Atatürk on Screen Enis Dinç, 2020-04-16 Mustafa Kemal Atatürk was not widely known when he led the national resistance movement in Anatolia in 1919. However, the effort and attention that his government devoted to the creation of his public image gradually turned him into a superhuman figure in the eyes of many. Film played a crucial role in the creation and dissemination of this image and helped Atatürk to advance his project of building a new “imagined community” of the Turkish nation. But despite the impact of film and film-making on the political and cultural life of Early Republican Turkey, there is almost no research that has analysed this footage. *Atatürk on Screen* uncovers various film archives to reveal the significant, albeit paradoxical, role of film during this period. Enis Dinç shows that while film-making was crucial for the creation of Atatürk's public image and the presentation of Turkey's new modern image to the world, it also posed risks as it could be re-used, re-edited and re-framed for the purposes of counter-propaganda. The main analysis in the book is of the film footage itself, including rare contemporary cinematic sources which have never received comprehensive analysis before.

The book also makes use of other primary sources such as letters, memoirs, newspapers, reports, newsletters and production files, providing readers with a multi-layered account of the period.

Performing Modernity Enis Dinç, 2016 When Mustafa Kemal Atatürk, the founding father of the Turkish Republic, took the lead in the national resistance movement in Anatolia in 1919, he was far from being a household name. Nevertheless, the effort and attention that his government devoted to the creation of his public image gradually turned him into a superhuman figure in the eyes of many. The mass media played an important role in the creation and dissemination of this image, and helped Atatürk to advance his project of building a new “imagined community” of the Turkish nation. Based on extensive research in Turkish and foreign archives, this dissertation explores the relations between media and power, and more specifically the role of film in the making of the myth of Atatürk and the modern Turkish nation-state in the early twentieth century. It shows that film played an important, if sometimes paradoxical role in making Atatürk and Turkey’s new “modern” image visible on both the national and the international stage. By placing newly discovered footage featuring Atatürk in a series of contexts, this study demonstrates this footage did not merely record history but assisted in the shaping of it. Finally, it suggests that the making of the leader’s image in cinema not only influenced his contemporaries when he was alive, but continued to have an effect long after his death, determining how later generations have continued to imagine Atatürk as a hero, teacher, father and modern statesman.

Preserving its mixed heritage, coming from both its geographic position rising above the ashes of the Byzantine Empire and the tradition inherited from the Muslim Conquests, the Ottoman Empire lasted more than six centuries. Its soldiers fought, died, and conquered lands on three different continents, making it one of the few stable multi-ethnic empires in history, and likely one of the last. Thus, it's

somewhat inevitable that the history of its decline is at the heart of complex geopolitical disputes, as well as sectarian tensions that are still key to understanding the Middle East, North Africa and the Balkans. Despite it all, the Ottoman Empire would survive for over 200 more years, and in the last century of its life it strove to reform its military, administration and economy until it was finally dissolved. Years before the final collapse of the Empire, the Tanzimat (Reorganization), a period of swiping reforms, led to significant changes in the country's military apparatus, among others, which certainly explains the initial success the Ottoman Empire was able to achieve against its rivals. Similarly, the drafting of a new Constitution (Kanûn-u Esâsî, basic law) in 1876, despite it being shot down by Sultan Abdul Hamid II just two years later, as well as its revival by the Young Turks movement in 1908, highlights the understanding among Ottoman elites that change was needed, and their belief that such change was possible. The fall of the Ottoman Empire set the political and geostrategic scene of the new Middle East. In 1920, two years after the end of the war, the region was already experiencing growing instability. The issues and trends that would plague the region until today were growing. On April 4, Arab riots broke out in Jerusalem, fueled by the growing hostility against the Zionist movement. The British passivity would convince one of the Jewish leaders, Vladimir Jabotinsky (the future founder of the Israeli right-wing), of the strategic necessity of a strong Jewish military as the core of the future state. Just two weeks later in Turkey, the Grand National Assembly in Ankara set the foundation of the Turkish state, opening the way for several years of reforms. In Iraq, a Shiite revolt broke out in the south, as locals demanded the creation of an Islamic state. The British compromise was to place Faisal, the son of Sharif Hussein and a Sunni, on the throne. His father, meanwhile, was embroiled in a conflict with a local tribe, the Ibn Saud, that sought to carve a new kingdom in the Arabian Peninsula. More broadly, the long decline of the sick man of Europe fostered the emergence of nationalistic and ideological movements that are still key to any understanding of the Middle East today. The compatibility between the Islamic religion and culture and Western reforms were first discussed within the Ottoman Empire, and they are still up for debate today. Abdul Hamid's pan-Islamism, while its results at the time remain limited, still resonates within the Muslim world and can still be seen as a viable rival to the region's various nationalistic aspirations. This book examines how the empire collapsed and was replaced by modern Turkey. Along with pictures of important people and events, you will learn about Atatürk and the founding of Turkey like never before.
