How to Live Like You Were Dying- PDF Jay Irvin, 2005-01-01

Trauma Proof Benjamin Perks, 2025-04-22 Lucid, clear, visionary—Bessel van der Kolk, author of *The Body Keeps The Score* An expert's inspiring, deeply personal account of how childhood trauma can be overcome. From the moment they're born, babies seek a loving parental attachment. When that connection is absent, it derails childhood development in ways that can last a lifetime. The annual health costs of illness related to child trauma for North America and Europe alone are 1.3 trillion dollars. Child trauma is much more widespread than previously thought and passes from one generation to the next. But that's not the end of the story—there is overwhelming evidence that this intergenerational transmission can be disrupted. So why isn't the eradication of childhood trauma a tier-one public priority, like defense or growth? In *Trauma Proof*, Benjamin Perks argues that it must be, and that we can tackle it as a public health problem like COVID-19, by 1) Making sure everyone is aware of the risk; 2) Preventing transmission; and 3) Opening pathways to healing. Perks shows we have the tools to make these three things happen, and the evidence to show they work. The fields of psychology, neuroscience, and

medicine have made huge leaps in the past 25 years. We now know what causes Adverse Childhood Experiences (ACEs), how to reduce them, and how to address them. For the first time in history, we know child mistreatment is not inevitable. Combining expert interviews and intensive reportage from Jamaica to Scotland, from Brooklyn to Birmingham, Perks shows the steps we can take to stem the epidemic of childhood trauma. He also shares his personal story of growing up in violent group homes, fathering a child at fifteen and finding his way, in his thirties to healing. Trauma Proof is a rallying call to address child trauma as the public health crisis it is—because we can do better for kids, and we should.

Adoption Unfiltered Sara Easterly, Kelsey Vander Vliet Ranyard, Lori Holden, 2023-12-01 Reveals the candid thoughts and feelings of those most directly involved in adoptions: adoptees, adoptive parents, and birth parents. Adoption Unfiltered authors Sara Easterly (adoptee), Kelsey Vander Vliet Ranyard (birth parent), and Lori Holden (adoptive parent) interview dozens of adoptees, birth parents, adoptive parents, social workers, therapists, and other allies—all sharing candidly about the challenges in adoption. While finding common ground in the sometimes-contentious space of adoption may seem like a lofty goal, it reveals the authors' optimistic aim: working together with truth and transparency to move toward healing. Healing isn't possible, though, without first uncovering the hurts—starting with adoption's central players: adoptees, who are so often in pain, suffering from what the latest brain science validates as the long-term emotional effects of separation trauma. By encouraging others to vulnerably share their stories, the authors discover that adoptees aren't the only ones in the adoption constellation who are hurting. Birth parents regularly shut down after being shut out by adoptive parents. Adoptive parents often struggle with unique parenting challenges and hidden insecurity, feeling the need to hide the fact that they are not the Super Parents they led the agency to believe they would be. Across the industry as a whole, misinformed and even unethical practices abound. Adoption Unfiltered models the importance of adults in adoption working together in the spirit of curiosity and empathy—to better support adoptees and their first and adoptive families.

Sound Pedagogy Colleen Renihan, John Spilker, Trudi Wright, 2024-02-06 Music education today requires an approach rooted in care and kindness that coexists alongside the dismantling of systems that fail to serve our communities in higher education. But, as the essayists in Sound Pedagogy show, the structural aspects of music study in higher education present obstacles to caring and kindness like the entrenched master-student model, a neoliberal individualist and competitive mindset, and classical music's white patriarchal roots. The editors of this volume curate essays that use a broad definition of care pedagogy, one informed by interdisciplinary scholarship and aimed at providing practical strategies for bringing transformative learning and engaged pedagogies to music classrooms. The contributors draw from personal experience to

address issues including radical kindness through universal design; listening to non-human musicality; public musicology as a forum for social justice discourse; and radical approaches to teaching about race through music. Contributors: Molly M. Breckling, William A. Everett, Kate Galloway, Sara Haefeli, Eric Hung, Stephanie Jensen-Moulton, Mark Katz, Nathan A. Langfitt, Matteo Magarotto, Mary Natvig, Frederick A. Peterbark, Laura Moore Pruett, Colleen Renihan, Amanda Christina Soto, John Spilker, Reba A. Wissner, and Trudi Wright

Take Back the Game Linda Flanagan, 2022-08-23 A really brilliant book — Malcolm Gladwell Longlisted for the Porchlight Business Book Awards 2022 A close look at how big money and high stakes have transformed youth sports, turning once healthy, fun activities for kids into all-consuming endeavors—putting stress on children and families alike Some 75% of American families want their kids to play sports. Athletics are training grounds for character, friendship, and connection; at their best, sports insulate kids from hardship and prepare them for adult life. But youth sports have changed so dramatically over the last 25 years that they no longer deliver the healthy outcomes everyone wants. Instead, unbeknownst to most parents, kids who play competitive organized sports are more likely to burn out or suffer from overuse injuries than to develop their characters or build healthy habits. What happened to kids' sports? And how can we make them fun again? In *Take Back the Game*, coach and journalist Linda Flanagan reveals how the youth sports industry capitalizes on parents' worry about their kids' futures, selling the idea that more competitive play is essential in the feeding frenzy over access to colleges and universities. Drawing on her experience as a coach and a parent, along with research and expert analysis, Flanagan delves into a national obsession that has: Compelled kids to specialize year-round in one sport. Increased the risk of both physical injury and mental health problems. Encouraged egregious behavior by coaches and parents. Reduced access to sports for low-income families. A provocative and timely entrant into a conversation thousands of parents are having on the sidelines, *Take Back the Game* uncovers how youth sports became a serious business, the consequences of raising the stakes for kids and parents alike--and the changes we need now.
