en el presente volumen, que corresponde a los últimos dos años, pone el foco en el poder, es decir, en los modos en que se distribuyen las diferentes especies de capital -el económico, el cultural- en cada campo del mundo social: el artístico, el científico, el político, el jurídico, el religioso. Quien habla en estas clases es un Bourdieu preocupado por la embestida neoliberal, que se traduce en desempleo masivo y estigmatización creciente de los inmigrantes.

Contra las perspectivas ingenuas que preguntan quién gobierna, dónde están las clases dominantes o las personas poderosas, si el poder viene de arriba o de abajo, Bourdieu nos invita a abandonar las miradas complotistas, las que ven de un lado una manipulación incesante y, del otro, la servidumbre voluntaria, la complicidad o la traición. Si el poder simbólico solo se ejerce con la colaboración de quien lo sufre, hay que reconstruir el sistema de relaciones en que se sostiene y analizar en detalle cómo funcionan el carisma y el consentimiento generalizado. Porque solo hay revolución posible -social, económica, artística- si se ponen en cuestión los puntos de vista dominantes. A partir de ejemplos y citas que administra magistralmente para captar la atención de sus estudiantes, Bourdieu disecciona el mundo social como un lugar de luchas por imponer la visión legítima y correcta, con el capital simbólico como arma privilegiada. Radiografía deslumbrante del fetichismo del poder, este libro culmina una empresa intelectual que sigue siendo inspiración y herramienta para las ciencias sociales.
